Notes:

- To ensure the greatest possible applicability of this document, British English terminology has been used.
- Please note that decimal points have not been used in the usual English way. This means that for instance DKK 146.940 means the amount of DKK 146,940, and that 23,5 % means 23.5 %.

Management's report

The board of directors and the executive board have today presented the annual report of Danrec A/S for the financial year 1 January to 31 December 2016.

The annual report has been presented in accordance with the Danish Financial Statements Act.

We consider the accounting policies used appropriate, and in our opinion the annual accounts provide a true and fair view of the company's assets and liabilities and its financial position as on 31 December 2016 and of the company's results of its activities in the financial year 1 January to 31 December 2016.

We are of the opinion that the management's review includes a fair description of the issues dealt with.

The annual report is recommended for approval by the general meeting.

The independent auditor's reports

To the shareholder of Danrec A/S

Report on extended review of the annual accounts

We have performed extended review of the annual accounts of Danrec A/S for the financial year 1 January to 31 December 2016. The annual accounts comprise accounting policies used, profit and loss account, balance sheet and notes, and they are prepared in accordance with the Danish Financial Statements Act.

The management's responsibility for the annual accounts

The management is responsible for the preparation of annual accounts that give a true and fair view in accordance with the Danish Financial Statements Act. Furthermore, the management is responsible for such internal control as the management determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on the annual accounts. We performed the extended review in accordance with the standard from the Danish Business Authority applicable on auditor's reports to small enterprises and in accordance with the standard from the Danish Institute of State Authorised Public Accountants applicable on extended review of annual accounts prepared in accordance with the Danish Financial Statements Act.

This requires that we comply with the Danish Act on Approved Auditors and Audit Firms and with the ethical requirements of the Danish Institute of State Authorised Public Accountants and that we plan and perform our audit procedures with the purpose of achieving moderate assurance as to our opinion on the annual accounts. Furthermore, it requires that we perform particularly required additional procedures with a view to achieving further assurance as to our opinion.

An extended review comprises procedures primarily comprising inquiries to the management and to other persons within the enterprise when appropriate, analytical procedures, and the particularly required additional procedures along with an evaluation of the achieved audit evidence.

The scope of the procedures performed during an extended review is less than in case of an audit, and consequently, we do not express any audit opinion on the annual accounts.

Opinion

Based on the work performed, it is our opinion that the annual accounts give a true and fair view of the company's assets, liabilities and financial position at 31 December 2016 and of the results of the company's operations for the financial year 1 January to 31 December 2016 in accordance with the Danish Financial Statements Act.

Statement on the management's review

The management is responsible for the management's review.

The independent auditor's reports

Our opinion on the annual accounts does not cover the management's review, and we do not express any kind of assurance opinion on the management's review.

In connection with our extended review of the annual accounts, our responsibility is to read the management's review and in that connection consider whether the management's review is materially inconsistent with the annual accounts or our knowledge obtained during the extended review, or whether it otherwise appears to contain material misstatement.

Furthermore, it is our responsibility to consider whether the management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we believe that the management's review is in accordance with the annual accounts and that it has been prepared in accordance with the requirements of the Danish Financial Statement Acts. We did not find any material misstatement in the management's review.

Management's review

The principal activities of the company

Like previous years, the principal activity is the treatment of regranulates with output in the shape of finished plates.

Development in activities and financial matters

The profit and loss account covers the period 1 January to 31 December 2016 and shows a result of DKK 2.070.445 against a result of DKK 817.742 last year. The balance sheet shows equity of DKK 5.887.311.

The management finds the result satisfactory.

Accounting policies used

The annual report for Danrec A/S is presented in accordance with those regulations of the Danish Financial Statements Act concerning companies identified as class B enterprises.

The accounting policies used are unchanged compared to last year, and the annual accounts are presented in Danish kroner (DKK).

Recognition and measurement in general

Income is recognised in the profit and loss account concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs, these including depreciation, amortisation, writedown, provisions, and reversals which are due to changes in estimated amounts previously recognised in the profit and loss account are recognised in the profit and loss account.

Assets are recognised in the balance sheet when the company is liable to achieve future, financial benefits and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the company is liable to lose future, financial benefits and the value of the liability can be measured reliably.

At the first recognition, assets and liabilities are measured at cost. Later, assets and liabilities are measured as described below for each individual accounting item.

At recognition and measurement, such predictable losses and risks are taken into consideration, which may appear before the annual report is presented, and which concerns matters existing on the balance sheet date.

Translation of foreign currency

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognised in the profit and loss account as an item under net financials.

The profit and loss account

Gross profit

The gross profit comprises the net turnover, changes in inventories, and external costs.

The net turnover is recognised in the profit and loss account if delivery and risk transfer to the buyer have taken place before the end of the year, and if the income can be determined reliably and is expected to be received. The net turnover is recognised exclusive of VAT and taxes and with the deduction of any discounts granted in connection with the sale.

Costs of sales includes costs for the purchase of raw materials and consumables less discounts and changes in inventories.

Accounting policies used

Other external costs comprise costs for distribution, sales, advertisement, administration, premises, loss on debtors, and operational leasing costs.

Staff costs

Staff costs include salaries and wages including holiday allowances, pensions and other costs for social security etc. for staff members. Staff costs are less public reimbursements.

Depreciation, amortisation and writedown

Depreciation, amortisation and writedown comprise depreciation, amortisation and writedown for the year and gains and losses on disposal of intangible and tangible fixed assets.

Net financials

Net financials comprise interest, realised and unrealised capital gains and losses concerning financial assets and liabilities, additions and reimbursements under the Danish tax prepayment scheme, etc. Financial income and expenses are recognised in the profit and loss account with the amounts that concerns the financial year.

Tax of the results for the year

The tax for the year comprises the current tax for the year and the changes in deferred tax, and it is recognised in the profit and loss account with the share referring to the results for the year.

The balance sheet

Tangible fixed assets

Tangible fixed assets are measured at cost with deduction of accrued depreciation and writedown. Land is not depreciated.

The basis of depreciation is cost with deduction of any expected residual value after the end of the useful life of the asset. The amortisation period and the residual value are determined at the acquisition date and reassessed annually. If the residual value exceeds the book value, the amortisation discontinues.

If the amortisation period or the residual value is changed, the effect on amortisation will in the future be recognised as a change in the accounting estimates.

The cost comprises the acquisition cost and costs directly attached to the acquisition until the time when the asset is ready for use.

Depreciation takes place on a straight line basis and based on an evaluation of the expected useful life:

Buildings	30 years
Technical plants and machinery	3-22 years
Other plants, operating assets, fixtures and furniture	3-6 years

Accounting policies used

Minor assets with an expected useful life of less than 1 year are recognised as costs in the profit and loss account in the year of acquisition.

Profit or loss deriving from the sales of tangible fixed assets is measured as the difference between the sales price reduced by the selling costs and the book value at the time of the sale. Profit or loss is recognised in the profit and loss account under depreciation.

Leasing contracts

Payments in connection with operational leasing and other rental agreements are recognised in the profit and loss account over the term of the contract. The company's total liabilities concerning operational leasing and rental agreements are recognised under contingencies etc.

Inventories

Inventories are measured at cost. In case the net realisable value is lower than the cost, writedown takes place at this lower value.

Debtors

Debtors are measured at face value. In order to meet expected losses, writedown takes place at the net realisable value.

Accrued income and deferred expenses

Accrued income and deferred expenses recognised under assets comprise incurred costs concerning the next financial year.

Available funds

Available funds comprise cash at bank and in hand.

Corporate tax and deferred tax

Current tax receivable and tax liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on previous years' taxable income and prepaid taxes. Tax receivable and tax liabilities are set off to the extent that legal right of set-off exists and if the items are expected to be settled net or simultaneously.

Deferred tax is measured on the basis of all temporary differences in assets and liabilities with a balance sheet focus.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation on the balance sheet date and prevailing when the deferred tax is expected to be released as current tax.

Liabilities

Liabilities are measured at amortised cost which usually corresponds to the nominal value.
