Dedert International A/S
Annual report 2019
CVR no. 18 63 17 76

Statement by the Board of Directors and the Executive Board

The Board of Directors and the Executive Board have today discussed and approved the annual report of Dedert International A/S for the financial year 1 January – 31 December 2019.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the Group's and the Parent Company's assets, liabilities and financial position at 31 December 2019 and of the results of the Group's and the Parent Company's operations for the financial year 1 January – 31 December 2019.

Further, in our opinion, the Management's review gives a fair review of the development in the Group's and the Parent Company's activities and financial matters, of the results for the year and of the Group's and the Parent Company's financial position.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of Dedert International A/S

Opinion

We have audited the consolidated financial statements and the parent company financial statements of Dedert International A/S for the financial year 1 January – 31 December 2019 comprising income statement, balance sheet, statement of changes in equity and notes, including accounting policies, for the Group as well as for the Parent Company. The consolidated financial statements and the parent company financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the Group's and the Parent Company's assets, liabilities and financial position at 31 December 2019 and of the results of the Group's and the Parent Company's operations for the financial year 1 January – 31 December 2019 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibility for the consolidated financial statements and the parent company financial statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control that Management determines is necessary to enable the preparation of consolidated financial statements and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the parent company financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the consolidated financial statements and the parent company financial statements unless Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements

Our objectives are to obtain reasonable assurance as to whether the consolidated financial statements and the parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements in Denmark will always detect a material misstatement when it exists. Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of financial statement users made on the basis of these consolidated financial statements and parent company financial statements.

Independent auditor's report

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also

- identify and assess the risks of material misstatement of the consolidated financial statements and the parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management
- conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the parent company financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern
- evaluate the overall presentation, structure and contents of the consolidated financial statements and the parent company financial statements, including the disclosures, and whether the consolidated financial statements and the parent company financial statements represent the underlying transactions and events in a manner that gives a true and fair view
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the consolidated financial statements and the parent company financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent company financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the consolidated financial statements or the parent company financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Independent auditor's report

Based on the work we have performed, we conclude that the Management's review is in accordance with the consolidated financial statements and the parent company financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Average number of full-time employees	83	78	68	55	1

Financial ratios are calculated in accordance with the guidelines "Recommendations & Ratios" issued by the Danish Society of Financial Analysts. The financial ratios have been calculated as follows:

Return on equity

$$\frac{\text{Profit from ordinary activities after tax} \times 100}{\text{Average equity}}$$

Solvency ratio

$$\frac{\text{Equity ex. non-controlling interests at year end} \times 100}{\text{Total equity and liabilities at year end}}$$

During 2015, Dedert International A/S was established by way of a legal demerger of the previous Ordyhna A/S in which all Simatek-related activities were transferred to Simatek A/S. The demerger is accounted for using the pooling-of-interest method.

Management's review

Operating review

Principal activities

The company's main activities are design and sales of drying and evaporation equipment and systems to customers world wide.

Development in activities and financial position

Net result for the year amounted to a profit of DKK 4,403 thousand (2018: DKK -6,340 thousand).

Dedert's operational results for 2019 documented the continued growth of the company, and the financial result were satisfactory, as they include costs for the continued investment into the organisation and technologies and the goodwill write down.

The Equity amounted to DKK 41,286 thousand as at 31 December 2019 (31 December 2018: DKK 36,248 thousand).

Uncertainty regarding measurement of deferred tax assets

The Group's deferred tax assets amounts to DKK 27,187 thousand whereof DKK 17,735 thousand has been capitalized as at 31 December 2019 as full utilization within 3-5 years is considered linked with uncertainty. The measurement of deferred tax assets is based on different assumptions, including the Danish joint taxation, development in revenue and profit. These assumptions are linked with uncertainty and a different outcome than expected could lead to a change (increase as well as decrease) in the valuation which could be significant.

Outlook

The outlook for the markets, on which the Group operates, are stable with a positive trend, although the corona virus and subsequent possible consequences increases the uncertainty for the outlook. The management expects a positive result for 2020.

Particular risks

Financial risks

The Group's primary currencies are USD, CAD, EUR and DKK with some risk exposure regarding USD and CAD.

Intellectual capital

It is the Company's goal to maintain and consolidate the position as one of the leading suppliers of drying and evaporation equipment in niche markets, in particular food and food related products and to a lesser extend chemical products.

Research and development activities

Dedert group companies have an ongoing development programme, which secures that the Group can offer attractive drying and evaporation solutions.

Dedert International A/S

Annual report 2019

CVR no. 18 63 17 76

Corporate social responsibility

Dedert International A/S is included in the consolidated accounts/annual report of the ultimate parent company, Ordyhna Holding A/S, which includes specific reference to the Danish Financial Statements Act §99a.

More information about Corporate Social Responsibility is described in Ordyhna Holdings Group (CVR no 27616127) annual report 2019 at www.cvr.dk.

Gender equality in Management and the Board of Directors

In accordance with §99 b of the Danish Financial Statements Act the Company's ultimate parent company Ordyhna Holding A/S has strategies and policies regarding gender equality.

More information about Gender equality is described in Ordyhna Holdings Group (CVR no. 27616127) annual report 2019 at cvr.dk.

Events after the balance sheet date

As stated in the Outlook the corona virus increases the uncertainty of the outlook. No other events have occurred after the balance sheet date that could significantly affect the Group's financial position.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies

The annual report of Dedert International A/S for 2019 has been prepared in accordance with the provisions applying to reporting class C large-sized entities under the Danish Financial Statements Act.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Consolidated financial statements

The consolidated financial statements comprise the Parent Company, Dedert International A/S, and subsidiaries in which Dedert International A/S directly or indirectly holds more than 50% of the votes or in some other way exercises control. Entities in which the Group holds between 20% and 50% of the votes and exercises significant influence but not control are considered associates. A group chart is included on page 6.

On consolidation, intra-group income and expenses, shareholdings, intra-group balances and dividends and realised and unrealised gains and losses on intra-group transactions are eliminated.

Equity investments in subsidiaries are set off against the proportionate share of subsidiaries' fair value of net assets and liabilities at the date of acquisition.

Fee to auditors note

Pursuant to section 96(3) of the Danish Financial Statements Act, the financial statements do not include a note regarding fee to auditors, as it is included in the consolidated financial statements of Ordyhna Holding A/S.

Cash flow statement

Pursuant to section 86(4) of the Danish Financial Statements Act, the financial statements do not include a cash flow statement, as it is included in the consolidated financial statements of Ordyhna Holding A/S.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Upon recognition of foreign subsidiaries and associates which are independent entities, the income statements are translated into Danish kroner at average exchange rates for the month, and balance sheet items are translated at the exchange rates at the balance sheet date. Foreign exchange differences arising upon translation of foreign subsidiaries' opening equity and results at the exchange rates at the balance sheet date are recognised directly in equity.

Foreign exchange adjustments of balances with independent foreign subsidiaries considered part of the total investment in the subsidiary are recognised directly in equity. Similarly, foreign exchange gains and losses on loans and derivative financial instruments taken out for the purpose of hedging investments in foreign subsidiaries are recognised directly in equity.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Upon recognition of foreign subsidiaries which are integrated entities, monetary items are translated at the exchange rates at the balance sheet date. Non-monetary items are translated at the exchange rates at the date of acquisition or the date of subsequent revaluations of the asset. Income statement items are translated at the exchange rates at the transaction date, whereas items derived from non-monetary items are translated at historical exchange rates for the non-monetary item.

Income statement

Revenue

Income from the sale of goods for resale, finished goods and contract work in progress, which cannot be recognised after the production method, is recognised in revenue when transfer of the most significant rewards and risks to the buyer has taken place and provided that the income can be reliably measured and payment is expected to be received. The revenue is recognised excluding VAT and taxes charged on behalf of third parties.

Contract work in progress is recognised in the revenue, based on the percentage of completion. Revenue is recognised, when the total income and expenses on construction contracts and the percentage of completion on the balance sheet date can be recognised reliably and it is plausible that payments accrue to the Group.

Other operating income

Other operating income comprises items secondary to the activities of the Group, including gains on the disposal of intangible assets and property, plant and equipment.

Raw materials, consumables and goods for resale

Raw materials, consumables and goods for resale comprise costs incurred in generating the revenue for the year. Such costs include direct and indirect costs for raw materials and consumables and rent and leases.

The item also comprises research and development costs that do not qualify for capitalisation and amortisation of capitalised development costs.

Also, provision for losses on construction contracts is included.

Other external costs

Other external costs comprise costs for distribution, sale, advertising, administration, premises, bad debt losses, operating leases, etc.

Staff costs

Staff costs comprise wages and salaries, including holiday allowance and pensions, and other social security costs, etc., for the Group's employees, excluding reimbursements from public authorities.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Income from equity investments in subsidiaries

The proportionate share of the individual subsidiaries' profit/loss after tax is recognised in the Group's and the Parent Company's income statements after elimination of a proportionate share of intra-group gains/losses and amortisation of goodwill.

Financial income and expenses

Financial income and expenses comprise interest income and expense, gains and losses on securities, payables and transactions denominated in foreign currencies, amortisation of financial assets and liabilities as well as surcharges and refunds under the on-account tax scheme, etc.

Commission paid in connection with bank guarantees provided in relation to contract work in progress is recognised under financial expenses.

Interest expense and other borrowing costs to finance intangible assets and property, plant and equipment which relate to the production period are recognised in cost of the assets.

Tax on profit/loss for the year

The Parent Company is comprised by the Danish rules on compulsory joint taxation of the Group's Danish subsidiaries. The subsidiaries are included in the joint taxation from the date when they are included in the consolidated financial statements and up to the date when they are excluded from the consolidation.

The Parent Company is the administrative company for the joint taxation and accordingly settles all payments of corporation tax to the tax authorities.

On payment of joint taxation contributions, current Danish corporation tax is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have used the losses to reduce their own taxable profit.

Tax for the year comprises current tax for the year and changes in deferred tax, including changes in tax rates. The tax expense relating to the profit/loss for the year is recognised in the income statement at the amount attributable to the profit/loss for the year and directly in equity at the amount attributable to entries directly in equity.

Balance sheet

Intangible assets

Patents, licences and trademarks

Patents and licences are measured at cost less accumulated amortisation and impairment losses. Patents are amortised on a straight-line basis over the remaining life of the patent, and licences are amortised over the contract period, however, not exceeding five years.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Goodwill

Goodwill is amortised on a straight-line basis over the estimated useful life determined on the basis of Management's experience within the individual business areas. The maximum amortisation period is between 5 and 25 years and longest for strategically acquired entities with a strong market position and long-term earnings profile.

Gains and losses on the disposal of intangible assets are determined as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses are recognised in the income statement as other operating income or other operating costs, respectively.

Property, plant and equipment

Property, plant and machinery and fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date on which the asset is available for use. The cost of self-constructed assets comprises direct and indirect costs of materials, components, subsuppliers, and wages and salaries. The cost of financial leased assets is the lowest fair value of the asset and the present value of the future leases. Financial leased assets are handled like the Group's other property, plant and equipment.

Where individual components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items, which are depreciated separately.

The basis of depreciation is cost less any projected residual value after the end of the useful life. Depreciation is provided on a straight-line basis over the estimated useful life. The estimated useful lives are as follows:

Plant and machinery	4-10 years
Fixtures and fittings, tools and equipment	2-10 years
Leasehold improvements	10-20 years

Gains and losses on the disposal of property, plant and equipment are stated as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses are recognised in the income statement as other operating income or other operating costs, respectively.

Leases

On initial recognition, leases for fixed assets that transfer substantially all risks and rewards incident to ownership to the Company (finance leases) are recognised in the balance sheet at the lower of fair value and the net present value of future lease payments. When the net present value is calculated, the interest rate implicit in the lease or the incremental borrowing rate is used as the discount factor. Assets held under finance leases are subsequently depreciated as the Company's other fixed assets.

The capitalised lease obligation is recognised in the balance sheet as a liability at amortised cost, allowing the interest element of the lease payment to be recognised in the income statement over the term of the lease.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

All other leases are operating leases. Payments relating to operating leases and other leases are recognised in the income statement over the term of the lease. The Company's total obligation relating to operating leases and other leases is disclosed as contractual obligations and contingencies, etc.

Equity investments in subsidiaries

Equity investments in subsidiaries in the Parent Company are measured according to the equity method.

Equity investments in subsidiaries are measured at the proportionate share of the entities' net asset values calculated in accordance with the Group's accounting policies minus or plus unrealised intra-group profits and losses and plus or minus any residual value of positive or negative goodwill determined in accordance with the acquisition method.

Equity investments in subsidiaries with negative net asset values are measured at DKK 0 (nil), and any amounts owed by such entities are written down if the amount owed is irrecoverable. If the subsidiaries have a deficit that exceeds the amount owed, the remaining amount is recognised under provisions if the Parent Company has a legal or constructive obligation to cover the obligations of the subsidiary.

Net revaluation of equity investments in subsidiaries is recognised in the reserve for net revaluation according to the equity method and in equity to the extent that the carrying amount exceeds cost. Dividends from subsidiaries which are expected to be adopted before the approval of the annual report of Dedert International A/S are not recognised in the reserve for net revaluation.

Impairment of fixed assets

The carrying amount of intangible assets and property, plant and equipment as well as equity investments in group entities and associates is subject to an annual test for indications of impairment other than the decrease in value reflected by depreciation or amortisation.

Impairment tests are conducted of individual assets or groups of assets when there is an indication that they may be impaired. Write-down is made to the recoverable amount if this is lower than the carrying amount.

The recoverable amount is the higher of an asset's net selling price and its value in use. The value in use is determined as the present value of the forecast net cash flows from the use of the asset or the group of assets, including forecast net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised write-downs are reversed when the basis for the write-down no longer exists. Write-down of goodwill is not reversed.

Inventories

Inventories are measured at cost in accordance with the weighted-average cost method. Where the net realisable value is lower than cost, inventories are written down to this lower value.

Goods for resale and raw materials and consumables are measured at cost, comprising purchase price plus delivery costs.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Finished goods and work in progress are measured at cost, comprising the cost of raw materials, consumables, direct wages and salaries as well as indirect production costs. Indirect production overheads comprise indirect materials and wages and salaries as well as the maintenance of depreciation of production machinery, buildings and equipment as well as factory administration and management. Borrowing costs are not included in cost.

The net realisable value of inventories is calculated as the sales amount less costs of completion and costs necessary to make the sale and is determined taking into account marketability, obsolescence and development in expected selling price.

Receivables

Receivables are measured at amortised cost.

Write-down is made for bad debt losses where there is an objective indication that a receivable or a portfolio of receivables has been impaired. If there is an objective indication that an individual receivable has been impaired, write-down is made on an individual basis.

Construction contracts

Construction contracts are measured at the selling price of the work performed less progress billings and expected losses. The selling price is measured on the basis of the stage of completion at the balance sheet date and the projected income from the individual construction contract. The stage of completion is stated as the share of costs incurred in proportion to estimated total costs relating to the individual construction contract.

When the selling price of a construction contract cannot be estimated reliably, the selling price is measured at the lower of costs incurred and net realisable value.

The individual construction contract is recognised in the balance sheet as receivables or payables, respectively. Net assets comprise the total of construction contracts where the selling price of the work performed exceeds progress billings. Net liabilities comprise the total of construction contracts where progress billings exceed the selling price.

Costs arising from sales work and contracting are recognised in the income statement as incurred.

Prepayments

Prepayments comprise prepayment of costs incurred relating to subsequent financial years.

Securities and equity investments

Other securities and equity investments included in investments comprise unlisted shares that Management considers investment securities. The equity investments are measured at cost.

Other securities and equity investments recognised as current assets comprise listed securities measured at fair value at the balance sheet date, corresponding to market value.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Cash and cash equivalents

Cash and cash equivalents comprise cash and short-term marketable securities with a term of three months or less that are easily convertible into cash and that are subject to only an insignificant risk of changes in value.

Equity

Dividends

The expected dividend payment for the year is disclosed as a separate item under equity.

Corporation tax and deferred tax

Current tax payable and receivable is recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account.

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax value of assets and liabilities measured on the planned use of the asset or settlement of the liability, respectively. However, deferred tax is not recognised on temporary differences relating to goodwill non-deductible for tax purposes and on office premises and other items where the temporary differences arise at the date of acquisition without affecting either profit/loss or taxable income.

Deferred tax assets, including the tax value of tax loss carryforwards, are recognised at the expected value of their utilisation within the foreseeable future; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Any deferred net assets are measured at net realisable value.

Deferred tax is measured in accordance with the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Changes in deferred tax as a result of changes in tax rates are recognised in the income statement or equity, respectively.

Provisions

Pension obligations

Pension obligations are the net liabilities of defined benefit obligations and plan assets. The defined benefit obligations are measured at the present value of expected future payments to be made in respect of services provided by employees up to the balance sheet date. Plan assets are measured at fair value. Actuarial gains and losses are recognised in other comprehensive income.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Warranties and projects

Provisions comprise anticipated costs related to warranties, losses on work in progress, restructurings, etc. Provisions are recognised when, as a result of past events, the Company has a legal or a constructive obligation, and it is probable that there may be outflow of resources embodying economic benefits to settle the obligation.

Provisions are measured at net realisable value or fair value if the obligation is expected to be settled in the distant future.

Warranties comprise obligations to make good any defects within the warranty period. Provisions are measured at net realisable value and recognised based on past experience.

If it is likely that total costs will exceed total income from contract work in progress, a provision is made for the total loss anticipated on the contract. The provided amount is recognised in production costs.

Liabilities other than provisions

Financial liabilities are recognised at the date of borrowing at cost, corresponding to the proceeds received less transaction costs paid. In subsequent periods, the financial liabilities are measured at amortised cost, corresponding to the capitalised value using the effective interest rate. Accordingly, the difference between cost and the nominal value is recognised in the income statement over the term of the loan together with interest expenses.

Finance lease obligation comprise the capitalised residual lease obligation of finance leases.

Other liabilities are measured at net realisable value.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

The Group has deferred tax assets of DKK 27.2 million and the Parent Company has deferred tax assets of DKK 5.7 million. The full deferred tax has not been recognised due to uncertainty regarding the future utilisation.

12 Prepaid costs

Prepaid costs, DKK 2,466 thousand (2018: DKK 1,323 thousand), comprise payments made to suppliers relating to the subsequent financial year.

13 Contributed capital

The contributed capital comprises 33,200,010 shares, split in 27,224,008 A-shares and 5,976,002 B-shares, each having a nominal value of DKK 1 per share. A-shares carries 1 vote. B-shares carries no vote and is without right of representation.

The contributed capital was increased by DKK 10 in 2015, but has otherwise remained unchanged for the last five years.

Adjustments	-13	39	-13	39
	<u>26</u>	<u>39</u>	<u>26</u>	<u>39</u>

17 Contractual obligations, contingencies, etc.

Contingent liabilities

Lease obligations

Lease obligations (operating leases) falling due within five years total DKK 418 thousand.

Obligations relating to the lease of office premises amount to DKK 14,656 thousand whereof DKK 2,816 thousand falls due after five years.

Guarantees

The Group has provided delivery and performance guarantees relating to projects. These guarantees may entail a liability which will not be recognised until the facilities have been delivered or put into operation. It is Management's assessment that the Group has met the provided guarantees, and consequently no costs have been recognised in this respect. Bank guarantees of DKK 37.0 million have been provided in this respect.

Parent Company

The Parent Company has obligations relating to the lease of office premises in the amount of DKK 2,410 thousand.

The Company has provided suretyship for a number of affiliated companies' banking arrangements with Danske Bank.

The Parent Company is jointly taxed with other Danish companies in the Ordyhna Group. The companies included in the joint taxation are jointly and severally unlimited liable for Danish corporation taxes and withholding taxes on dividends, interest and royalties. At 31 December 2019, the net taxes payable to the Danish tax authorities by the companies included in the joint taxation amounted to DKK 0 thousand. Any subsequent corrections of the taxable income subject to joint taxation or withholding taxes on dividends, etc., may entail that the companies' liability will increase. The Group as a whole is not liable to others.

Consolidated financial statements and parent company financial statements 1 January – 31 December
