Management's Statement

The Executive Board and the Board of Directors have today considered and adopted the Annual Report of Tyco Integrated Systems (Denmark) ApS for the financial year 1 October 2021 - 30 September 2022

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements give a true and fair view of the financial position at 30 September 2022 of the Company and of the results of the Company's operations for the financial year 1 October 2021 – 30 September 2022.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Independent Auditors' Report

To the Shareholder of Tyco Integrated Systems (Denmark) ApS

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 30 September 2022, and of the results of the Company's operations for the financial year 1 October 2021 - 30 September 2022 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Tyco Integrated Systems (Denmark) ApS for the financial year 1 October 2021 - 30 September 2022, which comprise a summary of significant accounting policies, income statement, balance sheet, statement of changes in equity and notes ("financial statements").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditors' Report

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Financial Statements 1 October - 30 September

Accounting Policies

Basis of Preparation

The Annual Report of Tyco Integrated Systems (Denmark) ApS for 2021/22 has been prepared in accordance with the provisions applying to enterprises of reporting class B with the option of reporting class C under the Danish Financial Statements Act.

The accounting policies are unchanged from previous years.

The Annual Report for 2021/22 is presented in DKK Thousands.

Recognition and measurement

The financial statements have been prepared under the historical cost method.

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost, are recognised.

Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Certain financial assets and liabilities are measured at amortised cost, which involves the recognition of a constant effective interest rate over the maturity period. Amortised cost is calculated as original cost less any repayments and with addition/deduction of the cumulative amortisation of any difference between cost and the nominal amount. In this way, capital losses and gains are allocated over the maturity period.

Recognition and measurement take into account predictable losses and risks occurring before the presentation of the Annual Report which confirm or invalidate affairs and conditions existing at the balance sheet date.

Danish kroner are used as the measurement currency. All other currencies are regarded as foreign currencies.

Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Gains and losses arising due to differences between the transaction date rates and the rates at the dates of payment are recognised as financial income and expenses in the income statement.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the transaction date rates are recognised as financial income and expenses in the income statement.

Income Statement

Administrative costs

Administrative costs comprise costs regarding administrative staff, management, office premises and office expenses etc. including depreciation.

Financial income and expenses

Financial income and expenses comprise interest income and expenses, realised and unrealised exchange rate gains and losses regarding receivables and payables denominated in foreign currencies.

Tax on profit/(loss) for the year

Tyco Integrated Systems (Denmark) ApS is jointly taxed with its parent company, Johnson Controls Denmark ApS, which is also the administrative company. The company is taxed under the on-account tax scheme.

Tax for the year comprises current tax and changes in deferred tax for the year. The tax expense relating to the profit/(loss) for the year is recognised in the income statement, and the tax expense relating to changes directly recognised in equity is recognised directly in equity.

Balance Sheet

Fixed asset investments

Subsidiaries are enterprises that are controlled by the Parent Company. The Parent Company is considered to be in control when the Company directly or indirectly holds more than 50% of the votes or otherwise is able to exercise or actually exercise control.

Enterprises that are not subsidiaries, but in which Tyco Integrated Systems (Denmark) ApS directly or indirectly holds 20% or more of the voting rights or exercises a significant influence are considered associates.

Investments in subsidiaries and associated companies are measured at cost. If the cost exceeds the recoverable amount, the investment is written down to its lower recoverable amount. The cost is reduced to the extent that dividend received exceeds accumulated earnings after the date of acquisition.

Other investments are valued at cost less any write-downs.

Impairment of fixed assets

The carrying amounts of fixed asset investments are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation. If so, an impairment test is carried out to determine whether the recoverable amount is lower than the carrying amount, and the asset is written down to its lower recoverable amount.

The recoverable amount of the asset is calculated as the higher of net selling price and value in use. Where a recoverable amount cannot be determined for the individual asset, the assets are assessed in the smallest group of assets for which a reliable recoverable amount can be determined based on a total assessment.

Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts. Provisions for bad debts are determined on the basis of an individual assessment of each receivable.

Equity – Proposed dividend

Proposed dividends are recognised as a liability at the date when they are adopted at the Annual General Meeting (declaration date). The expected dividend payment for the year is disclosed as a separate item under equity.

Current tax receivables and liabilities

Current tax receivables and liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on taxable incomes for prior years. Tax receivables and liabilities are set off if there is a legally enforceable right of set-off and an intention to settle on a net basis or simultaneously.

Liabilities

Other liabilities are measured at amortised cost, substantially corresponding to nominal value.
