## STATEMENT BY BOARD OF DIRECTORS AND BOARD OF EXECUTIVES

Today the Board of Directors and Board of Executives have discussed and approved the Annual Report of AnyBody Technology A/S for the financial year 1 January - 31 December 2021.

The Annual Report is presented in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements give a true and fair view of the Company's financial position at 31 December 2021 and of the results of the Company's operations for the financial year 1 January - 31 December 2021.

The Management's Review includes in our opinion a fair presentation of the matters dealt with in the Review.

We recommend the Annual Report be approved at the Annual General Meeting.

## INDEPENDENT AUDITOR'S REPORT

### To the Shareholders of AnyBody Technology A/S

#### Opinion

We have audited the Financial Statements of AnyBody Technology A/S for the financial year 1 January - 31 December 2021, which comprise income statement, balance sheet, statement of changes in equity, notes and a summary of significant accounting policies. The Financial Statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the assets, liabilities and financial position of the Company at 31 December 2021 and of the results of the Company's operations for the financial year 1 January - 31 December 2021 in accordance with the Danish Financial Statements Act.

#### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

#### Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such Internal control as Management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

## INDEPENDENT AUDITOR'S REPORT

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of Management's Review.

## MANAGEMENT'S REVIEW

### Principal activities

The management report presented covers the financial year 1 January 2021 to 31 December 2021 for Anybody Technology A/S (in the following named: ABT)

The company develops and markets software for analysis and optimization of biomechanical problems.

Furthermore, the company offers consultancy services, primarily within the field of biomechanics.

### Development in activities and financial position

AnyBody Technology A/S focuses on development, marketing and sales of consultancy services relating to the software The AnyBody Modeling System. The software simulates the human body's movements and interaction with various prostheses, wheelchairs, car seats etc. and thereby calculate muscle forces and joint loads with the purpose of optimizing the design of e.g. a prosthesis.

The FY 2021 result in DKK 641.576 before tax, which the management and board describe as a satisfactory result.

During the FY 2021 the company won a major development contract with an international company. This contract has had positive effect on the result, and it is expected that it will also add positively to 2022.

Several research and market development activities are ongoing to supplement the current license and consultancy business with potentially new revenue streams.

Based on expected positive earnings in the coming 5 years, management has found it fair to maintain the deferred tax asset with a carrying amount of DKK 1,8 million as of 31 December 2021.

### Significant events after the end of the financial year

No events have occurred after the end of the financial year of material importance for the company's financial position.

## ACCOUNTING POLICIES

The annual report of AnyBody Technology A/S for 2021 has been prepared in accordance with the provisions applying to reporting class B under the Danish Financial Statements Act with opt-in from higher reporting classes.

The Annual Report is prepared consistently with the accounting principles used last year.

### Consolidated financial statements

The group complies with the exemption clause of section 110 of the Danish Financial Statements Act regarding financial reporting for smaller groups, and therefore, no consolidated financial statements have been prepared.

## INCOME STATEMENT

### Net revenue

In connection with the sale of standard software licences, licence fee is recognised immediately upon the supply of the software and under the condition of the customer's acceptance of functionality.

Sale through partnerships is recognised at the Company's share of the licence when delivery to the end user has taken place. Income from agreements on maintenance is recognised on a straight-line basis over the period of the agreement.

Development and consultancy services are recognised as work is performed.

Revenue is recognised exclusive of VAT and duties and less discounts granted in connection with the sale.

### Gross profit

In accordance with section 32 of the Danish Financial Statements Act, revenue, operating costs, and other external costs are comprised into the financial statement caption gross profit.

### Other external expenses

Other external expenses include cost of sales, advertising, administration, buildings, bad debts, operating lease expenses, etc.

### Staff costs

Staff costs comprise wages and salaries, including holiday pay and pensions and other costs for social security etc. for the company's employees. Repayments from public authorities are deducted from staff costs.

### Investments in subsidiaries

The income statement of the parent company recognises the proportional share of the results of each subsidiary after full elimination of intercompany profits/losses and deduction of amortisation of goodwill.

### Financial income and expenses

Financial income and expenses include interest income and expenses, financial expenses of finance leases, realised and unrealised gains and losses arising from investments in financial assets, debt and transactions in foreign currencies, amortisation of financial assets and liabilities as well as charges and allowances under the tax-on-account scheme etc. Financial income and expenses are recognised in the income statement by the amounts that relate to the financial year.

### Tax

The tax for the year, which consists of the current tax for the year and changes in deferred tax, is recognised in the income statement by the portion that may be attributed to the profit for the year, and is recognised directly in the equity by the portion that may be attributed to entries directly to the equity.

## ACCOUNTING POLICIES

### BALANCE SHEET

#### Intangible fixed assets

Development costs comprise costs, including wages and salaries, and amortisation, which directly or indirectly can be related to the company's development activities and which fulfil the criteria for recognition.

Capitalised development costs are measured at the lower of cost less accumulated amortisation or recoverable amount.

Capitalised development costs are amortised on a straight-line basis over the estimated useful life after completion of the development work. The amortisation period is 5-10 years.

#### Tangible fixed assets

Fixtures and fittings, otherplant and equipment are measured at cost less accumulated depreciation and write-downs.

The depreciation base is cost less estimated residual value after end of useful life.

Cost includes the acquisition price and costs incurred directly in connection with the acquisition until the time when the asset is ready to be used.

Where individual components of an item of fixtures and fittings, plant and equipment have different useful lives, they are accounted for as separate items, which are depreciated separately.

Depreciation is provided on a Straight-line basis. Based on an assessment of the expected useful lives of the assets and their residual value as follows:

	Useful life	Residual value
Other plant, fixtures and equipment.....	3 years	0 %

Profit or loss on disposal of tangible fixed assets is stated as the difference between the sales price less selling costs and the carrying amount at the time of sale. Profit or loss is recognised in the income statement as other operating income or other operating expenses.

#### Fixed asset investments

Investments in subsidiary enterprises are measured in the parent company balance sheet under the equity method.

Investments in subsidiary enterprises are measured in the balance sheet at the proportional share of the enterprises' carrying equity value, calculated in accordance with the parent company's accounting policies with deduction or addition of unrealised intercompany profits.

Net revaluation of investments in subsidiaries and associates is transferred under the equity to reserve for net revaluation under the equity value method to the extent that the carrying amount exceeds the acquisition value.

Subsidiary enterprises with a negative equity value are measured at DKK 0 and any amounts due from these enterprises are written down by the parent company's share of the negative equity value to the extent that it is deemed irrecoverable. If the negative equity value exceeds accounts receivable, the residual amount is recognised under provision for liabilities to the extent that the parent company has a legal or actual liability to cover the subsidiary's deficit.

## ACCOUNTING POLICIES

### Impairment of fixed assets

The carrying amount of intangible fixed and tangible assets together with fixed assets, which are not measured at fair value, are valued on an annual basis for indications of impairment other than that reflected by amortisation and depreciation.

In the event of impairment indications, an impairment test is made for each asset or group of assets, respectively. If the recoverable amount is lower than the carrying amount, the asset is written down to the carrying amount.

The recoverable amount is calculated at the higher of net selling price and capital value. The capital value is determined as the fair value of the expected net cash flows from the use of the asset or group of assets and the expected net cash flows from sale of the asset or group of assets after the end of its useful life.

### Receivables

Receivables are measured at amortised cost which usually corresponds to nominal value. The value is written down to meet expected losses.

### Contract work in progress

Work in progress on contract is measured at the sales value of the work performed. The sales value is measured on the basis of the degree of completion on the balance sheet date and the total anticipated revenue related to the specific piece of work in progress.

Contract work in progress are measured at the selling price of the work performed. The selling price is measured by reference to the stage of completion at the balance sheet date and total expected income from the contract work in progress.

The specific piece of work in progress is recognised in the balance sheet as receivables or payables, depending on the net value of the selling price less progress invoicing and progress payments.

When the selling price of a contract cannot be measured reliably, the selling price is measured at the lower of costs incurred and net realisable value.

Individual contract work in progress are recognised in the balance sheet under either receivables or payables. Net assets are determined as the sum of contracts in progress where the selling price of the work performed exceeds progress billings. Net liabilities are determined as the sum of contracts in progress where progress billings exceed the selling price.

Costs relating to sales work and obtaining of contracts are recognised in the Income Statement as and when they are incurred.

### Accruals, assets

Accruals recognised as assets include costs incurred relating to the subsequent financial year.

### Cash and cash equivalents

Cash and cash equivalents includes cash and cash equivalents.

## ACCOUNTING POLICIES

### Tax payable and deferred tax

Current tax liabilities and receivable current tax are recognised in the balance sheet as the calculated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and taxes paid on account.

Deferred tax is measured on the temporary differences between the carrying amount and the tax value of assets and liabilities.

Deferred tax assets, including the tax value of tax loss carry-forwards, are measured at the expected realisable value of the asset, either by set-off against tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that under the legislation in force on the balance sheet date will be applicable when the deferred tax is expected to crystallise as current tax. Any changes in the deferred tax resulting from changes in tax rates, are recognised in the income statement, except from items recognised directly in equity.

### Liabilities

Financial liabilities are recognised at the time of borrowing by the amount of proceeds received less borrowing costs. In subsequent periods, the financial liabilities are measured at amortised cost equal to the capitalised value when using the effective interest, the difference between the proceeds and the nominal value being recognised in the Income Statement over the term of loan.

Amortised cost for short-term liabilities usually corresponds to the nominal value.

### Accruals, liabilities

Accruals recognised as liabilities include payments received regarding income in subsequent years.

### Foreign currency translation

Transactions in foreign currencies are translated at the rate of exchange on the transaction date. Exchange differences arising between the rate on the transaction date and the rate on the payment date are recognised in the income statement as a financial income or expense.

If the foreign exchange position is considered to hedge future cash flows, the unrealised exchange adjustments are recognised directly in the equity.

Receivables, payables and other monetary items in foreign currencies that are not settled on the balance sheet date are translated at the exchange rate on the balance sheet date. The difference between the exchange rate on the balance sheet date and the exchange rate at the time of occurrence of the receivables or payables is recognised in the income statement as financial income or expenses.

Fixed assets acquired in foreign currencies are translated at the rate of exchange on the transaction date.
