## Statement by the Board of Directors and the Executive Board

Today, the Board of Directors and the Executive Board have discussed and approved the annual report of Bindeballe Holding A/S for the financial year 1 October 2021 - 30 September 2022.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Company at 30 September 2022 and of the results of the Group's and the Company's operations and of the consolidated cash flows for the financial year 1 October 2021 - 30 September 2022.

Further, in our opinion, the Management's review gives a fair review of the development in the Group's and the Company's operations and financial matters and the results of the Group's and the Company's operations and financial position.

We recommend that the annual report be approved at the annual general meeting.

Kolding, 13 December 2022

## Independent auditor's report

To the shareholders of Bindeballe Holding A/S

### Opinion

We have audited the consolidated financial statements and the parent company financial statements of Bindeballe Holding A/S for the financial year 1 October 2021 - 30 September 2022, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies, for the Group and the Parent Company, and a consolidated cash flow statement. The consolidated financial statements and the parent company financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 30 September 2022, and of the results of the Group's and Parent Company's operations as well as the consolidated cash flows for the financial year 1 October 2021 - 30 September 2022 in accordance with the Danish Financial Statements Act.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent Company financial statements" (hereinafter collectively referred to as "the financial statements") section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

### Management's responsibilities for the financial statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

## Independent auditor's report

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

## Management's review

### Business review

#### *Principal activity*

Bindeballe Holding A/S' activities consist of ownership of a number of companies, other investments and financing activities. Most dominant company in group is Beirholms Væverier A/S that counts for more than 80% of the consolidated group revenue.

#### *Beirholms Væverier A/S*

Beirholms Væverier A/S is engaged in product development and marketing of industrial textiles for the textile service industry, whose end customers are hotels, restaurants, hospitals, nursing homes and cruise liners, primarily in Europe. We deliver the most profitable, viable and sustainable solutions on the market for industrial textiles.

#### *Créadore A/S*

The company Créadore A/S is established in collaboration with our Pakistani main supplier Sapphire Textile Mills Lts. with the goal of becoming a leading, global player in the supply of textiles to the global hotel market. Créadore A/S is a knowledge-intensive organization that builds its own unique competencies, based on the respective competencies of the two owner companies.

#### *Beirholms Væverier AS, Norge*

The Norwegian company serves the textile service industry on the Norwegian market.

#### *Finansieringsselskabet Beirholm ApS*

The company is responsible for financing assets for other group companies.

#### *Ejendomssekskabet Beirholms Væverier A/S*

Primary activity is ownership and rental of domicile property.

#### *Beirholm Group A/S*

The company acts exclusively as a holding company for the above companies.

#### *Bindeballe Capital Invest ApS*

The company is responsible for investment in real estate, agricultural land and forestry, etc.

### Financial review

#### *Development in activities and financial matters*

We have a growth strategy which is primarily focused on the European markets, whose overall market is expected to grow due to the increase in the leasing level.

The pandemic still influences our end-customer markets. Conference hotels, for instance, are still not operating at pre-pandemic levels. Inflation is high and further amplified through the war in Ukraine. Supply chain disruptions - in particular on the air- and seafreight markets - still pose a challenge. The greatest commercial risk, however, is the possible lack of energy supply to the industry. To navigate in these times of extreme uncertainty:

- We continue promoting our BeirTex® performance textiles. BeirTex® textiles have the potential to increase laundry output per machine/man-hour while reducing energy costs in the laundry
- We seek to diversify our revenues across customer segments, end-customer markets (e.g. Healthcare) etc.
- We continue investing in and digitizing our business processes and products to reduce future costs and offer our customers smarter solutions
- We rest assured that we can navigate another possible storm on the market given our experience from the lockdown periods during the pandemic

## Management's review

### *Cooperative ways of working with customers*

The Company continues the further development of new future proof cooperative ways of working with customers in a more transparent world. These cooperative ways of working include customer access to our competences within product development, product performance, design, sourcing, sustainability, and CSR. This model has proven its strength, as we can see that customers who leverage this way of working increase their profitability and win marketshare.

### *Award - a Deloitte Best Managed Company winner 2022*

The "Beirholm Group" is again amongst the 16 Danish winners of Best Managed Companies 2022 - a global development process initiated by Deloitte. It is with great pride that we receive this prestigious award, which pays tribute to Denmark's best managed companies. Companies that show strategic craftsmanship accompanied by a solid ability to execute and create great results.

The winners are nominated by an independent jury, which particularly highlights Beirholm's ability to understand the company's own strengths and be aware of its significant role in the value creation network as well as the value the organisation creates. The jury also highlights Beirholm's corporate culture, which is driven by a strong team spirit and unity, which in turn creates a breeding ground for talent development.

### *Financial performance*

The year has been a very strong year where all financial predictions and budgets were totally outperformed. Standing at the beginning of the year after two years with COVID-19 closing down we considered a budgeted activity increase of 36% as very ambitious. However, the markets have rebounded with a much faster pace and strength than anticipated, ending out with increased sales from 223,7 mDKK to 489,3 mDKK (+119%). Many factors have driven the change, however main contributors have been:

- ▶ The year has been influenced by larger project orders that were set on hold due to COVID-19 but now have been released.
- ▶ Apart from conference hotels, the hotel markets gradually turned back towards normal, though negatively influenced by challenges at hotels and laundries to attract employees after COVID-19 close down
- ▶ Lack of employees at hotels and laundries especially in Germany has driven a general need for more textiles to make their businesses running, but also speaks clearly into our product range of high performing and energy efficient textiles.
- ▶ Our most important German market opened during spring 2022 and therefore gave birth for a second half year that significantly changed the picture.
- ▶ Due to great uncertainty about transport time on sea freight, we decided to increase our European stock level to meet our customers' increasing demand for textiles.
- ▶ During the year we have invested in more people to adapt to the higher activity level, but also to prepare for and embrace future demands.

Financially it has been a very strong year - in fact the best year ever. Therefore, we consider the result to be very satisfactory. The good result has been driven by a combination of greatly increased sales, but also rising costs, especially related to more hired people. However full-year effect from rising cost have not been reflected in the 2021/22-result.

The backside of increased activity is more cash tied up in stocks and receivables (working capital). However, the group is financially strong and has access to sufficient credit facilities to meet the future.

## Management's review

### *Outlook*

Currently, the markets are still suffering due to the COVID-19 pandemic. Hotel occupation rates have yet to fully recover; laundries, however, are working at full capacity. Most of them have also been able to pass on the rising costs. As a result, the Group has experienced a strong year. Looking ahead, the greatest commercial risk, however, is whether our demand markets are able to secure the necessary supply of energy to keep operating.

Despite the great uncertainty, our sales budget reflects a certain level of optimism. We believe that we are positioned well to take advantage of the current market situation - in particular due to our BeirTex® performance textiles. We are also confident that our current strategy is well-balanced with respect to short-, medium- and long term priorities and that we are able to adapt if the situation change for the worse.

Budget for the coming year 2022/23 was prepared during summer 2022 and shows expected sales in the level of 480 mDKK - a slight decrease from realized numbers for 2021/22. The budget has been prepared in a period with high uncertainty regarding potential negative impact from the war in Ukraine, energy supplies (especially gas in Germany), high inflation, increasing interest rates and potentially new variances of COVID. A big bowl of uncertainty that contains elements that individually has the potential to influence or hit our sales severely.

Given the difficult circumstances we expect a relatively broad span of activity, expecting the sales to be in the range 465 - 530 mDKK. During 2021/22 we have invested in more people but have also decided to continue and even expand our investments in digitizing and commercial related activities, driving the general cost base to a higher level. Therefore, we expect the net result after tax for 2022/23 to be in the range 25-48 mDKK.

### **Knowledge resources**

All of our work - our performance - is based on a belief in people and their potential. All responsibilities, tasks, work processes, IT systems and tools and our expectations of each other are based on this belief.

We believe in the importance of a high-performance level and in the continuous development and support of an environment that makes it possible to perform at a high level in our organisation. We believe that the individual is the most important building block in our Group - his or her abilities, motivation, skill set and personal development. We strive to create an environment that combines the development of the individual and the organisation as a whole in order to be able to take on the challenges of the market.

We have a portfolio of very skilled employees in our organisation, which is characterised by a flat organisational structure based on process and market oriented teams with a high degree of delegation of responsibilities and competence.

In our opinion, these matters are vital to the Group's future success in an increasingly transparent, changeable and turbulent market.

## Management's review

### Financial risks and use of financial instruments

The main commercial risk is the ability of our demand markets to secure the necessary supply of energy to keep operating. Should the markets be unable, Beirholm feels prepared to navigate the situation based on our recent pandemic experience. On the positive side, we believe that we are well-positioned to take advantage of the situation due to our broad offering of BeirTex® performance textiles because they have the potential to increase output per machine/man-hour and reduce energy costs in the laundry.

The Group is exposed to currency risks as some parts of the Group's payments are made in USD, and some income is generated in NOK. The Group fully or partially hedges such risks using foreign currency hedges.

The Group is also exposed to risks related to fluctuations in cotton prices and other commodity prices, which have been particularly clear this year. We do not use financial markets instruments to hedge this kind of risk. Instead, we balance and lock prices and quantities periodically with our suppliers in order to offer as much stability and predictability as possible.

The Group is further exposed to supply chain disruptions. To deal with these challenges, we have increased our stock levels at our European hub while tightly managing our logistics.

Receivables from debtors are hedged by means of credit insurance of the majority of the portfolio, and appropriate insurance cover has been taken out to hedge the Group's other assets and operating activities.

### Events after the balance sheet date

No events materially affecting the Group's and the Company's financial position have occurred subsequent to the financial year-end.

## Consolidated financial statements and parent company financial statements 1 October 2021 - 30 September 2022

### Notes to the financial statements

#### 1 Accounting policies

The annual report of Bindeballe Holding A/S for 2021/22 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to medium-sized reporting class C entities.

##### Changes in accounting policies

The applied accounting policies have changed in relation to the last financial year in the following areas:

Land and buildings are measured at cost less depreciation and write-downs. Previously, land and building were considered investment properties measured at fair value with value adjustments in the income statement.

The change in accounting policies is implemented because, in the management's view, measurement of land and buildings at cost, better supports management's focus where land and buildings are considered long-term investments and management focus has changed and is not on fair value changes anymore. In addition, the land and buildings that the Group holds today does not generate regular cash flow that supports estimation of a fair value, why in the opinion of management, a reliable fair value can no longer be estimated.

The monetary effect of the change in accounting policies amounts to a reduction of the year's profit before tax by -112 t.DKK. (2020/21: -40 t.DKK). This year's tax on the change in accounting policies amounts to 25 t.DKK. (2020/21: 9 t.DKK), after which the year's result after tax is reduced by -87 t.DKK (2020/21: -31 t.DKK). The balance sheet is reduced by -112 t.DKK. (2020/21: -138 t.DKK), the equity per 30 September 2022 is reduced by -87 t.DKK (2020/21: -108 t.DKK), while deferred tax is reduced by -25 t.DKK (2020/21: 30 t.DKK).

In connection with the change in accounting policies, investment properties have been reclassified as land and buildings. Comparative figures and key figures have been adapted to the changed accounting policies and reclassification.

Apart from the above, the accounting policies used in the preparation of the financial statements are consistent with those of last year.

##### Reporting currency

The financial statements are presented in Danish kroner (DKK'000).

#### Consolidated financial statements

##### Control

The consolidated financial statements comprise the Parent Company and subsidiaries controlled by the Parent Company.

Control means a parent company's power to direct a subsidiary's financial and operating policy decisions. Besides the above power, the parent company should also be able to yield a return from its investment.

In assessing if the parent company controls an entity, de facto control is taken into consideration as well.

The existence of potential voting rights which may currently be exercised or converted into additional voting rights is considered when assessing if an entity can become empowered to direct another entity's financial and operating decisions.

##### Preparation of consolidated financial statements

The consolidated financial statements are prepared as a consolidation of the parent company's and the individual subsidiaries' financial statements, which are prepared according to the group's accounting policies. On consolidation, intra-group income and expenses, shareholdings, intra-group balances and dividends, and realised and unrealised gains on intra-group transactions are eliminated. Unrealised gains on transactions with associates are eliminated in proportion to the group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains if they do not reflect impairment.

## Consolidated financial statements and parent company financial statements 1 October 2021 - 30 September 2022

### Notes to the financial statements

#### 1 Accounting policies (continued)

In the consolidated financial statements, the accounting items of subsidiaries are recognised in full. Non-controlling interests' share of the profit/loss for the year and of the equity of subsidiaries which are not wholly-owned are included in the group's profit/loss and equity, respectively, but are disclosed separately.

Acquisitions and disposals of non-controlling interests which are still controlled are recognised directly in equity as a transaction between shareholders.

#### Non-controlling interests

On initial recognition, non-controlling interests are measured at the fair value of the non-controlling interests' equity interest.

Goodwill relating to the non-controlling interests' share of the acquiree is recognised.

#### Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rate at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the most recent financial statements is recognised in the income statement as financial income or financial expenses.

#### Foreign group entities

Foreign subsidiaries are considered separate entities. Items in such entities' income statements are translated at an average exchange rate for the month, and balance sheet items are translated at closing rates. Foreign exchange differences arising on translation of the opening equity of foreign subsidiaries to closing rates and on translation of the income statements from average exchange rates to closing rates are taken directly to equity.

#### Derivative financial instruments

On initial recognition, derivative financial instruments are recognised at cost in the balance sheet and are subsequently measured at fair value. Positive and negative fair values of derivative financial instruments are presented as separate items in the balance sheet.

Fair value adjustments of derivative financial instruments designated as and qualifying for recognition as a hedge of the fair value of a recognised asset or liability are recognised in the income statement along with changes in the fair value of the hedged asset or liability.

Fair value adjustments of derivative financial instruments designated and qualifying as hedging of future assets or liabilities are recognised as separate items in the balance sheet and in the hedging reserve under equity. If the forecast transaction results in the recognition of assets or liabilities, amounts previously recognised in equity are transferred to the cost of the asset or liability, respectively. If the forecast transaction results in income or expenses, amounts previously recognised in equity are transferred to the income statement in the period in which the hedged item affects the income statement.

## Consolidated financial statements and parent company financial statements 1 October 2021 - 30 September 2022

### Notes to the financial statements

#### 1 Accounting policies (continued)

##### Income statement

###### Revenue

The Company has chosen IAS 11/IAS 18 as interpretation for revenue recognition.

Income from the sale of goods for resale and finished goods is recognised in revenue when the most significant rewards and risks have been transferred to the buyer and provided the income can be measured reliably and payment is expected to be received. The date of the transfer of the most significant rewards and risks is based on standardised terms of delivery based on Incoterms® 2020.

Income from the rendering of services is recognised as revenue as the services are rendered.

Revenue is measured at the fair value of the agreed consideration excluding VAT and taxes charged on behalf of third parties. All discounts and rebates granted are recognised in revenue.

###### Production costs

Production costs comprise costs, including depreciation, amortization and salaries, incurred in generating the revenue for the year. Such costs include cost of sales, direct and indirect costs of raw materials, consumables and salaries, rent and leases, as well as depreciation.

Production costs also comprise research and development costs that do not qualify for capitalisation and amortisation of capitalised development costs.

###### Distribution costs

Distribution costs comprise costs related to the distribution of goods sold in the year and to sales campaigns, etc. carried out in the year, including costs related to sales staff, advertising, exhibitions and amortisation/depreciation. Sales and marketing costs are recognised in the income statement when the Company obtains control of the sales or marketing product.

###### Administrative expenses

Administrative expenses include expenses incurred in the year for company management and administration, including expenses relating to administrative staff, Management, office premises and expenses as well as amortisation/depreciation of assets used for administrative purposes.

###### Other operating income

Other operating income comprise items of a secondary nature relative to the Company's core activities, including gains or losses on the sale of fixed assets.

###### Depreciation

The item comprises depreciation of property, plant and equipment.

The basis of depreciation, which is calculated as cost less any residual value, is depreciated on a straight line basis over the expected useful life. The expected useful lives of the assets are as follows:

Land and buildings	10-60 years
Fixtures and fittings, tools and equipment	1-10 years

## Consolidated financial statements and parent company financial statements 1 October 2021 - 30 September 2022

### Notes to the financial statements

#### 1 Accounting policies (continued)

##### Profit/loss from investments in subsidiaries

A proportionate share of the underlying entities' profit/loss after tax is recognised in the income statement according to the equity method. Shares of profit/loss after tax in subsidiaries are presented as separate line items in the income statement. Full elimination of intra-group gains/losses is made for equity investments in subsidiaries.

The proportionate share of the individual subsidiaries' profit/loss after tax after full elimination of internal gains/losses are recognised in the parent company's income statement.

##### Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts that relate to the financial reporting period. The items comprise interest income and expenses, e.g. from group entities, declared dividends from other securities and investments, realised and unrealised capital gains and losses relating to other securities and investments, exchange gains and losses and amortisation of financial assets and liabilities.

##### Tax

The parent company is covered by the Danish rules on mandatory joint taxation of the Group's Danish subsidiaries. Subsidiaries are included in the joint taxation arrangement from the date at which they are included in the consolidated financial statements and up to the date when they are no longer consolidated.

The parent company acts as management company for the joint taxation arrangement and consequently settles all corporate income tax payments with the tax authorities.

On payment of joint taxation contributions, the Danish corporate income tax charge is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have been able to use the tax losses to reduce their own taxable income.

Tax for the year, which comprises the current income tax charge, joint taxation contributions and deferred tax adjustments, including adjustments arising from changes in tax rates, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

### Balance sheet

##### Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes the acquisition price and costs directly related to the acquisition until the time at which the asset is ready for use.

Gains or losses are calculated as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses from the disposal of property, plant and equipment are recognised in the income statement as other operating income or other operating expenses.

## Consolidated financial statements and parent company financial statements 1 October 2021 - 30 September 2022

### Notes to the financial statements

#### 1 Accounting policies (continued)

##### Investments in subsidiaries

Equity investments in subsidiaries are measured according to the equity method.

On initial recognition, equity investments in subsidiaries are measured at cost, i.e. plus transaction costs. The cost is allocated in accordance with the acquisition method.

The cost is adjusted by shares of profit/loss after tax calculated in accordance with the Group's accounting policies less or plus unrealised intra-group gains/losses.

Identified increases in value and goodwill, if any, compared to the underlying entity's net asset value are amortised in accordance with the accounting policies for the assets and liabilities to which they can be attributed. Negative goodwill is recognised in the income statement.

Dividend received is deducted from the carrying amount.

Equity investments in subsidiaries measured at net asset value are subject to impairment test requirements if there is any indication of impairment.

##### Other securities and investments

Securities and investments consisting of listed shares and bonds are measured at fair value (market price) at the balance sheet date. Investments not admitted to trading on an active market are measured at cost.

##### Impairment of fixed assets

The carrying amount of property, plant and equipment and investments in subsidiaries is assessed for impairment on an annual basis.

Impairment tests are conducted on assets or groups of assets when there is evidence of impairment. The carrying amount of impaired assets is reduced to the higher of the net selling price and the value in use (recoverable amount).

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the group of assets and the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised impairment losses are reversed when the reason for recognition no longer exists. Impairment losses on goodwill are not reversed.

##### Inventories

Inventories are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, inventories are written down to this lower value. The net realisable value of inventories is calculated as the sales amount less costs of completion and expenses required to effect the sale and is determined taking into account marketability, obsolescence and development in the expected selling price.

Goods for resale are measured at cost, which comprises the cost of acquisition plus delivery costs as well as other expenses directly attributable to the acquisition.

## Consolidated financial statements and parent company financial statements 1 October 2021 - 30 September 2022

### Notes to the financial statements

#### 1 Accounting policies (continued)

##### **Receivables**

Receivables are measured at amortised cost.

The Company has chosen IAS 39 as interpretation for impairment of financial receivables.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Receivables in respect of which there is no objective evidence of individual impairment are tested for objective evidence of impairment on a portfolio basis. The objective evidence applied to portfolios is determined based on historical loss experience.

Impairment losses are calculated as the difference between the carrying amount of the receivables and the present value of the expected cash flows, including the realisable value of any collateral received. The effective interest rate for the individual receivable or portfolio is used as discount rate.

##### **Prepayments**

Prepayments recognised under "Assets" comprise prepaid expenses regarding subsequent financial reporting years.

##### **Cash**

Cash comprise cash and short term securities which are readily convertible into cash and subject only to minor risks of changes in value.

##### **Equity**

###### *Translation reserve*

The translation reserve comprises the share of foreign exchange differences arising on translation of financial statements of entities that have a functional currency other than DKK, foreign exchange adjustments of assets and liabilities considered part of the Company's net investments in such entities and foreign exchange adjustments regarding hedging transactions that hedge the Company's net investments in such entities. The reserve is dissolved on the sale of foreign entities or if the conditions for effective hedging no longer exist. When equity investments in subsidiaries in the parent company financial statements are subject to the limitation requirement in the net revaluation reserve according to the equity method, foreign exchange adjustments will be included in this equity reserve instead.

###### *Hedging reserve*

The hedging reserve comprises the cumulative net change in the fair value of hedging transactions that qualify for recognition as a cash flow hedge and where the hedged transaction has not yet been realised. The reserve is dissolved when the hedged transaction is realised, if the hedged cash flows are no longer expected to be realised or if the hedging relationship is no longer effective. The reserve does not represent a limitation under company law and may therefore be negative.

###### *Proposed dividends*

Dividend proposed for the year is recognised as a liability once adopted at the annual general meeting (declaration date). Dividends expected to be distributed for the financial year are presented as a separate item under "Equity".

## Consolidated financial statements and parent company financial statements 1 October 2021 - 30 September 2022

### Notes to the financial statements

#### 1 Accounting policies (continued)

##### Income taxes

Current tax payables and receivables are recognised in the balance sheet as the estimated income tax charge for the year, adjusted for prior-year taxes and tax paid on account.

Deferred tax is measured according to the liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to goodwill which is not deductible. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax is measured according to the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax assets are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Changes in deferred tax due to changes in the tax rate are recognised in the income statement.

##### Liabilities

Financial liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. On subsequent recognition, financial liabilities are measured at amortised cost, corresponding to the capitalised value, using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement over the term of the loan.

Other liabilities are measured at net realisable value.

##### Fair value

The fair value measurement is based on the principal market. If no principal market exists, the measurement is based on the most advantageous market, i.e. the market that maximises the price of the asset or liability less transaction and/or transport costs.

All assets and liabilities which are measured at fair value, or whose fair value is disclosed, are classified based on the fair value hierarchy, see below:

- Level 1: Value in an active market for similar assets/liabilities
- Level 2: Value based on recognised valuation methods on the basis of observable market information
- Level 3: Value based on recognised valuation methods and reasonable estimates (non-observable market information).

##### Cash flow statement

The cash flow statement shows the Company's net cash flows broken down according to operating, investing and financing activities, the year's changes in cash and cash equivalents as well as the cash and cash equivalents at the beginning and the end of the year.

Cash flows from operating activities are calculated as the profit/loss for the year adjusted for non cash operating items, changes in working capital and paid corporate income tax.

Cash flows from investing activities comprise payments in connection with acquisitions and disposals of entities and activities and of intangible assets, property, plant and equipment and investments.

Cash flows from financing activities comprise changes in the size or composition of the Company's share capital and related expenses as well as raising of loans, repayment of interest bearing debt and payment of dividends to shareholders.

**Consolidated financial statements and parent company financial statements 1 October 2021 - 30 September 2022**

**Notes to the financial statements**

**1 Accounting policies (continued)**

Cash and cash equivalents comprise cash and short term securities which are readily convertible into cash and which are subject only to insignificant risks of changes in value.

**Financial ratios**

The financial ratios stated under "Financial highlights" have been calculated as follows:

Operating profit/loss	Profit/loss before financial items adjusted for other operating income and other operating expenses
Operating margin	$\frac{\text{Operating profit (EBIT)} \times 100}{\text{Revenue}}$
Gross margin	$\frac{\text{Gross profit/loss} \times 100}{\text{Revenue}}$
Return on assets	$\frac{\text{Profit/loss from operating activites} \times 100}{\text{Average assets}}$
Equity ratio	$\frac{\text{Equity excl. non-controlling interests, year-end} \times 100}{\text{Total equity and liabilities, year-end}}$
Return on equity	$\frac{\text{Profit/loss for the year after tax ex. non-controlling interests} \times 100}{\text{Average equity excl. non-controlling interests}}$
