Statement by the Executive Board and Board of Directors

The Executive Board and Board of Directors have today discussed and approved the annual report of Cryptomathic A/S for the financial year 1 January – 31 December 2020.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

It is our opinion that the financial statements give a true and fair view of the company's assets, liabilities and financial position at 31 December 2020 and of the results of the company's operations for the financial year 1 January – 31 December 2020.

Further, in our opinion, the Management's review gives a fair review of the issues included.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's reports

To the shareholders of Cryptomathic A/S

Opinion

We have audited the financial statements of Cryptomathic A/S for the financial year 1 January – 31 December 2020, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2020 and of the results of the Company's operations for the financial year 1 January – 31 December 2020 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue

an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Independent auditor's report

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

Notes

Note 1 Accounting policies

The annual report of Cryptomathic A/S has been prepared in accordance with the provisions applying to reporting class B enterprises under the Danish Financial Statements Act.

In accordance with section 32 of the Danish Financial Statements Act the company has aggregated the items revenue, cost of sales and other operating income and instead added the item gross profit.

In accordance with section 112 (1) of the Danish Financial Statements Act the company has omitted the presentation of consolidated financial statements.

Effective from the financial year 2020, the Company has implemented amending act no. 1716 of 27 December 2018 to the Danish Financial Statements Act. The implementation of the amending act has not affected the Company's accounting policies on recognition and measurement of assets and liabilities but has solely entailed a requirement for further disclosures. The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date.

Foreign exchange differences are recognized in the income statement as interest income or expense and similar items.

Non-current assets acquired in foreign currency are measured at the exchange rate at the transaction date.

Income statement

Gross profit

In accordance with §32 of the Danish Financial Statements Act the company has aggregated the items revenue, cost of sales and other operating income and instead added the item gross profit.

Note 1 Accounting policies (continued)

Revenue from sales is recognized in net sales when transition of the main benefits and risks to the buyer has taken place, the income can be calculated reliably and payment is expected to be received. The time of transition of the main benefits and risks is based on standard delivery terms based on Incoterms® 2020. Net sales are measured at the fair value of the agreed consideration exc. VAT and taxes charged on behalf of third parties. All forms of discounts are recognized in net sales.

Contract work in progress is recognized as gross profit by reference to the stage of completion. Accordingly, gross profit reflects the selling price of work performed during the year.

Production costs comprise costs, including depreciation, amortisation and salaries, incurred in generating revenue for the year. Such costs include direct and indirect costs of raw materials and consumables, wages and salaries, rent and leases as well as impairment on assets.

Production costs also comprise research and development costs that do not qualify for capitalisation as well as amortisation of capitalised development costs.

Gross profit also comprises costs of product improvement and research and development costs.

Sales and distribution costs

Costs incurred during the year relating to sales staff, advertising and exhibitions etc. are recognized as distribution costs.

Administrative costs

Administrative expenses comprise expenses incurred during the year for administrative staff, management, office premises and office expenses, and depreciation of other fixtures and fittings, tools and equipment.

Profits/losses from investments in subsidiaries

The proportionate share of the results after tax of the individual enterprises after full elimination of intra-group profits/losses, amortization of goodwill and gain/loss on disposal of shares is recognized in the income statement of the company.

Profit/loss from investments in associates

The item includes dividend received from associates in so far as the dividend does not exceed the accumulated earnings in the subsidiary in the period of ownership.

Notes

Note 1 Accounting policies (continued)

Interest income and expense and similar items

Interest income and expense and similar items comprise interest income and expense, gains and losses on securities, payables and transactions denominated in foreign currencies, amortization of financial assets and liabilities as well as surcharges and refunds under the on-account tax scheme etc.

Tax on profit/loss for the year

The company is covered by the Danish regulations concerning compulsory joint taxation with the parent company Cryptomathic Holding ApS and its Danish parent companies. The current Danish corporation tax is apportioned through payment of joint tax contribution between the jointly taxed companies in relation to their taxable incomes.

Tax for the year, which comprises the year's joint tax contribution and changes in deferred tax, is included in the income statement with the proportion that is attributable to the year's result and directly in the equity with the proportion that is attributable to the items directly in the equity. The recognized tax relating to the extraordinary profit/loss for the year is allocated to this item whereas the remaining tax is allocated to the profit/loss for the year from ordinary activities.

Balance sheet

Property, plant and equipment

Property, plant and equipment is measured at initial recognition at cost.

Fixtures and fittings, tools and equipment are subsequently measured at cost less accumulated depreciation. The depreciation basis is calculated taking into account the residual value of the asset after completion of the useful life and reduced by any write-downs. The amortization period and the residual value are determined at the acquisition date and are reviewed annually. If the residual value exceeds the carrying amount of the asset, depreciation ceases. Changes in the amortization period or residual value include the effect on depreciation for the future as a change in accounting estimates.

The cost includes the acquisition price and costs directly related to the acquisition until the date of completion of the asset. Indirect production costs and borrowing costs are not included in the cost. The cost of an aggregate asset is divided into separate components, which are depreciated separately if the useful life of the individual components is different.

Linear depreciation is made over the expected useful life of fixtures and fittings, tools and equipment for 3-5 years.

Notes

Note 1 Accounting policies (continued)

Profits and losses on disposal of property, plant and equipment are calculated as the difference between the selling price less selling expenses and the carrying amount at the time of sale. Profits or losses are recognized in the income statement under other operating income and other operating expenses. are measured at cost less accumulated depreciation or the recoverable amount if this is lower than the carrying amount.

Lease contracts

All lease contracts are considered to be operating leases. Operating lease and rent expenses are recognized in the income statement over the lease term. The aggregate amounts of the company's lease commitments are disclosed in contingent liabilities.

Investments in subsidiaries

Investments in subsidiaries are measured according to the equity method.

The investments are measured in the balance sheet at the proportionate share of the enterprises' net asset values calculated in accordance with the parent company's accounting policies minus or plus unrealized intra-group profits and losses and with the addition of the carrying amount of goodwill.

Subsidiaries with negative net asset values are measured at DKK 0 (nil), and any amounts owed by such enterprises are written down by the parent company's share of the negative net asset value. Where the negative net asset value exceeds the amount owed, the remaining amount is recognized under provisions.

Net revaluation of investments in subsidiaries is transferred to the reserve for net revaluation according to the equity method in equity to the extent that the carrying amount exceeds cost.

Investments in associates

Investments in associates are measured at cost. Dividends received that exceed the accumulated earnings in the subsidiary or the associate during the period of ownership are treated as a reduction in the cost of acquisition.

Notes

Note 1 Accounting policies (continued)

Receivables

Receivables are measured at amortized cost.

Receivables from the parent company are calculated as initial amount plus the cumulative amortization of the difference between the initial amount and the maturity amount using a constant effective interest rate.

Regarding other receivables amortized cost corresponds in all material respects to nominal value. Write-down is made for bad debt losses.

Contract work in progress

Contract work in progress is measured at the selling price of the work performed. The selling price is measured by reference to the stage of completion at the balance sheet date and total expected income from the contract work. Individual contract work in progress is recognized in the balance sheet under either receivables or liabilities, depending on whether the net amount of the selling price less progress billings and prepayments is positive or negative.

Prepayments

Prepayments comprise costs incurred concerning subsequent financial years.

Securities

Listed Danish securities, recognized in current assets, are measured at fair value at the balance sheet date. Changes in fair value are recognized in the income statement.

Cash and cash equivalents

Cash and cash equivalents include bank deposits.

Proposed dividend

Dividend proposed for the year is recognized as a liability at the date when it is adopted at the annual general meeting (declaration date). Dividend expected to be distributed for the financial year is presented as a separate line item under "Equity".

Net revaluation reserve according to the equity method

Net revaluation of equity investments in subsidiaries is recognised at cost in the net revaluation reserve according to the equity method. The reserve can be eliminated in case of losses, realisation of equity investments or changes in accounting estimates. The reserve cannot be recognised at a negative amount.

Notes

Note 1 Accounting policies (continued)

Impairment of non-current assets

The carrying amount of property, plant and equipment and investments in subsidiaries is assessed annually for indications of impairment, in addition to that expressed by depreciation.

If there are indications of impairment, impairment tests of each asset or group of assets are carried out. Write-downs are made at the recoverable amount if this is lower than the carrying amount.

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the present value of the asset or the group of assets. Previously recognized impairment losses are reversed when the reason for recognition no longer exists.

Corporation tax and deferred tax

Joint tax contribution liabilities and receivables calculated on the taxable income for the year, adjusted for any tax from previous years' taxable income as well as prepaid on-account taxes, are recognized in the balance sheet as corporation tax liability or corporation tax receivable.

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. Deferred tax assets, including the tax base of tax loss carryforwards, are recognized at the expected value of their utilization; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity and jurisdiction. Changes in deferred tax assets resulting from a change in the tax rate are recognized in the income statement.

Other liabilities

Other liabilities are measured at net realizable value.

Deferred income

Deferred income comprise payments received for services delivered in subsequent financial years.

This document is digitally signed using Penneo.com. The digital signature data within the document is secured and validated by the computed hash value of the original document. The document is locked and timestamped with a certificate from a trusted third party. All cryptographic evidence is embedded within this PDF, for future validation if necessary.

How to verify the originality of this document

This document is protected by an Adobe CDS certificate. When you open the

document in Adobe Reader, you should see, that the document is certified by **Penneo e-signature service** <penneo@penneo.com>. This guarantees that the contents of the document have not been changed.

You can verify the cryptographic evidence within this document using the Penneo validator, which can be found at <https://penneo.com/validate>
