Statement by the Board of Directors and the Executive Board

Today, the Board of Directors and the Executive Board have discussed and approved the annual report of Kraft Foods Danmark Intellectual Property ApS for the financial year 1 January - 31 December 2021.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2021 and of the results of the Company's operations for the financial year 1 January - 31 December 2021.

Further, in our opinion, the Management's review gives a fair review of the development in the Company's operations and financial matters and the results of the Company's operations and financial position.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholder of Kraft Foods Danmark Intellectual Property ApS

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2021, and of the results of the Company's operations for the financial year 1 January - 31 December 2021 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Kraft Foods Danmark Intellectual Property ApS for the financial year 1 January - 31 December 2021, which comprise income statement, balance sheet, statement of changes in equity and notes ("financial statements").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the financial statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

Independent auditor's report

- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Management's review

Business review

Kraft Foods Danmark Intellectual Property ApS owns the chewing gum brands STIMOROL®, DIROL® and V6®. The company pays the cost of development and maintenance of the trademarks and receives royalty income from affiliated companies for the global sales of the brands.

Recognition and measurement uncertainties

There has been no uncertainty relating to recognition and measurement in the Annual Report.

Unusual matters having affected the financial statements

The financial position of the Company at 31. December 2021 and the result of activities for the financial year 2021 have not been affected by any unusual events.

Financial review

The income statement for 2021 shows a profit of DKK 25,100 thousand against a profit of DKK 24,651 thousand last year, and the balance sheet at 31 December 2021 shows equity of DKK 75,101 thousand.

Also 2021 has been a difficult year with the outbreak of Covid-19. Global sales of chewing gum have been under pressure which have resulted in less royalty for the company.

Trademark development & maintenance activities have been less in the year compared to previous years.

The result for the year is considered satisfactory and above expectations.

Financial risks and use of financial instruments

The Company has no special risks.

Events after the balance sheet date

It is anticipated that Covid-19 will still have negative impacts on the Company's revenue and earnings in the beginning of 2022 but with gradual lifting of restrictions global sales of chewing gum are expected to improve during the year.

The outbreak of war in Ukraine and subsequent restrictions on trade with some markets result in greater uncertainty for the company as royalties for sales in those markets are significant.

On May 10th, 2022 our CEO Dirk van de Put announced our intention to divest our developed market (US, Canada, and EU Business Units) gum business and our Global Halls business sometime in the future. As of today there are no details on timing and impact on revenue & earnings for the company.

Management is monitoring developments closely. It is, however, too early yet to give an opinion as to what extent Covid-19, the outbreak of war in Ukraine and the divest intention of gum business will impact revenue and earnings in 2022.

Outlook

The impact of Covid-19 the global as well as the Danish economy continued in 2022. The impact on material prices and logistics have been unfavorable and future consumer behavior is still to be seen when restrictions are gradually expected to be lifted.

With the outbreak of war in Ukraine new challenges are appearing for the global economy with restrictions in trade. The company receives royalty for sales in markets where restrictions have now been imposed. It is however too early to give an indication on any impact the company's result for 2022.

The announcement of our intention to divest the gum business will have to materialize further before we can give an indication of any impact on the company's 2022 result.

The activities for the next year are however anticipated to increase following less restrictions related to Covid-19. The company therefore expect a higher revenue but also higher costs from development of the trademarks. Expected profit after tax for the coming year is DKK 15-18 millions.

Financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies

The annual report of Kraft Foods Danmark Intellectual Property ApS for 2021 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to reporting class B entities and elective choice of certain provisions applying to reporting class C entities.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Basis of recognition and measurement

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Reporting currency

The financial statements are presented in Danish kroner (DKK'000).

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rate at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the most recent financial statements is recognised in the income statement as financial income or financial expenses.

Income statement

Revenue

The Company has chosen IAS 11/IAS 18 as interpretation for revenue recognition.

Licence and royalty income is recognised over the term of the agreement in accordance with the contents of the agreement.

Revenue is measured at the fair value of the agreed consideration excluding VAT and taxes charged on behalf of third parties.

Other external expenses

Other external expenses comprise expenses for maintenance and development cost regarding trademarks etc.

Financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Financial income and expenses

Financial income and expenses are recognised in the income statements at the amounts that concern the financial year. Net financials include interest income and expenses as well as exchange rate gains and losses.

Tax

Tax for the year includes current tax on the year's expected taxable income, the year's deferred tax adjustments and tax adjustments for prior years. The portion of the tax for the year that relates to the profit/loss for the year is recognised in the income statement, whereas the portion that relates to transactions taken to equity is recognised in equity.

The entity is jointly taxed with other group entities. The total Danish income tax charge is allocated between profit/loss-making Danish entities in proportion to their taxable income (full absorption).

Balance sheet

Intangible assets

Trademarks are measured at the lower of cost less accumulated amortisation and recoverable amount.

Receivables

Receivables are measured at amortised cost.

The Company has chosen IAS 39 as interpretation for impairment of financial receivables.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Receivables in respect of which there is no objective evidence of individual impairment are tested for objective evidence of impairment on a portfolio basis. The portfolios are primarily based on the debtors' domicile and credit ratings in line with the Company's risk management policy. The objective evidence applied to portfolios is determined based on historical loss experience.

Impairment losses are calculated as the difference between the carrying amount of the receivables and the present value of the expected cash flows, including the realisable value of any collateral received. The effective interest rate for the individual receivable or portfolio is used as discount rate.

Cash

Cash comprise cash and short term securities which are readily convertible into cash and subject only to minor risks of changes in value.

Given the nature of the Group's cash pool arrangement, cash pool balances are not considered cash, but are recognised under "Receivables from group enterprises".

Equity

Proposed dividends

Dividend proposed for the year is recognised as a liability once adopted at the annual general meeting (declaration date). Dividends expected to be distributed for the financial year are presented as a separate item under "Equity".

Financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Income taxes and deferred taxes

Current tax payables and receivables are recognised in the balance sheet as the estimated income tax charge for the year, adjusted for prior-year taxes and tax paid on account.

Deferred tax is measured according to the liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities.

Deferred tax is measured according to the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax assets are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Changes in deferred tax due to changes in the tax rate are recognised in the income statement.

Liabilities

Other liabilities are measured at net realisable value.

Financial statements 1 January - 31 December

Notes to the financial statements

2 Staff costs

The Company has no employees.

Impairment losses and amortisation at 31 December 2021	<u>156,339</u>
Carrying amount at 31 December 2021	<u>0</u>

Intangible assets consist mainly of the 3 trademarks Stimorol, V6 & Dirol.

7 Share capital

The Company's share capital has remained DKK'000 50,001 over the past 5 years.

8 Contractual obligations and contingencies, etc.

Other contingent liabilities

The Company is jointly taxed with all other Danish companies in the Mondelez International. As a consolidated entity, the company has unlimited and joint liability together with the other companies under joint taxation for Danish corporation tax, withholding tax on dividends, interest and royalties and other indirect taxes within the jointly taxed companies.

Financial statements 1 January - 31 December

Notes to the financial statements

9 Collateral

The Company has not provided any security or other collateral in assets at 31 December 2021.
