# Management's Statement and Auditor's Report

## Management's Statement

The Board of Directors and the Executive Board have today discussed and approved the annual report of HKScan Denmark A/S for the financial year 1 January – 31 December 2019.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2019 and of the results of its operations and cash flows for the financial year 1 January – 31 December 2019.

Further, in our opinion, the Management's review gives a fair review of the development in the Company's operations and financial matters, the results for the year and the Company's financial position.

We recommend that the annual report be approved at the annual general meeting.

# **Independent Auditor's Report**

**To the shareholders of HKScan Denmark A/S**

## **Opinion**

We have audited the financial statements of HKScan Denmark A/S for the financial year 1 January – 31 December 2019, which comprise income statement, balance sheet, statement of changes in equity, cash flow statement and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2019 and of the results of the Company's operations and cash flows for the financial year 1 January – 31 December 2019 in accordance with the Danish Financial Statements Act.

## **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## ***Independence***

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

## **Management's responsibilities for the financial statements**

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

## **Auditor's responsibilities for the audit of the financial statements**

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.

### **Independent auditor's report**

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Statement on the Management's review**

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

The ratios have been prepared in accordance with the recommendations and guidelines issued by the Danish Society of Financial Analysts. For definitions, see under accounting policies.

## Review

The Annual Report of HKScan Denmark A/S (“Company”) for 2019 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to large enterprises of reporting class C. The Financial Statements have been prepared under the same accounting policies as the previous year. In accordance with section 112 of the Danish Financial Statements Act, consolidated financial statements have not been prepared as the Company is included in the HKScan Corporation (“Parent Company”). The Consolidated Financial Statements may be obtained at the Parent Company.

### Market overview

As in previous years, the Company’s main activity has comprised slaughtering, processing and sale of poultry products both in Denmark and in the export markets.

### Development in the year

#### *The past year and follow-up on development expectations from last year*

The results for the year show a loss before tax of DKK 74,2 million.

Net sales decreased slightly from 2018 to 2019 and is related to a weak start of the year with lost business in domestic retail as well as fierce price competition throughout the year. Strong recovery in second half of 2019, including starting with direct sales to Swedish retail and foodservice. Export volumes decreased slightly during the year.

Overall gross profit changed from negative to positive, stemming from a stronger sales mix (more fresh than frozen sales), new customers, slightly lower raw material prices, efficiency improvement in both Vinderup and Skovsgaard and an overall very tight cost control.

EBIT improved from the previous year with DKK 14,9 million. As a result of modest financial development an impairment loss of DKK 11,2 million is included. Depreciation has consequently lowered during year.

Results for the year are considered unsatisfactory.

### Capital resources

Current loans and credit facilities are considered adequate to cover the Company’s operations and planned investments. The Financial Statements show that a significant part of the Company’s financing has been raised as intercompany loans from the Parent Company.

The Parent Company will support the Company’s activities and has issued a Letter of Financial Support to enable HKScan Denmark A/S to meet its ongoing financial obligations as and when they fall due for the foreseeable future and in any event in the period of 1 January to 31 December 2020.

### Subsequent events

During March 2020 the Corona/COVID19 outbreak has meant changes in the business environment. The changes is not estimated to have negative impact for the financial performance for 2020.

No further events materially affecting the assessment of the Annual Report have occurred after the balance sheet date.

## **Review**

### **Special risks**

#### ***Operating and market risks***

The Company's most material operating risks relate to the development in market prices on the global market, including fluctuations in exchange rates, and incidence of poultry disease both in Denmark and abroad, which also constitutes a general business risk.

The supply of raw materials, which is in all material respects based on multiannual contracts with producers is sensitive to the market-oriented settlement price.

#### ***Foreign exchange risks***

A material export share implies that results, cash flows and equity are affected by the development of the exchange rate of especially SEK, USD and GBP. It is the Company's policy to hedge against commercial foreign exchange exposure. The Company does not enter into foreign exchange positions for speculative purposes. Hedging mainly takes place by means of forward exchange contracts.

#### ***Interest rate risks***

The Company's interest-bearing debt are generally raised with a floating interest rate.

### **Credit risks**

The Company's credit risks relate primarily to financial assets recognised in the balance sheet. The Company does not have any material risks relating to a single customer or business partner. According to the Company's policy for assuming credit risks, all customers are credit rated regularly.

### **Statutory statement of corporate social responsibility and environmental responsibility**

For reporting on corporate responsibility, including human rights, environmental issues, climate issues, social and employee conditions and anticorruption, HKScan Denmark A/S refers to its parent company, HKScan Oyj's, statement on corporate responsibility, which can be accessed at

<https://www.hkscan.com/en/investors-information/Releases-and-publications/annual-report-2019/>

A summary of the policies stated in HKScan Oyj CSR from the annual report of 2019 is outlined below.

#### ***Policies for corporate social responsibility***

Corporate responsibility is an integral part of HKScan's From Farm to Fork strategy. HKScan's corporate responsibility work focuses on four main areas: Economic responsibility, Social responsibility, Animal health and welfare and Environment.

#### ***Policies for environmental responsibility***

HKScan assumes responsibility for the environment throughout the value chain and continuously decreases the environmental impacts of its processes. HKScan manages its operations so that guidelines, regulations and requirements for environmental permits are fulfilled. HKScan's aim is for its environmental work to

align also with the goals of society. This is ensured, e.g., through collaboration with authorities. The company sets environment-related requirements also for its suppliers as part of HKScan's Supplier Guidelines.

More information about corporate social responsibility and environmental responsibility may be obtained at Parent Company homepage [www.hkscan.com](http://www.hkscan.com).

### **Composition of the Board of Directors**

The members elected at the general meeting are mainly recruited among the Company's Executive Board and the Executive Board of the Parent Company. The gender representation thus depends on the gender representation in the relevant positions from time to time.

Employee representatives on the Board of Directors are elected among all employees.  
The representation of female members on the Board of Directors is presently 25% (2018: 25%).

In the long run, HKScan Denmark A/S intends to achieve a more equal gender representation on the Board of Directors. HKScan Denmark A/S' goal is that the underrepresented gender in the Board of Directors is at least 33%. HKScan Denmark A/S will through candidate proposals attempt to increase the ratio of the underrepresented gender in the Board of Directors over the coming 1-3 years.

Currently the ratio of female executives in management team is approximately 29%. HKScan Denmark A/S also intends to achieve a more equal gender representation among management.  
HKScan Denmark A/S will through recruitment internally and externally attempt to increase the ratio of the underrepresented gender in the management in the next 12-24 months.

### **Expectations for the year ahead**

Initiatives following the revised strategy plan from spring 2019 started to show in the financial performance during second half of 2019 and are expected to result in increased revenue and improved financial performance for 2020.

Investments into cooking and frying in Skovsgaard and further improving animal welfare and food safety in Vinderup – both up and running during 2020 – will also contribute positively to the expected financial performance for 2020.

## Notes to the Annual Report

	2019	2018
	DKK '000	DKK '000
<b>6 Property, plant and equipment (continued)</b>		
Depreciation and impairment of property, plant and equipment are expensed in the following items:		
Production costs	58.823	77.218
Distribution costs	0	0
Administrative expenses	469	434
	<b>59.292</b>	<b>77.653</b>

The calculation of the carrying amount of some assets and liabilities requires estimation of the way in which future events will affect the value of such assets and liabilities at the balance sheet date. Such an estimate which is material to the financial reporting is made by e.g. performing an impairment test of the Company's assets.

The impairment test is based on the future current operating income from the business. The calculation of the current operating income includes income and expenses recognised in the Company's budgets and forecasts. It is also based on a required return determined on the basis of e.g. the interest-rate level of the risk-free interest rate.

The impairment test performed did show an indication of impairment with respect to the Company's fixed assets. The impairment test has led to a write-down of DKK 11,2 million being recognised in the fixed assets.

The estimates made are based on assumptions that Management considers reasonable, but which are inherently uncertain and unpredictable. The assumptions may be incomplete or inaccurate, and contingencies or unexpected circumstances may arise. The Company is moreover exposed to risks and uncertainties that may result in the actual performance deviating from these estimates.

# Notes to the Annual Report

## 11 Long-term debt

Payments due within 1 year are recognised in short-term debt. Other debt is recognised in long-term debt.

The debt falls due for payment as specified below:

	2019 DKK '000	2018 DKK '000
<b>Payables to group enterprises</b>		
Between 1 and 5 years	241.653	206.653
Long-term part	241.653	206.653
Within 1 year	17.108	16.663
	<b>258.761</b>	<b>223.316</b>
<b>Other payables</b>		
Between 1 and 5 years	8.600	0
Long-term part	8.600	0
Within 1 year	0	0
	<b>8.600</b>	<b>0</b>

## 12 Contingent assets, liabilities and other financial obligations

### Rental agreements and leases

Lease commitments under operating leases. Total future lease payments:

Within 1 year	8.160	13.547
Between 1 and 5 years	12.007	11.335
After 5 years	79	687
	<b>20.246</b>	<b>25.569</b>

The company has pledged land and buildings related to mortgage debt repaid in previous years.

## Notes to the Annual Report

Securities with at carrying amount of DKK 274k have been provided as security for restoration obligations towards the Danish Coastal Authority.

### Contingent liabilities

The Company has provided a bank guarantee of DKK 30,000k as a producer guarantee.

The Company is under a contractual obligation to supply waste and by-products from the poultry production to the associate Farmfood A/S for the next two years.

The Company is jointly taxed with the subsidiary Kreatina A/S. The companies in the joint taxation are jointly and separately liable for Danish corporation taxes arising in the jointly taxed group.

### 13 Fee to auditors appointed at the general meeting

	2019	2018
	DKK '000	DKK '000

## 15 Derivative instruments

The Company uses hedging instruments to hedge recognized and non-recognized transactions.

### 2019

As of 31 December 2019, the Company entered into the following forward contracts to hedge sales:

Currency	Contract Value (DKK 1.000)	Contract Value (DKK 1.000)
SEK/DKK	150.800	-1.021
USD/DKK	100	7
	<b>150.900</b>	<b>-1.014</b>

**2018**

As of 31 December 2018, the Company entered into the following forward contracts to hedge sales:

<b>Currency</b>	<b>Contract Value (DKK 1.000)</b>	<b>Contract Value (DKK 1.000)</b>
SEK/DKK	10.400	-52
USD/DKK	2.760	-300
	<b>13.160</b>	<b>-352</b>

The market value of forward contracts is included under other liabilities and financial expenses.

**16 Related parties**

Members of the Executive Board and the Board of Directors of HK Scan Denmark A/S are considered related parties.

The Group's associates are considered related parties.

HKScan Denmark A/S reports transactions which are not on regular market terms.

We have had the following transactions with related parties:

(DKK 1.000)

Sale to Group Company	92.729
Purchase from Group Company	21.723
Management fee to Parent company	20.570
Interest to Parent Company	14.967
Purchase of immaterial assets (software)	104
Purchase of machinery from Parent company	2.487
Sale of machinery to Parent company	365
Loans from parent company	258.761

#### **Consolidated Financial Statements**

#### **17 Distribution of Profit/loss**

Reserve for net revaluation under the equity method	1.319	2.249
Retained earnings	-75.484	-86.364
	<u>-74.165</u>	<u>-84.115</u>

## **18 Accounting Policies**

### **Basis of Preparation**

The Annual Report of HKScan Denmark A/S for 2019 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to large enterprises of reporting class C.

The Annual Report for 2019 is presented in DKK thousands.

The accounting policies applied remain unchanged from previous years.

### **Recognition and measurement**

The financial statements have been prepared under the historical cost method.

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Certain financial assets and liabilities are measured at amortised cost, which involves the recognition of a constant effective interest rate over the maturity period. Amortised cost is calculated as original cost less any repayments and with addition/deduction of the cumulative amortisation of any difference between cost and the nominal amount falling due at maturity. In this way, capital losses and gains are allocated over the maturity period.

Recognition and measurement take into account predictable losses and risks occurring before the presentation of the Annual Report which confirm or invalidate affairs and conditions existing at the balance sheet date.

Danish kroner is used as the measurement currency. All other currencies are regarded as foreign currencies.

#### **Basis of consolidation**

Consolidated financial statements of HKScan Denmark A/S are not prepared as HKScan Denmark A/S is included in the Financial Statements of HKScan Corporation Group, which comprise Consolidated Financial Statements of the entire Group.

## **18 Accounting Policies**

### **Leases**

Leases in respect of property, plant and equipment in terms of which the Company assumes substantially all the risks and rewards of ownership (finance leases) are recognised in the balance sheet at the fair value of the leased asset, if measurable. Alternatively, the net present value, if lower, of future lease payments at the inception of the lease is applied. When computing the net present value, the interest rate implicit in the lease is applied as the discount rate or an approximated value. Assets acquired under finance leases are depreciated and written down for impairment like the other property, plant and equipment of the Company.

The remaining lease obligation is capitalised and recognised in the balance sheet under debt, and the interest element on the lease payments is charged over the lease term to the income statement.

All other leases are considered operating leases. Payments made under operating leases are recognised in the income statement on a straight-line basis over the lease term.

### **Translation policies**

Transactions in foreign currencies are translated during the year at the exchange rates at the dates of transaction. Gains and losses arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the transaction date rates are recognised in financial income and expenses in the income statement.

Exchange adjustments arising on the translation of the opening equity of separate foreign legal entities and exchange adjustments arising from the translation at average exchange rates of the income statements of separate foreign legal entities are recognised directly in equity. Exchange adjustments arising on the translation of income statements and balance sheets of integrated foreign entities are recognised in financial income and expenses in the income statement.

Exchange adjustments of loans in foreign currencies contracted for the hedging of investments in foreign subsidiaries or loans considered to be derived from the investment are recognised directly in equity. If the hedge is not effective, the ineffective portion is reported immediately in net profit or loss.

### **Derivative financial instruments**

Derivative financial instruments are initially recognised in the balance sheet at cost and are subsequently remeasured at their fair values. Positive and negative fair values of derivative financial instruments are included as prepayments and deferred income, respectively.

## **18 Accounting Policies**

### **Derivative financial instruments (continued)**

Changes in the fair values of derivative financial instruments that are designated and qualify as fair value hedges of a recognised asset or a recognised liability are recognised in the income statement as are any changes in the fair value of the hedged asset or the hedged liability.

Changes in the fair values of derivative financial instruments that are designated and qualify as hedges of expected future transactions relating to purchases and sales in foreign currencies are recognised in prepayments/deferred income or in retained earnings under equity, respectively. If the expected future transaction results in the recognition of assets or liabilities, amounts deferred in equity are transferred from equity and recognised in the cost of the asset or the liability, respectively. Amounts deferred in equity are transferred to the income statement in the period in which the hedged item affects the income statement.

Changes in the fair values of derivative financial instruments applied for the purpose of hedging net investments in separate foreign legal subsidiaries or associates are recognised directly in equity as regards the effective portion of the hedge, whereas the ineffective portion is reported immediately in net profit or loss.

### **Segment reporting**

Segment information is presented in respect of the breakdown of revenue on geographical segments. The Company's main activity comprises slaughtering, processing and sale of poultry. And therefore we consider the revenue as one segment.

## **Income Statement**

### **Revenue**

IAS 11 / IAS 18 is chosen as interpretation for revenue recognition.

Revenue from the sale of goods for resale and finished goods is recognised in the income statement provided that the general criteria have been met, including that delivery and transfer of risk have been made to the buyer by year end and the amount can be reliably measured and is expected to be received. Revenue is recognised exclusive of VAT and duties and net of discounts relating to sales.

### **Production costs**

Production costs comprise costs incurred to achieve revenue for the year. Cost comprises raw materials, consumables, direct labour costs and indirect production costs such as maintenance and depreciation, etc, as well as operation, administration and management of factories.

### **Distribution expenses**

Distribution expenses comprise costs in the form of salaries to sales and distribution staff, advertising and marketing expenses as well as operation of motor vehicles, depreciation, etc.

## **18 Accounting Policies**

### **Administrative expenses**

Administrative expenses comprise expenses for Management, administrative staff, office expenses, depreciation, etc.

### **Other operating income and expenses**

Other operating income and expenses comprise items of a secondary nature to the core activities of the Company.

### **Financial income and expenses**

Financial income and expenses comprise interest, financial expenses in respect of finance leases, realised and unrealised exchange adjustments, price adjustment of securities, amortisation of mortgage loans as well as extra payments and repayment under the on-account taxation scheme.

### **Tax on profit/loss for the year**

Tax for the year consists of current tax for the year and deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity. The tax recognised in the income statement is classified as tax on ordinary activities and tax on extraordinary items, respectively.

Any changes in deferred tax due to changes to tax rates are recognised in the income statement.

The Company is jointly taxed with certain wholly owned Danish and foreign subsidiaries and with Danish fellow subsidiaries. The tax effect of the joint taxation with the subsidiaries is allocated to Danish enterprises showing profits or losses in proportion to their taxable incomes (full allocation with credit for tax losses). The jointly taxed enterprises have adopted the on-account taxation scheme.

## **Balance Sheet**

### **Intangible assets**

Intangible assets comprise acquired intellectual property rights and completed development projects.

Development projects on clearly defined and identifiable products and processes, for which the technical rate of utilisation, adequate resources and a potential future market or development opportunity in the enterprise can be established, and where the intention is to manufacture, market or apply the product or process in question, are recognised as intangible assets. Other development costs are recognised as costs in the income statement as incurred. When recognising development projects as intangible assets, an amount equalling the costs incurred is taken to equity under Reserve for development costs that is reduced as the development projects are amortised and written down.

## 18 Accounting Policies

The cost of development projects comprises costs such as salaries and amortisation that are directly and indirectly attributable to the development projects.

Indirect production costs in the form of indirectly attributable staff costs and amortisation of intangible assets and depreciation of property, plant and equipment used in the development process are recognised in cost based on time spent on each project.

Completed development projects are amortised on a straight-line basis using their estimated useful lives which are determined based on a specific assessment of each development project. The amortisation periods used are 3 years.

Intellectual property rights acquired are measured at cost less accumulated amortisation. Patents are amortised over their remaining duration, and licences are amortised over the term of the agreement. The amortisation periods used are 3-7 years.

Intellectual property rights etc are written down to the lower of recoverable amount and carrying amount.

### **Property, plant and equipment**

Land is measured at cost. Land is not depreciated. Other property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use, including setup costs.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Buildings	20 - 25 years
Plant and machinery	5 - 15 years
Other fixtures and fittings, tools and equipment	3 - 10 years

Assets costing less than DKK 20,000 are expensed in the year of acquisition.

Gains and losses on sale of fixed assets are recognised in the income statement in production costs, distribution expenses and administrative expenses, respectively.

## **18 Accounting Policies**

### **Impairment of fixed assets**

The carrying amounts of both intangible assets and property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by ordinary amortisation and depreciation. If so, the asset is written down to its lower recoverable amount. The recoverable amount of the asset is calculated as the higher of net selling price and value in use. Where a recoverable amount cannot be determined for the individual asset, the assets are assessed in the smallest group of assets for which a recoverable amount can be determined.

Head office buildings and other assets for which a value in use cannot be determined as the asset does not on an individual basis generate future cash flows are reviewed for impairment together with the group of assets to which they are attributable.

### **Investments in subsidiaries and associates**

Investments in subsidiaries and associates are recognised and measured under the equity method in the Company's Annual Report.

The item "Income from investments in subsidiaries" in the income statement includes the proportionate share of the profit after tax for the year of the subsidiaries less goodwill amortisation.

The item "Income from investments in associates" in the income statement includes the proportionate share of the profit after tax for the year of the associates less goodwill amortisation.

The items "Investments in subsidiaries" and "Investments in associates" in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated under the accounting policies of the Company with deduction or addition of unrealised intercompany profits or losses and with addition or deduction of any remaining value of positive or negative differences (goodwill or negative goodwill).

Subsidiaries and associates with a negative net asset value are recognised at DKK 0. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognised in provisions.

The total net revaluation of investments in subsidiaries and associates is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity.

Positive and negative differences from equity investments made in subsidiaries and associates are stated to the effect that any differences are recognised in the Company's balance sheet under the item "Investments in subsidiaries".

## **18 Accounting Policies**

### **Investments in subsidiaries and associates (continued)**

On acquisition of subsidiaries, the difference between cost of acquisition and net asset value of the enterprise acquired is determined at the date of acquisition after the individual assets and liabilities having been adjusted to fair value (the purchase method) and allowing for the recognition of any restructuring provisions relating to the enterprise acquired. Positive and negative differences from the acquisition are recognised in the Company's balance sheet under the item "Investments in subsidiaries".

### **Current asset investments**

Current asset investments, which consist of listed bonds and shares, are measured at their fair values at the balance sheet date. Listed securities are measured at market value. Unlisted securities are measured at the selling price based on calculated value in use.

### **Inventories**

Inventories are measured at the lower of cost under the FIFO method and net realisable value. The net realisable value of inventories is calculated as the total of future sales revenues expected, at the balance sheet date, to be generated by inventories in the process of normal operations and determined allowing for marketability, obsolescence and development in expected sales sum less the estimated expenses necessary to make the sale.

The cost of goods for resale, raw materials and consumables equals landed cost.

The cost of finished goods and work in progress comprises the cost of raw materials, consumables and direct labour with addition of indirect production costs. Indirect production costs comprise the cost of indirect materials and labour as well as maintenance and depreciation of the machinery, factory buildings and equipment used in the manufacturing process as well as costs of factory administration and management. Any borrowing expenses in the period of production are not recognised.

### **Receivables**

Receivables are recognised in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts. Provisions for bad debts are determined on the basis of an individual assessment of each receivable.

### **Equity**

#### ***Dividend***

Dividend is recognised as a liability at the time of adoption at the Annual General Meeting. Dividend expected to be distributed for the year is disclosed as a separate equity item.

### **Provisions**

Provisions are recognised when - in consequence of an event occurred before or on the balance sheet date - the Group has a legal or constructive obligation and it is probable that economic benefits must be given up to settle the obligation.

## **18 Accounting Policies**

### **Deferred tax assets and liabilities**

Deferred tax is recognised in respect of all temporary differences between the carrying amount and the tax base of assets and liabilities.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. In cases where the computation of the tax base may be made according to alternative tax rules, deferred tax is measured on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax loss carry-forwards, are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities.

Deferred tax assets and liabilities are offset within the same legal tax entity.

### **Current tax receivables and liabilities**

Current tax receivables and liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on taxable incomes for prior years. Tax receivables and liabilities are offset if there is a legally enforceable right of set-off and an intention to settle on a net basis or simultaneously.

### **Financial debts**

Fixed-interest loans, such as mortgage loans and loans from credit institutions, intended held to maturity are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost equal to the capitalised value using the effective interest method; the difference between the proceeds and the nominal value (the capital loss) is recognised in the income statement over the loan period.

Other debts are measured at amortised cost, substantially corresponding to nominal value.

## 18 Accounting Policies

### Prepayments

Prepayments include expenses incurred in respect of subsequent financial years, including fair value adjustments of derivative financial instruments with a positive fair value. Such expenses are typically prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

Deferred income includes payments received in respect of income in subsequent years as well as fair value adjustments of derivative financial instruments with a negative fair value.

### Cash flow statement

No cash flow statement is prepared for HKScan Denmark A/S as HKScan Denmark A/S is included in the Financial Statements of HKScan Corporation which include a consolidated cash flow statement.

### Financial ratios

#### Explanation of ratios

Gross margin	=	$\frac{\text{Gross profit} \times 100}{\text{Revenue}}$
Profit margin	=	$\frac{\text{Profit before financials} \times 100}{\text{Revenue}}$
Return on net assets	=	$\frac{\text{Profit before financials} \times 100}{\text{Total assets}}$
Solvency ratio	=	$\frac{\text{Equity at year end} \times 100}{\text{Total assets}}$
Return on equity	=	$\frac{\text{Net profit for the year} \times 100}{\text{Average equity}}$
