Statement by management on the annual report

The Board of directors and Executive board have today discussed and approved the annual report of Agrovakia A/S for the financial year 1 January - 31 December 2023.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and parent financial statements give a true and fair view of the company and the group financial position at 31 December 2023 and of the results of the group and the company operations and consolidated cash flows for the financial year 1 January - 31 December 2023.

In our opinion, management's review includes a fair review of the matters dealt with in the management's review.

Management recommends that the annual report should be approved by the company at the general meeting.

Independent auditor's report

To the Shareholders of Agrovakia A/S

Opinion

We have audited the consolidated financial statements and the parent company financial statements of Agrovakia A/S for the financial year 1 January - 31 December 2023, which comprise income statement, balance sheet, statement of changes in equity and notes, including summary of significant accounting policies, for both the group and the parent company as well as consolidated cash flow statement. The consolidated financial statements and the parent company financial statements are prepared under the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the group and the parent company's financial position at 31 December 2023 and of the results of the group and the parent company's operations and consolidated cash flows for the financial year 1 January - 31 December 2023 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and parent company" section of our report. We are independent of the group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the consolidated financial statements and the financial statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements, that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements and the parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and parent company financial statements, management is responsible for assessing the group's and the parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the consolidated financial statements and parent company financial statements unless management either intends to liquidate the group or the company or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's responsibilities for the audit of the consolidated financial statements and parent company financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and parent company financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's and the parent company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparing the consolidated financial statements and parent company financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the group's and the parent company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group and the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the consolidated financial statements and parent company financial statements, including the disclosures, and whether the consolidated financial statements and parent company financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

Independent auditor's report

- Obtain sufficient and appropriate audit evidence regarding the financial information for the group's entities or business activities to express an opinion on the consolidated financial statements. We are responsible for directing, supervising and conducting the audit of the group. We alone are responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on management's review

Management is responsible for management's review.

Our opinion on the consolidated financial statements and parent company financial statements does not cover management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and parent company financial statements, our responsibility is to read management's review and, in doing so, consider whether management's review is materially inconsistent with the consolidated financial statements and parent company financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that management's review is in accordance with the consolidated financial statements and parent company financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of management's review.

The financial ratios are calculated in accordance with the Danish Finance Society's recommendations and guidelines. For definitions, see the summary of significant accounting policies.

Management's review

Business review

The group's primary activities are plant, pig and egg production within Slovakian subsidiaries.

The parent company's primary activities are to exercise active ownership in affiliated companies and to provide consultancy services to its subsidiaries.

Financial review

The group's income statement for the year ended 31 December 2023 shows a profit of TDKK 71,728, and the balance sheet at 31 December 2023 shows equity of TDKK 679,916.

Animal production outputs in pieces were in line with expectations. Plant production especially the winter crops performed very nice, some spring crops in sandy regions performed under expectations as summer was dry. Like previous years, the group did not purchase externally any significant volumes to fulfil own feed grain needs and gradually building back sufficient carry-overs.

Pig prices and sales stabilizes within EU, slaughtering dropped over 7,5% over the year (in Slovakia it was -10,5% over the year). The spread of African Swine Fever continued within the EU as well as in Slovakia. German marked started off at 2,00€/kg, topped at 2,50€/kg, year ended at 2,10€/kg.

Crop prices showed volatility over the year.

Egg prices sustained at stabile levels throughout the year.

Remaining non-core activities (mainly quarry) performed in line with overall expectations. The group started sale of minor plot for construction residential/commercial purposes in close vicinity to Bratislava.

Large part of costs was lower than expected, especially energy costs declined substantially.

Group pre-tax profit of DKK 92.2 million were above expectations and considered acceptable.

Currency risk

The group trades mainly in EUR, however as parts of goods are exported and thus to some extend are connected with surrounding countries, currency is mainly within V4.

Interest is mainly based on EURIBOR and CIBOR

Significant events occurring after the end of the financial year

No events have occurred after the balance sheet date which could significantly affect the the group's financial position.

Management's review

Outlook 2024

We continue taking required measurements towards African Swine Fever (ASF), keeping our biosecurity measurements in place. Plans are to increase the output on the pig finishing side also within regions having EU/ASF zoning regulations. We expect less volatility in pig prices throughout 2024.

Egg production output is planned in line with previous years.

Plant production planned yields and acreage following 2023.

As world prices on various raw materials cooled down during 2023, we expect main feed materials to stabilize around current level. As previous years, main volume of grains for feed is secured through own plant production. Grains are a significant part of feed composition, however not the only one.

Group investments are planned higher than previous year and are mainly related to pig/plant/feed facilities.

Other activities, mainly quarry, are expected to be in line with 2023.

Result for 2024 is expected at level DKK 60-85 million.

Accounting policies

The annual report of Agrovakia A/S for 2023 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class C.

The accounting policies applied are consistent with those of last year.

The annual report for 2023 is presented in TDKK.

Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the group and the parent company and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the group and the parent company and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any installments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report is presented and which confirm or invalidate matters existing at the balance sheet date.

Consolidated financial statements

The consolidated financial statements comprise the parent company and subsidiaries in which the parent company, directly or indirectly, holds more than 50% of the voting rights or otherwise has a controlling interest. Entities in which the group holds between 20% and 50% of the voting rights and over which it exercises significant influence, but which it does not control, are considered participating interests, cf. the group chart.

The consolidated financial statements are prepared as a consolidation of the parent company's and subsidiaries' financial statements by aggregating uniform accounting items. On consolidation, intra-group income and expenses, holdings of shares, intra-group balances and dividends as well as realised and unrealised gains and losses on intra-group transactions are eliminated.

Investments in subsidiaries are set off against the proportionate share of the subsidiaries' fair value of net assets and liabilities at the acquisition date.

Accounting policies

Entities acquired or formed during the year are recognised in the consolidated financial statements from the date at which control is obtained. Entities sold during the year are recognised in the consolidated income statement until the date of disposal. Comparative figures are not restated for acquisitions or disposals.

Investments in participating interests are measured in the balance sheet at the proportionate share of the net asset value of the participating interests based on the parent company's accounting policies and proportionate elimination of unrealised intra-group gains and losses. The proportionate share of participating interests' profit/loss, after elimination of the proportionate share of intra-group gains and losses, is recognised in the income statement.

Minority interests

In the consolidated financial statements, the items of subsidiaries are recognised in full. The minority interests' proportionate share of subsidiaries' profit/loss and equity is presented separately under appropriation of profit and in a main item under equity.

Income statement

Gross profit

In pursuance of section 32 of the Danish Financial Statements Act, the company does not disclose its revenue.

Gross profit reflects an aggregation of revenue and other operating income less costs of raw materials and consumables and other external expenses.

Revenue

Income from the sale of goods for resale and finished goods comprising agricultural products is recognised in the income statement, provided that the transfer of risk, usually on delivery to the buyer, has taken place and that the income can be measured reliably and is expected to be received.

Income from services is recognised on a straight-line basis as the services are provided, implying that revenue corresponds to the selling price of services provided in the year (percentage-of-completion method).

Revenue is measured at fair value of the agreed consideration excluding VAT and taxes charged on behalf of third parties. Revenue is net of all types of discounts granted.

Raw materials and consumables

Costs of raw materials and consumables include the raw materials and consumables used in generating the year's revenue.

Other operating income and expenses

Other operating income and expenses comprise items of a secondary nature relative to the company's activities, including gains and loss on the sale of intangible assets and property, plant and equipment.

Accounting policies

Other external expenses

Other external expenses include expenses related to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

Staff costs

Staff costs include wages and salaries, including compensated absence and pensions, as well as other social security contributions, etc. made to the entity's employees.

Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise the year's amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts that relate to the financial year. Net financials include interest income and expenses, financial expenses relating to finance leases, realised and unrealised exchange gains and losses on foreign currency transactions, etc.

Income from investments in subsidiaries and participating interests

The proportionate share of the profit/loss for the year of subsidiaries is recognised in the parent company's income statement after full elimination of intra-group profits/losses.

The proportionate share of the profit/loss for the year of participating interests is recognised in both the consolidated and the parent company's income statement after elimination of the proportionate share of intra-group profits/gains.

Tax on profit/loss for the year

Tax for the year, which comprises the current tax charge for the year and changes in the deferred tax charge, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

Balance sheet

Intangible fixed assets

Goodwill

Acquisitions of entities are accounted for using the purchase method, according to which the acquirees' identifiable assets and liabilities are measured at fair value at the date of acquisition. Provision is made for expenses to adopted and announced plans to restructure the acquired entity in connection with the acquisition. Allowance is made for the tax effect of revaluations made.

Any excess of the cost over the fair value of the identifiable assets and liabilities acquired (goodwill), including restructuring provisions, is recognised as intangible assets and amortised on a systematic basis in the income statement based on an individual assessment of the useful life of the asset. Goodwill arising on acquisition can be restated until the end of the year after the acquisition.

Accounting policies

Acquired goodwill is measured at cost less accumulated amortisation and impairment losses.

Goodwill is amortised over the expected economic life of the asset, measured by reference to management's experience in the individual business segments. Goodwill is amortised on a straight-line basis over the amortisation period, which is 5 years. The amortisation period is based on the assessment that the entities in question are strategically acquired entities with a strong market position and a long-term earnings profile. Badwill is recognized in the income statement.

Acquired intangible fixed assets

Acquired intangible assets are measured at cost less accumulated amortisation and impairment losses. These assets are amortised on a straight-line basis over the amortisation period, which is 5 years.

Tangible fixed assets

Land and buildings, items of plant and machinery and fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment losses.

The depreciable amount is cost less the expected residual value at the end of the useful life. Land is not depreciated.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date when the asset is available for use. The cost of self-constructed assets comprises direct and indirect costs of materials, components, sub-suppliers and wages.

Straight-line depreciation is provided on the basis of the following estimated useful lives and residual values of the assets:

	Useful life	Residual value
Buildings	50 years	50 %
Other fixtures and fittings, tools and equipment	8-15 years	0-10 %

The useful life and residual value are reassessed annually. A change is accounted for as an accounting estimate, and the impact on amortisation/depreciation is recognised going forward.

Land and buildings are revalued at fair value. Revaluations and reversals thereof less deferred tax are recognised directly in equity. The fair value is determined on the basis of an external assessment which is based on discounted expected future cash flows.

Biological assets are measured at fair value. Revaluations are recognised directly in the income statement. The fair value is determined on the basis of market exchange prices.

Accounting policies

Leases

All leases are operating leases. Payments relating to operating leases and any other leases are recognised in the income statement over the term of the lease. The company's total liabilities relating to operating leases and other rent agreements are disclosed under 'Contingencies, etc.'

Investments in subsidiaries and participating interests

Investments in subsidiaries and participating interests are measured at the proportionate share of the net asset value of the entities, calculated on the basis of the group's accounting policies, plus or less unrealised intra-group gains or losses and plus or less any remaining value of positive or negative goodwill stated according to the purchase method. Negative goodwill is recognised in the income statement on acquisition.

Investments in subsidiaries and participating interests are measured in the parent company financial statements using the equity method.

Investments in subsidiaries and participating interests with a negative net asset value are measured at DKK 0, and the carrying amount of any receivables from these entities is reduced to the extent that they are considered irrecoverable. If the parent company has a legal or constructive obligation to cover a deficit that exceeds the receivable, the balance is recognised under provisions.

Net revaluations of investments in subsidiaries and participating interests are taken to the net revaluation reserve according to the equity method in so far as that the carrying amount exceeds the cost. Dividends from subsidiaries which are expected to be declared before the annual report of Agrovakia A/S is adopted are not taken to the net revaluation reserve.

Acquirees are accounted for using the purchase method, see the above description of consolidated financial statements and calculation of goodwill.

Other securities and investments, fixed assets

Securities and other investments are measured at cost.

Impairment of fixed assets

The carrying amount of intangible assets, items of property, plant and equipment and investments in subsidiaries and participating interests is tested annually for impairment, other than what is reflected through normal amortisation and depreciation.

Where there is evidence of impairment, an impairment test is performed for each individual asset or group of assets. Write-down is made to the lower of the recoverable amount and the carrying amount.

The recoverable amount is the higher of the net present value and the value in use less expected costs to sell. The net present value is determined as the present value of the anticipated net cash flows from the use of the asset or group of assets and the anticipated net cash flows from the disposal of the asset or group of assets after the end of their useful life.

Accounting policies

Inventories

Inventories are measured at cost using the FIFO method. Where the net realisable value is lower than the cost, inventories are recognised at this lower value.

The cost of goods for resale, raw materials and consumables comprises the purchase price plus delivery costs.

The cost of finished goods and work in progress includes the cost of raw materials, consumables, direct cost of labour and production/production overheads.

Production overheads include the indirect cost of materials, wages and salaries as well as maintenance and depreciation of production machinery, buildings and equipment and expenses relating to plant administration and management. Borrowing costs are not recognised in the cost.

The net realisable value of inventories is calculated as the selling price less costs of completion and expenses incurred to effect the sale. The net realisable value is determined taking into account marketability, obsolescence and expected selling price movements.

Crops and trading livestock are measured at fair value. Revaluations are recognised directly in the income statement. The fair value is determined on the basis of market exchange prices.

Receivables

Receivables are measured at amortised cost.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable is impaired, an impairment loss for that individual asset is recognised.

Impairment losses are calculated as the difference between the carrying amount of the receivables and the present value of the expected cash flows, including the realisable value of any collateral received, using the effective interest rate of individual receivables or portfolios of receivables as discount rate.

Prepayments

Prepayments recognised under 'Current assets' comprise expenses incurred concerning subsequent financial years.

Cash and cash equivalents

Cash and cash equivalents comprise cash and bank deposit.

Equity

Reserve for net revaluation according to the equity method

The reserve for net revaluation according to the equity method in the company's financial statements comprises net revaluation of investments in subsidiaries and participating interests relative to the cost.

Accounting policies

Dividends

Proposed dividends are disclosed as a separate item under equity. Dividends are recognised as a liability when declared by the annual general meeting of shareholders.

Provisions

Provisions are recognised when, as a result of a past event, the group has a legal or constructive obligation and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Provisions - except for provisions for deferred tax - are measured at net asset value.

Income tax and deferred tax

Current tax liabilities and current tax receivables are recognised in the balance sheet as the estimated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and tax paid on account.

Deferred tax is measured according to the liability method in respect of temporary differences between the carrying amount of assets and liabilities and their tax base, calculated on the basis of the planned use of the asset and settlement of the liability, respectively. Deferred tax is measured at net realisable value.

Liabilities

Financial liabilities are recognised on the raising of the loan at the proceeds received net of transaction costs incurred. On subsequent recognition, the financial liabilities are measured at amortised cost, corresponding to the capitalised value, using the effective interest method. Accordingly, the difference between the net proceeds and the nominal value is recognised in the income statement over the term of the loan.

Mortgage debt is thus measured at amortised cost, which for cash loans corresponds to the outstanding debt.

Other liabilities are measured at amortised cost, which is usually equivalent to nominal value.

Deferred income

Deferred income recognised under 'Current liabilities' comprises payments received concerning income in subsequent financial years, including received subventions.

Fair value

The fair value assessment is based on the primary market. If a primary market does not exist, the most favourable market will serve as the basis for this which is the market that maximises the price of the asset or the liability less transaction and/or transport costs.

Accounting policies

All assets and liabilities measured at fair value or where the fair value is disclosed is categorised according to the fair value hierarchy described below:

Level 1: Value determined based on the fair value of similar assets/liabilities on a well-functioning market.

Level 2: Value determined based on accepted valuation methods based on observable market information.

Level 3: Value determined based on accepted valuation methods and fair assessments made based on unobservable market information.

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statement as financial income or financial expenses. If foreign currency instruments are considered cash flow hedges, any unrealised value adjustments are taken directly to a fair value reserve under 'Equity'.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Fixed assets acquired in foreign currencies are translated at the exchange rate at the transaction date.

Foreign subsidiaries and participating interests are considered separate entities. The income statements are translated at the average exchange rates for the month, and the balance sheet items are translated at the exchange rates at the balance sheet date. Foreign exchange differences arising on translation of such entities opening equity at closing rate and on translation of the income statements from the exchange rates at the transaction date to closing rate are taken directly to equity in the consolidated financial statements.

Accounting policies

Cash flow statement

The cash flow statement shows the group's cash flows for the year, broken down under cash flows from operating, investing and financing activities, the year's changes in cash and cash equivalents and the group's cash and cash equivalents at the beginning and at the end of the year.

The cash flow effect of additions and disposals of entities is shown separately under cash flows from investing activities. The cash flow statement includes cash flows from acquired entities from the time of acquisition, and cash flows from sold entities are included until the date of sale.

Cash flows from operating activities

Cash flows from operating activities are stated as the group's profit or loss for the year, adjusted for non-cash operating items, changes in working capital and paid income taxes.

Cash flows from investing activities

Cash flows from investing activities comprise payments related to the acquisition and sale of entities and activities as well as intangible assets, property, plant and equipment and investments.

Cash flows from financing activities

Cash flows from financing activities comprise changes in the size or composition of the group's share capital and related costs, as well as the raising of loans, repayment of interest-bearing debt and payment of dividends to shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand and short-term overdraft facilities.

Notes to the annual report

16 Deferred income

Deferred income consists of payments received in respect of income in subsequent financial years, primarily received investment grants.

17 Contingent liabilities

Group

The group has received various investment grants in Slovakia recognized as accruals and deferred income under liabilities. The payments are conditional on the completion of a number of projects in Slovakia. The obligation related to each grant expires after a period of 5 years. Investment grants recognized in the balance sheet at 31 December 2023 amount to TDKK 22,293.

The group has taken several leases on land. The lease contracts are valid for periods from 5-15 years and the expected yearly rent on current contracts is TDKK 4,901.

18 Mortgages and collateral

Group

Land and buildings at a carrying amount of TDKK 159,115 and machinery at a carrying amount of TDKK 6,022 at 31 December 2023 have been provided as security for bank loans and bank overdraft.

Parent company

As security for the company's bank loan, there is transport in receivables from some subsidiaries, TDKK 26,258, and provided security in the company's shares in same subsidiaries with a value of TDKK 707,060 at 31 December 2023.

19 Related parties and ownership structure

Transactions

The company has chosen only to disclose transactions which have not been conducted on an arm's length basis in accordance with section 98c(7) of The Danish Financial Statements Act.

Ownership structure

The following shareholder are registered in the company's register of shareholders, whereas no one holds a controlling interest:

Ålkær Invest ApS, Vojens
In2Agriculture ApS, Middelfart
Tokløveret Holding ApS, Vejen
Kølhede Invest A/S, Bøvlingbjerg
Kiersminde ApS, Haderslev
Stenagergaard Invest II ApS, Gelsted
