Statement by the Executive Board on the annual report

We have on this day presented the annual report for the financial year 01.07.18 - 30.06.19 for Tomex Foods ApS.

The annual report is presented in accordance with Danish Financial Statements Act (Årsregnskabsloven).

In our opinion, the financial statements give a true and fair view of the company's assets, liabilities and financial position as at 30.06.19 and of the results of the company's activities for the financial year 01.07.18 - 30.06.19.

We believe that the management's review includes a fair review of the matters dealt with in the management's review.

The annual report is submitted for adoption by the general meeting.

Aalborg, September 30, 2019

Executive Board

Bo Andersen

Tom Andersen

To the capital owners of Tomex Foods ApS**Opinion**

We have audited the financial statements of Tomex Foods ApS for the financial year 01.07.18 - 30.06.19, which comprise the income statement, balance sheet, statement of changes in equity and notes to the financial statements, including a summary of significant accounting policies. The financial statements are prepared in accordance with Danish Financial Statements Act (Årsregnskabsloven).

In our opinion the financial statements give a true and fair view of the company's assets, liabilities and financial position at 30.06.19 and of the results of the company's operations for the financial year 01.07.18 - 30.06.19 in accordance with the Danish Financial Statements Act (Årsregnskabsloven).

Basis for conclusion

We conducted our audit in accordance with International Standards on Auditing and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement regarding the management's review

Management is responsible for management's review.

Our opinion on the financial statements does not cover management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read management's review and, in doing so, consider whether management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Acts. We did not identify any material misstatement of management's review.

Management's responsibility for the financial statements

The Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act. Furthermore the Management is responsible for the internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with International Standards on Auditing and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Equity interest:	$\frac{\text{Equity, end of year} \times 100}{\text{Total assets}}$

Primary activities

The object of the company is to engage in trade in foodstuffs.

Development in activities and financial affairs

The income statement for the period 01.07.18 - 30.06.19 shows a profit/loss of DKK 3,336,358 against DKK -796,898 for the period 01.07.17 - 30.06.18. The balance sheet shows equity of DKK 25,917,042.

The company's financial position and the results of the company's operations in the past year can also be seen from the subsequent income statement for 2018/19 and the balance sheet as at 30 June 2019.

Outlook

In 2019/20, an increased activity level and earnings are expected.

Knowledge resources

The management and other employees of the company are an important asset to Tomex Foods ApS. For many years, the company has engaged in the import and export of food products, which means that it has built up special competencies in this area.

Special risks*Commercial, financial and other risks*

The company's operations involve a number of common risks of a commercial nature which the company's management deals with on a continuous basis. These risks relate to suppliers, products and markets, among other things.

The most important financial risks facing the company relate to changes in exchange rates. The company is exposed to currency risks by way of its business profile as a substantial part of its purchases and sales is made in foreign currency. In order to counter this risk, it is the company's general policy to hedge all major commercial transactions.

Other risks primarily relate to funds tied up in inventories and receivables.

Inventories are an important asset to the company, and risks associated with the transport and storage of the goods are therefore protected by insurance.

Receivables are also an important asset, making credit granting a natural and important part of the company's business. The company seeks to limit the associated risk by means of effective controls, both when credit is granted and during ongoing trade. The company's receivables are insured against losses to the extent deemed necessary and feasible. Alternatively, sales are made against documents or prepayment.

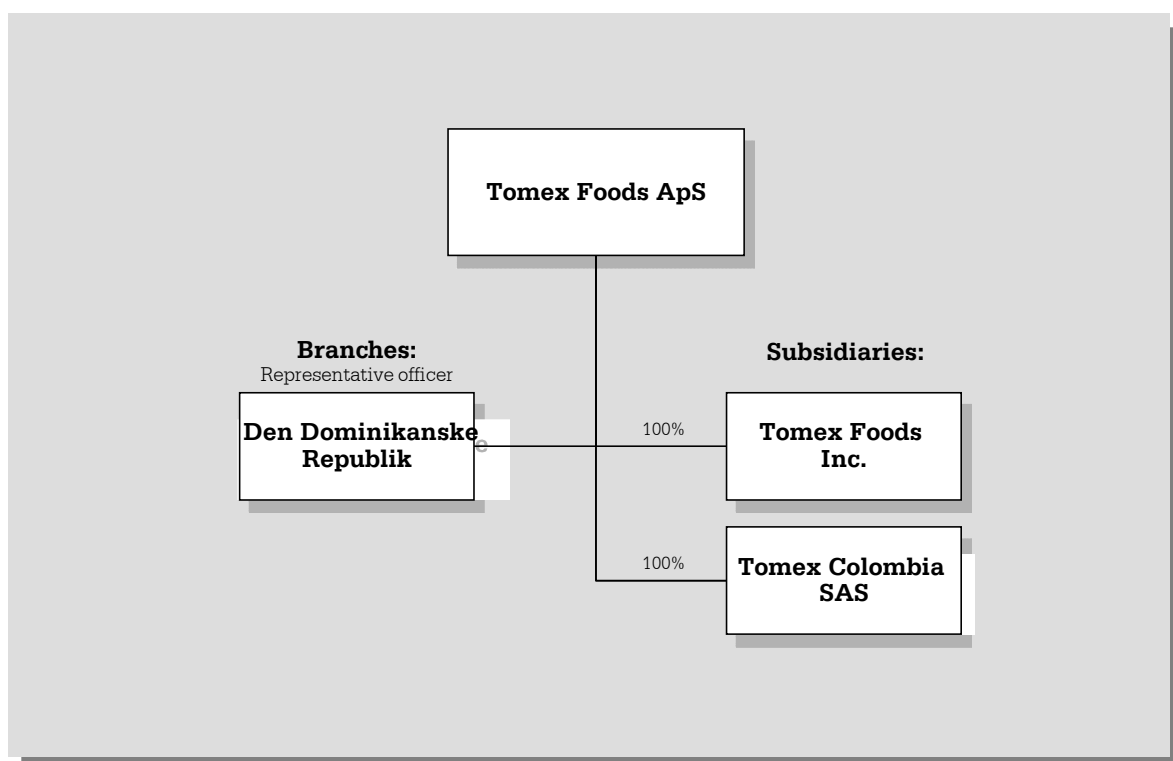

Other matters

The company carries out market and product development on an ongoing basis, including product customisation. No research is carried out. No special environmental matters exist in respect of Tomex Foods ApS. The company has not established any corporate social responsibility policies.

Subsequent events

No important events have occurred after the end of the financial year.

8. Derivative financial instruments

The Board of Directors lays down the framework for the conclusion of contracts for derivative financial instruments. The enterprise concludes contracts for the sole purpose of hedging the currency risk on manufactures goods and goods for resale and trade payables and the future sale of goods in foreign currency. The fair value of the forward exchange contracts amounts to DKK -118 as at 30.06.19, and the unrealised net gain before tax recognised in the indcome statement. The board of directors has waived the accounting rules regarding future hedging. Forward exchange contracts are only concluded with counterparties (Danish banks) with a good credit score from a reputable credit rating agency.

9. Contingent liabilities

Recourse guarantee commitments

The company has provided an unlimited guarantee for the parent's and the parent's other subsidiaries' payables to credit institutions. Credits and limits may not exceed DKK 118 million. Associated companies- liabilities to credit institutions are on balance sheet data DKK 19,1 million.

Other contingent liabilities

The company is taxed jointly with the other Danish companies in the group and is liable for income taxes on a pro rata basis and must comply with any obligations to withhold tax at source on interest, royalties and dividends for the jointly taxed companies. The total tax liability for the jointly taxed comapnies at the balance sheet date has not yet been calculated. For further information, please see the administration company Tomex Holding ApS's financial statements. The liability also includes any subsequent corrections to the calculated tax liability as a consequence of changes made to the jointly taxable income etc.

10. Related parties

Controlling influence	Basis of influence
Tomex Danmark A/S, Aalborg	Ownership
Tomex Holding ApS, Aalborg	Ownership

Related party transactions are not disclosed, as all transactions are entered into in the ordinary course of business at arms' length.

The enterprise/company is included in the consolidated financial statements of the parents Tomex Danmark A/S, Aalborg og Tomex Holding ApS, Aalborg.

11. Accounting policies

GENERAL

The annual report is presented in accordance with the provisions of the Danish Financial Statements Act (*Årsregnskabsloven*) for medium-sized enterprises in reporting class C.

The accounting policies have been applied consistently with previous years.

In accordance with section 112 of the Danish Financial Statements Act, the company has not prepared consolidated financial statements. The company is a subsidiary of Tomex Danmark A/S, Aalborg, CVR no. 15 80 02 40, which prepares consolidated financial statements.

Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including depreciation, amortisation, impairment losses and write-downs, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company, and the value of such assets can be measured reliably. Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company, and the value of such liabilities can be measured reliably. On initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

On recognition and measurement, account is taken of foreseeable losses and risks arising before the date at which the annual report is presented and proving or disproving matters arising on or before the balance sheet date.

CURRENCY

The annual report is presented in Danish kroner (DKK).

On initial recognition, transactions denominated in foreign currencies are translated using the exchange rates applicable at the transaction date. Exchange rate differences between the exchange rate applicable at the transaction date and the exchange rate at the date of payment are recognised in the income statement as a financial item. Receivables, payables and other monetary items denominated in foreign currencies are translated using the

11. Accounting policies - continued -

exchange rates applicable at the balance sheet date. The difference between the exchange rate applicable at the balance sheet date and at the date at which the receivable or payable arose or was recognised in the latest annual report is recognised under financial income or expenses in the income statement. Fixed assets, inventories and other non-monetary assets acquired in foreign currencies are translated using historical exchange rates.

On recognition of foreign subsidiaries which are independent entities, the income statements are translated at the exchange rates applicable at the transaction date or approximate average exchange rates. The balance sheet items are translated using the exchange rates applicable at the balance sheet date. Foreign currency translation adjustments arising from the translation of equity at the beginning of the year using the exchange rates applicable at the balance sheet date and from the translation of income statements from average exchange rates to the exchange rates applicable at the balance sheet date are recognised directly in equity.

Translation adjustments of intercompany balances with independent foreign subsidiaries, measured using the equity method and where the balance is considered to be part of the overall investment, are recognised directly in equity. On the divestment of foreign entities, accumulated exchange differences are recognised in the income statement.

DERIVATIVE FINANCIAL INSTRUMENTS

On initial recognition, derivative financial instruments are measured at cost. Subsequently, they are measured at fair value and recognised under other receivables and other payables, respectively.

The companyThe company does not apply the hedge accounting rules under which changes in the fair value of derivative financial instruments are recognised under other net financials in the income statement.

INCOME STATEMENT**Revenue**

Income from the sale of goods is recognised in the income statement if delivery has taken place and the risk has passed to the buyer before the end of the financial year and where the selling price can be determined reliably and is expected to be paid. Revenue is measured at fair value and is determined exclusive of VAT and other taxes collected on behalf of third parties and less discounts.

11. Accounting policies - continued -**Cost of sales**

Cost of sales comprises cost of sales for the year measured at cost plus any changes in inventories, including write-downs to the extent that these do not exceed normal write-downs.

Other external expenses

Other external expenses comprise costs relating to distribution, sales and advertising and administration, premises and bad debts to the extent that these do not exceed normal write-downs.

Income from equity investments in group enterprises

For equity investments in subsidiaries, measured using the equity method, the share of the enterprises' profit or loss is recognised in the income statement after elimination of unrealised intercompany profits and losses and less any goodwill amortisation and impairment losses.

Income from equity investments in subsidiaries also comprises gains and losses on the sale of equity investments.

Other net financials

Interest income and interest expenses, foreign exchange gains and losses on transactions denominated in foreign currencies etc. are recognised in other net financials.

Tax on profit/loss for the year

The current and deferred tax for the year is recognised in the income statement as tax on the profit/loss for the year with the portion attributable to the profit/loss for the year, and directly in equity with the portion attributable to amounts recognised directly in equity.

The company is jointly taxed with Danish consolidated enterprises.

In connection with the settlement of joint taxation contributions, the current Danish income tax is allocated between the jointly taxed enterprises in proportion to their taxable incomes. This means that enterprises with a tax loss receive joint taxation contributions from enterprises which have been able to use this loss to reduce their own taxable profit.

11. Accounting policies - continued -**BALANCE SHEET****Equity investments in group enterprises**

Equity investments in subsidiaries are recognised and measured according to the equity method, meaning that these equity investments are measured at the proportionate share of the enterprises' equity value, determined according to the accounting policies of the parent, adjusted for the remaining value of positive or negative goodwill and gains and losses on transactions with the enterprises in question.

Equity investments in subsidiaries with a negative carrying amount are measured at DKK 0. Receivables that are considered part of the combined investment in the enterprises in question are impaired by any remaining negative equity value. Other receivables from such enterprises are impaired to the extent that such receivables are considered uncollectible. Provisions to cover the remaining negative equity value are recognised only to the extent that the company has a legal or constructive obligation to cover the liabilities of the enterprise in question.

Gains or losses on the divestment of subsidiaries are determined as the difference between the divestment consideration and the carrying amount of net assets at the time of sale, including non-amortised goodwill, as well as the expected costs of divestment or discontinuation. Gains and losses are recognised in the income statement under income from equity investments.

Impairment losses on fixed assets

The carrying amount of fixed assets which are not measured at fair value is assessed annually for indications of impairment over and above what is reflected in depreciation and amortisation.

If there are indications of impairment, an impairment test is conducted of individual assets or groups of assets.

The assets or groups of assets are impaired to the lower of recoverable amount and carrying amount.

Impairment losses are reversed when the reasons for the impairment no longer exist.

11. Accounting policies - continued -**Inventories**

Inventories are measured at cost calculated according to the FIFO principle. Inventories are written down to the lower of cost and net realisable value.

The cost of raw materials and consumables as well as goods for resale is determined as purchase prices plus expenses resulting directly from the purchase.

The net realisable value of inventories is determined as the selling price less costs of completion and costs necessary to make the sale and is determined taking into account marketability, obsolescence and the expected development in the selling price.

Receivables

Receivables are measured at amortised cost, which usually corresponds to the nominal value, less write-downs for bad debts.

Write-downs for bad debts are determined based on an individual assessment of each receivable if there is no objective evidence of individual impairment of a receivable.

Prepayments

Prepayments recognised under assets comprise costs incurred in respect of subsequent financial years.

Cash

Cash includes deposits in bank accounts as well as operating cash.

Equity

The net revaluation of equity investments in subsidiaries is recognised in the net revaluation reserve in equity according to the equity method to the extent that the carrying amount exceeds the cost.

Current and deferred tax

Current tax payable and receivable is recognised in the balance sheet as tax computed on the basis of the taxable income for the year, adjusted for tax paid on account.

11. Accounting policies - continued -

Joint taxation contributions payable and receivable are recognised as income tax under receivables or payables in the balance sheet.

Deferred tax liabilities and tax assets are recognised on the basis of all temporary differences between the carrying amounts and tax bases of assets and liabilities.

Deferred tax assets are recognised, following an assessment, at the expected realisable value through offsetting against deferred tax liabilities or elimination in tax on future earnings.

Deferred tax is measured on the basis of the tax rules and at the tax rates which, according to the legislation in force at the balance sheet date, will be applicable when the deferred tax is expected to crystallise as current tax.

Payables

Short-term payables are measured at amortised cost, normally corresponding to the nominal value of such payables.

CASH FLOW STATEMENT

Referring to section 86(4) of the Danish Financial Statements Act a cash flow statement has not been prepared as the enterprise is included in the consolidated cash flow statement.
