STATEMENT BY THE BOARD OF DIRECTORS AND EXECUTIVE BOARD

The Board of Directors and the Executive Board have today discussed and approved the annual report for Telenor A/S for the period 1 January – 31 December 2016.

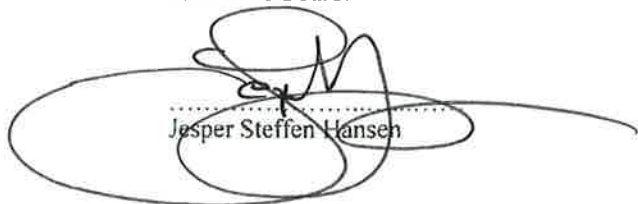

The annual report is presented in accordance with International Financial Reporting Standards as adopted by the EU and additional Danish disclosure requirements for annual reports. We consider the accounting policies applied appropriate, so that the annual report gives a true and fair view of the company's assets and liabilities, its financial position as at 31 December 2016 and the results of the company's activities and cash flows for the financial year 1 January – 31 December 2016.

In our opinion, the management's review gives a true and fair account of the matters addressed in the review.

We recommend that the annual report be adopted by the General Meeting.

INDEPENDENT AUDITORS' REPORT

To the shareholders of Telenor A/S

Opinion

We have audited the financial statements of Telenor A/S for the financial year 1 January – 31 December 2016, which comprise an income statement, statement of comprehensive income, balance sheet, statement of changes in equity, cash flow statement and notes, including a summary of significant accounting policies. The financial statements are prepared in accordance with International Financial Reporting Standards as adopted by the EU and additional disclosure requirements of the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2016 and of the results of the Company's operations and cash flows for the financial year 1 January – 31 December 2016 in accordance with International Financial Reporting Standards as adopted by the EU and additional disclosure requirements of the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements, or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

INDEPENDENT AUDITORS' REPORT - CONTINUED

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on our procedures, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatements of the Management's review.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with International Financial Reporting Standards as adopted by the EU and additional disclosure requirements of the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

INDEPENDENT AUDITORS' REPORT - CONTINUED

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusion is based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

See note 2 for definitions of key figures and ratios.

The financial highlights for 2013 – 2016 reflect the figures of the aggregate activities for the company for the period based on consolidation of the joint operation with TT-Netværket P/S. Comparative figures for 2012 has not been adjusted.

MANAGEMENT'S REVIEW, CONTINUED

Primary activity

Telenor A/S is among Denmark's largest suppliers of mobile phone solutions, mobile broadband, landline phone solutions and internet/broadband solutions.

Telenor's mobile telecommunications activity is mainly based on GSM (2G), UMTS (3G) and LTE (4G). Together, these technologies make up Telenor's mobile network which carries different forms of voice and data traffic. Telenor offers mobile phone and mobile data communication to private individuals, businesses as well as to wholesale customers. Telenor also develops services to other mobile operators, content providers and internet providers who market mobile services under their own brands in Denmark.

In 2016 Telenor markets its activities through the Telenor main brand as well as the sub brand CBB Mobil.

In addition, Telenor offers internet and broadband solutions as well as traditional landline telephone services to businesses and private individuals. The primary business areas include broadband products based on DSL and fibre technology, home-based work and gross salary concepts, security and WAN solutions as well as telephone service.

Telenor mainly performs sales and distribution through own stores and outlets throughout Denmark at central locations on high streets and in major shopping centres. Telenor also realises a significant part of its sales through established web channels.

Telenor A/S uses the network owned via the TT Netværket P/S joint-operation company which handles the expansion, operations and maintenance of the GSM (2G), UMTS (3G) and LTE (4G) networks. This ensures optimal coverage for the company's customers. In September 2016 TT Netværket P/S acquired new 1800 MHz spectrum licenses. The spectrum license will be effective from June 2017 securing continued operations.

Material issues during the reporting period

No material issues have occurred during the reporting period.

MANAGEMENT'S REVIEW, CONTINUED

Development in activities and finances

Telenor's revenue has decreased compared to 2015 in a market characterised by intense competition.

The number of Telenor mobile phone customers was 1.820 million at the end of 2016 against 1.784 at the end of 2015. DSL customers in Telenor totalled 149,000 at the end of 2016 against 159,000 the previous year.

Telenor's net revenue amounted to 4,110 mDKK in 2016 against 4,367 mDKK in 2015, driven by lower mobile segment revenue due to declining subscription, handset sales, roaming and interconnect prices. Earnings measured before interest, tax, depreciation and amortisation (EBITDA) amounted to 420 mDKK, corresponding to 10% of the revenue. In 2015 EBITDA amounted to 298 mDKK, corresponding to 7% of the revenue.

The net loss for the year before tax is -1,196 mDKK against -615 mDKK last year. The net loss is significantly affected by write-down of investments of 4,097 mDKK and by dividends from investments in Telenor Serbia and Telenor Montenegro in the amount of 2,703 mDKK in 2016 against 248 mDKK in 2015.

In 2016, Telenor's investments totalled 384 mDKK (2015: 556 mDKK), driven by continued network expansion.

The company had 1,925 employees on average in 2016 against 1,903 in 2015.

The year's performance measured against expectations in previous years

The year's operating profit totalled 239 mDKK against -1,968 mDKK in 2015, and the improvement was in line with last year's expectations. The operating profit in 2015 was significantly affected by impairment of assets of 1,651 mDKK.

Dividends

The Board of Directors recommends that the general meeting adopts a resolution to distribute dividends of 0 mDKK (2015: 0 mDKK).

MANAGEMENT'S REVIEW, CONTINUED

Capital structure

Telenor in Denmark is part of the Telenor Group cash pool arrangements, which is handled by Group Treasury in Norway.

Future outlook

Throughout 2016 Telenor implemented a new IT platform, or Business Support System (BSS). In 2017 the work to stabilize and further develop the system and processes will continue in order to improve both customer experience and efficiency. In addition further activities to become a simple, lean and relevant Digital Service Provider has been initiated.

In 2017, the revenue is expected to remain at current level compared to 2016. Net income for the year is expected to improve compared to 2016.

Post balance sheet events

No other events have occurred after the balance sheet date which would affect the evaluation of this annual report.

MANAGEMENT'S REVIEW, CONTINUED

CSR report

Corporate Social Responsibility or CSR is an integral part of Telenor's way of doing business, both in Denmark and internationally. We contribute to social, environmental and financial sustainability through a wide variety of specific initiatives. In Denmark, our efforts range from sponsoring Kræftens Bekæmpelse to focusing on digital bullying through our #digitalpænt campaign targeting children in 4th to 6th grade.

Telenor's CSR efforts rely on internationally acknowledged standards and clearly formulated policies in areas such as environmental management, climate impacts, responsible supplier management, corporate ethics and employee concerns. As part of the Telenor Group, we have adopted the UN Global Compact.

At Telenor we are driven by a powerful vision: To empower societies. Sustainability is therefore at the heart of our corporate culture, governance and business strategy, and a responsible business conduct has always played a big role in our operations

Further information about Telenor's vision, goals, policies and efforts in the CSR area are available as part of the group's annual report at the group website:

<http://www.telenor.com/investors/annual-report-2016/> page 41-69.

Report on gender composition in management

Telenor A/S has an ambition of having "the right employee in the right position" and of everyone enjoying equal opportunities to put their skills to use, regardless of gender. Telenor A/S believes that a balanced mix between men and women in every organisation creates strength, and we evaluate the gender composition on the Board of Directors, at management levels and in employee groups with a view to ensuring a balanced composition.

Two out of 7 members, or 29%, of the Board of Directors of Telenor A/S are women. The level at 29% is assessed to be both realistic and balanced in relation to the industry, and the target will continue to be to have around 2-3 women on the board within the next 3 years.

MANAGEMENT'S REVIEW, CONTINUED

Report on gender composition in management, continued

24% of all managers across all levels of Telenor A/S are women. 37% of all our employees are women.

Telenor A/S has adopted policies to ensure equal distribution of men and women in management and has in 2016 initiated a Women Inspirational Network (WIN) to put focus on increased gender diversity. Telenor's guidelines for supporting a balanced distribution of men and women and the right person for the position are as follows:

- Through recruitment, our goal is to get the right employee for the position. It is endeavoured to attract a balanced field of candidates for open positions.
- Profiles as well as gender composition are taken into account in relation to organisational changes and new appointments.
- The annual performance and potential review of managers and management groups includes an assessment of gender distribution.
- The company reports on gender distribution annually in the HR Fact Book for group-internal use.
- Telenor A/S' Employer Branding and values promote diversity in terms of gender, age and ethnicity.

Knowledge resources

The company's tasks call for significant expertise in the operation and development of mobile networks. For this reason it is essential for the company to be able to retain and recruit employees with the requisite educational background. The company is of the belief that the current internal and external circumstances facilitate recruitment as well as retention of employees with the appropriate competences.

MANAGEMENT'S REVIEW, CONTINUED

External environmental impact

In isolated terms, the company is not engaged in activities that materially impact the external environment.

Through its ownership of the joint operation in TT-Netværket P/S, activities are conducted which affect the external environment. This includes more than 4,000 antenna locations which have been established in accordance with applicable rules and building permits, ensuring that the impact on the external environment is limited and complies with laws and guidelines. In addition, great efforts are, and will continue to be, invested in reducing the considerable power consumption associated with the antenna locations.

Risk factors

Telenor A/S's ultimate parent, Telenor ASA, is responsible for and performs the Group's financing and liquidity, currency and interest management centrally on behalf of the group entities.

As far as possible, the group attempts to counter and manage any risks that the Group can influence through own actions. Telenor ASA's treasury function is responsible for funding, foreign exchange risk, interest rate risk, credit risk and liquidity management for the Telenor Group companies owned more than 90 % directly or indirectly, Telenor A/S included.

Capital base

In connection with the licence to establish and operate GSM networks, the company is subject to a solvency requirement of 20% imposed by the licensor (The Danish National IT and Telecom Agency).

NOTES

Note 1. Summary of significant accounting policies

The 2016 annual report for Telenor A/S is presented in accordance with the International Financial Reporting Standards as adopted by the EU and additional Danish disclosure requirements for annual reports for reporting class C (large), subject to the IFRS Executive Order issued in pursuance of the Danish Financial Statements Act.

The accounting policies are unchanged compared to last year. There have been no changes to existing standards and IFRIC Interpretations adopted by the EU effective from the 2016 reporting year of relevance to Telenor A/S.

The company has implemented the following new accounting standards (IFRS and IAS) and interpretations (IFRIC): IAS 1, IAS 16, IAS 27, IAS 38, IAS 41 and IFRS 11 and annual improvements to IFRSs cycle 2012-2014. Annual Improvements to IFRSs 2012-14 Cycle implies changes to IFRS 5, IFRS 7, IAS 19 and IAS 34. None of the implemented standards and interpretations has affected the financial statements for 2016 significantly.

The Company expects to adopt the new accounting standards and interpretations when they become mandatory according to the effective dates adopted by the EU. Apart from IFRS 15 and IFRS 16 and certain note disclosure requirements, none of the new standards or interpretations is expected to have a significant impact on recognition and measurement for the Company. Specific considerations on IFRS 15 and IFRS 16 are described below:

- IFRS 15 Revenue from Contracts with Customers was issued in May 2014 and establishes a five-step model to account for revenue arising from contracts with customers. Under IFRS 15, revenue is recognised at an amount that reflects the consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer. For Telenor A/S the new standard implications will mainly be allocation of revenue based on stand-alone selling prices, contract modifications and multiple element arrangements in contracts with customers.

- IFRS 16 Leases was issued in January 2016 and will be effective for reporting periods beginning on 1 January 2019 or later. The standard will significantly change the accounting treatment of leases that under the current IAS 17 are classified as operating leases. IFRS 16 requires that all leases irrespective of their type, with only few exceptions, are recognised in the balance sheet by the lessee as an asset with a corresponding liability. The income statement will also be impacted as the annual lease expenses under IFRS 16 will consist of two elements - depreciation on the leased assets and interest expenses. Under the current standard, the annual expenses from operating leases are recognised as other external expenses. Telenor has not yet made a thorough impact assessment of the new standard. However, it is expected that IFRS 16 will have material impact, as the Company's minimum lease payments related to operating leases (primarily lease of land and buildings) amounting to approximately DKK 259 million (undiscounted) at year-end 2016, which potentially should be recognised in the balance sheet.

As at the annual report date, all operative standards and interpretations have been implemented.

The company has decided not to prepare consolidated financial statements with the 100 % owned subsidiaries Telenor Serbia d.o.o. (Serbia), Telenor Ltd. Montenegro (Montenegro), Tn Finance A/S and Telenor Digital Holding Inc. with reference to IFRS 10.4 as the company is part of the IFRS consolidated financial statements of the company's ultimate parent, Telenor ASA, Norway.

The annual report is presented in Danish kroner (mDKK).

Recognition and measurement

Assets are recognised in the balance sheet when a previous event renders it probable that future economic benefits will flow to the company and the value of the asset can be measured reliably. Liabilities are recognised in the balance sheet when the company, as a consequence of a prior event, has a legal or constructive liability which renders it probable that future economic benefits will flow from the company and the value of the liability can be measured reliably. Assets and liabilities are measured at cost on initial recognition, except financial assets and liabilities which are initially recognised at fair value. Subsequently, assets and liabilities are measured as described for each individual item below.

NOTES

The recognition and measurement include gains, losses and risks occurring before the presentation of the annual report that confirm or rebut circumstances in existence at the balance sheet date.

Income is recognised in the income statement as and when earned. Costs incurred to achieve the year's earnings are recognised in the income statement. Value adjustments of financial assets and financial liabilities are recognised in the income statement.

Joint operations

Telenor A/S takes part in a joint arrangement, TT Netværket P/S, which handles the expansion, operations and maintenance of the GSM (2G), UMTS (3G) and LTE (4G) networks. The arrangement is a joint operation in which the partners have direct ownership to the assets and are directly responsible for liabilities in the joint operation. The joint operation has been consolidated into the financial statements of Telenor A/S.

Translation of foreign currencies

Functional currency and presentation currency

Line items are presented in the currency of the primary economic environment in which the company operates (functional currency). The annual report is presented in DKK which is also the parent's functional currency and presentation currency.

Translation of transactions and amounts

Transactions denominated in foreign currencies are translated to the functional currency at the exchange rate on the transaction date. Exchange rate gains and losses arising from the settlement of such transactions and from the translation of monetary assets and liabilities to the exchange rates at the balance sheet date are recognised in the income statement as financial income and expenses. Exchange differences arising out of the translation of non-monetary items, such as financial assets classified as available for sale, including investments, are recognised in other total comprehensive income.

NOTES

INCOME STATEMENT

Revenue

Revenues comprise the value of services provided and goods delivered in the period less value-added tax and price reductions directly associated with sales.

Income from the sale of goods and services is recognised in the income statement if delivery has taken place and all risk and rewards associated with the goods and services sold have been transferred to the buyer.

The most significant sources of income are recognised in the income statement as follows:

- Income from phone services is recognised at the time when the call is made.
- Sale of prepaid products is recognised as income upon actual use.
- Subscription income is recognised over the subscription period.
- Sale of mobile phones and other equipment is recognised on the date of sale. Revenue from sales in instalments is recognised at the present value of the future payments based on a risk-free and customer-specific rate of interest.

Other operating expenses

Other operating expenses include line items that are secondary to the company's activities, including the profit and losses from the sale of intangible and tangible assets. Gains or losses in connection with the sale of intangible and tangible assets are stated as the sales price less costs to sell and the carrying amount at the time of sale.

Personnel expenses

Wages, salaries, social security contributions, paid leave and sick leave, bonus and other employee benefits are recognised in the year in which the employee renders the related services.

Income from investments in subsidiaries

Dividends from investments in subsidiaries are recognised in the income statement in the period in which the dividend is declared. The carrying amount of subsidiaries is tested at triggering events, including if the dividends received exceed the profit realised by the equity investment entity in the period or if book value of the underlying assets is below book value of the investment.

NOTES

Financial income and expenses

Financial income and expenses comprise interest payments on and amortisation of financial liabilities and assets with the amounts that are attributable to the fiscal year.

Financial income and expenses also include the financial costs of financial leasing, realised and unrealised foreign currency gains and losses as well as tax surcharge and tax relief under the Danish Tax Prepayment Scheme, etc.

Tax

The company and the other Danish Telenor entities are jointly taxed. The tax is allocated in accordance with the full allocation method.

The tax for the year, consisting of the current tax for the year and the change in deferred tax for the year, is recognised in the income statement. Changes in deferred tax concerning equity items are credited or charged directly to equity. Danish corporation tax with any tax surcharge and tax relief is consequently allocated among Danish companies, whether they realise profits or losses, proportionally to their taxable income.

BALANCE SHEET

Intangible assets

Software

Software is measured at cost less accumulated amortisation and impairment losses. Cost comprises the acquisition price and costs directly related to the acquisition until the time when the asset is ready for its intended use.

Own-developed software comprises costs and salaries directly attributable to the company's software development activities as well as finance costs in the production period. Own-developed software that is clearly defined and identifiable, where technical utilisation, sufficient resources and a potential future market or possible use in the company can be demonstrated and where it is intended to use the project, is recognised as intangible assets if the cost can be reliably measured and there is adequate assurance that the future earnings can cover the costs of production, sale and administration as well as the actual development costs.

NOTES

Software, continued

Other development costs are charged to the income statement as and when incurred. Capitalised own-developed software is measured at cost less accumulated amortisation and impairment losses. A yearly impairment test is performed for own-developed software assets where there is an indication of impairment.

After completed development work, own-developed software is amortised on a straight-line basis over its estimated useful life. The amortisation period is usually 3-5 years. The basis of amortisation is reduced by any impairment losses.

Licences

Licences and other rights are measured at cost less accumulated amortisation and impairment losses and are amortised over the estimated useful life. However, intangible assets with indefinite useful lives are not amortised but are tested annually for impairment.

The UMTS and LTE licences are amortised from the date of initial use and over the remaining licence period. The UMTS license expires by the end of 2021 and the LTE license expires by mid-2030. New 1800 MHz license with initial use in June 2017 has been recognised as prepaid investment.

Tangible assets

Tangible assets are measured at cost less accumulated depreciation and impairment losses. Cost comprises the acquisition price and costs directly related to the acquisition until the time when the asset is ready for its intended use. For own-manufactured assets, the cost includes direct labour, materials, parts purchased and services rendered by subcontractors as well as interest costs in the production period. Furthermore, the cost includes estimated costs of restoration if these costs also meet the criteria for recognition of provisions. The cost of a single asset is divided into separate components that are depreciated individually if the individual components have different useful lives.

The cost of properties includes the cash acquisition cost of land and buildings as well as the aggregate construction and/or conversion costs. Finance lease assets are measured at the lower of the assets' fair value or the present value of the lease payments stated on the basis of the interest rate implicit in the lease less accumulated depreciation and impairment losses. Finance lease assets are classified as own assets.

NOTES

Tangible assets, continued

Straight-line depreciation is applied, based on the estimated useful lives which are determined at the time of acquisition and reassessed annually. The estimated useful lives are:

- Buildings 10-50 years, including masts and leasehold improvements 5-10 years
- Plant and machinery 3-10 years
- Other fixtures and fittings, tools and equipment 3-10 years
- Land is not depreciated.

The basis of depreciation is determined with consideration of the asset's scrap value and is reduced by any impairment losses. The scrap value is determined at the time of acquisition and reassessed annually. Depreciation ceases if the scrap value exceeds the carrying amount of the asset.

If the depreciation period or scrap value changes, the depreciation effect is recognised as a change in accounting estimates going forward.

An impairment test is performed for tangible assets where there is an indication of impairment. The impairment test is performed for each individual asset or group of assets. The assets are written down to the lower of the recoverable amount and the carrying amount.

Investments in subsidiaries

Investments in subsidiaries are measured at cost. If the cost exceeds the recoverable amount, it is written down to this lower amount. The carrying amount of subsidiaries is tested at triggering events, including if the dividends received exceed the profit realised by the equity investment entity in the period or if the net assets of the subsidiary is below net book value.

NOTES

Impairment of assets

Impairment losses are recognised when the carrying amount of an asset or a cash-generating unit, respectively, exceeds the recoverable amount of the asset or the cash-generating unit. Impairment losses are charged to the income statement under depreciation, amortisation and impairment losses.

Impairment of assets is reversed to the extent of any changes in the estimates and assumptions causing the impairment charge. Impairment losses are only reversed to the extent that the new carrying amount of the asset does not exceed the carrying amount of the asset if it had not been written down. Notwithstanding the above, any impairment of goodwill will not be reversed.

Inventories

Inventories are measured at the lower of cost and net realisable value. Cost is determined using the FIFO or weighted average method, depending on the nature of the inventories. The net realisable value is the estimated selling price less costs to sell. Impairment is recognised for obsolete inventory, including slow-moving stock.

Receivables

Receivables primarily include trade receivables and short-term advances to group entities.

Trade receivables are initially measured at cost and subsequently at amortised cost or a lower value subject to an individual assessment of the exposure to loss. Receivables from interest-free instalment sales are recognised at the present value of the future payments based on a risk-free and customer-specific rate of interest. The interest element is carried as income as and when the loan is repaid.

Fixed-interest short-term advances to group entities are measured at amortised cost as they are held until maturity. Receivables are measured at amortised cost.

NOTES

Pre-paid costs

Prepaid costs recognised under assets include expenses paid concerning subsequent financial years.

Prepayments for leased premises are made when entering into operational leases. The advance amounts are depreciated over the expected leasing period or the estimated customer lifetime subject to a model based on the services provided. They mainly relate to connection charges for the lease of cables from other operators (operator access, etc.). The depreciation period for connection charges is the expected customer lifetime based on historical experience.

Corporation tax and deferred tax

Current tax liabilities and current tax receivables are recognised in the balance sheet as calculated tax of the year's taxable income adjusted for tax of previous years' taxable incomes and tax paid on account.

Deferred tax is recognised and measured under the balance sheet liability method on all temporary differences between the carrying amount and tax-based value of assets and liabilities. However, deferred tax is not recognised for temporary differences relating to the tax base of non-depreciable office properties. In cases where the tax base can be calculated in accordance with alternative taxation rules, deferred income tax is measured on the basis of the management's planned utilisation of the asset or settlement of the obligation, respectively.

Deferred tax assets, including the tax base of a tax loss allowed for carry forward, are measured under other non-current asset investments at the expected use value of the asset, either by elimination in tax of future income or by offsetting against deferred tax liabilities within the same legal tax entity and jurisdiction.

Deferred tax is measured based on the tax rules and rates which will be applicable under the legislation in force at the balance sheet date, when the deferred tax is expected to be realised as current tax. Changes in deferred tax in consequence of changes in tax rates are recognised in the income statement.

Provisions

Provisions are recognised when the company, as a consequence of an event in the financial year or in previous financial years, has a legal or constructive liability and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

NOTES

Provisions are recognised and measured as the best estimate of the costs required to settle the liabilities at the balance sheet date. Provisions with an expected maturity of more than 12 months from the balance sheet date are measured at present value.

The provisions include restoration liabilities. When the company has an obligation to dismantle an asset or restore the site on which the asset was used, a liability is recognised, corresponding to the present value of the expected future costs. The present value of future costs is capitalised as a tangible asset and depreciated over the useful life of the asset it relates to. After initial recognition at present value, the added cost of the liability is charged to the income as a finance cost.

Financial liabilities

Payables to credit institutions, etc., are recognised at the time of borrowing and at the received proceeds less transaction costs paid.

In subsequent periods, the financial liabilities are measured at amortised cost by applying the effective interest rate method so that the difference between the proceeds and the nominal value is recognised in the income statement over the borrowing period.

Other liabilities are measured at net realisable value.

Other rental and lease issues

When agreements to rent and lease assets for a period of several years are operational in nature, the lease payments are charged to the income statement for the period to which they relate.

The remaining rental lease commitment concerning such agreements is stated under contingent liabilities.

CASH FLOW STATEMENT

The cash flow statement shows the company's cash flows for the year, divided into operating, investment and financing activities, the year's change in cash and cash equivalents and the company's opening and closing cash balance.

NOTES

Cash flows from operating activities

Cash flows from operating activities are calculated as income before tax, adjusted for non-cash operating items, working capital changes, unpaid interest and corporation tax paid.

Cash flows from investment activities

Cash flows from investment activities comprise payments related to purchasing and selling companies and activities, purchasing and selling non-tangible, tangible and other non-current assets as well as purchasing and selling securities that are not recognised as cash and cash equivalents.

Cash flows from financing activities

Cash flows from financing activities comprise changes to the amount or composition of share capital and related costs as well as raising loans, servicing interest-bearing debt, purchasing and selling treasury shares and distributing dividends to owners.

Cash and cash equivalents

Comprises cash and cash equivalents as well as short-term bank loans.

Note 2. Definitions of key figures and ratios

Solvency ratio = Closing shareholders' equity / Balance sheet total

Note 3. Significant accounting estimates, assumptions and uncertainties

Many items in financial statements cannot be measured with precision but can only be estimated. The estimation process involves judgements based on the latest information available at time of preparing the financial statements. An estimate may have to be revised if changes occur regarding the circumstances on which the estimate was based or as a result of new information, more experience or subsequent developments.

In the practical application of the described accounting policies, the management has made the following significant accounting estimates which have significantly affected the financial statements:

NOTES

Note 3. Significant accounting estimates, assumptions and uncertainties, continued

Licence fees and rights

Unpaid services associated with the acquisition of the LTE licence are discounted, at the time of acquisition, to net present value. The uncertainty stated relates to estimates concerning the average discount rate. An average discount rate of 2.43% has been applied (2015: 2.43%) when discounting unpaid services to net present value, based on the expected interest-rate level for the period 2010-2018.

Expected useful lives

The expected useful lives of tangible and other intangible assets are based on the management's estimates and are reviewed annually to ensure compliance with the expected economic lives of the assets based on current facts and circumstances.

Particularly critical estimates concerning the expected useful lives of the assets comprise, without limitation, expectations of technological and market developments.

Valuation of investments in subsidiaries

The carrying amount of subsidiaries is tested at triggering events, including if the dividends received exceed the profit realised by the equity investment entity in the period. See note 14 for assumptions underlying this assessment.

Asset retirement obligations

The asset retirement obligations of the company relates mainly to sites and retail stores, when the company has a legal or constructive obligation to remove an asset or restore a site. The company has estimated and capitalised the net present value of the obligations and increased the carrying value of the related assets.

NOTES

Note 4. Revenue

The company operates within a single geographic market, i.e. Denmark, and two significant activities; mobile telephony and broadband/landline services. Together, the activities are considered to be one cash-generating unit (CGU), as the structure of the company's organisation and financial management means that only the revenue is divided into the stated activities whereas other costs and investments are considered in combination.

Revenue distribution for the two activities:

	2016 mDKK	2015 mDKK
Mobile telephony	3,642	3,834
Broadband and landline services	<u>468</u>	<u>533</u>
	<u>4,110</u>	<u>4,367</u>

Note 5. Staff expenses

	2016 mDKK	2015 mDKK
Salaries and wages	801	810
Defined contribution plans	68	64
Other expenses for social security	8	8
Other staff expenses	22	37
Work performed by the enterprise and capitalised	<u>-34</u>	<u>-50</u>
	<u>865</u>	<u>869</u>
Average number of employees	<u>1,925</u>	<u>1,903</u>

Remuneration of the Executive Board is not disclosed, subject to Section 98b of the Danish Financial Statements Act. The board of directors has not received any remuneration from the company.

Note 6. Other operating income

	2016 mDKK	2015 mDKK
Gains/losses on disposal of non-current assets	<u>1</u>	<u>1</u>
	<u>1</u>	<u>1</u>

Exchange rate gains and losses, net	<u>7</u>	<u>0</u>
	<u>33</u>	<u>20</u>

Note 10. Financial expenses

	2016 mDKK	2015 mDKK
Interest expenses for group entities	32	65
Other financial expenses	42	31
Exchange rate gains and losses, net	<u>0</u>	<u>12</u>
	<u>74</u>	<u>108</u>

NOTES

Note 11. Tax on the profit for the year

	2016 mDKK	2015 mDKK
Current withholding tax on dividend and corporation tax	-58	-12
Tax from previous years	-71	-12
Change in deferred tax	<u>45</u>	<u>81</u>
	<u>-84</u>	<u>57</u>

The current corporation tax for the financial period is based on a tax rate of 22 %.

Profit/loss before tax	-1,196	-615
Tax at a tax rate of 22.0/23.5 %	-566	-86
Adjustment for previous years	-71	-3
Tax base of dividend from and impairment of subsidiaries	688	158
Dividend tax paid	<u>-135</u>	<u>-12</u>
Tax on the profit for the year	<u>-84</u>	<u>57</u>
Effective tax rate for the year	<u>7 %</u>	<u>-9 %</u>

The company is a party to compulsory national joint taxation with all Danish companies owned by the Telenor group. Calculated tax is accrued in the company in accordance with Danish taxation rules.

The development in the company's effective tax rate is mainly attributable to the effect of the profit on non-tax credits concerning impairment losses and non-taxable dividends from subsidiaries.

NOTES

Note 14. Investments in subsidiaries, continued

The subsidiaries of Telenor A/S are:

	<u>Registered Office</u>	<u>Ownership share</u>	<u>Share of voting rights</u>	<u>Activity</u>
Telenor Serbia d.o.o.	Serbia	100 %	100 %	Mobile telephony
Telenor Ltd. Montenegro.	Montenegro	100 %	100 %	Mobile telephony
TN Finance A/S	Denmark	100 %	100 %	Other financial services
Telenor Digital Holding Inc.	USA	100 %	100 %	Investments digital services

Investments in subsidiaries are measured at cost. If the cost exceeds the recoverable amount, it is impaired to this lower amount. The recoverable amount is based on the value in use which is determined by applying the expected cash flows on the basis of management-approved business plans covering a total period of three years. Beyond this period, a constant nominal growth rate applies. Key assumptions applied in the calculation of the recoverable amount are expected growth rates, EBIDTA margins, investments and discount rate. The following assumptions have been used for calculating the recoverable amount:

	Post-tax discount rate (WACC)		Pre-tax discount rate		Nominal growth rate terminal value	
	2016	2015	2016	2015	2016	2015
Telenor Serbia	12.5-10.7 %	12.6-11.0 %	14.3-12.4 %	14.2-12.6 %	0.0 %	2.0 %
Telenor Montenegro	12.8-11.8 %	12.2-11.7 %	14.1-13.0 %	13.3-12.8 %	0.0 %	1.5 %
TN Finance	5.3 %	- %	7.1 %	- %	0.0 %	- %
Telenor Digital Holding	11.0 %	- %	14.1 %	- %	3.0 %	- %

In 2015 impairment testing increased the value of both Telenor Serbia and Telenor Montenegro, resulting in reversal of impairment of 1,193 mDKK.

In 2016 impairment testing resulted in a decrease in the recoverable amount of both of Telenor Serbia and Telenor Montenegro. Impairment losses occur mainly due to paid out dividend from both companies. As a consequence impairment losses for Telenor Serbia of 1,263 mDKK and Telenor Montenegro of 1,969 mDKK have been recognised.

In 2016 impairment testing also decreased the value of Telenor Digital Holding due to decreasing values of investment in Digital Service Company in USA, resulting in impairment of -680 mDKK. As a consequence impairment testing of TN Finance resulted in impairment of -185 mDKK.

NOTES

Note 15. Inventories

Loss carry forward	<u>0</u>	<u>121</u>	<u>121</u>
	<u>52</u>	<u>45</u>	<u>97</u>

Note 19. Provisions

Provisions mainly concern restoration liabilities. When the company has an obligation to dismantle an asset or restore the site on which the asset was used, a liability is recognised, corresponding to the present value of the expected future costs.

The company's restoration obligations mainly comprise dismantling obligations concerning masts and sites on leased land as well as conversion of leased property. These leases generally include provisions requiring the company to restore the leased premises to their original condition after the expiry of the agreement. The timing of the realisation of the recognised restoration obligations will generally be subject to uncertainty, but the management estimates that this will primarily take place in the period 2028 - 2053.

Provision for repairs concerns provision for repairs of handsets in the 2 year guarantee period. It is expected that the most significant recognised obligation will be realised within 1 year.

Other restructuring provisions primarily concern expenses towards non-utilised contracts or dismissed employees where the company's financial obligations continue to exist. It is expected that the most significant recognised obligations will be realised within a period of 1-2 years.

	2016 mDKK	2015 mDKK
Provision for restoration:		
Provisions for restoration costs at 01.01.	214	239
Provisions for the year	8	14
Realised during the year	<u>-14</u>	<u>-39</u>
Provisions for restoration costs at 31.12.	<u>208</u>	<u>214</u>

NOTES

Note 19. Provisions, continued

	2016	2015
	mDKK	mDKK
Provision for repairs:		
Provisions for repair costs at 01.01.	40	35
Provisions for the year	-4	15
Realised during the year	<u>-8</u>	<u>-10</u>
Provisions for repair costs at 31.12.	<u>28</u>	<u>40</u>
Provisions for restructuring – non-current element:		
Non-current element of restructuring at 01.01.	2	4
Provisions during the year for staff reductions and onerous contracts	0	-1
Reclassified to current element	<u>-2</u>	<u>-1</u>
Provisions for restructuring at 31.12.	<u>0</u>	<u>2</u>
Provisions for restructuring – current element:		
Current element of restructuring at 01.01.	28	49
Reclassified from non-current element	2	1
Provisions during the year for staff reductions and onerous contracts	29	35
Realised during the year	<u>-43</u>	<u>-57</u>
Provisions for restructuring at 31.12.	<u>16</u>	<u>28</u>
Total provisions for restructuring at 31.12.	<u>16</u>	<u>30</u>

NOTES

Note 20. Payables to group entities

The payables carry floating-rate interest with monthly rate adjustments. As at 31 December 2016, the interest was 0.09 – 0.71 % p.a. (2015: 0.09 – 0.82 % p.a.).

	2016 mDKK	2015 mDKK
Note 21. Other payables		
VAT and charges	82	50
Salary, payroll taxes, bonus, holiday pay, etc., payable	111	108
Other costs payable	<u>5</u>	<u>6</u>
	<u>198</u>	<u>164</u>

The carrying amount of expenses payable with respect to salary, payroll taxes, social contributions, holiday pay, etc., VAT and charges as well as other expenses payable corresponds to the fair value of the obligations.

Holiday pay obligations represent the company's obligation to pay salary in holiday periods which the employees, as at the balance sheet date, have a vested right to hold in subsequent financial years.

	2016 mDKK	2015 mDKK
Note 22. Operating lease commitments		
Minimum lease payments recognised in the income statement	<u>153</u>	<u>156</u>

Distribution of the aggregate future minimum lease payments under non-cancellable leases:

	<u>Lease of land and buildings</u>	<u>Lease of cars and office equipment</u>
Within one year	102	7
Within two to five years	113	11
After five years	<u>26</u>	<u>0</u>
	<u>241</u>	<u>18</u>

NOTES

Note 23. Financial assets and liabilities

Categories of financial assets and financial liabilities

The financial assets of Telenor A/S include trade receivables, receivables from group entities, other receivables and deposits. All financial assets are recognised as receivables from group entities and other receivables at amortised cost. The financial liabilities include payables to group entities, other interest-bearing liabilities, deposits and trade payables. All financial assets and liabilities are carried at amortised cost.

Fair value

The fair value of financial assets and liabilities are assessed, for all financial assets and liabilities, to correspond to the carrying amount as this represents a reasonable approximation to the fair value because the financial assets and liabilities are either classified as current or subject to floating-rate interest at a market-determined rate of interest.

Financial risks

Telenor A/S's ultimate parent, Telenor ASA, is responsible for and performs the group's financing and liquidity, currency and interest management centrally on behalf of the group entities.

Insofar as possible, the group attempts to counter and manage any risks that the group can influence through own actions.

Liquidity risks

The company is mainly financed by intercompany loans and associated cash pools. The company is part of the Telenor group's cash pool scheme, which includes that any excess liquidity is placed on accounts in the Telenor group's internal bank.

As is the case for other companies in the Telenor group, Telenor A/S will receive the necessary liquidity support from the Telenor group's internal bank to ensure that the company's liquidity resources are sufficient to cover the requirements at any time.

NOTES

Note 23. Financial assets and liabilities, continued

Credit risks

The company's credit risks primarily relate to trade receivables. The credit risk is assessed to be limited due to the significant number of individual receivables. Against this background, it is not assessed that further provisions will be required in addition to the normal provisions for losses on trade receivables that have already been recognised. See note 16 for details about the age analysis of the receivables and provisions for bad debts.

Interest risks

The company primarily has floating-rate loans. Interest-rate fluctuations will consequently affect the company's interest expenses. All else being equal, an interest-rate fluctuation of 10% concerning floating-rate loans would have impacted the company's interest expenses by +/- 7 mDKK in 2016 (2015: 11 mDKK).

NOTES

NOTES

Note 24. Contingent liabilities, provision of security and contractual obligations

In addition, the company is also liable for a financial lease obligation entered into together with a number of other Telenor companies, representing a capitalised value of at least 111 mDKK as at 31 December 2016 (2015: 114 mDKK).

Together with the other companies comprised by the joint registration with respect to VAT, the company is jointly liable for the applicable VAT obligation at any time.

The company is jointly and severally liable with the jointly taxed companies for the aggregate corporation tax.

The company has entered into purchase orders with suppliers in addition to the items carried in the financial statements at 952 mDKK as at 31 December 2016 (2015: 2,046 mDKK).

Telenor is a party to certain legal proceedings. The management believes that the outcome of these proceedings will not materially affect the group's financial position.

In September 2016 Telenor A/S acquired new 1800 MHz spectrum licenses through TT Netværket P/S. The acquisition includes special terms and obligations for ensuring minimum coverage in certain areas of Denmark. Obligations must be fulfilled by December 2019.

	2016 mDKK	2015 mDKK
Salary and remuneration for management and key personnel	6	8
Distributed among:		
Salary and pensions	5	7
Share-based payment	1	1

Remuneration of the Executive Board and Board of Directors appears from note 5.

The company's expenses for the Executive Board and Board of Directors are covered by a management fee paid to the parents.

It has been proposed to distribute dividends to the parent, Telenor Danmark Holding A/S, of 0 mDKK (2015: 0 mDKK).

NOTES

Note 29. Events after the balance sheet date

No events have occurred after the balance sheet date which would affect the evaluation of this annual report.

Note 30. Remuneration to the auditor elected by the general meeting

For information about the company's expenses for audit fee and other services from the company auditor, please refer to the annual report of the company's ultimate parent, Telenor ASA, Fornebu.

Note 31. Approval of the annual report for publication

At a board meeting held on 11 May 2017, the Board of Directors approved this annual report for publication. The annual report will be presented for approval of the shareholders of Telenor A/S at the annual general meeting on 11 May 2017.
