Statement by Management on the annual report

The Board of Directors and the Executive Board have today considered and approved the annual report of LTP GROUP A/S for the financial year 01.01.2017 - 31.12.2017.

The annual report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Group's and the Parent's financial position at 31.12.2017 and of the results of the Group's and the Parent's operations and cash flows for the Group for the financial year 01.01.2017 - 31.12.2017.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

Copenhagen, 31.05.2018

Independent auditor's report

To the shareholders of LTP GROUP A/S

Opinion

We have audited the consolidated financial statements and the parent financial statements of LTP GROUP A/S for the financial year 01.01.2017 - 31.12.2017, which comprise the income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for the Group as well as the Parent, and the consolidated cash flow statement. The consolidated financial statements and the parent financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent financial statements give a true and fair view of the Group's and the Parent's financial position at 31.12.2017, and of the results of their operations and the consolidated cash flows for the financial year 01.01.2017 - 31.12.2017 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements section of this auditor's report. We are independent of the Group in accordance with the International Ethics Standards Board of Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the consolidated financial statements and the parent financial statements

Management is responsible for the preparation of consolidated financial statements and parent financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements and parent financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the parent financial statements, Management is responsible for assessing the Group's and the Entity's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements unless Management either intends to liquidate the Group or the Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and the parent financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements

Independent auditor's report

can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and parent financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and the parent financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group’s and the Entity’s internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

- Conclude on the appropriateness of Management’s use of the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Entity’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the consolidated financial statements and the parent financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Group and the Entity to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements and the parent financial statements, including the disclosures in the notes, and whether the consolidated financial statements and the parent financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report

Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the consolidated financial statements and the parent financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the consolidated financial statements and the parent financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the consolidated financial statements and the parent financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

Financial highlights are defined and calculated in accordance with the Danish Finance Society.

Ratios	Calculation formula	Calculation formula reflects
Gross margin (%)	$\frac{\text{Gross profit/loss x 100}}{\text{Revenue}}$	The entity's operating gearing.
Net margin (%)	$\frac{\text{Profit/loss for the year x 100}}{\text{Revenue}}$	The entity's operating profitability.
Return on invested capital incl goodwill (%)	$\frac{\text{EBITA x 100}}{\text{Average invested capital incl goodwill}}$	The return generated by the entity on the investors' funds.
Revenue/Invested capital incl goodwill	$\frac{\text{Revenue}}{\text{Average invested capital incl goodwill}}$	Turnover rate of capital employed by the entity.
Return on equity (%)	$\frac{\text{Profit/loss for the year x 100}}{\text{Average equity}}$	The entity's return on capital invested in the entity by the owners.
Equity ratio (%)	$\frac{\text{Equity x 100}}{\text{Total assets}}$	The financial strength of the entity.

EBITA (Earnings Before Interest, Tax and Amortisation) is defined as operating profit plus the year's amortisation of and impairment losses relating to intangible assets including goodwill.

Invested capital including goodwill is defined as net working capital plus the carrying amount of property, plant and equipment and intangible assets as well as accumulated amortisation of intangible assets including goodwill, and less other provisions and long-term operating liabilities. Accumulated impairment losses relating to goodwill are not added.

Net working capital is defined as inventories, receivables and other operating current assets net of trade payables and other short-term operating liabilities. Income taxes receivable and payable as well as cash are not included in net working capital.

Management commentary

Primary activities

LTP Group is a global producer of garments for sport, outdoor, athleisure and fashion brands; producer of upholstery for the contract & design furniture industry and upholstery supplier for home furniture retailers. The main markets are in North Europe.

The activities take place through a number of enterprises and associates.

Besides Denmark, the activities are placed in Lithuania, Belarus, Ukraine and Vietnam.

Development in activities and finansces

Group profit before tax amounts to DKK 45,487k against DKK 48,759k in 2016. The profit is satisfactory though it's on a lower level than expected. The profit is affected by growing production costs and investments to support future growth.

Outlook

Management expects continued growth and a higher profit than in 2017 with an estimated profit before tax of DKK 55-60m.

Statutory report on corporate social responsibility

Corporate social responsibility policies

LTP has continued its work to secure good and decent working conditions for all employees and to reduce the environmental footprint. CARE is one of LTP's values.

As a general policy within CSR, LTP Group has implemented the Code of conduct principles based on the FairFashion guidelines from the Federation of Danish Textile & Clothing, which both include principles for human rights, work environment and the global environment. Besides this, each business unit has specific certificates within CSR.

LTP Garment is BlueSign-certified. Blue Sign is acknowledged as the most rigid standard within functional garments. The purpose of this certification is to eliminate a negative environmental impact from beginning of the production process and to secure good working conditions in the production.

LTP Garment is IVN/GOTS-certified. GOTS is acknowledged as the leading standard within ecological textiles and defines high standards for the full supply chain both regarding environmental and social issues.

LTP Contract furniture is FSC-certified. Over the past 20 years, FSC has earned a reputation as the most rigorous, credible forest certification system. The Forest Stewardship Council™ (FSC) ensures that the full supply chain will follow rigid ecological, social and financial standards.

Translate policies into action

We are continuously working with improvement programs which ensure that LTP is acting as a responsible, positive and caring company for our employees, customers and the environment. In 2017, LTP has among other initiatives:

Management commentary

- Group:
  - All stated certificates must be maintained and audits passed without remarks
  - Energy reduction focus
- Garment:
  - Expanded our GOTS certificate to cover production at our site in Silale and printing subcontractors
  - Complete audit on all relevant suppliers in Garment to comply with the Reach regulations from the European Union.
- Contract furniture:
  - In the contract furniture division, we made CSR audits on all strategic suppliers in cooperation with our customers.
  - Work safety focus with special education of gluing and upholstery staff.

Assessment of results achieved

- Garment
  - The audit for GOTS certificate to cover production at our site in Silale and the printing subcontractor was approved by February 2017 without remarks. Our Kaunas factory was audited for GOTS in November 2017.
  - In the year 2016 we had audits on BlueSign in the factory in Belarus.
  - We had CSR Initial Assessment from the Danish Embassy in Vietnam to verify the overall CSR status of LTP Vietnam as well as the applicable local laws and to measure the CSR status of the company in the implementation of the occupational health and safety (OHS), environment, labor practices and business ethics. The conclusion was stated: "CSR commitment of LTP Vietnam is noted positive. The management shows high cooperation during the whole assessment process and committed to remedy all non-conformity findings raised by the CSR team."
  - LTP joined the Higg Index and made assessment in Garment for the factories in Kaunas, Lithuania and Vietnam. Higg delivers a holistic overview of the sustainability performance of a product or company—a big-picture perspective that is essential for progress to be made.
  - Complete audit on all suppliers in Garment to comply with the Reach regulations from the European Union.
  - The production site in Belarus was renewed with significant impact on energy spend.
  - Energy audit was performed in order to evaluate buildings and processes energetic efficiency.
  - Kaunas factory is using only Green Lithuanian energy.
  - Workers council was elected during 2017

- Contract furniture:
  - Audits were performed on 5 main suppliers.

Management commentary

- Education was made for all workers in the departments for gluing and upholstery to ensure knowledge about work safety
- Energy audit was performed in order to evaluate buildings and processes energetic efficiency.
- Solar panels was installed at the factory in Kedainiai
- Workers council was elected during 2017

LTP is living op to the strongest requirements in the market. But the most important point is that the whole organization in the daily work is focused on securing our staff good working conditions and eliminating waste of materials and energy.

Actions planned for 2018

- LTP has joined SDG Accelerator program. The purpose is to develop business ideas that support UN’s Sustainable Development Goals (SDG). The project is funded by Industriens Fond.
- Focus on reduction of plastics used in packaging.
- CSR Certificate to be maintained.
- Focus on energy reductions with changing to LED lightning, renewing buildings and participating on green Lithuanian energy usage project.

Statutory report on the underrepresented gender

Pursuant to the Danish Companies Act, the Board has set a target for the proportion of General Meeting-elected female board members of at least 20% (corresponding to 1 female in the Board of directors with 5 members elected at the general meeting). The present proportion og General Meeting-elected female board members is 0 female and 3 males. The target proportion is not met yet. Considering the continuity of the board the target number is sought to be achieved within a period of 4 years.

For other layers of management, no policies have been set as there are less than 50 employees in the Danish Company and there not being any requirements for policies for the under-represented gender in foreign subsidiaries.

Events after the balance sheet date

No events have occurred after the balance sheet date to this date, which would influence the evaluation of this annual report.

13. Assets charged and collateral

The Entity has guaranteed the subsidiaries' debt to Sydbank. The subsidiaries' bank debt amounts to DKK 0 as of 31.12.2017.

14. Transactions with related parties

The Entity did not carry out any substantial transactions with related parties that were not concluded on market conditions. According to Section 98c (7) of the Danish Financial Statements Act, information is provided only about transactions that have not been concluded on commen market conditions.

Accounting policies

Reporting class
This annual report has been presented in accordance with the provisions of the Danish Financial Statements Act governing reporting class C enterprises (large).

The accounting policies applied to these consolidated financial statements and parent financial statements are consistent with those applied last year.

Recognition and measurement
Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Entity, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Entity has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Entity, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Consolidated financial statements
The consolidated financial statements comprise the Parent and the group enterprises (subsidiaries) that are controlled by the Parent. Control is achieved by the Parent, either directly or indirectly, holding more than 50% of the voting rights or in any other way possibly or actually exercising controlling influence. Enterprises in which the Group, directly or indirectly, holds between 20% and 50% of the voting rights and exercises significant, but not controlling influence are regarded as associates. Reference is made to group overview on page 10.

Basis of consolidation
The consolidated financial statements are prepared on the basis of the financial statements of the Parent and its subsidiaries. The consolidated financial statements are prepared by combining uniform items. On consolidation, intra-group income and expenses, intra-group accounts and dividends as well as profits and losses on transactions between the consolidated enterprises are eliminated. The financial statements used for consolidation have been prepared applying the Group’s accounting policies.

Subsidiaries’ financial statement items are recognised in full in the consolidated financial statements. Minority interests’ proportionate share of profit or loss is presented as a separate item in Management’s proposal for distribution of profit or loss, and their share of subsidiaries’ net assets is presented as a separate item in group equity.

Accounting policies

Investments in subsidiaries are offset at the pro rata share of such subsidiaries' net assets at the acquisition date, with net assets having been calculated at fair value.

Foreign currency translation
On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the balance sheet date are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the rate in effect at the payment date, or the rate at the balance sheet date are recognised in the income statement as financial income or financial expenses. Property, plant and equipment, intangible assets, inventories and other non-monetary assets that have been purchased in foreign currencies are translated using historical rates.

When recognising foreign subsidiaries and associates that are independent entities, the income statements are translated at average exchange rates for the months that do not significantly deviate from the rates at the transaction date. Balance sheet items are translated using the exchange rates at the balance sheet date. Exchange differences arising out of the translation of foreign subsidiaries' equity at the beginning of the year at the balance sheet date exchange rates as well as out of the translation of income statements from average rates to the exchange rates at the balance sheet date are recognised directly in equity.

Income statement
Revenue
Revenue from the sale of manufactured goods and goods for resale is recognised in the income statement when delivery is made and risk has passed to the buyer. Revenue from the sale of services is recognised in the income statement when delivery is made to the buyer. Revenue is recognised net of VAT, duties and sales discounts and is measured at fair value of the consideration fixed.

Other operating income
Other operating income comprises income from rental.

Cost of sales
Cost of sales comprises goods consumed in the financial year measured at cost, adjusted for ordinary inventory writedowns.

Other external expenses
Other external expenses include expenses relating to the Entity's ordinary activities, including expenses for premises, stationery and office supplies, marketing costs, etc. This item also includes writedowns of receivables recognised in current assets.

Staff costs
Staff costs comprise salaries and wages as well as social security contributions, pension contributions, etc for entity staff.

Accounting policies

Depreciation, amortisation and impairment losses
Depreciation, amortisation and impairment losses relating to intangible assets and property, plant and equipment comprise depreciation, amortisation and impairment losses for the financial year, calculated on the basis of the residual values and useful lives of the individual assets and impairment testing as well as gains and losses from the sale of intangible assets as well as property, plant and equipment.

Income from investments in group enterprises
Income from investments in group enterprises comprises the pro rata share of the individual enterprises' profit/loss after full elimination of internal profits or losses.

Income from investments in associates
Income from investments in associates comprises the pro rata share of the individual associates' profit/loss after elimination of internal profits or losses.

Other financial income
Other financial income comprises dividends etc received on other investments, interest income, including interest income on receivables from group enterprises, net capital or exchange gains on securities, payables and transactions in foreign currencies, amortisation of financial assets as well as tax relief under the Danish Tax Prepayment Scheme etc.

Other financial expenses
Other financial expenses comprise interest expenses, including interest expenses on payables to group enterprises, net capital or exchange losses on securities, payables and transactions in foreign currencies, amortisation of financial liabilities as well as tax surcharge under the Danish Tax Prepayment Scheme etc.

Tax on profit/loss for the year
Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognised in the income statement by the portion attributable to the profit for the year and recognised directly in equity by the portion attributable to entries directly in equity.

Balance sheet
Intellectual property rights etc
Intellectual property rights etc comprise development projects completed.

Completed development projects comprises software. Software is measured at cost less accumulated depreciation and impairment losses. The cost of software comprises costs that are directly and indirectly attributable to the development projects completed and in progress.

Software is amortised on a straight-line basis using their estimated useful lives which are determined based on a specific assessment of each development project. The amortisation period used is five years.

Development projects are written down to the lower of recoverable amount and carrying amount.

Accounting policies

Intellecual property rights acquired are measured at cost less accumulated amortisation. Patents are amortised over their remaining duration, and licences are amortised over the term of the agreement.

Intellectual property right etc are written down to the lower of recoverable amount and carrying amount.

Property, plant and equipment
Land and buildings, plant and machinery as well as other fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated.

Cost comprises the acquisition price, costs directly attributable to the acquisition and preparation costs of the asset until the time when it is ready to be put into operation. For self-manufactured assets, cost comprises direct and indirect costs of materials, components, subsuppliers and labour costs. For assets held under finance leases, cost is the lower of the asset's fair value and present value of future lease payments.

Indirect production costs in the form of indirect attributable staff costs and amortisation of intangible assets and depreciation of property, plant and equipment used in the development process are recognised in cost based on time spent on each asset.

Revaluations on property, plant and equipment are made based on external valuation reports.

The basis of depreciation is cost less estimated residual value after the end of useful life. Straight-line depreciation is made on the basis of the following estimated useful lives of the assets:

Buildings	10-20 years
Plant and machinery	2-10 years
Leasehold improvements	2-5 years

For leasehold improvements and assets subject to finance leases, the depreciation period cannot exceed the contract period.

Estimated useful lives and residual values are reassessed annually.

Items of property, plant and equipment are written down to the lower of recoverable amount and carrying amount.

Investments in group enterprises
Investments in group enterprises are recognised and measured according to the equity method. This means that investments are measured at the pro rata share of the enterprises' equity plus or minus unamortised positive, or negative, goodwill and minus or plus unrealised intra-group profits or losses.

Group enterprises with negative equity are measured at DKK 0, and any receivables from these enterprises are written down by the Parent's share of such negative equity value if it is deemed irrecoverable. If the negative equity value exceeds the amount receivable, the remaining amount is recognised under provisions if the Parent has a legal or constructive obligation to cover the liabilities of the relevant enterprise.

Accounting policies

Upon distribution of profit or loss, net revaluation of investments in group enterprises is transferred to Reserve for net revaluation according to the equity method under equity.

Investments in group enterprises are written down to the lower of recoverable amount and carrying amount.

Investments in associates
Investments in associates are recognised and measured according to the equity method. This means that investments are measured at the pro rata share of the associates' equity value plus or minus unamortised positive, or negative, goodwill and minus or plus unrealised pro rata internal profits and losses.

Associates with negative equity are measured at DKK 0, and any receivables from these associates are written down by the share of such negative equity if it is deemed irrecoverable. If the negative equity value exceeds the amount receivable, the remaining amount is recognised under provisions if there is a legal or constructive obligation to cover the liabilities of the relevant associate.

Upon distribution of profit or loss, net revaluation of investments in associates is transferred to Reserve for net revaluation according to the equity method under equity.

Investments in associates are written down to the lower of recoverable amount and carrying amount.

Receivables
Receivables are measured at amortised cost, usually equalling nominal value less writedowns for bad and doubtful debts.

Inventories
Inventories are measured at the lower of cost using the FIFO method and net realisable value.

Cost consists of purchase price plus delivery costs. Cost of manufactured goods and work in progress consists of costs of raw materials, consumables, direct labour costs and indirect production costs.

Indirect production costs comprise indirect materials and labour costs, costs of maintenance of, depreciation on of and impairment losses relating to machinery, factory buildings and equipment used in the manufacturing process as well as costs of factory administration and management. Financing costs are not included in cost.

The net realisable value of inventories is calculated as the estimated selling price less completion costs and costs incurred to execute sale.

Deferred tax
Deferred tax is recognised on all temporary differences between the carrying amount and tax-based value of assets and liabilities, for which the tax-based value of assets is calculated based on the planned use of each asset.

Accounting policies

Deferred tax assets, including the tax base of tax loss carry forwards, are recognised in the balance sheet at their estimated realisable value, either as a set-off against deferred tax liabilities or as net tax assets.

Prepayments
Prepayments comprise incurred costs relating to subsequent financial years. Prepayments are measured at cost.

Cash
Cash comprises cash in hand and bank deposits.

Mortgage debt
At the time of borrowing, mortgage debt to mortgage credit institutions is measured at cost which corresponds to the proceeds received less transaction costs incurred. Mortgage debt is subsequently measured at amortised cost. This means that the difference between the proceeds at the time of borrowing and the nominal repayable amount of the loan is recognised in the income statement as a financial expense over the term of the loan applying the effective interest method.

Finance lease liabilities
Lease commitments relating to assets held under finance leases are recognised in the balance sheet as liabilities other than provisions, and, at the time of inception of the lease, measured at the present value of future lease payments. Subsequent to initial recognition, lease commitments are measured at amortised cost. The difference between present value and nominal amount of the lease payments is recognised in the income statement as a financial expense over the term of the leases.

Operating leases
Lease payments on operating leases are recognised on a straight-line basis in the income statement over the term of the lease.

Other financial liabilities
Other financial liabilities are measured at amortised cost, which usually corresponds to nominal value.

Prepayments received from customers
Prepayments received from customers comprise amounts received from customers prior to delivery of the goods agreed or completion of the service agreed.

Income tax receivable or payable
Current tax receivable or payable is recognised in the balance sheet, stated as tax calculated on this year's taxable income, adjusted for prepaid tax.

Deferred income
Deferred income comprises income received for recognition in subsequent financial years. Deferred income is measured at cost.

Accounting policies

Cash flow statement
The cash flow statement shows cash flows from operating, investing and financing activities as well as cash and cash equivalents at the beginning and the end of the financial year.

Cash flows from operating activities are presented using the indirect method and calculated as the operating profit/loss adjusted for non-cash operating items, working capital changes and income taxes paid.

Cash flows from investing activities comprise payments in connection with acquisition and divestment of enterprises, activities and fixed asset investments as well as purchase, development, improvement and sale, etc of intangible assets and property, plant and equipment, including acquisition of assets held under finance leases.

Cash flows from financing activities comprise changes in the size or composition of the contributed capital and related costs as well as the raising of loans, inception of finance leases, instalments on interest-bearing debt, purchase of treasury shares and payment of dividend.

Cash and cash equivalents comprise cash and short-term securities with an insignificant price risk less short-term bank loans.
