## Statement by management on the annual report

The board of directors and the executive board have today discussed and approved the annual report of Ørsted Vind A/S for the financial year 1 January - 31 December 2022.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the company's financial position at 31 December 2022 and of the results of the company's operations for the financial year 1 January - 31 December 2022.

Management recommends that the annual report should be approved at the annual general meeting.

## Independent auditor's report

### *To the shareholder of Ørsted Vind A/S*

#### **Opinion**

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2022 and of the results of the Company's operations for the financial year 1 January - 31 december 2022 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Ørsted Vind A/S for the financial year 1 January - 31 December 2022, which comprise a summary of significant accounting policies, income statement, balance sheet, statement of changes in equity and notes ("financial statements").

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Management's responsibilities for the Financial Statements**

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

## Independent auditor's report

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

## Independent auditor's report

- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Copenhagen, 24 May 2023

### Consolidated financial statements

The company is reflected in the group report as the parent company Ørsted A/S, CVR no. 36 21 37 28

The group report of Ørsted A/S, CVR no. 36 21 37 28 can be obtained at the following address:

<https://orstedcdn.azureedge.net/-/media/2022-annual-report/orsted-annual-report-2022.ashx?rev=dbb7b462b5d64e53989413e99130cdbc&hash=273FAA9F115E673717493F904CC1FC18>

## Accounting policies

The annual report of Ørsted Vind A/S for 2022 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class B, as well as selected rules applying to reporting class C.

The accounting policies applied are consistent with those of last year.

The annual report for 2022 is presented in TDKK.

Pursuant to sections §112, of the Danish Financial Statements Act, the company has not prepared consolidated financial statements.

### Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any installments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report is presented and which confirm or invalidate matters existing at the balance sheet date.

## Income statement

### Other external expenses

Other external expenses include expenses related to administration etc.

## Accounting policies

### Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year. Net financials include interest income and expenses, financial expenses relating to finance leases, realised and unrealised capital/exchange gains and losses on securities and foreign currency transactions and surcharges and allowances under the advance-payment-of-tax scheme, etc.

### Income from investments in subsidiaries

Dividend from investments is recognised in the reporting year in which the dividend is declared.

### Tax on profit/loss for the year

The company is subject to the Danish rules on compulsory joint taxation of the Ørsted Group's Danish subsidiaries. Subsidiaries participate in the joint taxation arrangement from the time when they are included in the consolidated financial statements and until the time when they withdraw from the consolidation.

On payment of joint taxation contributions, the current Danish income tax is allocated between the jointly taxed Danish entities in proportion to their taxable income. Danish entities with tax losses receive joint taxation contributions from the ultimate parent company (the management company), Ørsted A/S equivalent to the tax base of the tax losses utilised (full allocation), while Danish entities that utilise tax losses in other entities pay joint taxation contributions to the Ørsted A/S equivalent to the tax base of the utilised losses.

Tax for the year, which comprises the current tax charge for the year and changes in the deferred tax charge, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

## Balance sheet

### Investments in subsidiaries

Investment in subsidiaries are measured at cost. If cost exceeds the recoverable amount, a write-down is made to this lower value.

Cost is written down to the extent that dividend distributed exceeds the accumulated earnings after the date of takeover.

Where the parent company has a legal or constructive obligation to cover the companies' negative balances or obligations, such obligation is recognised in liabilities.

## Accounting policies

### Impairment of fixed assets

The carrying amount of investments in subsidiaries is reviewed for impairment, other than what is reflected through normal amortisation and depreciation, on an annual basis.

Where there is evidence of impairment, an impairment test is performed for each individual asset or group of assets. Write-down is made if the recoverable amount is lower than the carrying amount.

The recoverable amount is the higher of the net present value and the value in use less expected costs to sell. The net present value is determined as the present value of the anticipated net cash flows from the use of the asset or group of assets and the anticipated net cash flows from the disposal of the asset or group of assets after the end of their useful life.

### Receivables

Receivables, which include trade receivables, receivables from group entities and other receivables, are measured at amortised cost.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable is impaired, an impairment loss for that individual asset is recognised.

### Equity

#### Income tax and deferred tax

Current tax liabilities and current tax receivables are recognised in the balance sheet as the estimated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and tax paid on account.

The company and all its Danish group entities are taxed on a joint basis. The current income tax charge is allocated between the jointly taxed entities relative to their taxable income. Tax losses are allocated based on the full absorption method. The jointly taxed entities are eligible for the Danish Tax Prepayment Scheme.

Joint taxation contributions payable and receivable are recognised in the balance sheet as 'Joint taxation contributions receivable' or 'Joint taxation contributions payable'.

Deferred tax is measured according to the liability method in respect of temporary differences between the carrying amount of assets and liabilities and their tax base, calculated on the basis of the planned use of the asset and settlement of the liability, respectively. Deferred tax is measured at net realisable value.

## Accounting policies

### Liabilities

Liabilities, which include trade payables, payables to group entities and other payables, are measured at amortised cost, which is usually equivalent to nominal value.

### Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statement as financial income or financial expenses. If foreign currency transactions are considered cash flow hedges, the value adjustments are taken directly to equity.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Fixed assets acquired in foreign currencies are translated at the exchange rate at the transaction date.

## 8 Receivables and payables to group companies

The company's receivables from group companies includes TDKK 2,536,773 in a cash pool scheme with the ultimate parent company, Ørsted A/S (2021: receivables TDKK 188,983)

## 9 Equity

The share capital consists of 7 shares of a nominal value of TDKK 1.000. No shares carry any special rights.

There have been no changes in the share capital during the last 5 years.

## 10 Subsequent events

No events have occurred after the balance sheet date which could significantly affect the company's financial position.

## Notes

### 11 Contingent assets, liabilities and other financial obligations

#### Liability in joint taxation

The group's danish companies are jointly and severally liable for tax on group jointly taxes income, etc. Reference is made to the annual report for Ørsted A/S, the administration company in relation to joint taxation. The group's danish companies are also jointly and severally liable for Danish withholding taxes on dividends, royalties and interests within the group of jointly taxed entities. Any subsequent corrections to income and withholding taxes may result in an increase in the entities' liability.

The group's danish entities have joint and several liability for joint VAT registration.
