Statement by the Executive Board

Today, the Executive Board has discussed and approved the annual report of UPS SCS (Denmark) ApS for the financial year 1 January - 31 December 2022.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2022 and of the results of the Company's operations for the financial year 1 January - 31 December 2022.

Further, in our opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholder of UPS SCS (Denmark) ApS

Opinion

We have audited the financial statements of UPS SCS (Denmark) ApS for the financial year 01.01.2022 - 31.12.2022, which comprise the income statement, balance sheet, statement of changes in equity, cash flow statement and notes, including a summary of significant accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Entity's financial position at 31.12.2022 and of the results of its operations and cash flows for the financial year 01.01.2021 - 31.12.2022 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of this auditor's report. We are independent of the Entity in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Entity's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

Independent auditor's report

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures in the notes, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

Report on other legal and regulatory requirements and other reporting responsibilities.

Violation of corporate law and similar legislation.

Management has not complied with its obligation under the Companies act to create and maintain records and protocols etc for meetings held in 2022. Consequently management can be held liable.

Management's review

Business review

The Company's primary activities are transportation services and other related business.

UPS is the world's premier package delivery company and a leading provider of global supply chain management solutions. We operate one of the largest airlines and one of the largest fleets of alternative fuel vehicles under a global UPS brand.

Recognition and measurement uncertainties

There is no known Uncertainty in recognition or measurement.

Unusual matters having affected the financial statements

No unusual circumstances affecting the financial statement.

Financial review

The income statement for 2022 shows a profit of DKK 667,996 against a profit of DKK 764,780 last year, and the balance sheet at 31 December 2022 shows equity of DKK 4,566,032.

Business and Operating Risks

The COVID-19 pandemic has caused significant changes to the global economy and had a profound impact on businesses worldwide, the logistics industry initially experienced a boom (2020-2021) as demand for shipping and transportation services increased. Additionally, with the closure of brick-and-mortar stores, e-commerce saw a significant increase, leading to a further surge in demand for logistics services. While the industry initially experienced a surge in demand due to e-commerce and panic buying, post-pandemic market (in the year 2022) changes have resulted in a decline in logistics business, particularly in the e-commerce sector. As countries begin to reopen, consumers have started to return to physical stores. This has resulted in a decline in e-commerce sales, as consumers prefer to shop in person. While UPS has adapted to the challenges posed by the pandemic, such as implementing new safety measures and digital solutions, the decline in demand for services driven by market change has resulted in decline in revenue.

The ongoing conflict between Russia and Ukraine has had a significant impact on fuel and energy prices, which has, in turn, affected the cost of doing business across the globe. On 24 February 2022, Russia invaded and occupied parts of Ukraine in a major escalation of the Russo-Ukrainian War, which began in 2014. Since then, tensions have continued to escalate, leading to sanctions from Western countries against Russia. The sanctions have targeted Russia's energy sector, restricting its access to Western market.

The restrictions on Russia's energy sector have contributed to higher global oil and gas prices. As Russia is a significant producer of both commodities, any disruptions in its production or supply chain have a ripple effect on global markets. Additionally, the ongoing conflict has led to reduced gas supplies to Europe, which relies heavily on Russian gas imports. This has further exacerbated the energy supply shortages and price spikes. The impact of higher energy prices on consumers reduces the amount of disposable income and therefore negatively impacts the economy and the logistics industry through reduced demand.

In conclusion, the 'Russia-Ukraine conflict' & 'post pandemic market changes' has had far-reaching impacts on logistic markets, resulting in higher prices and supply shortages. The collective impact has had a ripple effect on businesses, leading to higher costs and reduced profitability.

Events after the balance sheet date

There are no noted subsequent events after the balance sheet date.

Notes to the financial statements

1 Accounting policies

The annual report of UPS SCS (Denmark) ApS for 2022 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to reporting class B entities and elective choice of certain provisions applying to reporting class C entities.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Basis of recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the entity, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Company has a legal or constructive obligation as a result of a past event, and it is probable that future economic benefits will flow out of the entity, and the value of the liabilities can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement of the assets and liabilities presented in these financial statements.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Reporting currency

The financial statements are presented in Danish kroner (DKK).

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rate at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the most recent financial statements is recognised in the income statement as financial income or financial expenses.

Financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Income statement

Revenue

The Company has chosen IAS 18 as interpretation for revenue recognition.

Revenue from the sale of services is recognised in the income statement when delivery is made to the buyer. Revenue is recognised net of VAT, duties and sales discounts and is measured at fair value of the consideration fixed.

Other operating income

Other operating income comprise items of a secondary nature relative to the Company's core activities, including gains on the sale of fixed assets.

Cost of sales

Cost of sales comprises cost of sales for the financial year measured at cost.

Other external expenses

Other external expenses include the year's expenses relating to the Company's core activities, including expenses relating to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

Staff costs

Staff costs include wages and salaries, including compensated absence and pension to the Company's employees, as well as other social security contributions, etc. The item is net of refunds from public authorities.

Depreciation

The item comprises depreciation of property, plant and equipment.

The basis of depreciation, which is calculated as cost less any residual value, is depreciated on a straight line basis over the expected useful life. The expected useful lives of the assets are as follows:

Fixtures and fittings, other plant and equipment	3-5 years
--	-----------

Depreciation is based on the residual value of the asset and is reduced by impairment losses, if any. The depreciation period and the residual value are determined at the acquisition date and are reassessed annually. Where the residual value exceeds the carrying amount of the asset, no further depreciation charges are recognised.

In the case of changes in the depreciation period or the residual value, the effect on the depreciation charges is recognised prospectively as a change in accounting estimates.

Other operating expenses

Other operating expenses comprise items of a secondary nature relative to the Company's core activities, including losses on the sale of fixed assets.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts that relate to the financial reporting period. The items comprise interest income and expenses, e.g. from group entities and associates, declared dividends from other securities and investments, financial expenses relating to finance leases, realised and unrealised capital gains and losses relating to other securities and investments, exchange gains and losses and amortisation of financial assets and liabilities.

Financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Tax

Tax for the year includes current tax on the year's expected taxable income and the year's deferred tax adjustments. The portion of the tax for the year that relates to the profit/loss for the year is recognised in the income statement, whereas the portion that relates to transactions taken to equity is recognised in equity.

The Company and its Danish group entities are jointly taxed. The total Danish income tax charge is allocated between profit/loss-making Danish entities in proportion to their taxable income (full absorption).

Jointly taxed entities entitled to a tax refund are reimbursed by the management company based on the rates applicable to interest allowances, and jointly taxed entities which have paid too little tax pay a surcharge according to the rates applicable to interest surcharges to the management company.

Balance sheet

Property, plant and equipment

Items of property, plant and equipment and leasehold improvements are measured at cost less accumulated depreciation and impairment losses. Cost includes the acquisition price and costs directly related to the acquisition until the time at which the asset is ready for use.

Gains or losses are calculated as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses from the disposal of property, plant and equipment are recognised in the income statement as other operating income or other operating expenses.

Leases

The Company has chosen IAS 17 as interpretation for classification and recognition of leases.

Leases that do not transfer substantially all the risks and rewards incident to the ownership to the Company are classified as operating leases. Payments relating to operating leases and any other rent agreements are recognised in the income statement over the term of the lease. The Company's aggregate liabilities relating to operating leases and other rent agreements are disclosed under "Contingent liabilities".

Impairment of fixed assets

The carrying amount of intangible assets, property, plant and equipment is assessed for impairment on an annual basis.

Impairment tests are conducted on assets or groups of assets when there is evidence of impairment. The carrying amount of impaired assets is reduced to the higher of the net selling price and the value in use (recoverable amount).

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the group of assets and the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised impairment losses are reversed when the reason for recognition no longer exists. Impairment losses on goodwill are not reversed.

Financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Receivables

The Company has chosen IAS 39 as interpretation for impairment write-down of financial receivables.

Receivables are measured at amortised cost.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Receivables in respect of which there is no objective evidence of individual impairment are tested for objective evidence of impairment on a portfolio basis. The portfolios are primarily based on the debtors' domicile and credit ratings in line with the Company's risk management policy. The objective evidence applied to portfolios is determined based on historical loss experience.

Impairment losses are calculated as the difference between the carrying amount of the receivables and the present value of the expected cash flows, including the realisable value of any collateral received. The effective interest rate for the individual receivable or portfolio is used as discount rate.

Cash

Cash comprise of cash and short term securities which are readily convertible into cash and subject only to minor risks of change in value.

Equity

Proposed dividends

Dividend proposed for the year is recognised as a liability once adopted at the annual general meeting (declaration date). Dividends expected to be distributed for the financial year are presented as a separate item under "Equity".

Income taxes and deferred taxes

Current tax payables and receivables are recognised in the balance sheet as the estimated income tax charge for the year, adjusted for prior-year taxes and tax paid on account.

Deferred tax is measured according to the liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to goodwill which is not deductible for tax purposes and on office premises and other items where temporary differences, apart from business combinations, arise at the date of acquisition without affecting either profit/loss for the year or taxable income. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax is measured according to the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax assets are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Changes in deferred tax due to changes in the tax rate are recognised in the income statement.

Financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Liabilities

Financial liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. On subsequent recognition, financial liabilities are measured at amortised cost, corresponding to the capitalised value, using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement over the term of the loan. Financial liabilities also include the capitalised residual lease liability in respect of finance leases.

Other liabilities are measured at net realisable value.

Financial statements 1 January - 31 December**Notes to the financial statements****7 Receivables from group enterprises**

The U.P.S. group has entered into an agreement on a cash-pool arrangement with the group's bank, where UPS SCS (Denmark) ApS is a sub-account holder together with the group's other companies. The terms and conditions of the cash-pool scheme give the bank the right to be able to settle withdrawals and deposits against each other, whereby it is only the net balance of the total cash-pool accounts that constitutes the U.P.S. group's balance with the bank.

UPS SCS (Denmark) ApS' accounts in the cash-pool scheme, which are recognized under receivables from group enterprises, amount to 31 December 2022 a deposit of DKK 3,462,505 (per 31 December 2021: deposit of DKK 4,013,042).

8 Contractual obligations and contingencies, etc.**Contingent liabilities**

The Company participates in a Danish joint taxation arrangement in which UPS Denmark A/S serves as the administration company. According to the joint taxation provisions of the Danish Corporation Tax Act, the Company is therefore liable for income taxes etc for the jointly taxed companies and also for obligations, if any, relating to the withholding of tax on interest, royalties and dividend for the jointly taxed companies. The jointly taxed companies' total known net liability in the joint taxation arrangement is stated in the financial statements of the administration company.

Other financial obligations

Other lease liabilities:

DKK	2022	2021
Lease liabilities	616	259

9 Collateral

The Company has not provided any security or other collateral in assets at 31 December 2022.
