## Statement by Management on the annual report

The Board of Directors and the Executive Board have today considered and approved the annual report of Novasol A/S for the financial year 01.01.2017 – 31.12.2017.

The annual report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent financial statements give a true and fair view of the Group's and the Parent's financial position at 31.12.2017 and of the results of their operations and the consolidated cash flows for the financial year 01.01.2017 – 31.12.2017.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

## Independent auditor's report

### To the shareholder of Novasol A/S

#### Opinion

We have audited the consolidated financial statements and the parent financial statements of Novasol A/S for the financial year 01.01.2017 – 31.12.2017, which comprise the income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for the Group as well as the Parent, and the consolidated cash flow statement. The consolidated financial statements and the parent financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent financial statements give a true and fair view of the Group's and the Parent's financial position at 31.12.2017, and of the results of their operations and the consolidated cash flows for the financial year 01.01.2017 – 31.12.2017 in accordance with the Danish Financial Statements Act.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements section of this auditor's report. We are independent of the Group in accordance with the International Ethics Standards Board of Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Management's responsibilities for the consolidated financial statements and the parent financial statements

Management is responsible for the preparation of consolidated financial statements and parent financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements and parent financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the parent financial statements, Management is responsible for assessing the Group's and the Entity's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements unless Management either intends to liquidate the Group or the Entity or to cease operations, or has no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and the parent financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional

## Independent auditor's report

requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and parent financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional 4ccurred4m throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and the parent financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the parent financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements and the parent financial statements, including the disclosures in the notes, and whether the consolidated financial statements and the parent financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

## Independent auditor's report

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the consolidated financial statements and the parent financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the consolidated financial statements and the parent financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

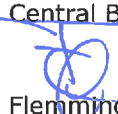

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the consolidated financial statements and the parent financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

## Management commentary

### Primary activities

Novasol is an intermediary of individual holiday homes rental in Denmark and in 28 European countries under the brands Novasol, Dansommer, Fanøspecialisten, Dansk Familieferie, Cuendet, Happy Home, Ardennes Etape and Friendly Rentals. The Company focuses on continuous development of its products and services so as to ensure that the house or apartment owner obtains a cash profit from the collaboration with Novasol.

Based on an agreement concluded with the individual owner, the holiday home or apartment is offered for rental either through travel agencies or directly to the end-user in the European countries.

Insofar as holiday homes in Denmark are concerned, the Company is also in charge of providing services to the tenant through its own 26 local offices in Denmark.

The Company is the market leader in Europe within holiday home rental and has more than 52,000 holiday homes under its wings. The Company aspires to be the preferred partner for house owners and holiday guests alike.

### Development in activities and finances

In 2017, the Company experienced a significant increase in revenue of DKK 403 million equal to an increase of 15%. A satisfactory increase in the rental of holiday homes in the Company's overall product portfolio, including the acquired businesses in 2016, made all vacation destinations show improvements.

Rental of Danish homes set a new record again in 2017 and the Company is pleased to note that the average occupancy per holiday house also reached new heights.

The record high rental of Danish holiday houses was due to an increase in demand from the large markets, Germany and Denmark. This created an increase in occupancy for the individual house and enabled the Company to strengthen its position as market leader.

The individual houseowner did in general experience an increase in rental income due to the occupancy growth. Subsequent to record growth in rental income for the 2017 season, the Company is pleased to note continued growth in pre-bookings for the 2018 season.

The growth in Southern and Central Europe continued in 2017 and the Company has continued the expansion of the organisation in Southern and Central Europe to strengthen its market position and to address the continued strong demand for rental of holiday houses in the region.

In 2017, the Company has increased marketing activities in all of its main customer markets to drive continued growth in both rental income and occupancy and to improve the Company's position in a market characterised by major competition.

Rental expenses increased from DKK 1,988 million in 2016 to DKK 2,208 million in 2017.

## Management commentary

Gross profit increased from DKK 397.9 million to DKK 467.2 million. Depreciation, amortisation and impairment losses increased from DKK 35.8 million to DKK 53.6 million. Amortisation of intangibles increased by 13.7 million due to the acquisitions made in 2016.

Profit for the year before tax increased from DKK 83.2 million in 2016 to DKK 96.0 million in 2017, which is regarded as satisfactory.

Equity amounted to DKK 583 million corresponding to an equity ratio of 31%. Effective 1 January 2018 the Company began reporting under a new revenue recognition standard which recognizes revenue on arrivals basis rather than the time of the booking. The 2017 statutory accounts have been prepared under the old basis where bookings for arrival in 2018 at a value of approximately DKK 245 million have been recognized. Equity 31 December 2017 using the new revenue recognition policy would have been approximately DKK 338 million.

The Group had an average of 780 employees compared to 745 prior year.

The Company wishes to maintain its position as the leading European provider of holiday homes. This position will be pursued through acquisitions as well as organic growth. The Company expects continued consolidation on the Danish market and intends to participate in the consolidation.

### Unusual circumstances affecting recognition and measurement

There were no unusual circumstances in the financial year.

### Outlook

In 2018, the Company expects an increase in revenue as well as profit, driven by the continued growth in the Company's activities in Denmark, South and Central Europe combined with further investment in marketing on the most important customer markets.

The Company is still experiencing an increase in demand for holiday in Danish holiday homes, as a consequence of intensified marketing of Danish holiday houses on the important customer markets in Germany, Scandinavia, Benelux and the UK.

The Company expects the consolidation in the industry in the coming years to continue, and it expects to be active in this consolidation and to acquire both small and large companies in Denmark as well as abroad.

### Particular risks

#### Operating risks

In recent years, the Company has been reviewing its VAT situation and its settlement of indirect taxes in the countries in which the Company conducts its activities. The Company has an ongoing collaboration with relevant consultants in the individual European countries to monitor compliance with the European legislation. Management does not believe that this presents a significant operating risk.

#### Financial risks

Management does not believe that there are any significant financial risks.

## Management commentary

### Currency risks

The activities abroad mean that the results, cash flows and equity are affected by developments in foreign exchange and interest rates for the various currencies. The most important foreign currencies are EUR, NOK and SEK. The currency policy is to hedge significant commercial risks. The hedging is carried out by means of foreign exchange contracts and is based on a risk assessment of the individual currencies relative to DKK.

The Company does not engage in speculative currency transactions.

Exchange risks attributable to investments in subsidiaries abroad are not hedged, as such risks are not deemed to be significant.

### Interest-rate risks

As the Company does not have any significant interest-bearing items over prolonged periods, changes in the level of interest rates will not have any material impact on the profit for the year.

### Credit risks

The Company does not have significant risks regarding any single customer as there is a large spread among customers.

### Statutory report on corporate social responsibility

The Company wishes to comply with legislation and rules in the countries and local communities in which it operates. The Company has adopted the parent company's policies for integrating corporate social responsibility as part of the Company's strategy and activities. Therefore, no separate CSR report is presented.

Instead reference is made to Wyndham Worldwide's policy on the following Internet address:  
<http://www.wyndhamworldwide.com/corporate-responsibility>

### Statutory report on the underrepresented gender

As required by Section 139 of the Danish Companies Act the Company has set qualitative target figures for the purpose of female employees from 1 April 2013 still feeling that they have the same career and leadership opportunities as the male employees.

### The target for the Board

The Company is part of Wyndham Worldwide Corporation, which partly affects the composition of the Board and the decisions that need to be dealt with by the Board. It is the goal of the Company that the board composition can, at all times, effectively perform the duties of the Board.

Members of the Board are and will be designated on the basis of the total qualifications of the member and not with regard to the gender. The gender distribution of the Company's shareholder-elected directors is the following in 2017: 2 men and 1 woman.

The current gender distribution at the Company's other management levels are 50% men and 50% women. Based on Act No. 1383 of 23 December 2012, the Company has established qualitative target

## Management commentary

figures for the purpose of female employees from 1 April 2013 still feeling that they have the same career and leadership opportunities as the male employees.

### **Target figures in other management levels**

It is the intention of Company that there is an appropriate distribution of men and women at the Company's management levels. The current gender distribution in the management team is 60% men and 40% women. The Company believes that the qualitative objectives have been met as there is an appropriate distribution of men and women at the management levels in general.

The appropriate distribution of men and women is ensured by offering employees, regardless of gender, the same opportunities to develop their professional and personal skills in areas such as personal career development and training, and gender equality will be taken into consideration when appointing board members. The Company's other recruitment criteria and the employees' individual skills will, however, determine the appointment of a board member.

The Company wants to be able to follow-up on the progress of the gender composition of the management team and, if necessary, make adjustments of the target figures that have been set.

### **Events after the balance sheet date**

In May 2018 all the shares of the Company were sold by Wyndham Worldwide Group as part of a deal where Wyndham Worldwide Inc. sold its rentals businesses in Europe to Platinum Equity, USA.

As part of the transaction all the Company's intercompany positions have been settled and a new financing structure has been implemented for the European Rentals group.

Likewise in connection with the transaction, the Company has now entered into counter indemnification arrangements in favor of certain European Civil Aviation authorities and travel guarantee funds.

These indemnities will only apply in the event of the European travel guarantee funds or Civil Aviation Authority calling on the guarantees in the event that other companies in the European Rentals group becoming insolvent. The total value of the indemnifications, to which all companies in the new European Rentals group are jointly liable, amount to approximately DKK 240 million.

## Notes to parent financial statements

	<b>2017</b> <b>DKK'000</b>	<b>2016</b> <b>DKK'000</b>
<b>1. Revenue</b>		
Germany	1,434,410	1,388,811
Scandinavia	756,802	693,646
Other countries	579,842	531,268
	<b>2,771,054</b>	<b>2,613,725</b>

Effective 1 January 2018 the Company began reporting under a new revenue recognition standard which recognizes revenue on arrivals basis rather than the time of the booking. The 2017 statutory accounts have been prepared under the old basis where bookings for arrival in 2018 at a value of approximately DKK 245 million have been recognized. Equity 31 December 2017 using the new revenue recognition policy would have been approximately DKK 338 million.

Wyndham Worldwide Denmark ApS, Denmark

### **22. Transactions with related parties**

Only transactions with related parties not made on arm's length conditions are disclosed. All transactions with related parties are made at arm's length conditions.

## Accounting policies

### Reporting class

This annual report has been presented in accordance with the provisions of the Danish Financial Statements Act governing reporting class C enterprises (large).

The accounting policies applied to these consolidated financial statements and parent financial statements are consistent with those applied last year.

### Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Entity, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Entity has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Entity, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

### Consolidated financial statements

The consolidated financial statements comprise the Parent and the group enterprises (subsidiaries) that are controlled by the Parent. Control is achieved by the Parent, either directly or indirectly, holding more than 50% of the voting rights or in any other way possibly or actually exercising controlling influence.

### Basis of consolidation

The consolidated financial statements are prepared on the basis of the financial statements of the Parent and its subsidiaries. The consolidated financial statements are prepared by combining uniform items. On consolidation, intra-group income and expenses, intra-group accounts and dividends as well as profits and losses on transactions between the consolidated enterprises are eliminated. The financial statements used for consolidation have been prepared applying the Group's accounting policies.

Subsidiaries' financial statement items are recognised in full in the consolidated financial statements.

Investments in subsidiaries are offset at the pro rata share of such subsidiaries' net assets at the acquisition date, with net assets having been calculated at fair value.

## Accounting policies

### Business combinations

Newly acquired or newly established enterprises are recognised in the consolidated financial statements from the time of acquiring or establishing such enterprises. Divested or wound-up enterprises are recognised in the consolidated income statement up to the time of their divestment or winding-up.

The purchase method is applied at the acquisition of new enterprises, under which identifiable assets and liabilities of these enterprises are measured at fair value at the acquisition date. Provisions for costs of restructuring of the enterprise acquired are only made in so far as such restructuring was decided by the enterprise acquired prior to acquisition. Allowance is made for the tax effect of restatements.

Positive differences in amount (goodwill) between cost of the acquired share and fair value of the assets and liabilities taken over are recognised under intangible assets, and they are amortised systematically over the income statement based on an individual assessment of their useful life. If the useful life cannot be estimated reliably, it is fixed at 20 years. Useful life is reassessed annually. Negative balances (negative goodwill) are recognised as income in the income statement.

### Profits or losses from divestment of equity investments

Profits or losses from divestment or winding-up of subsidiaries are calculated as the difference between selling price or settlement price and the carrying amount of the net assets at the time of divestment or winding-up, inclusive of non-amortised goodwill and estimated divestment or winding-up expenses.

### Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the rate in effect at the payment date, or the rate at the balance sheet date, are recognised in the income statement as financial income or financial expenses. Property, plant and equipment, intangible assets, inventories and other non-monetary assets that have been purchased in foreign currencies are translated using historical rates.

When recognising foreign subsidiaries and associates that are independent entities, the income statements are translated at average exchange rates for the months that do not significantly deviate from the rates at the transaction date. Balance sheet items are translated using the exchange rates at the balance sheet date. Goodwill is considered belonging to the independent foreign entity and is translated using the exchange rate at the balance sheet date. Exchange differences arising out of the translation of foreign subsidiaries' equity at the beginning of the year at the balance sheet date exchange rates as well as out of the translation of income statements from average rates to the exchange rates at the balance sheet date are recognised directly in equity.

### Derivative financial instruments

On initial recognition in the balance sheet, derivative financial instruments are measured at cost and subsequently at fair value. Derivative financial instruments are recognised under other receivables.

## Accounting policies

Changes in the fair value of derivative financial instruments classified as and complying with the requirements for hedging the fair value of a recognised asset or a recognised liability are recorded in the income statement together with changes in the value of the hedged asset or the hedged liability.

Changes in the fair value of derivative financial instruments classified as and complying with the requirements for hedging future transactions are recognised directly in equity. When the hedged transactions are realised, the accumulated changes are recognised as part of cost of the relevant financial statement items.

### Income statement

#### Revenue

The recognition criterion for revenue for rental of holiday houses is acceptance of the rental agreement.

#### Cost of sales

The corresponding rental expenses are expensed.

#### Other external expenses

Other external expenses comprise costs for catalogues, distribution, sales, advertising, administration, premises, bad debts etc.

#### Staff costs

Staff costs comprise salaries and wages as well as social security contributions, pension contributions, etc for entity staff.

#### Depreciation, amortisation and impairment losses

Amortisation, depreciation and impairment losses relating to intangible assets and property, plant and equipment comprise amortisation, depreciation and impairment losses for the financial year, calculated on the basis of the residual values and useful lives of the individual assets and impairment testing as well as gains and losses from the sale of intangible assets as well as property, plant and equipment.

#### Income from investments in group enterprises

Income from investments in group enterprises comprises the pro rata share of the individual enterprises' profit/loss after full elimination of internal profits or losses.

#### Other financial income from group enterprises

Other financial income from group enterprises comprises interest income etc on receivables from group enterprises.

#### Other financial income

Other financial income comprises dividends etc received on other investments, interest income, net capital gains on securities, payables and transactions in foreign currencies, amortisation of financial assets as well as tax relief under the Danish Tax Prepayment Scheme etc.

## Accounting policies

### Financial expenses from group enterprises

Financial expenses from group enterprises comprise interest expenses etc from payables to group enterprises.

### Other financial expenses

Other financial expenses comprise interest expenses, including net capital losses on securities, payables and transactions in foreign currencies, amortisation of financial liabilities as well as tax surcharge under the Danish Tax Prepayment Scheme etc.

### Tax on profit/loss for the year

Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognised in the income statement by the portion attributable to the profit for the year and recognised directly in equity by the portion attributable to entries directly in equity.

Current tax liabilities and current tax receivables are recognised in the balance sheet as calculated tax on the year's taxable income, adjusted for paid on-account tax.

### Balance sheet

#### Goodwill

Goodwill is the positive difference between cost and value in use of assets and liabilities taken over as part of the acquisition. Goodwill is amortised straight-line over its estimated useful life which is fixed based on the experience gained by Management for each business area. Useful life is determined based on an assessment of whether the enterprises are strategically acquired enterprises with a strong market position and a long-term earnings profile and whether the amount of goodwill includes intangible resources of a temporary nature that cannot be separated and recognised as separate assets. If it is not possible to estimate the useful life reliably, it is set at 20 years. Useful lives are reassessed on an annual basis. The amortisation periods used are 7 years.

Goodwill is written down to the lower of recoverable amount and carrying amount.

#### Intellectual property rights etc

Intellectual property rights etc comprise acquired intellectual property rights and prepayments for intangible assets.

Intellectual property rights acquired are measured at cost less accumulated amortisation.

Intellectual property rights etc are written down to the lower of recoverable amount and carrying amount.

#### Property, plant and equipment

Land and buildings, plant and machinery as well as other fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated.

## Accounting policies

Cost comprises the acquisition price, costs directly attributable to the acquisition and preparation costs of the asset until the time when it is ready to be put into operation. For self-manufactured assets, cost comprises direct and indirect costs of materials, components, subsuppliers and labour costs.

The basis of depreciation is cost less estimated residual value after the end of useful life. Straight-line depreciation is made on the basis of the following estimated useful lives of the assets:

Buildings	30 years
Plant and machinery	25 years
Other fixtures and fittings, tools and equipment	3-5 years
Leasehold improvements	5 years

Estimated useful lives and residual values are reassessed annually.

Items of property, plant and equipment are written down to the lower of recoverable amount and carrying amount.

### Investments in group enterprises

Investments in group enterprises are recognised and measured according to the equity method. This means that investments are measured at the pro rata share of the enterprises' equity value plus or minus unamortised goodwill and plus or minus unrealised intra-group profits or losses.

Investments in group enterprises are written down to the lower of recoverable amount and carrying amount.

In the income statement the parent company's share of the companies' profits/losses is recognised after elimination of intercompany profits and losses and less or plus amortisation of consolidated goodwill or negative consolidation goodwill respectively.

Subsidiaries with a negative equity value are measured at zero value, and any receivables from these companies are written down by the parent company's share of the negative equity value to the extent they are deemed uncollectible. If the negative equity value exceeds the receivable, the remaining amount is recognised under provisions to the extent the parent company has a legal or constructive obligation to cover the liabilities of the company in question.

Net revaluation of equity investments in subsidiaries is transferred to the net revaluation reserve to the extent the carrying amount exceeds the cost.

The acquisition method is used for acquisition of subsidiaries.

### Other investments

Other investments comprise listed securities which are measured at fair value (market price) at the balance sheet date and unlisted equity instruments measured at cost. Unlisted equity instruments are written down to any lower net realisable value.

## Accounting policies

### Inventories

Inventories are measured at the lower of cost using the FIFO method and net realisable value.

The cost of goods for resale, raw materials and consumables comprises the acquisition price plus delivery costs.

The net realisable value of inventories is stated as the expected selling price less costs of completion and costs incurred to execute the sale.

### Receivables

Receivables are measured at amortised cost, usually equalling nominal value less writedowns for bad and doubtful debts.

### Prepayments

Prepayments comprise incurred costs relating to subsequent financial years. Prepayments are measured at cost.

### Cash

Cash comprises cash in hand and bank deposits.

### Deferred tax

Deferred tax is recognised and measured under the balance sheet liability method comprising all temporary differences between the varying amount and the tax base of assets and liabilities. The tax base of the assets is stated based on the planned use of the individual assets.

Deferred tax is measured in accordance with the tax rules and tax rates in the various countries that will apply under the legislation in force at the balance sheet date when the deferred tax. Any change in deferred tax as a consequence of changes in tax rates are recognised in the income statement.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are measured in the balance sheet at the value at which the asset is expected to be realisable, either through offsetting in deferred tax liabilities or as net tax assets.

The parent company is jointly taxed with Danish companies in the Wyndham Worldwide Group. The current income tax is distributed between the jointly taxed companies in proportion to their taxable incomes (full absorption with refunds for tax losses).

### Other taxes

This item includes tax amounts calculated on another basis than income for the year, including environmental tax etc, which are not refunded to the Entity.

Deferred tax relating to retaxation of previously deducted losses in foreign subsidiaries is recognised on the basis of an actual assessment of the purpose of each subsidiary.

## Accounting policies

### Mortgage debt

At the time of borrowing, mortgage debt to mortgage credit institutions is measured at cost which corresponds to the proceeds received less transaction costs incurred. Mortgage debt is subsequently measured at amortised cost. This means that the difference between the proceeds at the time of borrowing and the nominal repayable amount of the loan is recognised in the income statement as a financial expense over the term of the loan applying the effective interest method.

### Operating leases

Lease payments on operating leases are recognised on a straight-line basis in the income statement over the term of the lease.

### Other financial liabilities

Other financial liabilities are measured at amortised cost, which usually corresponds to nominal value.

### Income tax receivable or payable

Current tax payable or receivable is recognised in the balance sheet, stated as tax computed on this year's taxable income, adjusted for prepaid tax.

### Cash flow statement

The cash flow statement shows cash flows from operating, investing and financing activities as well as cash and cash equivalents at the beginning and the end of the financial year.

Cash flows from operating activities are presented using the indirect method and calculated as the operating profit/loss adjusted for non-cash operating items, working capital changes and income taxes paid.

Cash flows from investing activities comprise payments in connection with acquisition and divestment of enterprises, activities and fixed asset investments as well as purchase, development, improvement and sale, etc of intangible assets and property, plant and equipment, including acquisition of assets held under finance leases.

Cash flows from financing activities comprise changes in the size or composition of the contributed capital and related costs as well as the raising of loans, inception of finance leases, repayments of interest-bearing debt, purchase of treasury shares and payment of dividend.

Cash and cash equivalents comprise with an insignificant price risk less short-term bank loans.
