Statement by the Board of Directors and the Executive Board

The Board of Directors and the Executive Board have today discussed and approved the annual report of Maersk Container Industry A/S for the financial year 1 January – 31 December 2016.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

It is our opinion that the financial statements give a true and fair view of the Company's financial position at 31 December 2016 and of the results of the Company's operations for the financial year 1 January – 31 December 2016.

Further, in our opinion, the Management's review gives a fair review of the development in the Company's operations and financial matters and the results of the Company's operations and financial position.

We recommend that the annual report be approved at the annual general meeting.

Copenhagen, 22 May 2017

Independent auditors' report

To the shareholder of Maersk Container Industry A/S

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2016, and of the results of the Company's operations for the financial year 1 January - 31 December 2016 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Maersk Container Industry A/S for the financial year 1 January - 31 December 2016, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("financial statements").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Management's responsibility for the financial statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditors' responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and

Independent auditors' report

are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Management's review

Operating review

Principal activities of the company

Maersk Container Industry A/S (MCI) is a fully owned subsidiary of A.P. Møller-Mærsk A/S (<http://www.maersk.com>) and is a trading company for reefer and dry containers as well as spare parts for reefer containers and the Danish affiliate of the MCI Group (<http://www.mcicontainers.com>), one of the global leaders in container manufacturing especially within reefer containers and reefer machines. MCI comprises of the MCI Group's headquarters based in Copenhagen and Tinglev, Denmark which include global sales and marketing, R&D and test centre, technical and administrative support functions as well as a global service centre. MCI is the owner of the reefer container factory in Chile whereas the dry container factory in Dongguan, China and the reefer container factory in Qingdao, China are sister companies.

Uncertainty regarding recognition and measurement

There is no significant uncertainty regarding recognition and measurement of the assets and liabilities.

Unusual circumstances

No unusual circumstances occurred during 2016.

Development in activities and financial position

MCI gained significant market share in an overall bleak market and several new large customers placed repeat orders. A new digital application for the Star Cool™ refrigeration machine was launched, making MCI a market leader in energy performance.

The new reefer factory in Chile has achieved steady state one shift operations and will continue productions ramp up with safety and quality as the ongoing priorities.

Sales decreased by 19% to DKK 3,746m as a consequence of a 40% volume drop in global demand for reefer containers during 2016 and 45% lower demand for dry containers.

The net result for MCI decreased to DKK -520m in 2016 compared to DKK -398m in 2015 and was significantly impacted by reduced volumes in the reefer segment and historical weak prices in the dry container market.

Management's review

Operating review

Outlook

The overall container market in 2017 is expected to be higher than 2016, however with continuous pressure on prices and margins. Turnover from sales of dry containers is expected to be significantly higher in 2017 compared to 2016, whereas sales of reefer containers will be positively influenced by the forecasted increased production and sales in Chile. The result for 2017 is expected to be significantly better than 2016, but still a deficit.

Risks and uncertainties

Operational risk

The company has entered into long-term contracts for the supply of containers, in order to ensure a stable supply, and therefore the risk conditions in this regard are unchanged.

Market risk

Maersk Container Industry operates in a market, that is significantly affected by the shipping industry. A market that we predict in the long run should be relatively stable.

The use of steel etc. in container manufacturing poses a minor risk, as increase in steel price can generally be absorbed in the price of finished containers.

Currency risks

Activities abroad cause earnings, cash flows and equity to be affected by the exchange rate developments, mainly USD. There are no speculative currency deposits. Exchange risks associated with investments in subsidiaries and associates abroad are generally not covered as the company believes that a continuous hedging of such long-term investments will not be optimal based on a comprehensive risk and cost consideration.

Liquidity risk

The company is dependent on continuously having long-term financing. It is therefore the company's policy to, as far as possible, have non-cancellable credit limits of a size that is reasonable in relation to the company's planned activities.

Environmental matters

Maersk Container Industry A/S considers CSR to be an important part of our business. As to efforts made in 2016, we refer to the parent company, A.P. Møller-Mærsk A/S' sustainability report (<http://www.maersk.com/en/the-maersk-group/sustainability>).

Management's review

Operating review

Goals and policies for the under-represented gender

In March 2013 the Board adopted targets for the diversity of the company's shareholder-appointed board members with respect to the under-represented gender.

The Board believes that its members should be elected on the basis of their combined qualifications and at the same time recognises the advantages of a board comprising a wide range of backgrounds such as global experience, style, culture and gender.

As of 31 December, 2016 one of the shareholder-appointed Board members is a woman. Consequently, the target for gender diversity has been met.

At the Board Meeting in A.P. Møller - Mærsk A/S on 21 February, 2013 a group policy was adopted with the aim to increase the share of the under-represented gender on the company's other management levels (Link to policy: <http://mrsk.co/174tNiF>).

In accordance with this policy Maersk Container Industry A/S has taken steps to look into how the company can attract qualified women to relevant management positions. In addition, this is a focus area when identifying candidates to key positions.

Events after the balance sheet date

No significant events have occurred after balance sheet date.

Financial statements 1 January – 31 December

Accounting policies

The annual report of Maersk Container Industry A/S for 2016 has been prepared in accordance with the provisions applying to reporting class C large enterprises under the Danish Financial Statements Act.

The company has implemented the changes to the Danish Financial Statements Act, that came into effect as of January 1st 2016, due to Act no 738 of June 1st 2015. The changes have not affected the company's assets, liabilities and financial position at December 31st 2016, but only resulted in additional information in the annual report.

Applied exemption clauses in the Danish Financial Statements Act

In accordance with section 86(4) of the Danish Financial Statements Act, Maersk Container Industry A/S has not prepared a cash flow statement as this is included in the consolidated cash flow statement of the parent company, A.P. Møller-Mærsk A/S.

In accordance with section 96(3) of the Danish Financial Statements Act, the Company has not disclosed fees to the auditors appointed at the annual general meeting, as this is included in the financial statement of A.P. Møller-Mærsk A/S.

In accordance with section 112 of the Danish Financial Statements Act, the Company has not prepared consolidated financial statement as this is included in the consolidated financial statement of A.P. Møller-Mærsk A/S.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Income statement

Revenue

Revenue from the sale of containers and reefer machines is recognised in the income statement when delivery and transfer of risk to the buyer have taken place.

Financial statements 1 January – 31 December

Accounting policies

Costs

Costs comprise direct and indirect costs for raw materials and consumables to generate revenue for the year.

Other operating income

Other operating income comprises items secondary to the activities of the Company, including gains on the disposal of intangible assets and property, plant and equipment.

Other operating costs

Other operating costs comprise items secondary to the activities of the Company, including losses on the disposal of intangible assets and property, plant and equipment.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year. Financial income and expenses comprise interest income and expense, payables and transactions denominated in foreign currencies.

Tax on profit/loss for the year

Tax for the year comprises current corporation tax for the year and changes in deferred tax, including changes in tax rates. The tax expense relating to the profit/loss for the year is recognised in the income statement, and the tax expense relating to amounts directly recognised in equity is recognised directly in equity.

Balance sheet

Intangible assets

Intangible assets comprise large and long-term development projects.

Development project, that are clearly defined and identifiable, where the technical utilization rate, sufficient resources and a potential future market or development opportunity in the company can be detected, and where the intention is to produce, market or use the project, is recognized as intangible fixed assets, if there is sufficient assurance that the capital value of future earnings can cover production, sales and administration costs as well as the actual development costs.

Development projects that do not meet the criteria for recognition in the balance sheet are recognized as expenses in the income statement as the costs incurred.

Financial statements 1 January – 31 December

Accounting policies

Development projects that are capitalised are measured at cost less accumulated depreciation and impairment. An equal amount after tax is recognized in “Reserves for development projects” under equity. The reserve is reduced with depreciations. Depreciation is commenced when the development project is finalised. Cost includes direct cost pertaining to the development of development projects. Completed development projects, including software, are amortized on a straight-line basis over 3 years. Licenses are measured at cost less accumulated amortization and impairment. Licenses are amortized on a straight-line basis over 3 years.

Property, plant and equipment

Land and buildings, plant and machinery, and fixtures and fittings, other plant and equipment are measured at cost less accumulated depreciation and impairment losses. Depreciation is provided on a straight-line basis over the expected useful lives of the assets. The expected useful lives are as follows:

Buildings	50 years
Fixtures and fittings, other plant and equipment	3-10 years

Land is not depreciated.

Fixtures and fittings, other plant and equipment of less than DKK 50 thousand a unit as well as current assets are expensed in the year of acquisition.

The economic life and scrap value of all property, plant and equipment are re-evaluated every year.

Investments

Investments comprise investments in subsidiaries and are measured at cost. Where cost exceeds net realisable value, a write-down is made to this lower value.

Impairment of non-current assets

The carrying amount of intangible assets and property, plant and equipment as well as equity investments in group entities and associates is subject to an annual test for indications of impairment other than the decrease in value reflected by depreciation or amortisation.

Impairment tests are conducted of individual assets or groups of assets when there is an indication that they may be impaired. Write-down is made to the recoverable amount if this is lower than the carrying amount.

Financial statements 1 January – 31 December

Accounting policies

The recoverable amount is the higher of an asset's net selling price and its value in use. The value in use is determined as the present value of the forecast net cash flows from the use of the asset or the group of assets, including forecast net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Inventories

Inventories are measured at cost in accordance with the average cost method. Where the net realisable value is lower than cost, inventories are written down to this lower value.

Finished goods and goods for resale comprise the cost of raw materials, consumables, direct wages and salaries and indirect production overheads.

The net realisable value of inventories is calculated as the sales amount less costs of completion and costs necessary to make the sale and is determined taking into account marketability, obsolescence and development in expected selling price.

Receivables

Receivables are measured at amortised cost.

Write-down is made for bad debt losses where there is an objective indication that a receivable or a portfolio of receivables has been impaired. If there is an objective indication that an individual receivable has been impaired, write-down is made on an individual basis.

Prepayments

Prepayments comprise prepaid expenses of freight, subscriptions and rebate.

Dividends

Proposed dividends are recognised as a liability at the date on which they are adopted at the annual general meeting (declaration date). The expected dividend payment for the year is disclosed as a separate item under equity.

Corporation tax and deferred tax

Maersk Container Industry A/S is jointly taxed with the parent company, A.P. Møller-Mærsk A/S. The current Danish corporation tax is allocated between the jointly taxed Danish companies in proportion to their taxable income (full absorption with refunds for tax losses).

Current tax payable and receivable is recognised in the balance sheet as tax computed on the taxable income for the year adjusted for tax on the taxable income of prior years and for tax paid on account.

Financial statements 1 January – 31 December

Accounting policies

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax value of assets and liabilities based on the planned use of the asset or settlement of the liability. However, deferred tax is not recognised on temporary differences relating to goodwill non-deductible for tax purposes, office premises and other items where the temporary differences arise at the date of acquisition without affecting either profit/loss or taxable income.

Deferred tax assets are recognised at the expected value of their utilisation within the foreseeable future, that is expected to be utilised within the joint-taxation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Any deferred net assets are measured at net realisable value.

Deferred tax is measured in accordance with the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Changes in deferred tax as a result of changes in tax rates are recognised in the income statement and equity, respectively.

Provisions

Provisions comprise anticipated costs related to warranties. Provisions are recognised when, as a result of past events, the Company has a legal or a constructive obligation and it is probable that there may be an outflow of resources embodying economic benefits to settle the obligation. Provisions are measured at net realisable value.

Warranties comprise obligations to make good any defects within the warranty period. Provisions for warranties are measured and recognised based on past experience.

Liabilities other than provision

Financial liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. In subsequent periods, the financial liabilities are measured at amortised cost, corresponding to the capitalised value using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement over the term of the loan. Other liabilities are measured at net realisable value.

Financial statements 1 January – 31 December

Accounting policies

Financial ratios

Financial ratios are calculated in accordance with the Danish Society of Financial Analysts' guidelines on the calculation of financial ratios "Recommendations and Financial Ratios 2015".

The financial ratios stated in the survey of financial highlights have been calculated as follows:

Operating margin	$\frac{\text{Operating profit/loss} \times 100}{\text{Revenue}}$
Gross margin	$\frac{\text{Gross profit/loss} \times 100}{\text{Revenue}}$
Current ratio	$\frac{\text{Current assets} \times 100}{\text{Current liabilities}}$
Solvency ratio	$\frac{\text{Equity at year end} \times 100}{\text{Total equity and liabilities at year end}}$

Notes

1 Segment information

Primary segment

The sale of containers, reefer units and spare parts accounts for the Company's revenue.

Geographically, revenue is broken down by sale to Denmark 54% and export 46% (2015: 66% to Denmark and 34% for export).

	DKK'000	2016	2015
2 Staff costs			
Wages and salaries		65,437	45,465
Pensions		5,222	4,524
Other social security costs		2,203	2,727
		<u>72.862</u>	<u>52,716</u>
Average number of employees		<u>93</u>	<u>87</u>

Staff costs include remuneration of the Company's Executive Board of DKK 2,943 thousand (2015: DKK 2,700 thousand), there was for the year of 2016 a remuneration of DKK 1,626 thousand to the Company's Board of Directors (2015: no remuneration).

The A.P. Møller - Maersk Group has a restricted and performance shares program, comprising the Board of Directors in Maersk Container Industry. The transfer of restricted shares is contingent on the employee still being permanently employed and takes place when three years have passed from the time of granting. The value of the restricted shares granted in 2016 to employees in the Maersk Container Industry is estimated at approximately DKK 697 thousand (2015: DKK 454 thousand) which is recognized in the Income Statement.

There was for the year 2016 no performance shares granted employees in Maersk Container Industry (2015: no performance shares granted).

3 Financial income and expenses

Financial income includes interest income from group enterprises of DKK 583 thousand. (2015: DKK 362 thousand).

Financial expenses include interest expense to group enterprises of DKK 7,599 thousand. (2015: DKK 5,211 thousand).
