Statement by the Board of Directors and the Executive Board

The Board of Directors and the Executive Board have today discussed and approved the annual report of Husqvarna Danmark A/S for the financial year 1 January - 31 December 2021.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the financial statements give a true and fair view of the Company's financial position at 31.12.2021 and of the results of the Company's operations for the financial year 01.01.2021 - 31.12.2021.

Further, in our opinion, the Management's review gives a fair review of the development in the Company's operations and financial matters and the results of the Company's operations and financial position.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of Husqvarna Danmark A/S

Opinion

We have audited the financial statements of Husqvarna Danmark A/S for the financial year 1 January – 31 December 2021 comprising income statement, balance sheet, statement of changes in equity and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's assets, liabilities and financial position at 31 December 2021 and of the results of the Company's operations for the financial year 1 January – 31 December 2021 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control, that Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements in Denmark will always detect a material misstatement when it exists. Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of financial statement users made on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also

- identify and assess the risks of material misstatement of the company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Independent auditor's report

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Management's review

Primary activities

Husqvarna Danmark A/S markets the Husqvarna Group's products for gardens, parks, woods as well as construction. In the consumer line the brands Flymo, Universal and Gardena and in the professional line the brand Husqvarna. For the construction industry, circular cross-cut saws and diamond tools of the brand Husqvarna is marketed.

The product line covers private individuals' and professionals' need for state-of-the art equipment making outdoor tasks easier. The products include chain saws, security clothing and products for gardens/parks such as lawn mowers, front riders, automowers (robots), brush cutters and grass trimmers.

It is the Company's objective to stay a leading player when it comes to profitable, innovative, reliable products that can solve tasks in an efficient way, thus making our customers' life easier and more comfortable with focus on sustainable solutions.

Development in activities and finances

In 2021, the company's revenue came in at DKK **632.375** thousand against DKK **534.402** thousand last year. The income statement for 2021 shows a profit of DKK **15.478** thousand against DKK **14.995** thousand last year, and the balance sheet at 31 December 2021 shows equity of DKK **19.728** thousand.

2021 was highly affected by the global Covid-19 pandemic. High customers demand for our products on Gardena as well as Husqvarna has due to a global supply chain issues and Covid-19 resulted in delayed delivery during the year.

Husqvarna Construction continued the increase into the business from end 2020 and incorporated new brands such as HTC and Blastrac in Denmark.

The annual report for 2021, the level of activity and the results of operations are significantly higher than 2020. Management therefore considers the Company's financial performance (revenue) in the year to be very good and exceeds our expectations in the budget for 2021.

As a result of improved earnings in 2021 the company donated a substantial amount of money for sustainable funds as well as donates for kids fonds.

Outlook

Management expects in 2022 a smaller decrease in revenue of around 2-5% despite strong demand continues. Combination of high inflation, global supply chain issues and war in Ukraine lowers the expectations. Therefore the profit for the year is expected to be a bit lower compared to the level of 2021.

Environmental performance

In the opinion of the Company, its activities does not impact the environment in any significant manner.

Post balance sheet events

No post balance sheet events have occurred that could materially affect the assessment of the Company's financial position

Accounting policies

Reporting class

The annual report of Husqvarna Danmark A/S for 2021 has been prepared in accordance with the provisions applying to medium-size reporting class C enterprises under the Danish Financial Statements Act

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Recognition and measurement

Income is recognized in the income statement as earned, including value adjustments of financial assets and liabilities measured at fair value or amortized cost. Equally, expenses incurred to generate the year's earnings are recognized, including depreciation, amortization, impairment losses and provisions as well as reversals as a result of changes in accounting estimates of amounts which were previously recognized in the income statement.

Assets are recognized in the balance sheet when it is probable that future economic benefits will flow to the Company and the value of the asset can be reliably measured.

Liabilities are recognized in the balance sheet when an outflow of economic benefits is probable and when the liability can be reliably measured.

On initial recognition, assets and liabilities are measured at cost. Subsequently, assets and liabilities are measured as described below for each individual item.

In recognizing and measuring assets and liabilities, any gains, losses and risks occurring prior to the presentation of the annual report that evidence conditions existing at the balance sheet date are taken into account.

Foreign currency translation

The financial statements are presented in Danish kroner.

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognized in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and at the date at which the receivable or payable arose or was recognized in the latest financial statements is recognized in the income statement as financial income or financial expenses.

Income statement

Revenue

Income from the sale of goods for resale and finished goods is recognized in revenue when transfer of the most significant rewards and risks to the buyer has taken place and provided that the invoice can be reliably measured and payment is expected to be received. The date of the transfer of the most significant rewards and risks is based on the standardized terms of delivery based on Incoterms 2020.

Revenue is measured at fair value of the agreed consideration exclusive of VAT and taxes charged on behalf of third parties. All discounts and rebates granted are recognized in revenue.

Cost of sales

Cost of sales includes the cost of goods used in generating the year's revenue.

Selling and distribution expenses

Distribution expenses include expenses relating to sale and distribution in the year, including expenses relating to sales staff, advertising, exhibitions and amortization/depreciation of assets that are related to sale and distribution of the company's products.

Administrative expenses

Administrative expenses include expenses incurred in the year for purpose of managing and administering the company, including expenses relating to administrative staff, management, office/premises expenses as well as amortisation/depreciation of assets used for administrative purposes.

Other financial income

Other financial income are recognized in the income statements at the amounts that concern the financial year.

Financial income include interest income as well as allowances and surcharges under the advance-payment-of-tax scheme, etc.

Other financial expenses

Other financial expenses are recognized in the income statements at the amounts that concern the financial year. Financial income include interest income as well as allowances and surcharges under the advance-payment-of-tax scheme, etc.

Tax on profit/loss for the year

Tax for the year includes current tax on the year's expected taxable income and the year's deferred tax adjustments.

In addition, this year's tax consists of previous year's taxes and changes in the assessment of provisions for uncertain tax positions. The portion of the tax for the year that relates to the profit/loss for the year is recognized in the income statement, whereas the portion that relates to transactions taken to equity is recognized in equity.

Balance sheet**Property, plant and equipment**

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost include the acquisition price and costs directly related to the acquisition until the time at which the asset is ready for use.

The basis of amortization, which is calculated as cost less any residual value, is amortized on a straight-line basis over the expected useful life. The expected useful lives are as follows:

Leashold improvements	5 years
Other fixtured and fitting, tools and equipment	5-10 years

The depreciation period and the residual value are determined at the time of acquisition and are reassessed every year. Where the residual value exceeds the carrying amount of the asset, no further depreciation charges are recognised.

In case of changes in the amortisation period or the residual value, the effect on the depreciation charges is recognised prospectively as a change in accounting estimates.

Impairment of non-current assets

Every year property, plant and equipment are reviewed for impairment. Where there is indication of impairment, and impairment test is made for each individual asset or group of assets, respectively, generating independent cash flows. The assets are written down to the higher of the value in use and the net selling price of the asset or group of assets (recoverable amount) if it is lower than the carrying amount. Where an impairment loss is recognized on a group of assets, a loss must first be allocated to goodwill and then to the other assets on pro rata basis.

Receivables

Receivables are measured at amortized cost, which is usually equivalent to the nominal value. An impairment loss is recognized based on objective evidence that a receivable or a group of receivables is impaired. Impairment write-downs is made to the lower of net realizable value and the carrying amount.

Inventories

Inventories are measured at the lower of cost, measured by reference to the FIFO method, and net realizable value. The net realizable value of inventories is made up as the sum of the future sales income which inventories at the balance sheet date are expected to generate as part of the normal course of business, fixed with due regard to negotiability, obsolescence and development in the expected selling price less the expenses relating to sales.

Goods for resale are measured at cost, which comprises the cost of acquisition plus delivery costs as well as other costs directly attributable to the acquisition.

Deferred tax

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax value of assets and liabilities. However, deferred tax is not recognized on temporary differences relating to goodwill which is not deductible for tax purposes and on office premises and other items where temporary differences, apart from business combinations, arise at the date of acquisition without affecting either profit/loss for the year or taxable income. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax is measured according to the tax rules and at the tax rate applicable at the balance sheet date when the deferred tax is expected to crystallize as current tax. Deferred tax assets are recognized at the expected value of their utilization; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Changes in deferred tax due to changes in the tax rate are recognized in the income statement.

Income tax payable or receivable

Current tax payable and receivable is recognized in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account.

Uncertain tax positions are measured depending on the type, either as a probability-weighted average of possible outcomes, or as the most likely outcome. Uncertain tax positions are recognized in the tax items to which they relate, that means under current tax payable or receivables respectively deferred tax liabilities or deferred tax assets.

Prepayments

Prepayments recognized under 'Assets' comprise prepaid expenses regarding subsequent financial reporting years. This is typically prepaid expenses relating to rent of equipment and exhibition expenses.

Other provisions

Provision comprise expected expenses relating to guarantee commitments, losses on work in progress, restructurings, etc. Provisions are recognized when the company has a legal or constructive obligation as a result of a past event at the balance sheet date and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Provisions are measured at net realizable value or at fair value if the obligation concerned is expected to be settled far into the future.

Guarantee commitments comprise expected costs of repairs within the guarantee period and are recognized based on previous experience with work performed under guarantees. In addition, yet another year is granted in respect of the brands Husqvarna and Jonsered provided that a service check has been performed before the end of the two first years after the acquisition date. Provisions are measured and recognized based on experience with warranty work.

Other financial liabilities

Other financial liabilities are recognized at the date of borrowing at the net proceeds received less transaction costs paid. In subsequent periods, the financial liabilities are measured at amortized cost, corresponding to the capitalized value using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognized in the income statement over the term of the loan. Financial liabilities also include the capitalized residual liability in respect of finance leases. Other liabilities are measured at net realizable value.

Leases that do not transfer substantially all the risks and rewards incident to the ownership to the Company are classified as operating leases. Payments relating to operating leases and any other leases are recognized in the income statement over the term of the lease. The Company's aggregate liabilities relating to operating leases and other leases are disclosed under contingencies, etc.

Deferred income

Deferred income recognised as a liability comprises of payments received concerning income in subsequent financial reporting years.

Cash flow statement

With reference to section 86(4) of the Danish Financial Statements Act, no cash flow statement has been prepared. The entity's cash flows are part of the consolidated cash flow statement for the parent company, Husqvarna AB.
