Management's Statement on the Annual Report

The Executive and the Supervisory Boards have today discussed and approved the Annual Report of Adobe Systems Danmark ApS for the financial year 1 December 2019 – 30 November 2020.

The Annual Report has been prepared in accordance with the Danish Financial Statements Act. In our opinion, the financial statements give a true and fair view of the Company's assets, liabilities, and financial position at 30 November 2020 and of the results of the Company's operations for the financial year 1 December 2019 – 30 November 2020.

Further, in our opinion, the Management's review gives a fair review of the Company's activities.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of Adobe Systems Danmark A/S

Opinion

We have audited the financial statements of Adobe Systems Danmark A/S for the financial year 1 December 2019 – 30 November 2020, comprising income statement, balance sheet and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's assets, liabilities and financial position at 30 November 2020 and of the results of the Company's operations for the financial year 1 December 2019 – 30 November 2020 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control that Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements in Denmark will always detect a material misstatement when it exists. Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of financial statement users made on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure, and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed; we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Management's Review

Business activities and mission

The objective of the Company is to provide pre-sales and marketing services for the Adobe Group in the Danish market.

Business review

The Company's income for the year 1 December 2019 to 30 November 2020 shows a net profit of DKK 6.590.832 and the balance sheet on 30 November 2020 shows a shareholder's equity of DKK 13.870.317.

The directors are satisfied with the results for the year.

Impacts of Covid 19

The coronavirus Covid-19 has not had a significant impact on the Company's operations and activities throughout the year. Due to the Company operating on a cost-plus basis it is protected against operating losses. Based on current known information, the board has no reason to believe the Company will not continue as going concern.

Post balance sheet events

No events have occurred after the financial year end, which could affect the Company's financial position.

Accounting Policies

Basis of Preparation

The Annual Report of Adobe Systems Danmark ApS for 1 December 2019 to 30 November 2020 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

The Annual Report is presented in Danish Kroner (DKK).

Recognition and measurement

The financial statements have been prepared under the historical cost method.

Revenues are recognised in the income statement when earned. All expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement. Furthermore, amendments to financial assets and liabilities measured at fair value or amortised cost are recognised.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

DKK is used as the measurement currency. All other currencies are regarded as foreign currencies.

Leases

Payments made under operating leases are recognised in the income statement on a straight-line basis over the lease term.

Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Gains and losses arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in *financial income and expenses* in the income statement.

Receivables, payables, and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date.

Accounting Policies continued

Translation policies continued

Any differences between the exchange rates at the balance sheet date and the transaction date rates are recognised in *financial income and expenses* in the income statement.

Income Statement

Revenue

Revenue comprises commission fees for pre-sales and marketing services provided in the Danish market and rendered to the Adobe Group. The revenue is recognised exclusive of VAT with the amount related to services rendered in the financial year.

Distribution expenses

Distribution expenses comprise costs in the form of salaries to sales and marketing staff, advertising, and marketing expenses, as well as depreciation, etc.

Administrative expenses

Administrative expenses comprise expenses for premises, office expenses, maintenance expenses etc.

Financial income and expenses

Financial income and expenses comprise interest income and expenses, and realised and unrealised capital and exchange gains and losses on foreign currency transaction. Financial income and expenses are recognized in the income statement at the amounts that relate to the reporting year.

Tax on profit/loss for the year

Tax consists of current tax and deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity. The tax recognised in the income statement is classified as tax on ordinary activities and tax on extraordinary items, respectively.

Accounting Policies continued

Balance Sheet

Fixed Assets

Property, plant and equipment

Property, plant, and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use. Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Fixtures and fittings, tools and equipment are depreciated over 3-5 years.

Impairment of fixed assets

The carrying amounts of property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation. If so, an impairment test is carried out to determine whether the recoverable amount is lower than the carrying amount, and the asset is written down to its lower recoverable amount.

The recoverable amount of the asset is calculated as the higher of net selling price and value in use. Where a recoverable amount cannot be determined for the individual asset, the assets are assessed in the smallest group of assets for which a reliable recoverable amount can be determined based on a total assessment.

Receivables

Receivables are recognised in the balance sheet at amortised cost, which substantially corresponds to nominal value. Provisions for estimated bad debts are made.

Prepayments

Prepayments comprise prepaid expenses concerning subscriptions, insurance premiums, rent and interest.

Equity

Dividend

Dividend distribution proposed by Management for the year is disclosed as a separate equity item.

Accounting Policies continued

Deferred tax assets and liabilities

Deferred tax is recognised in respect of material temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised in respect of temporary differences concerning goodwill not deductible for tax purposes and other items, apart from business acquisitions, where temporary differences have arisen at the time of acquisition without affecting the profit for the year or the taxable income.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. In cases where the computation of the tax base may be made according to alternative tax rules, deferred tax is measured on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax loss carryforwards, are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities.

Current tax receivables and liabilities

Current tax receivables and liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on taxable incomes for prior years. Tax receivables and liabilities are offset if there is a legally enforceable right of set-off and an intention to settle on a net basis or simultaneously.

Liabilities

Financial liabilities are recognised at cost at the date of borrowing, equivalent to proceeds received less transaction costs paid. Subsequently, these financial liabilities are measured at amortised cost. Other liabilities are measured at net realisable value.
