## Management's report

---

The board of directors and the managing director have today presented the annual report of Drømmeland A/S for the financial year 1 June 2016 to 31 May 2017.

The annual report has been presented in accordance with the Danish Financial Statements Act.

We consider the accounting policies used appropriate, and in our opinion the annual accounts provide a true and fair view of the company's assets and liabilities and its financial position as on 31 May 2017 and of the company's results of its activities in the financial year 1 June 2016 to 31 May 2017.

We are of the opinion that the management's review includes a fair description of the issues dealt with,

The annual report is recommended for approval by the general meeting.

## **Independent auditor's report**

---

### **To the shareholder of Drømmeland A/S**

#### **Opinion**

We have audited the annual accounts of Drømmeland A/S for the financial year 1 June 2016 to 31 May 2017, which comprise accounting policies used, profit and loss account, balance sheet, statement of changes in equity and notes. The annual accounts are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the annual accounts give a true and fair view of the company's assets, liabilities and financial position at 31 May 2017 and of the results of the company's operations for the financial year 1 June 2016 to 31 May 2017 in accordance with the Danish Financial Statements Act.

#### **Basis for opinion**

We conducted our audit in accordance with international standards on auditing and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the below section "Auditor's responsibilities for the audit of the annual accounts". We are independent of the company in accordance with international ethics standards for accountants (IESBA's Code of Ethics) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these standards and requirements. We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our opinion.

#### **The management's responsibilities for the annual accounts**

The management is responsible for the preparation of annual accounts that give a true and fair view in accordance with the Danish Financial Statements Act. The management is also responsible for such internal control as the management determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the management is responsible for evaluating the company's ability to continue as a going concern, and, when relevant, disclosing matters related to going concern and using the going concern basis of accounting when preparing the annual accounts, unless the management either intends to liquidate the company or to cease operations, or if it has no realistic alternative but to do so.

#### **Auditor's responsibilities for the audit of the annual accounts**

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report including an opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with international standards on auditing and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements may arise due to fraud or error and may be considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions made by users on the basis of the annual accounts

## **Independent auditor's report**

---

As part of an audit conducted in accordance with international standards on auditing and the additional requirements applicable in Denmark, we exercise professional evaluations and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement in the annual accounts, whether due to fraud or error, design and perform audit procedures in response to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the risk of not detecting a misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used by the management and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of the management's preparation of the annual accounts being based on the going concern principle and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may raise significant doubt about the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the annual accounts, including the disclosures in the notes, and whether the annual accounts reflect the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

### **Statement on the management's review**

The management is responsible for the management's review.

Our opinion on the annual accounts does not cover the management's review, and we do not express any kind of assurance opinion on the management's review.

## **Independent auditor's report**

---

In connection with our audit of the annual accounts, our responsibility is to read the management's review and in that connection consider whether the management's review is materially inconsistent with the annual accounts or our knowledge obtained during the audit, or whether it otherwise appears to contain material misstatement.

Furthermore, it is our responsibility to consider whether the management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we believe that the management's review is in accordance with the annual accounts and that it has been prepared in accordance with the requirements of the Danish Financial Statement Acts. We did not find any material misstatement in the management's review.

## Financial highlights

DKK in thousands.	2016/17	2015/16	2014/15	2013/14	2012/13
<b>Profit and loss account:</b>					
Gross profit	34.925	37.365	28.739	26.464	29.380
Results from operating activities	8.508	11.098	4.004	214	4.368
Net financials	-506	-357	-484	-196	-1.342
Results for the year	6.194	8.417	2.561	587	2.270
<b>Balance sheet:</b>					
Balance sheet sum	66.753	72.507	73.218	70.616	68.581
Investments in tangible fixed assets represent	2.819	1.189	3.064	2.291	3.538
Equity	19.936	22.158	16.303	14.329	16.012
<b>Employees:</b>					
Average number of full time employees	51	52	51	50	49
<b>Key figures in %:</b>					
Solvency ratio	29,9	30,6	22,3	20,3	23,3
Return on equity	29,4	43,8	16,7	3,9	13,9
Return on assets	12,0	15,2	5,4	0,3	6,7

The calculation of key figures and ratios does in all material respects follow the Danish Association of Finance Analysts' recommendations and does only in a few respects deviate from the recommendations.

The key figures appearing from the survey have been calculated as follows:

<b>Return on assets</b>	$\frac{\text{Operation profit} \times 100}{\text{Average balance}}$
<b>Solvency ratio</b>	$\frac{\text{Equity} \times 100}{\text{Assets in total}}$
<b>Return on equity</b>	$\frac{\text{Results for the year} \times 100}{\text{Average equity}}$

## **Management's review**

---

### **The principal activities of the company**

The company's activities is as in previous years, retail furniture sales with emphasis on bedroom furniture. The company has 19 specialist bed shops. The stores are located in Greater Copenhagen, Zealand, Funen and Jutland.

### **Development in activities and financial matters**

The results from ordinary activities after tax are DKK 6,2m against DKK 8,4m last year.

The company has in the financial year closed the Auping Plaza mono brand store and open a new store in Valby. Furthermore the inventory i Jutland has moved from Aarhus to Randers and the store in Randers has moved to a new location.

The management consider the results satisfactory.

### **The expected development**

The company expects a positive stable earnings performance in the coming year.

### **Events subsequent to the financial year**

No events have orrurred subsequent to the balance sheet date, which would have material impact on the financial position of the company.

## **Accounting policies used**

---

The annual report for Drømmeland A/S is presented in accordance with those regulations of the Danish Financial Statements Act concerning companies identified as class C enterprises (medium sized enterprises).

The accounting policies used are unchanged compared to last year, and the annual accounts are presented in Danish kroner (DKK).

Pursuant to section 86(4) of the Danish Financial Statements Act, no cash flow statement for the enterprise has been prepared, as the relevant information is included in the consolidated annual accounts of K.A. Invest Holding A/S.

### **Recognition and measurement in general**

Income is recognised in the profit and loss account concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs, these including depreciation, amortisation, writedown, provisions, and reversals which are due to changes in estimated amounts previously recognised in the profit and loss account are recognised in the profit and loss account.

Assets are recognised in the balance sheet when the company is liable to achieve future, financial benefits and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the company is liable to lose future, financial benefits and the value of the liability can be measured reliably.

At the first recognition, assets and liabilities are measured at cost. Later, assets and liabilities are measured as described below for each individual accounting item.

Certain fixed asset investments and liabilities are measured at amortised cost, by which method a fixed, effective interest is recognised during the useful life of the asset or the liability. Amortised cost is recognised as the original cost with deduction of any payments and additions/deductions of the accrued amortisation of the difference between cost and nominal amount. In this way capital losses and capital profits are spread over the useful life.

At recognition and measurement, such predictable losses and risks are taken into consideration, which may appear before the annual report is presented, and which concerns matters existing on the balance sheet date.

### **Translation of foreign currency**

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognised in the profit and loss account as an item under net financials.

## **Accounting policies used**

---

Debtors, creditors, and other monetary items in foreign currency are translated by using the closing rate. The difference between the closing rate and the rate at the time of the occurrence or the recognition in the latest annual accounts of the amount owed or the liability is recognised in the profit and loss account under financial income and expenses.

### **The profit and loss account**

#### **Gross profit**

The gross profit comprises the net turnover, changes in inventories of finished goods, other operating income, and external costs.

The net turnover is recognised in the profit and loss account if delivery and risk transfer to the buyer have taken place before the end of the year, and if the income can be determined reliably and is expected to be received. The net turnover is recognised exclusive of VAT and taxes and with the deduction of any discounts granted in connection with the sale.

Costs of sales includes costs for the purchase of raw materials and consumables less discounts and changes in inventories.

Other operating income and costs comprise accounting items of secondary nature in proportion to the principal activities of the enterprise, including gains and losses on disposal of intangible and tangible fixed assets.

Other external costs comprise costs for distribution, sales, advertisement, administration, premises, loss on debtors, and operational leasing costs.

#### **Staff costs**

Staff costs include salaries and wages including holiday allowances, pensions and other costs for social security etc. for staff members. Staff costs are less public reimbursements.

#### **Depreciation, amortisation and writedown**

Depreciation, amortisation and writedown comprise depreciation on, amortisation of and writedown relating to intangible and tangible fixed assets respectively.

#### **Net financials**

Net financials comprise interest, realised and unrealised capital gains and losses concerning financial assets and liabilities, amortisation of financial assets and liabilities, additions and reimbursements under the Danish tax prepayment scheme, etc. Financial income and expenses are recognised in the profit and loss account with the amounts that concerns the financial year.

## **Accounting policies used**

---

### **Tax of the results for the year**

The tax for the year comprises the current tax for the year and the changes in deferred tax, and it is recognised in the profit and loss account with the share referring to the results for the year and directly in the equity with the share referring to entries directly on the equity.

The company is subject to the Danish legislation concerning compulsory joint taxation with the Danish group enterprises.

The current Danish corporate tax is allocated among the jointly taxed companies in proportion to their respective taxable income (full allocation with reimbursement of tax losses).

### **The balance sheet**

#### **Intangible fixed assets**

##### **Aquired rights**

Purchased rights are measured at cost with deduction of accrued amortisation. Aquired rights are amortised on a straight-line basis over the estimated financial life which is 3 years.

##### **Tangible fixed assets**

Tangible fixed assets are measured at cost with deduction of accrued depreciation and writedown. Land is not depreciated.

The basis of depreciation is cost with deduction of any expected residual value after the end of the useful life of the asset. The amortisation period and the residual value are determined at the acquisition date and reassessed annually. If the residual value exceeds the book value, the amortisation discontinues.

If the amortisation period or the residual value is changed, the effect on amortisation will in the future be recognised as a change in the accounting estimates.

The cost comprises the acquisition cost and costs directly attached to the acquisition until the time when the asset is ready for use.

The cost of a total asset is divided into separate components. These components are depreciated separately, the useful lives of each individual components differing.

Depreciation takes place on a straight line basis and based on an evaluation of the expected useful life:

Buildings	50 years
Other plants, operating assets, fixtures and furniture	5 years

Minor assets with an expected useful life of less than 1 year are recognised as costs in the profit and loss account in the year of acquisition.

## **Accounting policies used**

---

Profit or loss deriving from the sales of tangible fixed assets is measured as the difference between the sales price reduced by the selling costs and the book value at the time of the sale. Profit or losses are recognised in the profit and loss account as other operating income or other operating expenses.

### **Leasing contracts**

At the first recognition in the balance sheet, leasing contracts concerning tangible fixed assets by which the company holds all essential risks and advantages attached to the proprietary right (financial leasing) are measured either at fair value or at the present value of the future leasing services, whichever value is lower. When calculating the present value, the internal interest rate of the leasing contract or alternatively the borrowing rate of the enterprise is used as discount rate. Afterwards, financially leased assets are treated in the same way as other similar tangible assets.

The capitalised residual leasing liability is recognised in the balance sheet as a liability, and the interest part of the leasing contract is recognised in the profit and loss account over the term of the contract.

All other leasing contracts are considered operational leasing. Payments in connection with operational leasing and other rental agreements are recognised in the profit and loss account over the term of the contract. The company's total liabilities concerning operational leasing and rental agreements are recognised under contingencies etc.

### **Decoration of rented premises**

Decoration of rented premises are measured at cost with deduction of accrued depreciation. Depreciation takes place on a straight-line basis over the estimated useful life of the asset, which is set at 10 years.

### **Writedown of fixed assets**

The book values of both intangible and tangible fixed assets as well as equity investments in subsidiaries and associated enterprises are subject to annual impairment tests in order to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets respectively. Writedown takes place to the recoverable amount, if this value is lower than the book value.

The recoverable value is equal to the value of the net selling price or the value in use, whichever is higher. The value in use is determined as the present value of the expected net cash flow deriving from the use of the asset or the group of assets.

Previously recognised writedown is reversed when the condition for the writedown no longer exist. Writedown relating to goodwill is not reversed.

### **Inventories**

Inventories are measured at cost on basis of the FIFO method. In case the net realisable value of the inventories is lower than the cost, writedown takes place to this lower value.

## **Accounting policies used**

---

The cost for trade goods, raw materials, and consumables comprises the acquisition cost with the addition of the delivery costs.

The net realisable value for inventories is recognised as the market price with deduction of completion costs and selling costs. The net realisable value is determined taking into consideration the negotiability, obsolescence, and development of the expected market price.

### **Debtors**

Debtors are measured at amortised cost which usually corresponds to face value. In order to meet expected losses, writedown takes place at the net realisable value.

### **Accrued income and deferred expenses**

Accrued income and deferred expenses recognised under assets comprise incurred costs concerning the next financial year.

### **Available funds**

Available funds comprise cash at bank and in hand.

### **Equity**

#### **Dividend**

Dividend expected to be distributed for the year is recognised as a separate item under the equity. Proposed dividend is recognised as a liability at the time of approval by the general meeting (the time of declaration).

### **Corporate tax and deferred tax**

Current tax receivable and tax liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on previous years' taxable income and prepaid taxes. Tax receivable and tax liabilities are set off to the extent that legal right of set-off exists and if the items are expected to be settled net or simultaneously.

According to the rules of joint taxation, Drømmeland A/S is unlimited, jointly and severally liable towards the Danish tax authorities for the total corporation tax, including withholding tax on interest, royalties and dividends, arising within the jointly taxed group of companies.

Deferred tax is measured on the basis of all temporary differences in assets and liabilities with a balance sheet focus.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation on the balance sheet date and prevailing when the deferred tax is expected to be released as current tax.

## **Accounting policies used**

---

### **Liabilities**

Financial liabilities related to borrowings are recognised at the received proceeds with the deduction of transaction costs incurred. In following periods, the financial liabilities are recognised at amortised cost, corresponding to the capitalised value by use of the effective interest. The difference between the proceeds and the nominal value is recognised in the profit and loss account during the term of the loan.

Mortgage debt and bank debt are for instance measured at amortised cost. As to cash loans, this corresponds to the outstanding debt of the loan. For bond loans, the amortised cost corresponds to an outstanding debt calculated as the underlying cash value at the date of borrowing adjusted by amortisation of the market value adjustment on the date of the borrowing carried out over the repayment period.

Also capitalised residual leasing liabilities in connection with financial leasing contracts are recognised in the financial liabilities.

Other liabilities are measured at amortised cost which usually corresponds to the nominal value.

## Notes

All amounts in DKK.

	<u>2016/17</u>	<u>2015/16</u>
<b>1. Special items</b>		
Special items include significant income and expenses of a special nature in proportion to the enterprise's ordinary operating activities, such as the cost of extensive structuring of processes and fundamental structural adjustments and any gains and losses related and which over time have a significant impact. Special items also include other significant amounts of non-recurring nature.		
As mentioned in the management's review, the results for the year are affected by a number of factors that differ from what the management consider a part of the operating profit.		
Special items for the year are specified below, showing where these are recognised in the income profit and loss account.		
Income:		
Sale of Trademarks	1.000.000	0
	<u>1.000.000</u>	<u>0</u>
Special items are recognised in the following items in the annual accounts:		
Gross profit	1.000.000	0
<b>Results of special items, net</b>	<b><u>1.000.000</u></b>	<b><u>0</u></b>
<b>2. Staff costs</b>		
Salaries and wages	20.995.991	20.881.813
Pension costs	2.108.851	2.334.697
Other staff costs	985.071	535.012
	<b><u>24.089.913</u></b>	<b><u>23.751.522</u></b>
