Statement by Management on the annual report

The Board of Directors and the Executive Board have today considered and approved the annual report of WIDEX A/S for the financial year 01.05.2017 - 30.04.2018.

The annual report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent financial statements give a true and fair view of the Entity's financial position at 30.04.2018 and of the results of its operations and cash flows for the financial year 01.05.2017 - 30.04.2018.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

Independent auditor's report

To the shareholder of WIDEX A/S

Opinion

We have audited the consolidated financial statements and the parent financial statements of WIDEX A/S for the financial year 01.05.2017 - 30.04.2018, which comprise the income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for the Group as well as the Parent, and the consolidated cash flow statement. The consolidated financial statements and the parent financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent financial statements give a true and fair view of the Group's and the Parent's financial position at 30.04.2018, and of the results of their operations and the consolidated cash flows for the financial year 01.05.2017 - 30.04.2018 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements section of this auditor's report. We are independent of the Group in accordance with the International Ethics Standards Board of Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the consolidated financial statements and the parent financial statements

Management is responsible for the preparation of consolidated financial statements and parent financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements and parent financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the parent financial statements, Management is responsible for assessing the Group's and the Entity's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements unless Management either intends to liquidate the Group or the Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and the parent financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could

Independent auditor's report

reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and parent financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and the parent financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the parent financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements and the parent financial statements, including the disclosures in the notes, and whether the consolidated financial statements and the parent financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report

Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the consolidated financial statements and the parent financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the consolidated financial statements and the parent financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the consolidated financial statements and the parent financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

Equity ratio (%)	$\frac{\text{Equity} \times 100}{\text{Total assets}}$	The financial strength of the entity.
Revenue per employee	$\frac{\text{Revenue}}{\text{Average number of employees}}$	The entity's productivity.

Management commentary

Primary activities

Widex A/S (Widex) develops and manufactures hearing aids and associated products that are sold globally through 38 own sales companies and independent distributors in more than 100 countries around the world.

Development in activities and finances

In 2017/18, Widex realised a revenue of DKK 4.466 million. Adjusted for foreign exchange rates, revenue increased by 8,1% (including foreign exchange rate effects, revenue increased by 3,3%), and Widex therefore maintained its market share.

Gross profit ended at DKK 3.071 million or 69% of revenue, which is an improvement of 1,6 percentage points compared to last year. The improvement stems from continued reductions in production costs, combined with stable average sales prices in the market, driven in part by the launch of the new BEYOND Z™ product in November 2017.

Adjusted for non-recurring costs, earnings before interest, tax and amortisations (normalised EBITA) rose by 14,1% to DKK 901 million from DKK 790 million in 2016/17, corresponding to 20,2% of revenue. In 2016/17, normalised EBITA was 18,2% of revenue. The non-recurring costs in 2017/18 are mainly related to severance costs associated with restructuring in connection with the relocation of local production to a regional centre, implementation of efficiency programmes and relocating of country head offices in Canada partly offset by an extraordinary gain on sale of fixed assets. These non-recurring costs affected EBITA negatively with DKK 66 million in 2017/18 (2016/17: DKK 40 million).

Results after tax ended at DKK 380 million compared to results after tax of DKK 372 million last financial year. Results after tax were affected negatively by foreign exchange losses, but positively by capitalisation of R&D costs and lower tax for the year.

Net Working Capital (NWC) ended at DKK 584 million or 13% of revenue, compared to DKK 626 million or 16% of revenue last year. The decrease in NWC of DKK 42 million is a result of higher payables partly offset by higher trade receivables and higher inventories driven by the product launch of the new Evoke product family in May 2018.

With a growth of 8,1% adjusted for foreign exchange items, a stronger global commercial approach, the BEYOND Z and Evoke launch as well as an improvement of DKK 111 million in normalised EBITA, Management considers the results to be very satisfactory and believes that Widex is well-positioned for further profitable growth. The results are in line with expectations set out in the annual report for 2016/17.

The market continues to be characterised by changing purchasing patterns that are moving increasing volumes towards larger buying groups and retail chains. Despite this, Widex managed to maintain its average sales price while still gaining market share thanks to a strong product portfolio. The portfolio was reinforced during the year with several product launches, in particular very recent Widex Evoke which did

Management commentary

not have any major impact on 2017/18, but will be a key growth driver in 2018/19. Widex will continue to invest significantly in new product development to strengthen its product portfolio even further.

At the beginning of April 2018, a new strategy for the next five years called "Widex Wave" was launched. The strategy sets out to double the revenue of business within the next five years and replaces the previous IMPACT strategy (Improve, Profitability, Agility, Customer focus and become Truly global), which was completed successfully in 2017/18. "Widex Wave" has been developed with external and internal input and has been communicated and anchored across the organisation.

Outlook

The Group will continue to strengthen the business to increase sales and earnings directed by the new 5-year strategy called Widex Wave. The new strategy includes, among other things, well-defined market strategies, new product launches and the continuous optimisation of the business and aims at doubling the business during the next 5 years. For 2018/19 both revenue and earnings are expected to grow compared to 2017/18 levels. Widex will therefore maintain an ambitious investment and activity level in development, sales and marketing to prepare the organization for further growth.

Particular risks

Special risks

Management does not believe that the Group is exposed to any business or financial risks to an extent that significantly deviates from that generally seen in the industry.

Foreign exchange risks

With a global presence in more than 100 countries, Widex is exposed to financial risks in connection with fluctuations in exchange rates. In general the Group does not use hedging instruments as there is a good natural hedge with the composition of the business and there were no open financial hedging contracts at the end of the financial year.

Intellectual capital resources

Widex's specialised workforce and high level of internal knowledge are crucial for the Company's ability to maintain and develop its position on the global hearing aid market. Widex therefore works to maintain a high level of skills through the continued recruitment and retention of competent and dynamic employees. As part of this, considerable resources are spent on knowledge sharing, training, education and communication within the Widex Group.

Furthermore, the Group cooperates closely with a large network of external experts, particularly in the field of audiology.

Research and development activities

Widex has almost six decades of experience in conducting research and developing new technology and methods to overcome hearing loss. To maintain its position as a technology leader in a highly competitive market, the Group continued to strengthen its Research & Development department during the financial year. Total research and development cost during 2017/18 represented almost 10% of revenue.

Management commentary

In 2017/18 R&D costs of DKK 84 million has been capitalised as development projects. The capitalisation follows the accounting policies set out at the end of the financial statements and internal R&D registrations, which have been further strengthened during 2017/18. As no amortisation has started on this initial capitalisation this has a positive impact on the results for 2017/18.

Statutory report on corporate social responsibility

The Widex CSR Declaration, adopted in 2012, outlines the framework for the Company's commitment to CSR. The Declaration is translated into action through three focus areas for 2012-2017: Energy and Climate, Social Engagement and Sustainable Packaging.

Energy and Climate

Widex has a strong environmental focus. Widex headquarters are CO²-neutral and Widex is a WindMade certified organisation.

In 2012, the European Commission established the European Energy Efficiency Directive which contains a set of binding measures to help the EU reach its 20% energy efficiency target by 2020. EU countries were required to transpose the Directive's provisions into their national laws by 5 June, 2014. As part of this legal framework, all large companies in Denmark are now requested to conduct an energy audit every four years.

Widex has been a first mover in this respect and was one of the first Danish companies to carry out an energy audit in 2015/16 to meet the European Union Energy Efficiency Directive. It has become a benchmark for other Danish companies who are currently in the same process.

At the same time, a new internal environmental policy was introduced to ensure sustainable production processes. The Group has since delivered according to this policy and continued the commitment to reducing its carbon footprint through a series of energy-saving measures, including the recycling of waste at headquarters.

Social Engagement

Widex is committed to the global fight against stigma related to hearing loss and was the main sponsor of the World Deaf Golf Championship in 2017.

Widex supports the Red Cross through the Red Cross Business Partnership programme, and the Group's social engagement is also reflected in cooperation with the local municipality of Allerød on the rehabilitation of people with social problems as well as donations for local sports clubs

Human rights and business ethics

Widex continuously seeks to support and respect the protection of internationally-recognised human rights. The Company strives to always conduct business in an ethical and transparent manner and to ensure that the Company's business partners are not complicit in violations of human rights. As part of this a new internal code of conduct has been formulated and it was launched in the global organisation in January 2018.

Management commentary

Statutory report on the underrepresented gender

Widex wishes to promote diversity at all levels of the Company. Discrimination and harassment are not tolerated in any form. In 2017 and 2018, a series of new policies, including the updated code of conduct, was introduced to support this commitment, including an updated working environment policy and an anti-harassment policy.

Widex wishes to promote equal opportunities for both men and women at all levels of the organisation. Widex Group employs 450 people globally with managerial responsibility and of these 45% are women. Widex A/S employs 85 people with senior managerial responsibility. Out of these, 25 are women, and several women have been promoted internally to senior management positions during 2017/18. The share of women in positions with managerial responsibility is at an acceptable level and the policies introduced in the last two financial years will help ensure equal opportunities in the future.

The Board of Directors currently consists of six members, five of whom are representatives of the owner families. The target is that the share of women should be two members on the board by 2020. At present, there are no female board members and no new board members entered the board in 2017/18. The board composition is currently being reviewed with the ambition to add new board members during the next financial year 2018/19.

Widex headquarters has received the highest rating for its working environment, and Widex A/S has introduced a global employee engagement survey every second years to monitor and strengthen employee engagement and satisfaction on a global level. Engagement in Widex has risen significantly in the last four years, getting close to the very best results shown by similar companies. Satisfaction & Motivation and Loyalty measures both saw increases to 71 and 81 respectively. The Employee Engagement Survey has been held in 2014, 2015 and 2017 and more than 93% of those surveyed answered in 2017.

Events after the balance sheet date

On 16 May 2018 it was announced that Widex and Sivantos have agreed on merging the two companies. The proposed merger is subject to approval by the merger control authorities and the process with the authorities is progressing as planned.

In the opinion of the Board of Directors, no other events have occurred after the end of the financial year that could substantially affect the Group's financial position.

APAC and rest	985.675	978.676
	4.466.402	4.346.240

Management believes that a break-down of revenue on segments/activities may create a competitive unwanted attention and focus on its core areas. The information may contribute to competing enterprises' strategic decision-making and thus the Company will suffer significant injury.

As a result, the Group, pursuant to section 96 (3) of the Danish Financial Statements Act, chooses not to disclose this information.

Development projects

Development projects relate to the development of updated and new platforms and software for audio-logical products. The costs of the development projects comprise salaries, external consultant costs and other external costs, that are directly and indirectly attributable to the development projects. The recognition of development costs is based on the actual progress of the projects, measured based on internal time registrations and achieved milestones. The development projects are progressing as planned.

Notes to consolidated financial statements

	2017/18 DKK'000
11. Deferred tax	
Changes during the year	
Beginning of year	212.114
Recognised in the income statement	4.216
Exchange rate adjustments	(9.835)
End of year	206.495

The above specification includes deferred tax asset and deferred tax liability. The change in deferred tax asset amounts to DKK 3.200 thousand and the change in deferred tax liability amounts to DKK 2.419 thousand.

12. Prepayments

Prepayments comprise costs incurred concerning the next financial year.

13. Provisions for pensions and similar liabilities

	Provisions for pensions and similar obligations DKK'000
Maturity is expected to be:	
0-1 year	260
1-5 years	1.041
More than 5 years	8.369
	9.670

14. Other provisions

	Total other provisions DKK'000
Maturity is expected to be:	
0-1 year	60.655
1-5 years	56.619
More than 5 years	7.914
	125.189

Other provisions mainly relate to warranties and returns.

Notes to consolidated financial statements

15. Liabilities other than provisions

Long-term liabilities are due for payment after 1 year and before 5 years.

	2017/18 DKK'000	2016/17 DKK'000
16. Change in working capital		
Increase/decrease in inventories	(58.326)	11.661
Increase/decrease in receivables	(34.012)	(249.235)
Increase/decrease in trade payables	134.085	167.657
Other changes	(85.473)	36.301
	(43.726)	(33.616)

17. Unrecognised rental and lease commitments

The Group has entered into leases, primarily regarding office and production facilities as well as retail premises. Total rent commitments amount to DKK 1.303.303 thousand (April 30, 2017: DKK 1.349.869 thousand). In addition, the company has unrecognised re-establishment liabilities in relation to its leased premises. However these are not expected to be made payable.

The Group has entered into other operational leasing contracts with a total outstanding leasing payment of DKK 24.111 thousand (April 30, 2017: DKK 21.607 thousand).

18. Contingent assets

Tax base of non-capitalised deferred tax assets amounts to DKK 11.553 thousand (April 30, 2017: DKK 60.000 thousand) and is mainly related to tax loss carryforwards for which there is a material uncertainty about future utilisation. The tax loss carryforwards will not expire in the near future.

19. Assets charged and collateral

The Group has provided guarantees for leases and payment guarantees etc. On 30 April 2018, total guarantees amount to DKK 30.555 thousand.

20. Transactions with related parties

All transactions with related parties are entered on market terms.

Within the Widex Group the "Resale Price Method" is used in the determination of transfer prices across the controlled sales companies. This implies that Widex A/S will make an adjustment of transfer prices for "Transactional Net Margin Method" (TNMM) to the sales companies, meaning that they will each receive a share of the Group's earnings calculated on arm's length terms.

The Company has in 2015, 2016 and 2017 issued options, which in the period 2018-2020 entitle Management to acquire existing shares in the Company at a total nominal value of DKK 1.000 thousand. The exercise price varies for each issue and is within the range between DKK 59 and DKK 179.

Notes to parent financial statements

1. Revenue

In Widex A/S, approximately 1% of the revenue is related to sale in Denmark and the rest is export.

Management believes that a break-down of revenue on segments/activities may create a competitive unwanted attention and focus on its core areas. The information may contribute to competing enterprises' strategic decision-making and thus the Company will suffer significant injury.

As a result, the Group, pursuant to section 96 (3) of the Danish Financial Statements Act, chooses not to disclose this information.

Development projects

Development projects relate to the development of updated and new platforms and software for audio-logical products. The costs of the development projects comprise salaries, external consultant costs and other external costs, that are directly and indirectly attributable to the development projects. The recognition of development costs is based on the actual progress of the projects, measured based on internal time registrations and achieved milestones. The development projects are progressing as planned.

Notes to parent financial statements

A specification of investments in subsidiaries is evident from the notes to the consolidated financial statements.

	Registered in	Equity inte- rest %
Investments in associates comprise:		
HIMSA A/S (Denmark)	Copenhagen	25,0
Instituto Auditivo Widex, C.A.	Venezuela	30,0
Widex Colombia SAS	Santiago de Cali	30,0
Widex Audiofonos S.S. (Spain)	Barcelona	30,0
Widex Servicios Tech S.A. (Spain)	Barcelona	30,0
D Med Hearing Center (Thailand)	Bangkok	38,0
Widex Macau Hearing and Speech Centre Limited	Macau	49,0

10. Prepayments

Prepayments comprise costs incurred concerning the next financial year.

	2017/18 DKK'000
11. Deferred tax	
Changes during the year	
Beginning of year	(7.239)
Recognised in the income statement	9.858
End of year	2.619

The above specification includes deferred tax asset and deferred tax liability. The change in deferred tax asset amounts to DKK 7.239 thousand and the change in deferred tax liability amounts to DKK 2.619 thousand.

12. Other provisions

	Total other provisions DKK'000
Maturity is expected to be:	
0-1 year	406
1-5 years	418
	824

Other provisions mainly relate to warranties and returns.

Notes to parent financial statements

13. Other long-term payables

Long-term liabilities are due for payment after 1 year and before 5 years.

14. Unrecognised rental and lease commitments

The Parent has entered into rent contracts with an average annual payment of DKK 46.400 thousand (April 30, 2017: DKK 45.533 thousand). The leasing contracts have an expected term of 18 years, and the total outstanding payment is DKK 882.432 thousand (April 30, 2017: DKK 865.129 thousand).

The Parent has entered into operational leasing contracts with a total outstanding leasing payment of DKK 4.779 thousand (April 30, 2017: DKK 4.331 thousand).

15. Contingent liabilities

The Company is subject to a Danish joint taxation scheme and unlimited jointly and severally liable with the other jointly taxed companies for the total income tax.

The Company is unlimited jointly and severally liable with the other jointly taxed companies for any obligation to withholding tax on interest, royalties and dividends.

Any subsequent adjustments of corporate taxes or withheld taxes, etc. may cause changes to the Company's liabilities.

16. Assets charged and collateral

The Parent has provided guarantees for bank debts and payment guarantees of the group enterprises. On 30 April 2018, total bank guarantees of the group enterprises amounted to DKK 25.182 thousand.

17. Related parties with controlling interest

Widex Holding A/S is a related party and has a controlling interest in the Company.

18. Transactions with related parties

All transactions with related parties are entered on market terms.

Accounting policies

Reporting class

This annual report has been presented in accordance with the provisions of the Danish Financial Statements Act governing reporting class C enterprises (large).

The accounting policies applied to these consolidated financial statements and parent financial statements are consistent with those applied last year.

The comparative figures have been adjusted with some reclassifications. The reclassifications have no impact on profit for the year, total assets and equity.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Entity, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Entity has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Entity, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Consolidated financial statements

The consolidated financial statements comprise the Parent and the group enterprises (subsidiaries) that are controlled by the Parent. Control is achieved by the Parent, either directly or indirectly, holding more than 50% of the voting rights or in any other way possibly or actually exercising controlling influence. Enterprises in which the Group, directly or indirectly, holds between 20% and 50% of the voting rights and exercises significant, but not controlling influence are regarded as associates.

Basis of consolidation

The consolidated financial statements are prepared on the basis of the financial statements of the Parent and its subsidiaries. The consolidated financial statements are prepared by combining uniform items. On consolidation, intra-group income and expenses, intra-group accounts and dividends as well as profits and losses on transactions between the consolidated enterprises are eliminated. The financial statements used for consolidation have been prepared applying the Group's accounting policies.

Subsidiaries' financial statement items are recognised in full in the consolidated financial statements. Minority interests' proportionate share of profit or loss is presented as a separate item in Management's proposal for

Accounting policies

distribution of profit or loss, and their share of subsidiaries' net assets is presented as a separate item in group equity.

Investments in subsidiaries are offset at the pro rata share of such subsidiaries' net assets at the acquisition date, with net assets having been calculated at fair value.

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the rate in effect at the payment date, or the rate at the balance sheet date are recognised in the income statement as financial income or financial expenses.

Exchange adjustments of outstanding accounts with independent foreign subsidiaries which are considered part of the total investment in the subsidiary in question are classified directly as equity.

Income statement

Revenue

Revenue from the sale of manufactured goods and goods for resale is recognised in the income statement when delivery is made and risk has passed to the buyer. Revenue is recognised net of VAT, duties and sales discounts and is measured at fair value of the consideration fixed.

Production costs

Production costs comprise expenses incurred to earn revenue for the financial year. Production costs comprise direct and indirect costs for raw materials and consumables, wages and salaries, rent and lease as well as amortisation, depreciation and impairment losses relating to intangible assets and property, plant and equipment included in the production process. In addition, the item includes ordinary write-down of inventories.

Distribution costs

Distribution costs comprise costs incurred for sale and distribution of the Entity's products, including wages and salaries for sales staff, advertising costs, travelling and entertainment expenses, etc as well as amortisation, depreciation and impairment losses relating to intangible assets and property, plant and equipment attached to the distribution process.

Administrative expenses

Administrative expenses comprise costs incurred for the Entity's administrative functions, including wages and salaries for administrative staff and Management, stationery and office supplies as well as amortisation, depreciation and impairment losses relating to intangible assets and property, plant and equipment used for administration of the Entity.

Accounting policies

Other operating income

Other operating income comprises income of a secondary nature as viewed in relation to the Entity's primary activities.

Income from investments in group enterprises

Income from investments in group enterprises comprises the pro rata share of the individual enterprises' profit/loss after full elimination of internal profits or losses.

Income from investments in associates

Income from investments in associates comprises the pro rata share of the individual associates' profit/loss after elimination of internal profits or losses.

Other financial income

Other financial income comprises dividends etc received on other investments, interest income, including interest income on receivables from group enterprises, net capital or exchange gains on securities, payables and transactions in foreign currencies, amortisation of financial assets as well as tax relief under the Danish Tax Prepayment Scheme etc.

Other financial expenses

Other financial expenses comprise interest expenses, including interest expenses on payables to group enterprises, net capital or exchange losses on securities, payables and transactions in foreign currencies, amortisation of financial liabilities as well as tax surcharge under the Danish Tax Prepayment Scheme etc.

Tax on profit for the year

Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognised in the income statement by the portion attributable to the profit for the year and recognised directly in equity by the portion attributable to entries directly in equity.

The Company is jointly taxed with all Danish group enterprises. The current Danish income tax is allocated among the jointly taxed enterprises proportionally to their taxable income (total allocation with a refund concerning tax losses).

Balance sheet

Goodwill

Goodwill is the positive difference between cost and fair value of assets and liabilities arising from acquisitions. Goodwill is amortised straight-line over its estimated useful life which is fixed based on the experience gained by Management for each business area. Useful life is determined based on an assessment of whether the enterprises are strategically acquired enterprises with a strong market position and a long-term earnings profile. If the useful life cannot be estimated reliably, it is fixed at 10 years. Useful lives are reassessed annually. The amortisation periods used are 10 years.

Goodwill is written down to the lower of recoverable amount and carrying amount.

Accounting policies

Intellectual property rights etc

Intellectual property rights etc comprise acquired intellectual property rights and prepayments for intangible assets.

Development projects on clearly defined and identifiable products and processes, for which the maturity of the projects, adequate resources and a potential future market or development opportunity in the enterprise can be established, and where the intention is to manufacture, market or apply the product or process in question, are recognised as intangible assets. Other development costs are recognised as costs in the income statement as incurred. When recognising development projects as intangible assets, an amount equalling the costs incurred is taken to equity under Reserve for development costs that is reduced as the development projects are amortised and written down.

The costs of development projects comprise costs such as salaries, external consultant costs and other external costs that are directly and indirectly attributable to the development projects.

Indirect production costs in the form of indirectly attributable staff costs and amortisation of intangible assets and depreciation on property, plant and equipment used in the development process are recognised in cost based on time spent on each project.

Completed development projects are amortised on a straight-line basis using their estimated useful lives which are determined based on a specific assessment of each development project. If the useful life cannot be estimated reliably, it is fixed at 10 years. For development projects protected by intellectual property rights, the maximum amortisation period is the remaining duration of the relevant rights. The amortisation periods used are 3-5 years starting from when the output from the development projects are ready for commercial use.

Intellectual property rights acquired are measured at cost less accumulated amortisation. Patents are amortised over their remaining duration, and licences are amortised over the term of the agreement.

Intellectual property rights etc are written down to the lower of recoverable amount and carrying amount.

Property, plant and equipment

Land and buildings, plant and machinery as well as other fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated.

Cost comprises the acquisition price, costs directly attributable to the acquisition and preparation costs of the asset until the time when it is ready to be put into operation.

Interest expenses on loans for the financing of the manufacture of property, plant and equipment are included in cost if they relate to the manufacturing period. All other finance costs are recognised in the income statement.

The basis of depreciation is cost less estimated residual value after the end of useful life. Straight-line depreciation is made on the basis of the following estimated useful lives of the assets:

Accounting policies

Buildings	30-40 years
Plant and machinery	5-10 years
Other fixtures and fittings, tools and equipment	3-5 years

Estimated useful lives and residual values are reassessed annually.

Items of property, plant and equipment are written down to the lower of recoverable amount and carrying amount.

Investments in group enterprises

In the parent financial statements, investments in group enterprises are recognised and measured according to the equity method. This means that investments are measured at the pro rata share of the enterprises' equity value plus unamortised goodwill and plus or minus unrealised intra-group profits and losses.

Group enterprises with negative equity value are measured at DKK 0. Any receivables from these enterprises are written down to net realisable value based on a specific assessment. If the Parent has a legal or constructive obligation to cover the liabilities of the relevant associate, and it is probable that such obligation is imminent, a provision is recognised that is measured at present of the costs deemed necessary to incur to settle the obligation.

Upon distribution of profit or loss, net revaluation of investments in associates is transferred to Reserve for net revaluation according to the equity method under equity.

Goodwill is calculated as the difference between cost of the investments and fair value of the pro rata share of assets and liabilities acquired. Goodwill is amortised straight-line over its estimated useful life, which is fixed based on the experience gained by Management for each business area. Useful life is determined based on an assessment of whether the enterprises are strategically acquired enterprises with a strong market position and a long-term earnings profile and whether the amount of goodwill includes intangible resources of a temporary nature that cannot be separated and recognised as separate assets.

Investments in group enterprises are written down to the lower of recoverable amount and carrying amount.

Investments in associates

Investments in associates are recognised and measured according to the equity method. This means that investments are measured at the pro rata share of the enterprises' equity values plus unamortised goodwill and plus or minus unrealised pro rata intra-group profits and losses.

Associates with negative equity value are measured at DKK 0. Any receivables from these enterprises are written down to net realisable value based on a specific assessment. If the Parent has a legal or constructive obligation to cover the liabilities of the relevant associate, and it is probable that such obligation is imminent, a provision is recognised that is measured at present of the costs deemed necessary to incur to settle the obligation.

Accounting policies

Upon distribution of profit or loss, net revaluation of investments in associates is transferred to Reserve for net revaluation according to the equity method under equity.

Goodwill is calculated as the difference between cost of the investments and fair value of the pro rata share of assets and liabilities acquired. Goodwill is amortised straight-line over its estimated useful life which is fixed based on the experience gained by Management for each business area. Useful life is determined based on an assessment of whether the enterprises are strategically acquired enterprises with a strong market position and a long-term earnings profile and whether the amount of goodwill includes intangible resources of a temporary nature that cannot be separated and recognised as separate assets.

Investments in associates are written down to the lower of recoverable amount and carrying amount.

Receivables

Receivables are measured at amortised cost, usually equalling nominal value less write-downs for bad and doubtful debts.

Other investments

Other investments comprise listed securities which are measured at fair value (market price) at the balance sheet date and unlisted investments measured at the lower of cost and net realisable value.

Deferred tax

Deferred tax is recognised on all temporary differences between the carrying amount and the tax-based value of assets and liabilities, for which the tax-based value is calculated based on the planned use of each asset.

Deferred tax assets, including the tax base of tax loss carry forwards, are recognised in the balance sheet at their estimated realisable value, either as a set-off against deferred tax liabilities or as net tax assets.

Inventories

Inventories are measured at the lower of cost using the FIFO method and net realisable value.

Cost consists of purchase price plus delivery costs. Cost of manufactured goods and work in progress consists of costs of raw materials, consumables, direct labour costs and indirect production costs.

Indirect production costs comprise indirect materials and labour costs, costs of maintenance of, depreciation on of and impairment losses relating to machinery, factory buildings and equipment used in the manufacturing process as well as costs of factory administration and management. Finance costs are not included in cost.

The net realisable value of inventories is calculated as the estimated selling price less completion costs and costs incurred to execute sale.

Accounting policies

Prepayments

Prepayments comprise incurred costs relating to subsequent financial years. Prepayments are measured at cost.

Other investments

Other current asset investments comprise listed securities measured at fair value (market price) at the balance sheet date and unlisted investments measured at the lower of cost and net realisable value.

Cash

Cash comprises cash in hand and bank deposits.

Provisions for pension liabilities etc

Provisions for pensions etc are measured at net realisable value equal to the present value of expected payments by the individual pension schemes etc.

Other provisions

Other provisions comprise anticipated costs of non-recourse guarantee commitments, returns, loss on contract work in progress, decided and published restructuring, etc.

Other provisions are recognised and measured as the best estimate of the expenses required to settle the liabilities at the balance sheet date. Provisions that are estimated to mature more than one year after the balance sheet date are measured at their discounted value.

Non-recourse guarantee commitments comprise commitments to remedy defects and deficiencies within the guarantee period.

On acquisition of enterprises and investments in group enterprises, provisions are made for costs relating to restructuring in the acquired enterprise that were decided and published at the acquisition date at the latest.

Operating leases

Lease payments on operating leases are recognised on a straight-line basis in the income statement over the term of the lease.

Other financial liabilities

Other financial liabilities are measured at amortised cost, which usually corresponds to nominal value.

Prepayments received from customers

Prepayments received from customers comprise amounts received from customers prior to delivery of the goods agreed or completion of the service agreed.

Income tax receivable or payable

Current tax receivable or payable is recognised in the balance sheet, stated as tax calculated on this year's taxable income, adjusted for prepaid tax.

Accounting policies

Cash flow statement

The cash flow statement shows cash flows from operating, investing and financing activities as well as cash and cash equivalents at the beginning and the end of the financial year.

Cash flows from operating activities are presented using the indirect method and calculated as the operating profit/loss adjusted for non-cash operating items, working capital changes and income taxes paid.

Cash flows from investing activities comprise payments in connection with acquisition and divestment of enterprises, activities and fixed asset investments as well as purchase, development, improvement and sale, etc of intangible assets and property, plant and equipment, including acquisition of assets held under finance leases.

Cash flows from financing activities comprise changes in the size or composition of the contributed capital and related costs as well as the raising of loans, inception of finance leases, instalments on interest-bearing debt, purchase of treasury shares and payment of dividend.

Cash and cash equivalents comprise cash and short-term securities with an insignificant price risk less short-term bank loans.
