Notes:

- To ensure the greatest possible applicability of this document, IAS/IFRS English terminology has been used.
- Please note that decimal points have not been used in the usual English way. This means that for instance DKK 146.940 means the amount of DKK 146,940, and that 23,5 % means 23.5 %.

Management's report

The board of directors and the managing director have today presented the annual report of Esbelt ApS for the financial year 1 January to 31 December 2020.

The annual report has been presented in accordance with the Danish Financial Statements Act.

We consider the accounting policies used appropriate, and in our opinion the annual accounts provide a true and fair view of the company's assets and liabilities and its financial position at 31 December 2020 and of the company's results of its activities in the financial year 1 January to 31 December 2020.

We are of the opinion that the management's review includes a fair description of the issues dealt with.

We recommend that the annual report be approved by the general meeting.

Independent auditor's report

To the shareholders of Esbelt ApS

Opinion

We have audited the annual accounts of Esbelt ApS for the financial year 1 January to 31 December 2020, which comprise accounting policies, profit and loss account, balance sheet, statement of changes in equity and notes. The annual accounts are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the annual accounts give a true and fair view of the company's assets, liabilities and financial position at 31 December 2020 and of the results of the company's operations for the financial year 1 January to 31 December 2020 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with international standards on auditing and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the below section "Auditor's responsibilities for the audit of the annual accounts". We are independent of the company in accordance with international ethics standards for accountants (IESBA's Code of Ethics) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these standards and requirements. We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our opinion.

The management's responsibilities for the annual accounts

Management is responsible for the preparation of annual accounts that give a true and fair view in accordance with the Danish Financial Statements Act. Management is also responsible for such internal control as the management determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, management is responsible for evaluating the company's ability to continue as a going concern, and, when relevant, disclosing matters related to going concern and using the going concern basis of accounting when preparing the annual accounts, unless management either intends to liquidate the company or to cease operations, or if it has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the annual accounts

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report including an opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with international standards on auditing and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements may arise due to fraud or error and may be considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions made by users on the basis of the annual accounts.

Independent auditor's report

As part of an audit conducted in accordance with international standards on auditing and the additional requirements applicable in Denmark, we exercise professional evaluations and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement in the annual accounts, whether due to fraud or error, design and perform audit procedures in response to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the risk of not detecting a misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used by management and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's preparation of the annual accounts being based on the going concern principle and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may raise significant doubt about the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the annual accounts, including the disclosures in the notes, and whether the annual accounts reflect the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

Statement on the management's review

Management is responsible for the management's review.

Our opinion on the annual accounts does not cover the management's review, and we do not express any kind of assurance opinion on the management's review.

Independent auditor's report

In connection with our audit of the annual accounts, our responsibility is to read the management's review and in that connection consider whether the management's review is materially inconsistent with the annual accounts or our knowledge obtained during the audit, or whether it otherwise appears to contain material misstatement.

Furthermore, it is our responsibility to consider whether the management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we believe that the management's review is in accordance with the annual accounts and that it has been prepared in accordance with the requirements of the Danish Financial Statement Acts. We did not find any material misstatement in the management's review.

Management commentary

The principal activities of the company

The Company's main activity is manufacturing and trading of belts and conveyors.

Development in activities and financial matters

The gross profit for the year is DKK 6.049.000 against DKK 5.977.000 last year. The results from ordinary activities after tax are DKK 1.104.000 against DKK 534.000 last year. The management consider the results satisfactory.

Events subsequent to the financial year

No events have occurred subsequent to the balance sheet date, which would have material impact on the financial position of the company.

Accounting policies

The annual report for Esbelt ApS is presented in accordance with those regulations of the Danish Financial Statements Act concerning companies identified as class B enterprises. Furthermore, the company has chosen to comply with some of the rules applying for class C enterprises.

The accounting policies used are unchanged compared to last year, and the annual accounts are presented in Danish kroner (DKK).

Translation of foreign currency

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognised in the profit and loss account as an item under net financials.

Debtors, creditors, and other monetary items in foreign currency are translated by using the closing rate. The difference between the closing rate and the rate at the time of the occurrence or the recognition in the latest annual accounts of the amount owed or the liability is recognised in the profit and loss account under financial income and expenses.

Fixed assets and other non-monetary assets acquired in foreign currency and which are not considered to be investment assets purchased in foreign currencies are measured at the exchange rate on the transaction date.

The profit and loss account

Gross profit

Gross profit comprises the net turnover, changes in inventories of finished goods, and work in progress, work performed for own purposes and capitalised, other operating income, and external costs.

The net turnover is recognised in the profit and loss account if delivery and risk transfer to the buyer have taken place before the end of the year, and if the income can be determined reliably and is expected to be received. The net turnover is recognised exclusive of VAT and taxes and with the deduction of any discounts granted in connection with the sale.

Costs of sales includes costs for the purchase of raw materials and consumables less discounts and changes in inventories

Other external costs comprise costs for distribution, sales, advertisement, administration, premises and loss on debtors.

Staff costs

Staff costs include salaries and wages including holiday allowances, pensions and other costs for social security etc. for staff members. Staff costs are less public reimbursements.

Accounting policies

Depreciation, amortisation and writedown

Depreciation, amortisation and writedown comprise depreciation, amortisation and writedown for the year and gains and losses on disposal of intangible and tangible fixed assets.

Net financials

Net financials comprise interest, realised and unrealised capital gains and losses concerning financial assets and liabilities, amortisation of financial assets and liabilities, additions and reimbursements under the Danish tax prepayment scheme, etc. Financial income and expenses are recognised in the profit and loss account with the amounts that concerns the financial year.

Results from equity investment in

Tax of the results for the year

The tax for the year comprises the current tax for the year and the changes in deferred tax, and it is recognised in the profit and loss account with the share referring to the results for the year and directly in the equity with the share referring to entries directly on the equity.

The balance sheet

Tangible fixed assets

Tangible fixed assets are measured at cost with deduction of accrued depreciation and writedown.

The basis of depreciation is cost with deduction of any expected residual value after the end of the useful life of the asset. The amortisation period and the residual value are determined at the acquisition date and reassessed annually. If the residual value exceeds the book value, the amortisation discontinues.

The cost comprises the acquisition cost and costs directly attached to the acquisition until the time when the asset is ready for use.

Depreciation takes place on a straight line basis and based on an evaluation of the expected useful life and the residual value of the individual assets:

	Useful life	Residual value
<i>Technical plants and machinery</i>	5 years	0-20 %
<i>Other plants, operating assets, fixtures and furniture</i>	3-5 years	0-20 %

Minor assets with an expected useful life of less than 1 year are recognised as costs in the profit and loss account in the year of acquisition.

Profit or loss deriving from the sales of tangible fixed assets is measured as the difference between the sales price reduced by the selling costs and the book value at the time of the sale. Profit or loss is recognised in the profit and loss account under depreciation.

Accounting policies

As regards assets of own production, the cost comprises direct costs for materials, components, deliveries from subsuppliers, payroll costs, and borrowing costs from specific and general borrowing concerning the construction of each individual asset.

Writedown of fixed assets

The book values of both intangible and tangible fixed assets as well as equity investments in subsidiaries and associated enterprises are subject to annual impairment tests in order to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. Writedown takes place to the recoverable amount, if this value is lower than the book value.

The recoverable value is equal to the value of the net selling price or the value in use, whichever is higher. The value in use is determined as the present value of the expected net cash flow deriving from the use of the asset or the group of assets.

Previously recognised writedown are reversed when the condition for the writedown no longer exist. Writedown relating to goodwill is not reversed.

Inventories

Inventories are measured at cost on basis of measured averages prices. In cases the net realisable value is lower than the cost, writedown takes place at this lower value.

The costs for trade goods, raw materials, and consumables comprises the acquisition costs with the addition of the delivery costs.

Debtors

Debtors are measured at amortised cost which usually corresponds to face value. In order to meet expected losses, writedown takes place at the net realisable value.

Accrued income and deferred expenses

Accrued income and deferred expenses recognised under assets comprise incurred costs concerning the next financial year.

Available funds

Available funds comprise cash at bank.

Accounting policies

Equity

Dividend

Dividend expected to be distributed for the year is recognised as a separate item under the equity.

Proposed dividend is recognised as a liability at the time of approval by the general meeting (the time of declaration).

Corporate tax and deferred tax

Current tax receivable and tax liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on previous years' taxable income and prepaid taxes. Tax receivable and tax liabilities are set off to the extent that legal right of set-off exists and if the items are expected to be settled net or simultaneously.

Deferred tax is measured on the basis of all temporary differences in assets and liabilities with a balance sheet focus.

Deferred tax assets, including the tax value of tax losses eligible for carryover, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by setoff in deferred tax liabilities within the same legal tax unit.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation on the balance sheet date and prevailing when the deferred tax is expected to be released as current tax.

Liabilities

Financial liabilities related to borrowings are recognised at the received proceeds with the deduction of transaction costs incurred. In following periods, the financial liabilities are recognised at amortised cost, corresponding to the capitalised value by use of the effective interest. The difference between the proceeds and the nominal value is recognised in the profit and loss account during the term of the loan.

Mortgage debt and bank debt are for instance measured at amortised cost. As to cash loans, this corresponds to the outstanding debt of the loan. For bond loans, the amortised cost corresponds to an outstanding debt calculated as the underlying cash value at the date of borrowing, adjusted by amortisation of the market value adjustment on the date of the borrowing carried out over the repayment period.

Other liabilities are measured at amortised cost which usually corresponds to the nominal value.

Accrued expenses and deferred income

Received payments concerning income during the following years are recognised under accrued expenses and deferred income.
