Statement by the Board of Directors and Management

Horizons A/S (the Company) is a subsidiary of Kilroy International A/S (Parent Company) which is an international travel company with headquarters in Denmark.

The Board of Directors and the Managing Director have today discussed and approved the annual report for the financial year January 1 - December 31, 2022 for the Company.

The annual report has been prepared in accordance to the Danish Financial Statements Act.

It is our opinion that the Financial Statement gives a fair and true view of the company's assets, liabilities and financial position at December 31, 2022 and of the result of the Company's operations for the financial year January 1 - December 31, 2022.

In our opinion, the Management's review gives a fair review of the development in the company's activities and financial conditions of the results for the year and of the Company's financial position.

The Annual Report is send for approval for the annual general meeting.

Independent Auditor's Report

To the shareholder of Horizons A/S

Opinion

We have audited the financial statements of Horizons A/S for the financial year 1 January – 31 December 2022 comprising income statement, balance sheet, statement of changes in equity, notes and accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's assets, liabilities and financial position at December 31, 2022 and of the results of the Company's operations for the financial year January 1 - December 31, 2022 in accordance with the Danish Financial Statement Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control that Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements in Denmark will always detect a material misstatement when it exists.

Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of financial statement users made on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also

- identify and assess the risks of material misstatement of the company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Management's review

Main activities

The main activity of Horizons A/S (Company) is to carry out sale of travel related services under the two brands, Jysk Rejsebureau and KILROY.

Sales are conducted from the eight shops in larger cities in Denmark and online channels.

Development in activities, finances, and other events during the year

In 2022 the Company had a profit before tax of DKK 44 million compared to a loss in 2021 of DKK 10 million. Equity amounts to DKK 17 million on 31 December 2022.

The result for 2022 is significantly better than expected when the year started with continued impact from the pandemic.

Alongside the gradual diminished pandemic-impact, the Company has experienced an increased customer appetite for travel. Consequently, recruitment of new staff has been one of the biggest challenges together with an exceptional customer demand.

Capital resources

Due to losses during the pandemic years, the Company lost more than half of the subscribed capital and was therefore subject to the capital loss provisions in the Danish Companies Act. Due to the improved business environment in 2022, much of the lost capital was recaptured. Moreover, the majority owners have injected 30 million, thus the share capital was fully re-established at the end of 2022.

Risk assessment

Operating globally, the travel industry is by nature affected by numerous risks. The majority of these are beyond our control, such as war, terror, natural disasters, disease, and political unrest.

The Covid-19 pandemic is a prime example of an uncontrollable event.

Every link in the value chain is constantly challenged, either by traditional suppliers, new players or by the customers themselves. As in many other industries, the Internet has created an atmosphere of "direct trading is cheapest". We address this challenge by constantly focusing on internal training and customer service, and by making value-addition tangible and apparent to our customers.

The financial risk of doing business in multiple countries and currencies is reduced through cautious execution by the Kilroy Group's cash management function, which has established policies to ensure that currency exposure is mitigated to the extent possible.

The Kilroy Group only hedges commercial exposures. The primary financial instruments include currency forward contracts.

Corporate Social Responsibility (CSR)

In accordance with the Danish Financial Statements Act §99a information on Horizons A/S' Corporate Social Responsibility policy can be found in the annual report of the Parent Company and on the website kilroygroup.net/csr.

Statement on gender composition

In accordance with the Danish Financial Statements Act §99b information on Horizons A/S' gender composition policy can be found in the annual report of the Parent Company and on the website kilroygroup.net/csr.

Management's review

Guidance for 2023

At the beginning of 2023, the Company is operationally recovered, however it carries long-term loans maturing in upcoming years.

In 2021 the majority owner obtained long-term financing arrangements securing the continued operation of the Kilroy Group. The financial arrangements are made available for the Company and that together with the current business environment and the positive outlook for the travel industry mean that management is confident about the future of the Company.

The budgeted expectation for 2023 is that the Company will deliver an operational profit (EBITDA) in the range of DKK 30 to DKK 35 million. At the time of the approval of the 2022 accounts, the market shows strong trends. Thus, it is the management's view that the budgeted goal is achievable.

The war in Ukraine and the catastrophe in Turkey/Syria have so far had limited impact on the Company as none of these areas are key destinations of the Company's customers. Still, the economic challenges stemming from the war and the generally negative global financial outlook are expected to have some negative impact beyond 2023 and on the travel industry in general.

No material events have occurred since the balance sheet date that would affect the assessment of the Annual Report for 2022.

Accounting Policies

General

The Annual Report for 2022 for Horizons A/S is presented in accordance with the provisions of the Danish Financial Statements Act governing reporting class large-C companies.

Change of reporting class has not caused changes in accounting policies compared to previous years. The accounting policies applied, as described below, are consistent with those applied last year.

Pursuant to section 86(4) of the Danish Financial Statements Act, no cash flow statement has been prepared. The cash flow statement is included in the consolidated cash flow statement for Kilroy International A/S.

Pursuant to section 96(3) of the Danish Financial Statements Act, fee paid to the Company's auditor appointed at the general meeting has not been disclosed.

The information is disclosed in the financial statements for the Parent Company.

Foreign currency conversion

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement in cost of products.

Profit and Loss Account

Turnover

Turnover includes the year's sales of travel products and other services.

Turnover from individual-oriented products are recognised at the time of invoicing, regardless of departure date.

Upon receipt of a part (or full) payment, the individual products are booked with the supplier and travel documents are issued. Most flight tickets need to be issued immediately to guarantee availability and in most cases there are no changes to the itinerary before departure. As main part of the value increase is performed at the time of the sale and invoicing (e.g. the risk is transferred to the customer when the tickets are issued), the turnover is booked at invoicing.

Revenues from group travel products are booked in the accounting period that coincides with the departure date of the trip.

Turnover is measured at the fair value of the agreed remuneration excluding VAT. All discounts granted are included in turnover.

Cost of products

Cost of sales comprises invoiced and accrued cost of travel related products and other services incurred by generated revenue of the year.

Other operating income

Other income comprises items secondary to the activities of the company. Government aid/compensation schemes related to COVID 19 are included in this item.

Other operating expenses

Other operating expenses include expenses related to premises, stationery and office supplies, marketing costs, etc. This item also includes writedowns of receivables recognised in current assets.

Salaries and other personnel expenses

Personnel costs comprise expenses incurred during the year for all management, sales consultants and administrative staff.

Depreciations and amortizations

Amortisation and depreciation comprise amortisation and depreciation of property, plant and equipment.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year. Financial income and expenses comprise interest and surcharges/allowances regarding tax.

Tax

The current Danish corporation tax is allocated among the jointly-taxed Danish companies in proportion to their taxable income (full absorption with refunds for tax losses). Tax for the year comprises current tax, joint taxation and changes in deferred tax for the year, including adjustments to tax rates. The tax expense relating to the profit/loss for the year is recognised in the income statement, and the tax expense relating to changes directly recognised in equity is recognised directly in equity.

The Company is part of a joint taxation arrangement with the Parent Company. The Parent Company is administrator for the joint taxation.

Accounting Policies

Balance Sheet

Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and impairment.

Cost comprises the purchase price and any direct costs directly attributable to the acquisition until the date on which the asset is available for use. The cost includes retirement obligations if it meets the conditions for recognition of provisions.

Depreciation is calculated on a straight-line basis of the cost according to the following guidelines, based on the estimated economic life of the asset:

- Buildings 33-50 years
- Leasehold improvements 5 years
- IT and other equipment 3-5 years

The useful life and residual value are reassessed annually. Changes are treated as accounting estimates, and the effect on depreciation is recognised.

Impairment of non-current assets

The carrying amount of intangible assets and property, plant and equipment is subject to an annual test for indications of impairment other than the decrease in value reflected by depreciation or amortisation.

Impairment tests are conducted of individual assets or groups of assets when there is an indication that they may be impaired. Write-down is made to the recoverable amount if this is lower than the carrying amount.

The recoverable amount is the higher of an asset's net selling price and its value in use. The value in use is determined as the present value of the forecast net cash flows from the use of the asset or the group of assets, including forecast net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised write-downs are reversed when the basis for the write-down no longer exists.

Inventories

Goods for resale are measured at cost price.

Write-downs are made according to obsolescence and other forms of value depreciation.

Deferred Tax assets and liabilities

Deferred tax is recognised on all temporary differences between the carrying amount and tax-base value of assets and liabilities, for which the tax-based value of assets is calculated based on the planned use of each assets.

Deferred tax assets, including the tax base of tax loss carryforwards, are recognized in the balance sheet at their estimated realizable value, either as a set-off against deferred tax liabilities or as net tax assets.

Deferred tax is measured in accordance with the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Changes in deferred tax as a result of changes in tax rates are recognized in the income statement or equity, respectively.

Receivables

Receivables are measured at amortised cost. Write-down is made for bad debt losses where there is an objective indication that a receivable has been impaired.

Prepayments

Prepayments comprise incurred costs relating to subsequent financial years. Prepayments are measured at cost.

Current tax payable or receivable

Current tax liabilities and receivables are recognised in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the onaccount taxation scheme are recognised in the income statement in financial income and expenses.

Liabilities other than provisions

Prepayments from customers, trade payables and other payables are measured at net realizable value.
