# Management's Statement

The Executive Board and Board of Directors have today considered and adopted the Annual Report of A-TEX A/S for the financial year 1 January - 31 December 2019.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements give a true and fair view of the financial position at 31. December 2019 of the Company and of the results of the Company operations for 2019.

We recommend that the Annual Report be adopted at the Annual General Meeting.

# Independent Auditor's Report

To the shareholders of A-TEX A/S

## Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2019, and of the results of the Company's operations for the financial year 1 January - 31 December 2019 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of A-TEX A/S for the financial year 1 January - 31 December 2019, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("Financial Statements").

## Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

## Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

# Independent Auditor's Report

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Management's Review

Financial Statements of A-TEX A/S for 2019 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class C.

The Annual Report has been prepared under the same accounting policies as last year.

## Key activities

The main activity has as previous years been trading in Brand identification accessories to the textile industry. A-TEX is one of the leading global suppliers of identity creating branding items – including labels, hang tags, badges, packaging solutions and store decorations for leading international fashion brands. We offer our customers innovative design and deliverance on time - as a result of effective and high quality logistic solutions. The products are sold in numerous countries, primarily to brand owners in Europe and US

## Development in activities and financial conditions

The A-TEX Group, including A-TEX A/S, has in the current financial year been focused on continuous development of the activities, cost management and consolidation of the previous years' expansions and investments. The Group now has a global distribution network for servicing the European and American customers and A-TEX is therefore well prepared to respond to the customers' requirements in the future.

A-TEX Group is a part of TRIMCO Group which is a leading global player within the industry for garment accessories with more than 1,200 employees across 19 countries and well renown in-house design, production and logistic capabilities. TRIMCO is the overall shell for the three individual brands: A-TEX (based in DK), Clotex (based in Hong Kong) and Labelon (based in UK).

The Company's profit for the financial year 2019 is DKK 49,4 mill. against DKK 52,7 mill. in 2018 and in line with expectations. The result is considered to be satisfactory.

A continued, intense focus on the sourcing and logistics set-up, has brought increased competitive advantage and has created a solid platform for future growth in both activity and earnings. To strengthen and to keep the Group's market position, there will be a continued focus on design, product development and IT systems, that support the Group's product- and logistics solutions. In addition the high focus on supplier management will continue as the CSR strategy is deeply integrated in the general business strategy.

## Special risks – operating risks and financial risks

### Foreign exchange risks

Because of the activities abroad, the Group's transactions are affected by the development in a number of currencies. The foreign exchange risk is hedged through attempted disposition of purchases and sales in the same currency. No speculative currency dispositions has been made.

The Group follows a fiscal policy that operates with as low risk as possible.

### Research and development

The Group doesn't undertake research or development, but there are however ongoing adjustments of the Group's product portfolio so it meets market requirements.

## **External environment**

We care about the environment and that is why we take our social responsibility seriously. It is a vital part of our DNA. Therefore, we offer a varied range of sustainable raw materials for all purposes.

## **Expectations for the year ahead**

The Company expects a decreasing level of activity and earnings in 2020 compared to 2019 due to COVID-19 outbreak as described below.

## **Subsequent events**

A-TEX's outlook for the future will be negatively affected by the COVID-19 outbreak and the measures taken by governments in most of the world to mitigate the impacts of the outbreak.

Before the COVID-19 outbreak, A-TEX expected a modest revenue growth and unchanged net profit for the year as compared to 2019. This was based on A-TEX's assumption of flattening global economic growth. However, the COVID-19 outbreak has affected the global market and especially the important European market, and A-TEX expects this to have a negative impact on both revenue and net profit for 2020. The scope of the impact is, however, unknown at this time as it is uncertain to what extent the A-TEX will be able to recapture lost revenue later in the year. A-TEX has assessed the expected impact on capital resources and considers these to be sufficient to support the going concern assumption in the Reporting Package.

The share capital consists of 1,100 shares of a nominal value of DKK 1,000. No shares carry any special rights.

There have been no changes in the share capital during the last 5 years.

# Notes to the Annual Report

## 1 Subsequent events

A-TEX's outlook for the future will be negatively affected by the COVID-19 outbreak and the measures taken by governments in most of the world to mitigate the impacts of the outbreak.

Before the COVID-19 outbreak, A-TEX expected a modest revenue growth and unchanged net profit for the year as compared to 2019. This was based on A-TEX's assumption of flattening global economic growth. However, the COVID-19 outbreak has affected the global market and especially the important European market, and A-TEX expects this to have a negative impact on both revenue and net profit for 2020. The scope of the impact is, however, unknown at this time as it is uncertain to what extent the A-TEX will be able to recapture lost revenue later in the year. A-TEX has assessed the expected impact on capital resources and considers these to be sufficient to support the going concern assumption in the Financial Statements.

- Registered office address: 1 Park Row, Leeds, LS1 5AB, United Kingdom

- United Kingdom company registration number: 05218660

# Notes to the financial Statements

## 19 Accounting Policies

The Annual Report of A-TEX A/S for 2019 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class C.

The accounting policies applied remain unchanged from last year.

The Financial Statements for 2019 are presented in DKK 1,000s (TDKK).

### **Consolidated financial statements**

With reference to section 112 of the Danish Financial Statements Act and to the consolidated financial statements of Labelon Group Ltd., the Company has not prepared consolidated financial statements.

### **Cash flow statement**

With reference to section 86 (4) of the Danish Financial Statements Act and to the cash flow statement included in the consolidated financial statements of Labelon Group Ltd., the Company has not prepared a cash flow statement.

### **Recognition and measurement**

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortized cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortization, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

### **Leases**

Leases in terms of which the Company assumes substantially all the risks and rewards of ownership (Finance leases) are recognized in the balance sheet at the lower of the fair value of the leased asset and the net present value of the lease payments computed by applying the interest rate implicit in the lease or alternative borrowing rate as the discount rate. Assets acquired under finance leases are depreciated and written down for impairment under the same policy as determined for the other fixed assets of the Company.

The remaining lease obligation is capitalized and recognized in the balance sheet under debt, and the interest element on the lease payments is charged over the lease term to the income statement.

All other leases are considered operating leases. Payments are made under operating leases are recognized in the income statements on a straight-line basis over the lease term.

## 19 Accounting Policies

### **Translation policies**

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Gains and losses arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the transaction date rates are recognised in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

### **Income statement**

#### **Revenue**

Revenue from the sale of goods is recognised when the risks and rewards relating to the goods sold have been transferred to the purchaser, the revenue can be measured reliably and it is probable that the economic benefits relating to the sale will flow to the Company.

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

#### **Expenses for raw materials and consumables**

Expenses for raw materials and consumables comprise the raw materials and consumables consumed to achieve revenue for the year.

#### **Other external expenses**

Other external expenses comprise expenses for premises, sales and distribution as well as administration expenses.

#### **Gross profit/loss**

With reference to section 32 in the Danish Financial Statements Act revenue, gross profit/loss is calculated as a summary of revenue, other operating income, expenses for raw materials and consumables and other external expenses.

#### **Staff expenses**

Staff expenses comprise wages and salaries as well as payroll expenses.

#### **Amortisation, depreciation and impairment losses**

Amortisation, depreciation and impairment losses comprise amortization, depreciation and impairment of intangible assets and property, plant and equipment.

## 19 Accounting Policies

### **Income from investments in subsidiaries**

The item "Income from investments in subsidiaries" in the income statement includes the proportionate share of the profit for the year.

### **Financial income and expenses**

Financial income and expenses are recognized in the income statement at the amounts relating to the financial year.

### **Tax on profit/loss for the year**

Tax for the year consists of current tax for the year and deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with Danish related companies. The tax effect of the joint taxation is allocated to Danish enterprises in proportion to their taxable incomes.

## **Balance Sheet**

### **Intangible assets**

On initial recognition, intangible assets are measured at cost.

Development costs comprise costs, salaries and amortisation directly or indirectly attributable to the Company's development activities.

Development projects that are clearly defined and identifiable, and where the technical feasibility, sufficient resources and a potential future market or development opportunities in the Company are evidenced, and where the Company intends to produce, market or use the project, are recognised as intangible assets provided that the cost can be measured reliably and that there is sufficient assurance that future earnings can cover production costs, selling costs and administrative expenses and development costs. Other development costs are recognised in the income statement when incurred.

Development costs that are recognised in the balance sheet are measured at cost less accumulated amortisation and impairment losses.

Following the completion of the development work, development costs are amortised on a straight-line basis over the estimated useful life. The amortisation period is usually 3 years and is not to exceed 5 years.

### **Property, plant and equipment**

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

|                          |          |
|--------------------------|----------|
| Administration buildings | 50 years |
|--------------------------|----------|

---

## 19 Accounting Policies

|  |           |
|--|-----------|
| Plant and machinery                              | 3-7 years |
| Other fixtures and fittings, tools and equipment | 1-7 years |
| Leasehold improvements                           | 2-7 years |

Depreciation period and residual value are reassessed annually.

### Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortization and depreciation

If so, an impairment test is carried out to determine whether the recoverable amount is lower than the carrying amount, and the asset is written down to its lower recoverable amount.

The recoverable amount of the asset is calculated as the higher of net selling price and value in use. Where a recoverable amount cannot be determined for the individual asset, the assets are assessed in the smallest group of assets for which a reliable recoverable amount can be determined based on a total assessment.

Goodwill and other assets for which a separate value in use cannot be determined as the asset does not on an individual basis generate future cash flows are reviewed for impairment together with the group of assets to which they are attributable.

### Investments in subsidiaries

Investments in subsidiaries and associates are recognised and measured under the equity method.

The item "Investments in subsidiaries" in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealized intercompany profits or losses and with addition of any remaining value of positive differences (goodwill) and deduction of any remaining value of negative differences (negative goodwill).

The total net revaluation of investments in subsidiaries is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements in subsidiaries and associates.

Subsidiaries and associates with a negative net asset value are recognised at DKK 0. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognised in provisions.

### Other fixed asset investments

Other fixed asset investments consist of deposits.

### Inventories

Inventories are measured at the lower of cost under the FIFO method and net realizable value.

The net realizable value of inventories is calculated at the amount expected to be generated by sale in the process of normal operations with deduction of selling expenses and costs of completion. The net realizable value is determined allowing for marketability, obsolescence and development in expected sales sum.

# Notes to the Financial Statements

## 19 Accounting Policies

The cost of goods for resale, raw materials and consumables equals landed cost.

### **Receivables**

Receivables are measured in the balance sheet at the lower of amortized cost and net realizable value, which corresponds to nominal value less provisions for bad debts. Provisions for bad debts are determined on the basis of an individual assessment of each receivable.

### **Prepayments**

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

### **Equity - dividend**

Dividend distribution proposed by Management for the year is disclosed as a separate equity item.

### **Deferred tax assets and liabilities**

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax loss carry-forwards, are measured at the value at which the asset is expected to be realized, either by elimination in tax on future earnings or by setoff against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallize as current tax. Any changes in deferred tax due to changes to tax rates are recognised in the income statement.

### **Current tax receivables and liabilities**

Current tax liabilities and receivables are recognised in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the on-account taxation scheme are recognised in the income statement in financial income and expenses.

### **Financial debts**

Loans, such as mortgage loans and loans from credit institutions, are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Mortgage loans are measured at amortised cost, which for cash loans corresponds to the remaining loan. Amortised cost of debenture loans corresponds to the remaining loan calculated as the underlying cash value of the loan at the date of raising the loan adjusted for depreciation of the price adjustment of the loan made over the term of the loan at the date of raising the loan.

Other debts are measured at amortised cost, substantially corresponding to nominal value.
