Management's Statement

The Executive Board and Board of Directors have today considered and adopted the Annual Report of Dacapo Stainless A/S for the financial year 1 January - 31 December 2021.

The Annual Report is prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements and the Consolidated Financial Statements give a true and fair view of the financial position at 31 December 2021 of the Company and the Group and of the results of the Company and Group operations and of consolidated cash flows for 2021.

In our opinion, Management's Review includes a true and fair account of the matters addressed in the Review.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Silkeborg, 25 March 2022

Independent Auditor's Report

To the Shareholders of Dacapo Stainless A/S

Opinion
In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2021 and of the results of the Group's and the Parent Company's operations and of consolidated cash flows for the financial year 1 January - 31 December 2021 in accordance with the Danish Financial Statements Act.

We have audited the Consolidated Financial Statements and the Parent Company Financial Statements of Dacapo Stainless A/S for the financial year 1 January - 31 December 2021, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies, for both the Group and the Parent Company, as well as consolidated statement of cash flows ("the Financial Statements").

Basis for Opinion
We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the Financial Statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review
Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financials Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Consolidated Financial Statements and the Parent Company Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Independent Auditor's Report

Management's responsibilities for the Financial Statements
Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Statements
Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Management's Review

Key activities

The Company's business activity is stockholding and trading of stainless steel primarily in Northern Europe, secondarily in the rest of the World.

The products can be divided into four main groups: Tubes, bars, flats and Fittings and the company are based in 6 countries: Belgium, Denmark, Germany, Holland, Norway and Sweden.

The products are physically stored in only one location, from where it is distributed to all customers in allcountries, regardless of which group company has sold the goods. Tubes, bars and flats are stored in Silkeborg, Denmark and fittings are stored in Helmond, The Netherlands.

The stainless steel is purchased from specialized manufacturers in Europe and in Asia and distributed fromwarehouses in Denmark and The Netherlands to industrial consumers world-wide through direct conventionalsales channels and indirectly as supply partner to other steel resellers.

Digitalization is a cornerstone of the Company's strategy, and digital solutions are continuously developedand applied within all work processes in the Company's value chain.

A significant and increasing part of sales are carried out digitally either via the Company's commercial webportal or in one-to-one digital linkups with key customers and suppliers.

Market overview

Development in activities and finances

The Group's income statement for the fiscal year ended 31th. December, 2021 shows a net profit of DKK 120,902 thousand and the balance sheet shows equity of DKK 206,392 thousand which in addition to subordinated debt of DKK 22,300 thousand add up to a total liable capital of DKK 228,691 thousand and a solvency of 31,3%.

During the year the Covid-19 pandemic loosened its grip on the stainless steel market in Europe, resulting in a rebound of demand to just above 2019 levels and around 15 % higher than 2020. Right from the start of the year The Company saw an increase in sold steel volumes in all product categories along with a continuous incline in prices throughout the year. Y.o.y. steel volumes grew by 20%, revenue by 49% to 1.303,393 thousand, and EBITDA by 541% to 169,596 thousand resulting in an EBITDA/rev. ratio of 13,1%, which is very satisfactory. The Company generated a small positive cash flow, while significantly increasing net working capital. The Company incurred DKK 15,000 thousand in non-recurring costs related to extraordinary bonus salary payout to all employees and extraordinary costs related to adjusted import costs in previous financial years.

The average 2021 stainless steel prices ended up 30% vs. 2020 and gross margin grew by more than 8%-point. The Nickel increased by 23 % y.o.y. rising steadily throughout the year, with a set back after Q1, which partly explains the increase in sales prices, however ex. mill base prices, particularly in the flat products category also increased as a result of increased capacity utilization among EU producers, helped by EU import restrictions via the Safeguard mechanism. The Company believes the EU imposed restrictions on import of stainless steel are net-damaging to the EU industrial sector as a whole.

During the year the Company opened sales offices in Nürnberg and Leipzig and increased total head count by 20 to 145. Sale activities and business development in markets where The Company is not yet established with its own sales company were separated into a new subsidiary Dacapo International B.V., in order to accelerate international expansion. In Q1 2022 The Company establishes a new sales subsidiary in Slovakia.

Uncertainty relating to recognition and measurement

Uncertainty regarding raw materials, exchange rates, inflation and and general economic development will continue to influence the market. The war in Ukraine has added further uncertainty factors. The Group will continue to focus on cost efficiency and customer profitability to maintain flexibility and resilience to adverse changes.

Outlook

2022 started with a very strong burst of demand alongside continued steep increase in the Nickel price and a fear of lack of availability. The situation in Ukraine and the sanctions against Russia impacts the market at many levels and blurs the outlook significantly. The Company believes prevailing high price levels are unsustainable over the medium term, which along with geopolitical uncertainties can impact demand negatively, possibly leading to a worsening of the business conditions as 2022 progresses. Relevant measures to mitigate the effects of such a deterioration are being taken.

Particular risks

The Group uses currency hedges to hedge purchases of goods. The Group is dependent on the development in the prices of raw materials, especially nickel and molybdenum.

Market protectionism and escalation in trade conflicts between the main economic regions of the World, can impact the Company.

The explosive rise in energy prices spurred by the Ukrainian crisis impacts especially the integrated steel making companies in Europe, possibly leading to significant reduction in production and availability, which can only partly be substituted by imports from outside of EU.

Statement of corporate social responsibility

Business model

The Company's business activity is stockholding and trading of stainless steel primarily in Northern Europe, secondarily in the rest of the World.

The products can be divided into four main groups: Tubes, bars, flats and Fittings and the company are based in 6 countries: Belgium, Denmark, Germany, Holland, Norway and Sweden.

Management's Review

The products are physically stored in only one location, from where it is distributed to all customers in all countries, regardless of which group company has sold the goods. Tubes, bars and flats are stored in Silkeborg, Denmark and fittings are stored in Helmond, The Netherlands.

Environment and climate

The most significant risk of the Company's activities related to environment and climate is the impact of the material handling and transportation of steel. The very nature of steel, its production and its use inheritably leaves a significant carbon footprint, on which the Company only has limited influence.

Regardless, the Company endeavors to limit the environmental impact of its existence within all relevant processes and activities. Careful specification and selection of new technology and better utilization of logistical capacity as well as adapted travelling behavior of sales teams are among the initiatives being taken.

An application for the installation of wind turbines, which would make The Company self-relying with electricity was rejected by the municipal authorities in Silkeborg citing a.o. environmental concerns. The Company is projecting other investments, with the objective of becoming self-sufficient with electricity.

The increase in handled steel volume and conversion to use of electrical cars has caused the group's electricity consumption to increase compared to 2020, but the electricity consumption per ton handled has decreased by approximately 5 %.

The company expects to continue its work on becoming self-sufficient with electricity in 2022

Labour rights

The main risk related to labor rights concerns employee's motivation as well as physical and phycological well-being. Despite the Covid-19 driven changes in working patterns with much more work taking place alone or in smaller groups, it is the Company's opinion that the negative impact on employee's wellbeing has been only minor.

It is company policy is to maintain and increase employee satisfaction and wellbeing.

The Company maintains a satisfactory staff retention level which duly reflects an intention to offer all employees, regardless of gender or organizational level & responsibility, a safe and motivating work environment. The Company assigns high priority to strict adherence to applicable rules and legislation related to its human resources.

Continuous personal development and upgrading of personal skills for all employees regardless of function and level is a key priority.

As the world and the markets change due to digitalization and environmental requirements, the competencies of the organization will have to change, which is also reflected in the on- & off-hiring that took place in the organization in 2021.

The Company has further developed an internal on-line education program, which assist employees to improve their skills and knowledge within all aspects of the Company's activities including GPDR, IT-security, company guidelines and products.

The company will continue to focus on the online education in 2022.

Human rights

The main risk related to human rights is that employees may feel that they are not treated equally and fairly.

The Company has a zero-tolerance policy with regards to racial, religious, sexual or any other type of discrimination. There has been no incidents of such during the year.

The Company expect that suppliers and business partners ensure that human rights are observed, and that no discrimination due to race, religion, cast, age, nationality, sexual orientation, sex, handicap, union membership or political association takes place.

Management will continue to train employees and continue to set focus and create awareness on the zero-tolerance policy with regards to racial, religious, sexual or any other type of discrimination.

Anti-corruption

The main risk related to anti-corruption is that employees may give gifts/use other means to illegally influence a client or partner decision or vice versa.

The Company has a strict policy with regards corruption and bribery, and any direct or indirect engagement in or knowledge of any such activity is considered a serious non-acceptable offence.

In 2021, we do not have knowledge of any breaches in Dacapo regarding corruption and bribery in any of the countries in which The Company is active.

The company expects to continue its focus on creating awareness of the strict policy in 2022.

CSR outlook

In cooperation with Eco Vadis and some of our major customers, we are maintaining our CSR policies and documentation thereof within Eco Vadis' CRM analysis, system covering 21 criteria across four themes of Environment, Fair labor & human rights, ethics, and sustainable procurement. The methodology is built on international CSR standards including the Global Reporting Initiative, the United Nations Global Compact, and the ISO 26000.

In September 2020 the Company obtained approval of its environmental management systems acc. ISO 14001:2015, for all group companies. Renewal of certification of quality assurance management systems acc. ISO 9001, was also achieved.

Statement on gender composition

The Board of Directors consist of 4 male members and no females. It is the objective to have one female director latest in 2022, however this far no suitable candidate has been identified.

The Company has a male CEO and an executive management group consisting of one female and eight male executives. In Denmark the group employs 18 females (hereof two manager and two team leaders) and 56 males (hereof four team leaders and one managers). Within the group there are a total of 31 females and 113 males are employed. The overweight of males can be explained by the fact that a lot of the work at the warehouses is heavy work. One third of the 113 male represented, are employed at the warehouses in DK and NL.

When the Company initiates recruitment processes, there is emphasis on identifying female candidates for the open positions in order to obtain a higher degree of gender in the Company.

Data safety and ethics

The Company handles and processes a wide range of data related to its business flow and internal processes, in full observance of relevant local legislation and internal policies for privacy, data integrity and security. The Company is of the opinion that there is no need for a specific policy for data ethics, but will assess such need from time to time.

Events after the balance sheet date

No circumstances have occurred after the balance sheet date that distort the assessment of the annual report.

19 Fee to auditors appointed at the general meeting

With reference to the Danish Financial Statements Act, section 96, subsection 3 and to the note on fee to auditor appointed by the general meeting in the consolidated financial statements for Dacapo Holding A / S, CVR no. 27 40 03 97 has the company omited to prepare the note on fee to auditors appointed by the general meeting.

Notes to the Financial Statements

20 Accounting Policies

The Annual Report of Dacapo Stainless A/S for 2021 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to large enterprises of reporting class C .

The accounting policies applied remain unchanged from last year.

There have been minor changes to comparative figures. The changes do not affect result for the year or equity.

The Consolidated and Parent Company Financial Statements for 2021 are presented in TDKK.

Recognition and measurement

Revenues are recognised in the income statement as earned. Furthermore, value adjustments of financial assets and liabilities measured at fair value or amortised cost are recognised. Moreover, all expenses incurred to achieve the earnings for the year are recognised in the income statement, including depreciation, amortisation, impairment losses and provisions as well as reversals due to changed accounting estimates of amounts that have previously been recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Basis of consolidation

The Consolidated Financial Statements comprise the Parent Company, Dacapo Stainless A/S, and subsidiaries in which the Parent Company directly or indirectly holds more than 50% of the votes or in which the Parent Company, through share ownership or otherwise, exercises control. Enterprises in which the Group holds between 20% and 50% of the votes and exercises significant influence but not control are classified as associates.

On consolidation, items of a uniform nature are combined. Elimination is made of intercompany income and expenses, shareholdings, dividends and accounts as well as of realised and unrealised profits and losses on transactions between the consolidated enterprises.

The Parent Company's investments in the consolidated subsidiaries are set off against the Parent Company's share of the net asset value of subsidiaries stated at the time of consolidation.

Notes to the Financial Statements

20 Accounting Policies (continued)

Leases

Leases in terms of which the Group assumes substantially all the risks and rewards of ownership (finance leases) are recognised in the balance sheet at the lower of the fair value of the leased asset and the net present value of the lease payments computed by applying the interest rate implicit in the lease or an alternative borrowing rate as the discount rate. Assets acquired under finance leases are depreciated and written down for impairment under the same policy as determined for the other fixed assets of the Group.

The remaining lease obligation is capitalised and recognised in the balance sheet under debt, and the interest element on the lease payments is charged over the lease term to the income statement.

All other leases are considered operating leases. Payments made under operating leases are recognised in the income statement on a straight-line basis over the lease term.

Translation policies

Transactions in foreign currencies are translated at the exchange rates at the dates of transaction. Exchange differences arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement. Where foreign exchange transactions are considered hedging of future cash flows, the value adjustments are recognised directly in equity.

Receivables, payables and other monetary items in foreign currencies that have not been settled at the balance sheet date are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the rates at the time when the receivable or the debt arose are recognised in financial income and expenses in the income statement.

Fixed assets acquired in foreign currencies are measured at the transaction date rates.

Derivative financial instruments

Derivative financial instruments are initially recognised in the balance sheet at cost and are subsequently remeasured at their fair values. Positive and negative fair values of derivative financial instruments are classified as ”Other receivables” and ”Other payables”, respectively.

Changes in the fair values of derivative financial instruments are recognised in the income statement unless the derivative financial instrument is designated and qualify as hedge accounting, see below.

Notes to the Financial Statements

20 Accounting Policies (continued)

Hedge accounting

Changes in the fair values of derivative financial instruments that are designated and qualify as hedges of expected future transactions are recognised in retained earnings under equity as regards the effective portion of the hedge. The ineffective portion is recognised in the income statement. If the hedged transaction results in an asset or a liability, the amount deferred in equity is transferred from equity and recognised in the cost of the asset or the liability, respectively. If the hedged transaction results in an income or an expense, the amount deferred in equity is transferred from equity to the income statement in the period in which the hedged transaction is recognised. The amount is recognised in the same item as the hedged transaction.

Revenue

Information on geographical segments based on the Group´s risks and returns and its internal financial reporting system. The Dacapo Group has not performed a segmentation of activities as it considers its activities as one segment.

Income Statement

Revenue

Revenue from the sale of goods is recognised when the risks and rewards relating to the goods sold have been transferred to the purchaser, the revenue can be measured reliably and it is probable that the economic benefits relating to the sale will flow to the Group.

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

Expenses for raw materials and consumables

Expenses for raw materials and consumables comprise the raw materials and consumables consumed to achieve revenue for the year.

Other external expenses

Other external expenses comprise indirect production costs and expenses for premises, sales and distribution as well as office expenses, etc.

Staff expenses

Staff expenses comprise wages and salaries as well as payroll expenses.

Notes to the Financial Statements

20 Accounting Policies (continued)

Amortisation, depreciation and impairment losses

Amortisation, depreciation and impairment losses comprise amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

Other operating income and expenses

Other operating income and other operating expenses comprise items of a secondary nature to the main activities of the Group, including gains and losses on the sale of intangible assets and property, plant and equipment.

Income from investments in subsidiaries

The item "Income from investments in subsidiaries" in the income statement includes the proportionate share of the profit for the year.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year.

Tax on profit/loss for the year

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with wholly owned Danish and foreign subsidiaries. The tax effect of the joint taxation is allocated to enterprises in proportion to their taxable incomes.

Balance Sheet

Intangible assets

Goodwill acquired is measured at cost less accumulated amortisation. Goodwill is amortised on a straight-line basis over its useful life, which is assessed at 5 years.

Patents and licences are measured at the lower of cost less accumulated amortisation and recoverable amount. Patents are amortised over the remaining patent period, and licences are amortised over the licence period; however not exceeding years.

Development costs and costs relating to rights developed by the Company are recognised in the income statement as costs in the year of acquisition.

Notes to the Financial Statements

20 Accounting Policies (continued)

Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Other fixtures and fittings, tools and equipment	3-10	years

Depreciation period and residual value are reassessed annually.

Impairment of fixed assets

The carrying amounts of intangible assets and property, plant and equipment are reviewed on an annual basis to determine whether there is any indication of impairment other than that expressed by amortisation and depreciation.

If so, the asset is written down to its lower recoverable amount.

Investments in subsidiaries

Investments in subsidiaries are recognised and measured under the equity method.

The item"Investments in subsidiaries" in the balance sheet include the proportionate ownership share of the net asset value of the enterprises calculated on the basis of the fair values of identifiable net assets at the time of acquisition with deduction or addition of unrealised intercompany profits or losses and with addition of the remaining value of any increases in value and goodwill calculated at the time of acquisition of the enterprises.

The total net revaluation of investments in subsidiaries is transferred upon distribution of profit to "Reserve for net revaluation under the equity method" under equity. The reserve is reduced by dividend distributed to the Parent Company and adjusted for other equity movements in the subsidiaries.

Subsidiaries with a negative net asset value are recognised at DKK 0. Any legal or constructive obligation of the Parent Company to cover the negative balance of the enterprise is recognised in provisions.

Notes to the Financial Statements

20 Accounting Policies (continued)

Other fixed asset investments

Other fixed asset investments consist of deposits.

Inventories

Inventories are measured at the lower of cost under the FIFO method and net realisable value.

The net realisable value of inventories is calculated at the amount expected to be generated by sale of the inventories in the process of normal operations with deduction of selling expenses. The net realisable value is determined allowing for marketability, obsolescence and development in expected selling price.

The cost of goods for resale equals landed cost.

Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts.

Prepayments

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

Dividend

Dividend distribution proposed by Management for the year is disclosed as a separate equity item.

Deferred tax assets and liabilities

Deferred income tax is measured using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. Any changes in deferred tax due to changes to tax rates are recognised in the income statement or in equity if the deferred tax relates to items recognised in equity.

Notes to the Financial Statements

20 Accounting Policies (continued)

Current tax receivables and liabilities

Current tax liabilities and receivables are recognised in the balance sheet as the expected taxable income for the year adjusted for tax on taxable incomes for prior years and tax paid on account. Extra payments and repayment under the on-account taxation scheme are recognised in the income statement in financial income and expenses.

Financial debts

Debts are measured at amortised cost, substantially corresponding to nominal value.

Cash Flow Statement

The cash flow statement shows the Group´s cash flows for the year broken down by operating, investing and financing activities, changes for the year in cash and cash equivalents as well as the Group´s cash and cash equivalents at the beginning and end of the year.

Cash flows from operating activities

Cash flows from operating activities are calculated as the net profit/loss for the year adjusted for changes in working capital and non-cash operating items such as depreciation, amortisation and impairment losses, and provisions. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flows from investing activities

Cash flows from investing activities comprise cash flows from acquisitions and disposals of intangible assets, property, plant and equipment as well as fixed asset investments.

Cash flows from financing activities

Cash flows from financing activities comprise cash flows from the raising and repayment of long-term debt as well as payments to and from shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise ”Cash at bank and in hand”.

The cash flow statement cannot be immediately derived from the published financial records.
