STATEMENT BY MANAGEMENT ON THE ANNUAL REPORT

The supervisory board and executive board have today discussed and approved the annual report of Faxe Kalk A/S for the financial year 1 January - 31 December 2023.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the company's financial position at 31 December 2023 and of the results of the company's operations and cash flows for the financial year 1 January - 31 December 2023.

In our opinion, management's review includes a fair review of the matters dealt with in the management's review.

Management recommends that the annual report should be approved by the company in general meeting.

INDEPENDENT AUDITOR'S REPORT

To the shareholder of Faxe Kalk A/S

Opinion

We have audited the financial statements of Faxe Kalk A/S for the financial year 1 January - 31 December 2023, which comprise a summary of significant accounting policies, income statement, balance sheet, statement of changes in equity, cash flow statement and notes. The financial statements are prepared under the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the company's financial position at 31 December 2023 and of the results of the company's operations and cash flows for the financial year 1 January - 31 December 2023 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements, that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

INDEPENDENT AUDITOR'S REPORT

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on management's review

Management is responsible for management's review.

Our opinion on the financial statements does not cover management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read management's review and, in doing so, consider whether management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether management's review provides the information required under the Danish Financial Statements Act.

INDEPENDENT AUDITOR'S REPORT

Based on the work we have performed, we conclude that management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of management's review.

MANAGEMENT'S REVIEW

Business review

The Company is primarily engaged in the quarrying, manufacture, sale and distribution of limestone based products. Limestone is extracted from its quarry at Faxe Kalkbrud for sale as agricultural limestone. Limestone is also used for the manufacture of quicklime at its plant in Faxe Ladeplads. In addition, quicklime is reprocessed at the Company's plant in Vejle, Denmark. There have not been any significant changes in the Company's main activities in the year. The directors are not aware, at the date of this report, of any likely major changes in the Company's activities in the next year.

Recognition and measurement uncertainties

It is recognized that measurement of raw materials and semi processed materials is inherently difficult in a quarry environment. The directors are confident that adequate controls are in place to avoid overvaluing such inventories

Unusual matters

The company's financial position at 31 December 2023 and the results of its operations and cash flows for the financial year ended 31 December 2023 are not affected by any unusual matters except for a provision for restructuring of lime supply. On December 8th 2023 the board of directors approved a project for restructuring of lime supply. A provision of kDKK 18,200, for future cost of dismantling and cleaning was approved along with financing via once off sales of balance sheet contingent assets.

Financial review

The company's income statement for the year ended 31 December 2023 shows a profit of TDKK 12.448, and the balance sheet at 31 December 2023 shows equity of TDKK 65.732.

The result for 2023 was lower than 2022. The sales for main product areas quicklime, milled limestone and crushed limestone were satisfactory.

Total quicklime sales were at a higher level than 2022 the increase is due to positive development in most of the market segments.

The Market for milled limestone is at a lower level than 2022. The decrease is mainly due to lower volumes in 2023.

The market for crushed minerals primarily for agriculture is stable since 2022. We see a slight positive development in Aggregates.

The cash flow in the year was influenced by the payment of dividend of DKK 17,000,000 to the shareholders.

Operating risk

2024 is operationally started at a lower level than 2023, it is expected the financial result for the year will be higher than 2023 due to a positive development in all markets.

Cash flows for 2024 will be affected by the distribution of dividend to the Company's owners.

The Board of directors recommends the general meeting to distribute dividend of DKK 11,000,000 to the shareholders.

MANAGEMENT'S REVIEW

Specific prerequisites for assessment of the expected development of the company

The Company continues to seek new applications and markets for the Lhoist Group products.

Given the relatively low storage capacity for finished goods in bulk, the Company is dependent on a regular and stable output from the production units, for which reason constant efforts are made to minimize the risk of unforeseen breakdowns by enhancing the efficiency of preventive maintenance.

Faxe Kalk is included in the national allocation plan governing CO2 quotas. Since the Company emits a relatively high amount of CO2, which is due to special process emissions and high combustion, the size of the quota allocated in total is of major operating importance.

Faxe Kalk is sensitive to energy market developments. The Company consumes large volumes of energy for production purposes.

Uncertainties associated with the expected development of the company

Faxe Kalk has a long term loan from CFC Finance S.A. which is a Lhoist Group company.

Currency risks

Most of the revenue for 2023 was invoiced in DKK, SEK or EUR. Similarly, most costs were settled in DKK, SEK or EUR.

Interest-rate risks

Forecast changes in interest rates are not expected to have a significant effect on the Company's financial performance. No interest rate instruments have been used to hedge interest rate risks.

Credit risks

Credit risks in connection with financial assets correspond to the recognised values in the balance sheet. The Company is not exposed to major credit risks from a single customer or business partner. As a consequence of the Company's credit risk policy, all major customers and other business partners are rated on an on going basis.

Impact on the external environment and measures taken to prevent, reduce or mitigate damage

Continuous improvement of the quality of products and processes is given high priority by Faxe Kalk, which is certified to ISO's quality management system standard DS/EN ISO 9001.

Faxe Kalk is also certified to ISO's environmental system standard DS/EN ISO 14001.

Due to the CO2 quota allocated, the Company's CO2 emissions for 2023 have been verified by DNV GL.

Research and development activities in or for the company

Research and development activities are carried out centrally by the Lhoist Group.

FINANCIAL HIGHLIGHTS

Seen over a 5-year period, the development of the Company may be described by means of the following financial highlights:

	2023 TDKK	2022 TDKK	2021 TDKK	2020 TDKK	2019 TDKK
--	--------------	--------------	--------------	--------------	--------------

The financial ratios are calculated in accordance with the Danish Finance Society's recommendations and guidelines. For definitions, see the summary of significant accounting policies..

ACCOUNTING POLICIES

The annual report of Faxe Kalk A/S for 2023 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class C.

The accounting policies applied are consistent with those of last year.

The annual report for 2023 is presented in TDKK

Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any installments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report is presented and which confirm or invalidate matters existing at the balance sheet date.

Income statement

Revenue

Income from the sale of goods for resale and finished goods is recognised in the income statement, provided that the transfer of risk, usually on delivery to the buyer, has taken place and that the income can be measured reliably and is expected to be received.

Raw materials and consumables

Costs of raw materials and consumables include the raw materials and consumables used in generating the year's revenue.

Other operating income

Other operating income comprises items of a secondary nature relative to the company's activities, including gains on the sale of tangible assets and sale of rights.

Other operating expenses

Other operating expenses comprise items of a secondary nature relative to the company's activities, including losses on the sale of items of property, plant and equipment.

ACCOUNTING POLICIES

Other external expenses

Other external expenses include expenses related to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

Staff costs

Staff costs include wages and salaries, including compensated absence and pensions, as well as other social security contributions, etc. made to the entity's employees.

Depreciation, amortisation and impairment of intangible assets and property, plant and equipment

Depreciation, amortisation and impairment of intangible assets and property, plant and equipment comprise the year's depreciation, amortisation and impairment of intangible assets and property, plant and equipment.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year. Net financials include interest income and expenses, realised and unrealised capital/exchange gains and losses on foreign currency transactions, and surcharges and allowance under the advance-payment-of-tax-scheme, etc.

Profit from investments in associates

The proportionate share of the profit for the year of associated companies is recognised in the company's income statement after full elimination of intra-group profits/losses.

Tax on profit for the year

Tax for the year, which comprises the current tax charge for the year and changes in the deferred tax charge, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

Balance sheet

Tangible assets

Items of land and buildings, plant and machinery and fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment losses.

The depreciable amount is cost less the expected residual value at the end of the useful life. Land is not depreciated.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date when the asset is available for use.

Where individual components of an item of property, plant and equipment have different useful lives, and the individual component is a significant part of the total cost, the cost is divided into separate components, which are depreciated separately.

Straight-line depreciation is provided on the basis of the following estimated useful lives of the assets:

	Useful life	Residual value
Other buildings	15-50 years	0 %
Plant and machinery	3-25 years	0 %
Other fixture and fittings, tools and equipment	3-20 years	0 %

ACCOUNTING POLICIES

Leases

All leases are operating leases. Payments relating to operating leases and any other leases are recognised in the income statement over the term of the lease. The company's total liabilities relating to operating leases and other rent agreements are disclosed under 'Contingencies, etc.'.

Investments in subsidiaries, associates and participating interests

Investments in associates are measured at the proportionate share of the net asset value of the entities, calculated on the basis of the group's accounting policies, plus or less unrealised intra-group gains or losses and plus or less any remaining value of positive or negative goodwill stated according to the purchase method.

Investments in associates with a negative net asset value are measured at DKK 0, and the carrying amount of any receivables from these entities is reduced to the extent that they are considered irrecoverable. If the parent company has a legal or constructive obligation to cover a deficit that exceeds the receivable, the balance is recognised under provisions.

Net revaluations of investments in associates are taken to the net revaluation reserve according to the equity method in so far as that the carrying amount exceeds the cost.

Impairment of fixed assets

The carrying amount of intangible assets, property, plant and equipment and investments in associates is tested annually for impairment, other than what is reflected through normal amortisation and depreciation.

Stocks

Stocks are measured at cost using the weighted average method. Where the net realisable value is lower than the cost, inventories are recognised at this lower value.

The cost of goods for resale, raw materials and consumables comprises the purchase price plus delivery costs.

The cost of finished goods and work in progress includes the cost of raw materials, consumables, direct cost of labour and production/production overheads.

Production overheads include the indirect cost of materials, wages and salaries as well as maintenance and depreciation of production machinery, buildings and equipment and expenses relating to plant administration and management. Borrowing costs are not recognised in the cost.

The net realisable value of stocks is calculated as the expected selling price less direct costs of completion and expenses incurred to effect the sale. The net realisable value is determined taking into account marketability, obsolescence and expected selling price movements.

Receivables

Receivables are measured at amortised cost.

Prepayments

Prepayments recognised under 'Current assets' comprises expenses incurred concerning subsequent financial years.

ACCOUNTING POLICIES

Cash and cash equivalents

Cash and cash equivalents comprise cash and deposits at banks.

Equity

Reserve for net revaluation according to the equity method

The reserve for net revaluation according to the equity method in the company's financial statements comprises net revaluation of investments in associates relative to the cost.

Dividends

Proposed dividends are disclosed as a separate item under equity. Dividends are recognised as a liability when declared by the annual general meeting of shareholders.

Provisions

Provisions comprise expected expenses relating to restructuring, etc. Provisions are recognised when, as a result of a past event, the company has a legal or constructive obligation and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Provisions - except for provisions for deferred tax - are measured at net asset value.

Income tax and deferred tax

Current tax liabilities and current tax receivables are recognised in the balance sheet as the estimated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and tax paid on account.

Deferred tax is measured according to the liability method in respect of temporary differences between the carrying amount of assets and liabilities and their tax base, calculated on the basis of the planned use of the asset and settlement of the liability, respectively. Deferred tax is measured at net realisable value.

Deferred tax is measured according to the tax rules and at the tax rates applicable in the respective countries at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax adjustments resulting from changes in tax rates are recognised in the income statement, with the exception of items taken directly to equity.

Liabilities

Liabilities, which include trade payables, payables to group entities and other payables, are measured at amortised cost, which is usually equivalent to nominal value.

Deferred income

Deferred income recognised under 'Current liabilities' comprises payments received concerning income in subsequent financial years.

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statement as financial income or financial expenses. If foreign currency instruments are considered cash flow hedges, any unrealised value adjustments are taken directly to a fair value reserve under 'Equity'.

ACCOUNTING POLICIES

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Cash flow statement

The cash flow statement shows the company's cash flows for the year, broken down under cash flows from operating, investing and financing activities, the year's changes in cash and cash equivalents and the company's cash and cash equivalents at the beginning and at the end of the year.

The cash flow effect of additions and disposals of entities is shown separately under cash flows from investing activities. The cash flow statement includes cash flows from acquired entities from the time of acquisition, and cash flows from sold entities are included until the date of sale.

Cash flows from operating activities

Cash flows from operating activities are stated as the company's profit or loss for the year, adjusted for non-cash operating items, changes in working capital and paid income taxes. Dividend income from investments is recognised under 'Interest income and dividend received'.

Cash flows from investing activities

Cash flows from investing activities comprise payments related to the acquisition and sale of entities and activities as well as intangible assets, property, plant and equipment and investments.

Cash flows from financing activities

Cash flows from financing activities comprise changes in the size or composition of the company's share capital and related costs, as well as the raising of loans, repayment of interest-bearing debt and payment of dividends to shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise cash and short-term securities whose remaining life is less than three months and which are readily convertible into cash and which are subject only to insignificant risks of changes in value.
