Statement by the Board of Directors and the Executive Board

Today, the Board of Directors and the Executive Board have discussed and approved the annual report of EagleBurgmann KE A/S for the financial year 1 January - 31 December 2016.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2016 and of the results of the Company's operations for the financial year 1 January - 31 December 2016.

Further, in our opinion, the Management's review gives a fair review of the development in the Company's operations and financial matters and the results of the Company's operations and financial position.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of EagleBurgmann KE A/S

Opinion

We have audited the financial statements of EagleBurgmann KE A/S for the financial year 1 January - 31 December 2016, which comprise an income statement, balance sheet, statement of changes in equity and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2016 and of the results of the Company's operations for the financial year 1 January - 31 December 2016 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

Independent auditor's report

- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusion is based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on our procedures, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

At 1 January 2014, EagleBurgmann KE A/S merged with the wholly-owned subsidiary, EagleBurgmann Bredan A/S with EagleBurgmann KE A/S as the continuing company. The intra-group merger is accounted for using the pooling-of-interests method. Comparative figures for 2013 are restated. Figures for 2012 are not restated.

Management's review

Management commentary

Business review

The Company's business segment comprises two divisions:

Expansion Joints Division

The division supplies total solutions, which compensate for termic expansions, vibrations and assembling imbalances in pipes, ducts and other systems, primarily within the energy sector. The solutions are based on compensator technology within fabric, rubber, elastomers and special compensators with steel parts, sealing products and engineering. Focus is on customised quality, design, engineering, installation and after sales service.

The Seals Division

The Seals division sells sealing products, including mechanical axial sealings, braided and static sealings for the industry.

Financial review

The income statement for 2016 shows a profit of DKK 23,549 thousand against DKK 8,804 thousand last year, and the balance sheet at 31 December 2016 shows equity of DKK 93,078 thousand.

Profits from group enterprises after tax are recognised in the income statement at DKK 16,782 thousand against DKK 9,720 thousand in 2015.

At the end of 2016, the Company's equity amounted to DKK 93,078 thousand, corresponding to an equity ratio of approx. 48,6 %.

The Company's capital structure is considered to be sufficient.

Knowledge resources

The Company's knowledge resources mainly consist of knowhow on compensator technology.

Special risks

The Company is not exposed to special risks except for what is usual to the line of business.

Impact on the external environment

The Company's impact on the external environment and work environment and measures for prevention aim at the least possible risk of pollution and at minimising the risk of accidents. The Company has an environmental approval, just as the Company is certified according to ISO 9001:2008, ISO 14001:2004 and ISO 180001:2007.

Events after the balance sheet date

The company has made an agreement regarding the sale of the subsidiary KE-Burgmann Finland OY in April 2017.

No events have occurred after the financial-year end which could significantly affect the company's financial position.

Outlook

The outlook is still unclear, and it is difficult to predict the future.

However, restructuring of the sales organisation is planned to bring more market share as well as initiatives to increase productivity and customer focus is expected to have a positive effect.

Notes to the financial statements

1 Accounting policies

The annual report of EagleBurgmann KE A/S for 2016 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to medium-sized reporting class C entities.

Referring to section 112(1) of the Danish Financial Statements Act, no consolidated financial statements are prepared. The financial statements of EagleBurgmann KE A/S and its group entities are part of the consolidated financial statements of Freudenberg & Co. KG which can be obtained at www.freudenberg.com under Home - Press - Publications.

The accounting policies applied by the Company are consistent with those of last year.

Omission of a cash flow statement

With reference to section 86(4) of the Danish Financial Statements Act, no cash flow statement has been prepared. The entity's cash flows are part of the consolidated cash flow statement for the parent company, Freudenberg & Co. KG. which can be obtained at www.freudenberg.com under Home - Press - Publications.

Intra-group business combinations

The book value method is applied to business combinations such as acquisition and disposal of investments, mergers, demergers, additions of assets and share conversions, etc. where the combined entities are controlled by the parent company, , implying that the combination is considered complete at the time of acquisition without any restatement of comparative figures. Differences between the agreed consideration and the carrying amount of the acquired entity are recognised in equity.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rate at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the most recent financial statements is recognised in the income statement as financial income or financial expenses.

Derivative financial instruments

On initial recognition, derivative financial instruments are recognised at cost in the balance sheet and are subsequently measured at fair value. Positive and negative fair values of derivative financial instruments are included in "Other receivables" and "Other payables", respectively.

Fair value adjustments of derivative financial instruments designated as and qualifying for recognition as a hedge of the fair value of a recognised asset or liability are recognised in the income statement along with changes in the fair value of the hedged asset or liability.

Fair value adjustments of derivative financial instruments designated as and qualifying for hedging of future assets or liabilities are recognised in other receivables or other payables, respectively, and in equity. If the hedged forecast transaction results in the recognition of assets or liabilities, amounts previously recognised in equity are transferred to the cost of the asset or liability, respectively. If the hedged forecast transaction results in income or expenses, amounts previously deferred in equity are transferred to the income statement in the period in which the hedged item affects the profit/loss for the year.

Financial statements for the period 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Income statement

Revenue

Income from the sale of goods for resale and finished goods is recognised in revenue when transfer of the most significant rewards and risks to the buyer has taken place and provided that the income can be reliably measured and payment is expected to be received.

Income from the rendering of services is recognised as revenue as the services are rendered, implying that revenue corresponds to the market value of the services rendered in the year (percentage of completion method).

Revenue is measured at the fair value of the agreed consideration excluding VAT and taxes charged on behalf of third parties. All discounts and rebates granted are recognised in revenue.

Gross margin

The items revenue, change in inventories of finished goods and work in progress, work performed for own account and capitalised, other operating income and external expenses have been aggregated into one item in the income statement called gross margin in accordance with section 32 of the Danish Financial Statements Act.

Other operating income and operating expenses

Other operating income and operating expenses comprise items of a secondary nature relative to the entity's core activities, including gains or losses on the sale of non-current assets.

Cost of sales

Cost of sales includes the cost of goods used in generating the year's revenue.

Other external expenses

Other external expenses include the year's expenses relating to the Company's core activities, including expenses relating to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

Staff costs

Staff costs include wages and salaries, including compensated absence and pension to the Company's employees, as well as other social security contributions, etc. The item is net of refunds from public authorities.

Amortisation/depreciation

The item comprises amortisation/depreciation of intangible assets and property, plant and equipment.

The cost for completed development projects and acquired IP rights is amortised over the expected useful life. Acquired IP rights include software, patents, rights and licences.

The basis of amortisation, which is calculated as cost less any residual value, is amortised on a straight line basis over the expected useful life. The expected useful lives of the assets are as follows:

Acquired intangible assets	7 years
----------------------------	---------

Financial statements for the period 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

The basis of depreciation, which is calculated as cost less any residual value, is depreciated on a straight line basis over the expected useful life. The expected useful lives of the assets are as follows:

Buildings	10-50 years
Plant and machinery	3-10 years

Land is not depreciated.

Income from investments in group entities

The item includes the Company's proportionate share of the profit/loss for the year in subsidiaries after elimination of intra-group income or losses and net of amortisation and impairment of goodwill and other excess values at the time of acquisition.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts that concern the financial year. Financial income and expenses include interest income and expenses as well as allowances and surcharges under the advance-payment-of-tax scheme, etc.

Tax

Tax for the year includes current tax on the year's expected taxable income and the year's deferred tax adjustments. The portion of the tax for the year that relates to the profit/loss for the year is recognised in the income statement, whereas the portion that relates to transactions taken to equity is recognised in equity.

The entity is jointly taxed with other subsidiaries. The total Danish income tax charge is allocated between profit/loss-making Danish entities in proportion to their taxable income (full absorption).

Jointly taxed entities entitled to a tax refund are reimbursed by the management company based on the rates applicable to interest allowances, and jointly taxed entities which have paid too little tax pay a surcharge according to the rates applicable to interest surcharges to the management company.

Balance sheet

Intangible assets

Other intangible assets include development projects and other acquired intangible rights, including software licences, distribution rights and development projects.

Other intangible assets are measured at cost less accumulated amortisation and impairment losses.

Gains and losses on the sale of intangible assets are recognised in the income statement under "Other operating income" or "Other operating expenses", respectively. Gains and losses are calculated as the difference between the selling price less selling expenses and the carrying amount at the time of sale.

Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes the acquisition price and costs directly related to the acquisition until the time at which the asset is ready for use.

Financial statements for the period 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Gains or losses are calculated as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses from the disposal of property, plant and equipment are recognised in the income statement as other operating income or other operating expenses.

Investments in subsidiaries

Investments in subsidiaries are measured, using the equity method, at the parent's proportionate share of such entities' equity plus goodwill on consolidation and intra-group losses and less intra-group gains and negative goodwill, if any. Investments in entities whose net asset value is negative are measured at DKK 0. The entity's proportionate share of negative equity, if any, is set off against receivables from the investment in so far as the deficit is irrecoverable. Amounts in excess thereof are recognised under 'Provisions' in so far as the parent has a legal or constructive obligation to cover the deficit.

Newly acquired or formed entities are recognised in the financial statements from the date of acquisition or formation. Entities sold or otherwise disposed of are recognised up to the date of disposal.

The purchase method of accounting is applied to corporate takeovers except for intra-group business combinations which are accounted for using the pooling of interests method.

Gains or losses on disposal of subsidiaries and associates are made up as the difference between the sales price and the carrying amount of net assets at the date of disposal plus non-amortised goodwill and anticipated selling costs.

Impairment of fixed assets

The carrying amount of intangible assets, property, plant and equipment and investments in subsidiaries and associates is assessed for impairment on an annual basis.

Impairment tests are conducted on assets or groups of assets when there is evidence of impairment. The carrying amount of impaired assets is reduced to the higher of the net selling price and the value in use (recoverable amount).

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the group of assets and the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised impairment losses are reversed when the reason for recognition no longer exists. Impairment losses on goodwill are not reversed.

Inventories

Inventories are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, inventories are written down to this lower value. The net realisable value of inventories is calculated as the sales amount less costs of completion and expenses required to effect the sale and is determined taking into account marketability, obsolescence and development in the expected selling price.

The cost of raw materials and consumables comprises the cost of acquisition plus delivery costs.

The cost of finished goods and work in progress includes the cost of raw materials, consumables, direct labour and indirect production overheads.

Financial statements for the period 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Production overheads include the indirect cost of material and labour as well as maintenance and depreciation of production machinery, buildings and equipment and expenses relating to plant administration and management.

Receivables

Receivables are measured at amortised cost, which usually corresponds to the nominal value. Write-downs are made for bad debts on the basis of objective evidence that a receivable or a group of receivables are impaired. Write-downs are made to the lower of the net realisable value and the carrying amount.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Prepayments

Prepayments recognised under "Assets" comprise prepaid expenses regarding subsequent financial reporting years.

Equity

Reserve for net revaluation according to the equity method

The net revaluation reserve according to the equity method includes net revaluations of investments in subsidiaries and associates relative to cost. The reserve can be eliminated in case of losses, realisation of investments or a change in accounting estimates. The reserve cannot be recognised at a negative amount.

Provisions

Provisions comprise expected expenses relating to guarantee commitments, losses on work in progress, restructurings, etc. Provisions are recognised when the Company has a legal or constructive obligation as a result of a past event at the balance sheet date and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Provisions are measured at net realisable value or at fair value if the obligation is expected to be settled far into the future.

Restructuring provisions comprise severance pay to employees, losses due to termination of agreements, etc. arising in connection with Management's decision to restructure the business. Restructuring provisions are recognised once Management, before the balance sheet date, has made a decision to restructure the business and when it can be rendered probable, at the balance sheet date, that the restructuring will be carried through.

Income taxes

Current tax payables and receivables are recognised in the balance sheet as the estimated income tax charge for the year, adjusted for prior-year taxes and tax paid on account.

Financial statements for the period 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Deferred tax is measured according to the liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to goodwill which is not deductible for tax purposes and on office premises and other items where temporary differences, apart from business combinations, arise at the date of acquisition without affecting either profit/loss for the year or taxable income. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax is measured according to the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax assets are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Changes in deferred tax due to changes in the tax rate are recognised in the income statement.

Liabilities

Financial liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. On subsequent recognition, financial liabilities are measured at amortised cost, corresponding to the capitalised value, using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement over the term of the loan. Financial liabilities also include the capitalised residual lease liability in respect of finance leases.

Other liabilities are measured at net realisable value.

Financial ratios

Financial ratios are calculated in accordance with the Danish Finance Society's guidelines on the calculation of financial ratios "Recommendations and Financial Ratios 2015".

The financial ratios stated under "Financial highlights" have been calculated as follows:

Return on assets	$\frac{\text{Profit/loss from operating activities} \times 100}{\text{Average assets}}$
Solvency ratio	$\frac{\text{Equity at year end} \times 100}{\text{Total equity and liabilities at year end}}$
Return on equity	$\frac{\text{Profit/loss for the year after tax} \times 100}{\text{Average equity}}$
