**INDEPENDENT AUDITOR'S REPORT**

*To the Shareholder of GRAS ApS*

**Opinion**

We have audited the Financial Statements of GRAS ApS for the financial year 1 July 2019 - 31 December 2020, which comprise income statement, Balance Sheet, statement of changes in equity, notes and a summary of significant accounting policies. The Financial Statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the assets, liabilities and financial position of the Company at 31 December 2020 and of the results of the Company's operations for the financial year 1 July 2019 - 31 December 2020 in accordance with the Danish Financial Statements Act.

**Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

**Management's Responsibilities for the Financial Statements**

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

**Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

## INDEPENDENT AUDITOR'S REPORT

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### ***Statement on Management's Review***

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of Management's Review.

The Annual Report is prepared consistently with the accounting principles applied last year.

### **Consolidated Financial Statements**

Consolidated financial statements have not been prepared because the group fulfils the exemption provisions of section 112 of the Danish Financial Statements Act on sub-groups. The company is included in the consolidated financial statements of AP Portfolio Co, 1209 Orange Street, Delaware, USA..

## INCOME STATEMENT

### **Net revenue**

Net revenue from sale of merchandise and finished goods is recognised in the Income Statement if supply and risk transfer to purchaser has taken place before the end of the year and if the income can be measured reliably and is expected to be received. Net revenue is recognised exclusive of VAT, duties and less discounts related to the sale.

### **Production costs**

Production costs comprise costs, including wages and salaries and write-off, incurred to achieve the net revenue for the year. Commercial enterprises recognise cost of sales, and the manufacturing enterprises recognise production costs equal to the revenue for the year, including direct and indirect costs of raw materials and consumables, wages and salaries, rent and leasing and depreciation of production plant.

Amortisation of capitalised development and research costs and the development costs that do not fulfil the criteria for capitalisation are also recognised in production costs.

Impairment losses are recognised in connection with expected losses on project contracts.

### **Distribution costs**

The costs incurred for distribution of goods sold during the year and for sales campaigns carried out during the year are recognised in distribution costs. The costs of the sales personnel, advertising and exhibition costs and amortisation are also recognised in distribution costs.

### **Administrative expenses**

Administrative expenses recognise costs incurred during the year regarding management and administration of the group, inclusive of costs relating to the administrative staff, executives, office premises, office expenses etc and related amortisation.

### **Other operating income**

Other operating income includes items of a secondary nature in relation to the Group's and the Company's activities, including profit from sale of intangible and tangible fixed assets. In addition, profit from sale of intangible and tangible fixed assets as well as business interruption and conflict compensations are included. Compensations are recognised when the income is deemed to be realisable.

### **Income from equity interests in subsidiaries and associates**

The income statement of the parent company recognises the proportional share of the results of each subsidiary after full elimination of intercompany profits/losses and deduction of amortisation of goodwill.

In connection with transfers, potential profits are recognised when the economic rights related to the sold equity interests are transferred, however, at the earliest when the profit has been realised or is regarded as realisable. Moreover, realised losses other than impairments are included where identified.

## ACCOUNTING POLICIES

### **Financial income and expenses**

*Financial income and expenses include interest income and expenses, financial expenses of finance leases, realised and unrealised gains and losses arising from investments in financial assets, debt and transactions in foreign currencies, amortisation of financial assets and liabilities as well as charges and allowances under the tax-on-account scheme etc. Financial income and expenses are recognised in the income statement by the amounts that relate to the financial year.*

### **Tax**

*The tax for the year, which consists of the current tax for the year and changes in deferred tax, is recognised in the income statement by the portion that may be attributed to the profit for the year, and is recognised directly in the equity by the portion that may be attributed to entries directly to the equity.*

## BALANCE SHEET

### **Intangible fixed assets**

*Acquired goodwill is measured at cost less accumulated amortisation. Goodwill is amortised on a straight-line basis over the expected useful life which is estimated to 5 years. The period of amortisation is determined based on an assessment of the acquired company's position in the market and earnings profile, and the industry-specific conditions.*

*Patents and licences are measured at the lower of cost less accumulated amortisation and the recoverable amount. Patents are amortised over the remaining patent period and licences are amortised over the period of the agreement, however, no more than 8 years.*

*Profit or loss from sale of intangible fixed assets is calculated at the difference between the sales price and the carrying amount at the time of the sale. Profit and loss are recognised in the Income Statement under other operating income or other operating expenses.*

### **Tangible fixed assets**

*Land and buildings, production plant and machinery, other plants, fixtures and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated.*

*The depreciation base is cost less estimated residual value after end of useful life.*

*The cost includes the acquisition price and costs incurred directly in connection with the acquisition until the time when the asset is ready to be used. As regards self-manufactured assets, the cost price includes cost of materials, components, subcontractors, direct payroll and indirect production costs.*

*Straight-line depreciation is provided on the basis of an assessment of the expected useful lives of the assets and their residual value:*

	<b>Useful life</b>	<b>Residual value</b>
Production plant and machinery.....	3-10 years	0 %
Other plant, fixtures and equipment.....	3-5 years	0 %
Leasehold improvements.....	3-5 years	0 %

*Profit or loss on disposal of tangible fixed assets is stated as the difference between the sales price less selling costs and the carrying amount at the time of sale. Profit or loss is recognised in the income statement as other operating income or other operating expenses.*

## ACCOUNTING POLICIES

### **Fixed asset investments**

*Investments in Equity interests in subsidiaries and associates are measured in the Parent Company Balance Sheet under the equity method, which is regarded as a method of measuring/consolidation.*

*Equity investments in subsidiaries and associates are measured in the Balance Sheet at the proportional share of the enterprises' carrying equity value, calculated in accordance with the Parent Company's accounting policies with deduction or addition of unrealised intercompany profits or losses and with addition or deduction of the residual value of positive or negative goodwill calculated according to the acquisition method. Negative goodwill is recognised in the Income Statement when the equity interest is acquired. Where the negative goodwill is related to acquired contingent liabilities, the negative goodwill will be recognised as income when the contingent liabilities have been settled or cease.*

*Acquired enterprises are subject to the acquisition method, reassessing all identified assets and liabilities to fair value at the acquisition date. The fair value is calculated based on acquisitions made in an active market, alternatively calculated using generally accepted valuation models.*

*A discounted cash flow model is used to calculate the fair value of investment properties based on a discounted cash flow of future earnings. Operating equipment is recognised at fair value based on an assessor's opinion, based on an overall assessment of the production equipment.*

*The acquisition date is the date on which the Company gains actual control over the acquired entity.*

*Consolidated goodwill is amortised over the expected useful life, which is determined on the basis of Management's experience within the individual lines of business. Consolidated goodwill is amortised on a straightline basis over the amortisation period, which is 5 years. The amortisation period is determined on the basis of an assessment of the acquired entity's market position and earnings profile, and the industry specific condition.*

*Net revaluation of equity interests in subsidiaries is transferred under equity to reserve for net revaluation under the equity value method to the extent that the carrying amount exceeds the acquisition value.*

*Subsidiaries and associates with a negative carrying equity value are measured to DKK 0 and any amounts due from these enterprises are written down to the extent that it is deemed to be irrecoverable. If the carrying negative equity value exceeds receivables, the residual amount is recognised under provision for liabilities to the extent that the Company has a legal or actual liability to cover the subsidiary's subsidiary's and associates deficit.*

### **Impairment of fixed assets**

*The carrying amount of intangible fixed and tangible assets together with fixed assets, which are not measured at fair value, are valued on an annual basis for indications of impairment other than that reflected by amortisation and depreciation.*

*In the event of impairment indications, an impairment test is made for each asset or group of assets, respectively. If the net realisable value is lower than the carrying amount, the assets are written down to the lower value.*

*The recoverable amount is calculated at the higher of net selling price and capital value. The capital value is determined as the fair value of the expected net cash flows from the use of the asset or group of assets and the expected net cash flows from sale of the asset or group of assets after the end of its useful life.*

## ACCOUNTING POLICIES

### **Inventories**

*Inventories are measured at cost using the FIFO-principle. If the net realisable value is lower than cost, the inventories are written down to the lower value.*

*The cost of merchandise as well as raw materials and consumables is calculated at acquisition price with addition of transportation and similar costs.*

*The cost of finished goods and work in progress includes cost of raw materials, consumables, direct payroll cost and indirect production cost. Indirect production costs include indirect materials and payroll and maintenance and depreciation of the machines, factory buildings and equipment used in the production process, cost of factory administration and management and capitalised development costs relating to the products.*

*The net realisable value of inventories is stated at sales price less completion costs and costs incurred to execute the sale and is determined with due regard to marketability, obsolescence and development in expected sales price.*

### **Receivables**

*Receivables are measured at amortised cost which usually corresponds to nominal value. The value is reduced by impairment losses to meet expected losses.*

### **Accruals, assets**

*Accruals recognised as assets include costs incurred relating to the subsequent financial year.*

### **Tax payable and deferred tax**

*Current tax liabilities and receivable current tax are recognised in the balance sheet as the calculated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and taxes paid on account.*

*The Company is subject to joint taxation with Danish group companies. The current corporation tax is distributed among the joint taxable companies in proportion to their taxable income and with full allocation and refund related to tax losses. The joint taxable companies are included in the on account tax scheme. Joint taxation contributions receivable and payable are recognised in the Balance Sheet under current assets and liabilities, respectively.*

*Deferred tax is measured on the temporary differences between the carrying amount and the tax value of assets and liabilities.*

*Deferred tax assets, including the tax value of tax loss carry-forwards, are measured at the expected realisable value of the asset, either by set-off against tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity.*

*Deferred tax is measured on the basis of the tax rules and tax rates that under the legislation in force on the balance sheet date would be applicable when the deferred tax is expected to crystallise as current tax. Any changes in the deferred tax resulting from changes in tax rates, are recognised in the income statement, except from items recognised directly in equity.*

### **Liabilities**

*Amortised cost of current liabilities usually corresponds to nominal value.*

## ACCOUNTING POLICIES

### *Foreign currency translation*

*Transactions in foreign currencies are translated at the rate of exchange on the transaction date. Exchange differences arising between the rate on the transaction date and the rate on the payment date are recognised in the income statement as a financial income or expense.*

*Receivables, payables and other monetary items in foreign currencies that are not settled on the balance sheet date are translated at the exchange rate on the balance sheet date. The difference between the exchange rate on the balance sheet date and the exchange rate at the time of occurrence of the receivables or payables is recognised in the income statement as financial income or expenses.*

*Fixed assets acquired in foreign currencies are translated at the rate of exchange on the transaction date.*

*The income statements of foreign subsidiaries and associates fulfilling the criteria for being independent entities are translated at an average exchange rate for the month and balance sheet items are translated at the rate of exchange on the balance sheet date. Exchange differences arising from translation of the equity of foreign subsidiaries at the beginning of the year to the rates of the balance sheet date and from translation of income statements from average rate to the rates of the balance sheet date are recognised directly in the equity.*

*Exchange adjustment of intercompany accounts with foreign subsidiaries that are deemed to be an addition to or deduction from the equity of independent subsidiaries are recognised directly in the equity.*

## CASH FLOW STATEMENT

*With reference to Section 86(4) of the Danish Financial Statements Act, the company has not prepared a cash flow statement. A cash flow statement has been prepared for the Group.*
