MANAGEMENT'S STATEMENT

The Management and the Board of Directors have today discussed and approved the Annual Report of Albatros Travel A/S for the financial year 1 January – 31 December 2021.

The Annual Report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statement gives a true and fair view of the Company's financial position at 31 December 2021 and of the results of the Company's operations and cash flows for the financial year 1 January - 31 December 2021.

In our opinion, the Management's Review gives a fair review of the development in the Company's operations and financial matters and the results of the Company's operations and financial position.

We recommend that the Annual Report is approved at the Annual General Meeting.

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of Albatros Travel A/S

Opinion

We have audited the Financial Statements of Albatros Travel A/S for the financial year 1 January - 31 December 2021, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, as well as statement of cash flows. The Financial Statements are prepared under the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2021, and of the results of the Company operations as well as the cash flows for the financial year 1 January - 31 December 2021 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), together with the ethical requirements that are relevant to our audit of the financial statements in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

INDEPENDENT AUDITOR'S REPORT

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Consolidated Financial Statements and the Parent Company Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements and the Parent Company Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Acts. We did not identify any material misstatement of Management's Review.

MANAGEMENT'S REVIEW

Main activity of the Company

Albatros Travel A/S operates as a travel agency providing group travels and related activities. The Company operates out of its office in Copenhagen and through branch offices in Poland.

Development in the Company's activities

This year, the revenue of the Company is 148.384 t.DKK with a net loss before tax of -8.037 t.DKK. This is to be compared to a revenue of 24.767 t.DKK and a net loss before tax of -48.253 t.DKK last year.

During the second half of 2021, the COVID19 restrictions on travel was lightened up, especially to European destinations travel was made possible. Management had planned for an opening for travels already in the first quarter of 2021 which is the main reason for the result for 2021 being worse than expected.

Albatros Travel A/S has received Government support in 2021 from the Government programme regarding fixed cost compensation.

The result for 2021 is in general not satisfactory. However, Government support programmes and savings on both employee cost and general cost, have helped materialize a result for 2021 which is better than could have been expected in a year with very limited revenue due to COVID-19.

Outlook for 2022

Management expect a positive result before tax between 20.000 t.DKK and 25.000 t.DKK in 2022. Especially the activity on European destinations is expected to grow significantly in 2022, and overseas travel in the last quarter of the year is also estimated.

Market risks

Albatros Travel A/S mainly operates in the Nordic travel market, which is, like other markets, sensitive to threats of war, terrorism, pandemics and similar instability in destination countries.

Knowledge resources

The success of the Company is based on the skills and qualifications of the employees - and being able to attract and hold on to them. Therefore, one of the strategic aims for the management is to secure competent and satisfied employees through education, possibilities for promotion, attractive salaries and high employee satisfaction.

Environmental issues and social responsibility

For many years, the Company has been focusing on sustainable tourism and has increased the effort in this area in recent years. Focus on the Company's overall social responsibility (CSR) includes all processes in the Company and contains clear objectives and continuous follow-up. The Company has chosen to join the United Nations' principles of sustainability, and prepared a progress report for the UN in June 2019. This report is available on the home page www.unglobalcompact.org.

For more information on the overall CSR performance, please visit: www.albatros-travel.dk/ansvarlighed

The Company strives to give female and male employees, regardless of nationality, age or appearance, equal conditions and opportunities for development, as the aim is to have the best-qualified employees in each individual position.

As per December 31, 2021 both genders are represented in the Company's Board and Management. The target is to have a Board and Management composed on the basis of merit, regardless of gender, nationality, appearance or age. It is, however, the aim to have each gender represented in both Board and Management with at least one person.

The Board of Directors' distribution by gender comply with the Danish Business Authority's Guidance from March 2016 on "Objectives and policies for the gender composition of management and reporting hereof" and in particular the clarification as to what is meant by equal distribution by gender across a variety of boards of different sizes. Therefore, the Board of Directors is under no obligation, according to the Danish Companies Act, to set up a new objective for its distribution by gender.

MANAGEMENT'S REVIEW

Shareholder Information

Albatros Travel A/S has the following registered shareholders subject to the Companies Act, Paragraph 55:

- SRBW Holding ApS, Tøndergade 16, DK-1752 København V
- RASWI Holding ApS, Landsebakken 8, DK-2840 Holte
- CÆWI Holding ApS, Søllerødsgårdsvej 16A, DK-2840 Holte

ACCOUNTING POLICIES

The Annual Report of Albatros Travel A/S has been prepared in accordance with the provisions of the Danish Financial Statements Act for large companies in accounting class C.

The accounting policies used are consistent with those of last year.

According to the Danish Financial Statements Act, Article 112, Paragraph 1, no Consolidated Financial Statement has been made. The Company is a part of the Consolidated Financial Statement for SRBW Holding ApS.

By the imperatives of competition and according to the Danish Financial Statements Act, Article 96, Paragraph 1, segment information has been omitted.

General information regarding recognition and measurement

Income is recognised in the income statement as incurred including value adjustments of financial assets and liabilities, which are measured at fair value or amortized cost. Furthermore, costs paid to achieve revenue for the year are recognized including depreciation, impairment loss and provisions.

Transactions in foreign currencies are converted at initial recognition at the exchange rate of the transaction day. Debtors, debts and other monetary items in foreign currency, which have not been recognised on the balance sheet day, will be converted at the rate on the balance sheet day. Differences in exchange rates arising between the exchange rate on the transaction date and the date of payment are recognised in the income statement as financial accounts.

Assets are recognized in the balance sheet when it is probable that future economic benefits will flow to the company and the asset can be measured in a reliable manner.

On initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Certain financial assets and liabilities are measured at amortized cost including the recognition of a constant effective interest during the term. Amortized cost is calculated as original cost less any instalments as well as extra payments/deductions of the accumulated amortization of the difference between cost and nominal amount.

In regards to recognition and measurement, predictable losses and risks that arise before the annual report and that confirm or invalidate matters existing on the balance sheet day are taken into account.

Conversion of foreign currencies

Transactions in foreign currencies during the year are converted at periodically regulated standard exchange rates or average exchange rates.

Balances that are payable in foreign currency are converted at the exchange rates as per the official exchange rates on the balance sheet date.

Derivative Financial Instruments

Derivative financial instruments are initially recognized in the balance sheet at cost and subsequently at fair value. Positive and negative fair values of derivative financial instruments are recognised in other receivables or other liabilities.

Change in fair value of derivative financial instruments that qualifies as hedges of the fair value of a recognized asset or liability is recognized in the income statement together with changes in the fair value of the hedged asset or hedged liability.

Change in fair value of derivative financial instruments that qualifies as hedges of future assets and liabilities is recognized in other debts, other liabilities and in equity. Should the future transaction result in recognition of assets or liabilities, amounts previously recognized in equity are transferred to the asset or liability at cost. (Should the future transaction result in income or costs, amounts previously recognized in equity, are recognised in the income statement in the period in which the hedged item affects the result.)

ACCOUNTING POLICIES

For derivative financial instruments that do not qualify as hedging instruments, changes in fair value are recognised in the income statement.

INCOME STATEMENT

Revenue

Revenue includes invoiced sales of departed tours recognised in the income statement. If transfer of risk has taken place according to the Company's General Conditions and if the income can be assessed reliably and is expected to be received.

Revenue is measured at fair value of the agreed payment excluding VAT and duties collected on behalf of third parties. Discounts granted are recognised in the revenue.

Direct expenses

Direct expenses include purchase of tickets as well as other direct expenses related to revenue.

External expenses

External costs include sales, administration, property, development and lease costs.

Employee expenses

Staff costs include wages and salaries, including compensated absence and pensions, as well as other social security contributions, etc. made to the entity's employees. The item is net of refunds made by public authorities.

Financial income and expenses

Financial income and expenses include interest, capital gains and losses on securities, payables and transactions in foreign currencies, amortization of financial assets and liabilities as well as surcharges and allowances under the on-account tax scheme etc.

Realized and unrealized exchange rate adjustments are included in the income statement under financial income or expenses.

Realized and unrealized market value adjustments from securities are recognized in the income statement under financial income or expenses.

Investments in subsidiaries

The income statement includes the proportionate share of the subsidiaries' net profit after full elimination of intercompany profit/loss.

Tax on profit for the year

Income tax expenses include current tax on the expected taxable income and the adjustment of deferred tax for the year less the amount of net tax related to equity. Current and deferred tax relating to equity is recognised directly in equity. The Company and the Danish subsidiaries are jointly taxed. The Danish corporation tax is divided between profitable and loss-making Danish companies in proportion to their taxable income (full allocation).

Other taxes consist of taxes and duties in the year that are independent of the Company's operations. The company is jointly taxed with the parent company SRBW Holding ApS. Corporation tax is refunded amongst the companies.

BALANCE SHEET

The balance is set in the account form.

ACCOUNTING POLICIES

ASSETS

Intangible and tangible assets:

Intangible and tangible assets are stated at cost less accumulated depreciation. The assets are depreciated/amortized over their estimated useful life.

Software	3 years	33% as annual depreciation rate, no scrap value
Leasehold improvements	10-20 years	5-10% as annual depreciation rate, no scrap value
Motor vehicles	5 years	20% as annual depreciation rate, no scrap value
Other fixtures and fittings	3 years	33% as annual depreciation rate, no scrap value

Small acquisitions are recognised in the income statement under external costs.

Profit/loss on sale or disposal is included in the income statement under depreciation and amortization.

Intangible and tangible assets are measured at cost less accumulated amortization or at recoverable amount, whichever is lower.

Depreciation period and scrap value are reviewed annually.

The carrying amount of intangible as well as tangible fixed assets is assessed annually for indication of impairment in addition to what is expressed in connection with the depreciation.

If indications of impairment exist, an impairment test of each individual asset as well as group of assets is carried out. Write-down to the recoverable amount is carried out if this is lower than the carrying amount.

Leases

Leases of fixed assets where the Company has all the risks and rewards of ownership (finance leases) are initially recognized in the balance sheet at the lowest fair value of the leased asset and the present value of future lease payments.

When calculating the present value, the lease's internal rate of return or alternatively the Company's interest rate is used as discount rate. Financially leased assets are hereafter treated as the Company's other assets.

The capitalised remaining lease liability is recognised in the balance sheet as a liability, and the interest portion is recognized over the lease term in the income statement.

All other leases are operating leases. Payments made regarding operating leases and other leases are recognised in the income statement over the lease term. The Company's total liability relating to operating leases and rental agreements are recognised under contingent liabilities etc.

Investments in subsidiaries

Investments in subsidiaries are recognized in the balance sheet at the proportionate share of the net asset value calculated in accordance with the parent company's accounting policies minus or plus unrealized intercompany gains and losses and less any residual value of positive or negative goodwill calculated using the acquisition method.

Subsidiaries with a negative equity value are recognised at DKK 0, and any receivables from these enterprises are written down by the parent company's share of the negative equity if it is deemed irrecoverable. If the negative net asset value exceeds receivables, the balance is recognised under provisions if the parent company has a legal or constructive obligation to cover the subsidiary's deficit.

Net revaluation of investments in subsidiaries are transferred in equity to reserves for net revaluation under the equity method of accounting to the extent the amount exceeds cost less depreciation and write-down of goodwill.

Newly acquired or established companies are recognised in the financial statement from the acquisition date. Enterprises disposed of are recognised until the date of disposal.

ACCOUNTING POLICIES

Gains or losses on disposal of subsidiaries are calculated as the difference between the sales price and the carrying value of net assets at the time of sale including not written-down goodwill and expected costs of sale or disposal. Gains and losses are recognised in the income statement under financial items.

Subsidiaries are acquired using the acquisition method, after which the assets and liabilities of the newly acquired companies are measured at fair value on the acquisition date. The tax effect of any reassessments is taken into account.

Stock inventory

Stock inventory is measured at cost using the FIFO method. Where the net realisable value is lower than the cost, stock inventory is recognised at this lower value.

The cost of goods for resale comprises the purchase price plus delivery costs.

The net realisable value of stocks is calculated as the selling price less expenses incurred to effect the sale. The net realizable value is determined taking into account marketability, obsolescence and expected selling price movements.

Securities

Securities are measured at the rate at the balance sheet date.

Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value. Provisions are made for anticipated losses on realization.

Prepayments

Prepayments recognised in assets comprise costs incurred concerning subsequent financial years.

LIABILITIES

Equity

The expected dividend payment for the year is shown as a separate item under equity. Dividends are recognized as a liability at the time of adoption at the general meeting.

Provisions

Deferred tax

Deferred tax and the year's adjustment thereof is measured using the balance sheet liability method as the tax value of all temporary differences between accounting and tax values of assets and liabilities.

Deferred tax assets including the tax value of deferrable tax loss are recognized at the value at which they are expected to be utilized, either by elimination in tax on future earnings or against deferred tax liabilities of companies within the same legal tax entity and jurisdiction.

Deferred tax is measured on the basis of the tax rules and tax rates at the balance sheet date that will be applicable when the deferred tax is expected to crystallize as current tax.

Other provisions

Other provisions include expected costs for warranties, termination of activity, restructuring etc. Provisions are recognized when the Company at the balance sheet date has a legal or constructive obligation and it is probable that settlement will require an outflow of financial resources.

Provisions that are expected to be settled later than one year from the balance sheet date are measured at the present value of the expected payments. Other provisions are measured at net realisable value.

ACCOUNTING POLICIES

Financial liabilities

Financial liabilities are recognised initially at the proceeds received, net of transaction costs incurred. In subsequent periods, financial liabilities are measured at amortized cost equal to the capitalized value using the redemption yield, so the difference between the proceeds and the nominal value is recognized in the income statement over the loan period.

Financial liabilities also include the capitalized residual obligation on finance leases.

Other liabilities are measured at net realizable value.

Other payables and accruals

Other payables and accruals include provisions of expected costs for selling tours with departure before the balance sheet date, as well as employee tax and liabilities.

CASH FLOW STATEMENT

The cash flow statement shows the Company's cash flows for the year divided into operating assets, investment and financing activities for the year, the change in liquid funds and the Company's liquid funds at the beginning and end of the year.

The cash flow statement cannot be inferred from the published financial statement alone.

Cash flow from operating activities

Cash flow from operating activities is calculated as net income adjusted for non-cash operating income and expenses, changes in working capital and income taxes paid.

Cash flow from investing activities

Cash flow from investing activities includes payments in connection with purchase and sale of companies and activities and the acquisition and sale of intangible, tangible and financial fixed assets.

Cash flow from financing activities

Cash flows from financing activities comprise changes in the size or composition of share capital and related costs as well as loans taken, repayment of interest-bearing debt and payment of dividends to shareholders.

Cash and cash equivalents

Cash and cash equivalents include cash and bank balances.

FINANCIAL RATIOS

The financial ratios have been prepared in accordance with the Danish Society of Financial Analysts' Recommendations and Instructions 2015.

Financial ratios	Calculation formula
Operating margin	$\frac{\text{EBIT} * 100}{\text{Net turnover}}$
Return on assets	$\frac{\text{EBIT} * 100}{\text{Average invested capital}}$
Cash-to-current-liabilities ratio	$\frac{\text{Current assets} * 100}{\text{Short-term debts}}$
Equity ratio	$\frac{\text{Equity} * 100}{\text{Total liabilities}}$
Return on equity	$\frac{\text{Result of the year} * 100}{\text{Average equity}}$

12 Contingencies and other financial commitments

Albatros Travel A/S is jointly taxed with the parent company SRBW Holding ApS. The group's Danish companies are jointly and severally liable for tax on consolidated taxable income and for certain any withholding taxes, dividend tax and royalty tax. The consolidated taxable income is evident from the annual report of SRBW Holding ApS.

Security in the company's portfolio of securities is provided for bank commitments.

EKF Denmark's Export Credit Agency has provided guarantee for 70% of the company's bank loan of DKK 70.000.000.

Security and guarantees

	2021	2020
Bank guarantee to The Travel Guarantee Fund (Rejsegarantifonden)	7.500.000	7.500.000
Bank guarantee to International Air Transport Association (IATA)	2.411.000	0
Other security and guarantees	250.000	250.000

Leases

Annual lease obligations Non-cancellable period is 6 months.	2.157.918	2.089.350
The Company has entered into operating leases with annual lease payments of approximately The leases have an average remaining term of 1 year.	1.067.735	977.724

Forward exchange

The Company has entered into forward exchange contracts to hedge future purchases and sales for a total of	85.385.717	32.811.410
Compared to the forward rates at year end, the contracts have a capital gain of The amount is recognized in the balance sheet under other receivables and equity.	1.024.021	0
Compared to the forward rates at year end, the contracts have a capital loss of The amount is recognized in the balance sheet under other payables and equity.	0	730.400

NOTES TO THE FINANCIAL STATEMENTS

13 Capital resources

Due to the fact that travel, especially to European destinations, has again been made possible, management expect a positive result before tax in 2022.

The Company has sufficient funding and credit facilities via The Danish Travel Guarantee Fund, Nykredit Bank and Danske Bank to cover the losses materialized in 2020 and 2021, and to cover the cashflow needed for the expected growth in the Company's activities in 2022.

Combined with the fact that the Company

- has a solidity of 11% and Liquidity ratio of 179% going into 2022
- has received prolongation on all short-term credit facilities to 2023
- estimates a positive result in 2023
- has a highly dedicated and intact organization to face the already increase in business,

it is the clear expectation from both Management and Board of Directors that the capital resources are sufficient for the 2021 accounts for the Company to be presented as a Going Concern.

14 Related parties

	CVR-no.	Ownership	Voting rights
SRBW Holding ApS	21 39 62 73	50%	100%
Raswi Holding ApS	33 05 92 99	25%	0%
Cæwi Holding ApS	33 05 93 29	25%	0%

Other related parties with significant influence include affiliate companies, their Boards, their managements and executive officers as well as their related family members.

Transactions

Over the year, no transactions with the Board, management, executive officers, major shareholders or other related parties, have been made apart from normal management remuneration and intra-group transactions which are eliminated in the consolidated financial statements for SRBW Holding ApS.

The Company solely discloses related party transactions that have not been carried out on an arm's length basis, cf. section 98c(7) of the Danish Financial Statements Act. All transactions have been carried out on an arm's length basis.
