Statement by the Board of Directors and the Executive Board

The Board of Directors and the Executive Board have today discussed and approved the annual report of Ordyhna Holding A/S for the financial year 1 January – 31 December 2016.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the Group's and the Parent Company's assets, liabilities and financial position at 31 December 2016 and of the results of the Group's and the Parent Company's operations and consolidated cash flows for the financial year 1 January – 31 December 2016.

Further, in our opinion, the Management's review gives a fair review of the development in the Group's and the Parent Company's activities and financial matters, of the results for the year and of the Group's and the Parent Company's financial position.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of Ordyhna Holding A/S

Opinion

We have audited the consolidated financial statements and the parent company financial statements of Ordyhna Holding A/S for the financial year 1 January – 31 December 2016 comprising income statement, balance sheet, statement of changes in equity and notes, including accounting policies, for the Group as well as for the Parent Company and a cash flow statement for the Group. The consolidated financial statements and the parent company financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the Group's and the Parent Company's assets, liabilities and financial position at 31 December 2016 and of the results of the Group's and the Parent Company's operations and consolidated cash flows for the financial year 1 January – 31 December 2016 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibility for the consolidated financial statements and the parent company financial statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control that Management determines is necessary to enable the preparation of consolidated financial statements and parent company financial statements that are free from material misstatement, whether due to fraud or error.

Independent auditor's report

In preparing the consolidated financial statements and the parent company financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the consolidated financial statements and the parent company financial statements unless Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements

Our objectives are to obtain reasonable assurance as to whether the consolidated financial statements and the parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements in Denmark will always detect a material misstatement when it exists. Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of financial statement users made on the basis of these consolidated financial statements and parent company financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also

- identify and assess the risks of material misstatement of the consolidated financial statements and the parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management

Independent auditor's report

- conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the parent company financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern
- evaluate the overall presentation, structure and contents of the consolidated financial statements and the parent company financial statements, including the disclosures, and whether the consolidated financial statements and the parent company financial statements represent the underlying transactions and events in a manner that gives a true and fair view
- obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the consolidated financial statements and the parent company financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent company financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the consolidated financial statements or the parent company financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Independent auditor's report

Based on the work we have performed, we conclude that the Management's review is in accordance with the consolidated financial statements and the parent company financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Management's review

Operating review

Principal activities

As of 31 December 2016, Ordyhna Holding A/S owns two operating companies: Simatek A/S and Dedert International A/S with Dedert group companies.

Development in activities and financial position

Delay of some major orders influenced Dedert's results for 2016, which was not satisfactory. However, the delay strengthened the backlog, and the outlook for 2017 is very good.

The Dedert Group opened a subsidiary in Montreal, Canada in 2016.

Simatek A/S performed stronger than expected throughout 2016 with improved profit and cash flows. The ongoing changes to the company in line with the planned strategy have strengthened the company considerably.

Outlook for 2017

The outlook for the markets in which the Group operates is satisfactory, and in some segments, an increase in activities is expected. Global representation requirements are still increasing, and the ability to sell and execute projects globally remains an important focus in 2017.

For Dedert Corp, the strong ending backlog from 2016 together with continued strong order income in the first quarter of 2017 supports the expectations for an improvement in the results for 2017.

For Simatek A/S, slightly lower results are expected.

Human resources

The total number of employees in 2016 amounted to 111; 58 employees in Denmark and 53 employees in the US and China.

Financial risks

Due to the Group's international activities, results, cash flows and equity are influenced by exchange rate developments.

According to the group exchange policy, commercial foreign exchange risks are considered hedged. Investments and loans designated as equity are not hedged according to the exchange policy.

Management's review

Operating review

Know-how

To ensure future operations, the operating companies must be able to attract and keep on board a broad line of specialists, including engineers and technological experts with dedicated knowledge and experience, to continuously develop state-of-the-art technology and competitive solutions.

Research and development

The subsidiaries continue to develop solutions and standard components to comply with customer demand for enhanced products and lower production costs.

Corporate social responsibility

The Group and the Company have no written corporate social responsibility policies, including impacts on climate, environment and human rights.

Gender equality in Management and the Board of Directors

It is the intent that both women and men should be represented on the Group's Board of Directors and in the Group's Management, but also that board members have relevant industry know-how that supports the governance and management of the Group.

The Group is active within specialised engineering activities in a male-dominated industry.

The Board consists of six men, and the CEO is a man. The target is to have one female board member appointed within four years.

For future replacements of board members, at least one woman will be considered for election every time. There was no replacement of board members in 2016.

Events after the balance sheet date

No events have occurred after the financial year end, which could significantly affect the Company's financial position.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies

The annual report of Ordyhna Holding A/S for 2016 has been prepared in accordance with the provisions applying to reporting class C large entities under the Danish Financial Statements Act.

As from 1 January 2016, the Group has implemented Act no. 738 of 1 June 2015. This has entailed the following changes to recognition and measurement:

- Going forward, the residual value of intangible assets and property, plant and equipment must be reassessed on an ongoing basis. Pursuant to the transition provisions of the Act, any adjustments to residual values must be made prospectively as an accounting estimate without restatement of comparative figures and without effect on equity.
- Going forward, intangible assets will be amortised over the useful life. Previously, the maximum period of amortisation was 20 years.

The changes have no monetary effect on the income statement or the balance sheet for 2016 or for the comparative figures.

Consolidated financial statements

The consolidated financial statements comprise the Parent Company, Ordyhna Holding A/S, and subsidiaries in which Ordyhna Holding A/S directly or indirectly holds more than 50% of the votes or in some other way exercises control. Entities in which the Group holds between 20% and 50% of the votes and exercises significant influence but not control are considered associates. A group chart is included on page 7.

On consolidation, intra-group income and expenses, shareholdings, intra-group balances and dividends and realised and unrealised gains and losses on intra-group transactions are eliminated.

Equity investments in subsidiaries are set off against the proportionate share of subsidiaries' fair value of net assets and liabilities at the date of acquisition.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Upon recognition of foreign subsidiaries and associates which are independent entities, the income statements are translated into Danish kroner at average exchange rates for the month, and balance sheet items are translated at the exchange rates at the balance sheet date. Foreign exchange differences arising upon translation of foreign subsidiaries' opening equity and results at the exchange rates at the balance sheet date are recognised directly in equity.

Foreign exchange adjustments of balances with independent foreign subsidiaries considered part of the total investment in the subsidiary are recognised directly in equity. Similarly, foreign exchange gains and losses on loans and derivative financial instruments taken out for the purpose of hedging investments in foreign subsidiaries are recognised directly in equity.

Income statement

Revenue

Revenue from the sale of goods for resale, finished goods and contract work in progress which do not meet the criteria for applying the percentage of completion method is recognised in the income statement provided that transfer of risk to the buyer has taken place before year end and that the income can be reliably measured and is expected to be received. Revenue is measured excluding VAT and taxes charged on behalf of third parties.

Contract work in progress is recognised by reference to the percentage of completion. Accordingly, revenue corresponds to the selling price of work performed during the year (percentage of completion method). Revenue is recognised when total income and expenses relating to the construction contract and the percentage of completion at the balance sheet date can be reliably measured, and when it is probable that future economic benefits, including payments, will flow to the Company.

Raw materials, consumables and goods for resale

The item comprises costs incurred in generating the revenue for the year. Such costs include direct and indirect costs for raw materials and consumables and rent and leases.

The item also comprises research and development costs that do not qualify for capitalisation and amortisation of capitalised development costs.

Also, provision for losses on construction contracts is included.

Other operating income

Other operating income comprises items secondary to the activities of the Group, including gains on the disposal of intangible assets and property, plant and equipment.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Other external expenses

Other external costs comprise costs for distribution, sale, advertising, administration, premises, bad debt losses, operating leases, etc.

Staff costs

Staff costs comprise wages and salaries, including holiday allowance, pension contributions and other social security costs, etc., to the Group's employees, excluding reimbursements from public authorities.

Other operating costs

Other operating costs comprise items secondary to the activities of the Group, including losses on the disposal of intangible assets and property, plant and equipment.

Profit/loss in subsidiaries

The proportionate share of the individual subsidiaries' profit/loss after tax is recognised in the Parent Company's income statement after full elimination of intra-group gains/losses.

Financial income and expenses

Financial income and expenses comprise interest income and expense, gains and losses on securities, payables and transactions denominated in foreign currencies, amortisation of financial assets and liabilities as well as surcharges and refunds under the on-account tax scheme, etc.

Commission paid in connection with bank guarantees provided in relation to contract work in progress is recognised under financial expenses.

Interest expense and other borrowing costs to finance intangible assets and property, plant and equipment which relate to the production period are recognised in cost of the assets.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Tax on profit/loss for the year

Ordyhna Holding A/S is jointly taxed with the Danish subsidiaries. The current Danish corporation tax is allocated between the jointly taxed Danish companies in proportion to their taxable income (full absorption with refunds for tax losses). The jointly taxed companies are taxed under the on-account tax scheme.

Tax for the year comprises current tax for the year and changes in deferred tax. The tax expense relating to the profit/loss for the year is recognised in the income statement, and the tax expense relating to amounts directly recognised in equity is recognised directly in equity.

Balance sheet

Intangible assets

Development projects

Development costs comprise costs, wages, salaries and amortisation directly and indirectly attributable to development activities.

Development projects that are clearly defined and identifiable, where the technical feasibility, sufficient resources and a potential future market or development opportunities are evidenced, and where the Company intends to produce, market or use the project, are recognised as intangible assets provided that the cost can be measured reliably and that there is sufficient assurance that future earnings can cover production costs, selling costs and administrative expenses as well development costs. Other development costs are recognised in the income statement as incurred.

Development costs recognised in the balance sheet are measured at cost less accumulated amortisation and impairment losses.

Upon completion of development work, development costs are amortised on a straight-line basis over the estimated useful lives. The amortisation period is usually five to ten years.

Patents, licences and trademarks

Patents and licences are measured at cost less accumulated amortisation and impairment losses. Patents are amortised on a straight-line basis over the remaining life of the patent, and licences are amortised over the contract period, however, not exceeding 10 years.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Property, plant and equipment

Land and buildings, plant and machinery and fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date on which the asset is available for use. The cost of self-constructed assets comprises direct and indirect costs of materials, components, sub-suppliers, energy consumption, staff and depreciation of machinery used.

Where individual components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items, which are depreciated separately.

The basis of depreciation is cost less any projected residual value after the end of the useful life. Depreciation is provided on a straight-line basis over the estimated useful life. The estimated useful lives are as follows:

Buildings	25-40 years
Plant and machinery	4-10 years
Fixtures and fittings, tools and equipment	2-20 years

The useful life and residual value are reassessed annually. Changes are treated as accounting estimates, and the effect on depreciation is recognised prospectively.

Fixed assets under construction are recognised and measured at cost at the balance sheet date. Upon entry into service, the cost is transferred to the relevant group of property, plant and equipment.

Gains and losses on the disposal of property, plant and equipment are stated as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses are recognised in the income statement as other operating income or other operating costs, respectively.

Leases

On initial recognition, leases for fixed assets that transfer substantially all risks and rewards incident to ownership to the Company (finance leases) are recognised in the balance sheet at the lower of fair value and the net present value of future lease payments. When the net present value is calculated, the interest rate implicit in the lease or the incremental borrowing rate is used as the discount factor. Assets held under finance leases are subsequently depreciated as the Company's other fixed assets.

The capitalised lease obligation is recognised in the balance sheet as a liability at amortised cost, allowing the interest element of the lease payment to be recognised in the income statement over the term of the lease.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

All other leases are operating leases. Payments relating to operating leases and other leases are recognised in the income statement over the term of the lease. The Company's total obligation relating to operating leases and other leases is disclosed as contractual obligations and contingencies, etc.

Investments

Equity investments in subsidiaries in the Parent Company are measured according to the equity method.

Equity investments in subsidiaries are measured at the proportionate share of the entities' net asset value calculated in accordance with the Group's accounting policies with deduction or addition of unrealised gains and losses and plus or minus the residual value of positive and negative goodwill calculated in accordance with the acquisition method.

Equity investments in subsidiaries with negative net asset values are measured at DKK 0, and any receivables from these entities are written down to the extent that the receivables are deemed irrecoverable. To the extent that the Parent Company has a legal or constructive obligation to cover a negative balance exceeding the receivable, the residual amount is recognised as provisions.

Other receivables and deposits are recognised at amortised cost.

Impairment of fixed assets

The carrying amount of intangible assets and property, plant and equipment as well as equity investments in group entities and associates is subject to an annual test for indications of impairment other than the decrease in value reflected by depreciation or amortisation.

Impairment tests are conducted of individual assets or groups of assets when there is an indication that they may be impaired. Write-down is made to the recoverable amount if this is lower than the carrying amount.

The recoverable amount is the higher of an asset's net selling price and its value in use. The value in use is determined as the present value of the forecast net cash flows from the use of the asset or the group of assets, including forecast net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Inventories

Inventories are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, inventories are written down to this lower value.

Goods for resale and raw materials and consumables are measured at cost, comprising purchase price plus delivery costs.

Finished goods and work in progress are measured at cost, comprising the cost of raw materials, consumables, direct wages and salaries as well as indirect production costs. Indirect production overheads comprise indirect materials and wages and salaries as well as the maintenance of depreciation of production machinery, buildings and equipment as well as factory administration and management. Borrowing costs are not included in cost.

The net realisable value of inventories is calculated as the sales amount less costs of completion and costs necessary to make the sale and is determined taking into account marketability, obsolescence and development in expected selling price.

Receivables

Receivables are measured at amortised cost.

Write-down is made for bad debt losses where there is an objective indication that a receivable or a portfolio of receivables has been impaired. If there is an objective indication that an individual receivable has been impaired, write-down is made.

Construction contracts

Construction contracts are measured at the selling price of the work performed less progress billings and expected losses. The selling price is measured on the basis of the stage of completion at the balance sheet date and the projected income from the individual construction contract. The stage of completion is stated as the share of costs incurred in proportion to estimated total costs relating to the individual construction contract.

When the selling price of a construction contract cannot be estimated reliably, the selling price is measured at the lower of costs incurred and net realisable value.

The individual construction contract is recognised in the balance sheet as receivables or payables, respectively. Net assets comprise the total of construction contracts where the selling price of the work performed exceeds progress billings. Net liabilities comprise the total of construction contracts where progress billings exceed the selling price.

Costs arising from sales work and contracting are recognised in the income statement as incurred.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Prepayments

Prepayments comprise prepayment of costs incurred relating to subsequent financial years.

Cash and cash equivalents

Cash and cash equivalents comprise cash and short-term marketable securities with a term of three months or less which are easily convertible into cash and which are subject to only an insignificant risk of changes in value.

Equity

Dividends

The expected dividend payment for the year is disclosed as a separate item under equity.

Corporation tax and deferred tax

Current tax payable and receivable is recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account.

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax value of assets and liabilities measured on the planned use of the asset or settlement of the liability, respectively.

Deferred tax assets, including the tax value of tax loss carryforwards, are recognised at the expected value of their utilisation within the foreseeable future; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity.

Deferred tax is measured in accordance with the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Provisions

Pension obligations

Pension obligations are the net liabilities of defined benefit obligations and plan assets. The defined benefit obligations are measured at the present value of expected future payments to be made in respect of services provided by employees up to the balance sheet date. Plan assets are measured at fair value. Actuarial gains and losses are recognised in other comprehensive income.

Warranties and projects

Provisions comprise anticipated costs of related to warranties, losses on work in progress, restructurings, etc. Provisions are recognised when, as a result of past events, the Company has a legal or a constructive obligation, and it is probable that there may be outflow of resources embodying economic benefits to settle the obligation. Provisions are measured at net realisable value or fair value if the obligation is expected to be settled in the distant future.

Warranties comprise obligations to make good any defects within the warranty period. Provisions are measured at net realisable value and recognised based on past experience.

If it is likely that total costs will exceed total income from contract work in progress, a provision is made for the total loss anticipated on the contract. The provided amount is recognised in production costs

Liabilities other than provisions

Financial liabilities are recognised at the date of borrowing at cost, corresponding to the proceeds received less transaction costs paid. In subsequent periods, the financial liabilities are measured at amortised cost, corresponding to the capitalised value using the effective interest rate. Accordingly, the difference between cost and the nominal value is recognised in the income statement over the term of the loan together with interest expenses.

Finance lease obligation comprise the capitalised residual lease obligation of finance leases.

Other liabilities are measured at net realisable value.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Cash flow statement

The cash flow statement shows the Group's cash flows from operating, investing and financing activities for the year, the year's changes in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

The cash flow effect of acquisitions and divestment of entities is shown separately in cash flows from investing activities. Cash flows relating to acquired entities are recognised in the cash flow statement from the date of acquisition, and cash flows relating to divested entities are recognised up to the date of divestment.

Cash flows from operating activities

Cash flows from operating activities are calculated as the profit/loss for the year adjusted for non-cash operating items, changes in working capital and corporation tax paid.

Cash flows from investing activities

Cash flows from investing activities comprise payments in connection with acquisitions and disposals of entities and activities, intangible assets, property, plant and equipment and investments.

Cash flows from financing activities

Cash flows from financing activities comprise changes in size or composition of the Company's share capital and costs in this respect as well as raising of loans, instalments on interest-bearing debt and distribution of dividend to owners.

Financial ratios

Financial ratios are calculated in accordance with the Danish Society of Financial Analysts' guidelines on the calculation of financial ratios "Recommendations and Financial Ratios 2015". The financial ratios have been calculated as follows:

Gross margin	$\frac{\text{Gross profit} \times 100}{\text{Revenue}}$
Operating margin	$\frac{\text{Operating profit} \times 100}{\text{Revenue}}$
Solvency ratio	$\frac{\text{Equity ex. non-controlling interests year end} \times 100}{\text{Total equity and liabilities at year end}}$

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

2 Revenue

Pursuant to section 96(1) of the Danish Financial Statements Act, segment split of revenue has not been specified. The market is dominated by a few suppliers, and segment disclosures are considered to be damaging for the Group.

Projects	1,744	1,708	0	0
Pension obligations	18,592	18,447	0	0
Other provisions at 31 December	22,381	22,822	0	0

Pension obligations can be specified as follows:

	Group	
	2016	2015
DKK'000		
Defined benefit obligation	69,664	64,884
Fair value of plan assets	-51,072	-46,437
Net pension obligation	18,592	18,447

Of provisions, DKK 18,592 thousand is expected to fall due after more than five years.

17 Non-current liabilities other than provisions

Non-current liabilities other than provisions can be specified as follows:

	Group		Parent Company	
	2016	2015	2016	2015
DKK'000				
Finance leases				
Short-term	25	24	0	0
Long-term	82	107	0	0
	107	131	0	0

Of total non-current liabilities other than provisions, DKK 0 falls due after more than five years.

Collateral is disclosed in note 20.

18 Contractual obligations, contingencies, etc.

Contingent assets

The Group has deferred tax assets of DKK 6 million, and the Parent Company has deferred tax assets of DKK 1.2 million which have not been recognised in the financial statements due to uncertainty regarding the future utilisation.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

18 Contractual obligations, contingencies, etc. (continued)

Contingent liabilities

Lease obligations

Lease obligations (operating leases) falling due within five years total DKK 3,135 thousand.

Obligations relating to the lease of office premises amount to DKK 19,665 thousand.

Guarantees

The Group has provided delivery and performance guarantees relating to projects. These guarantees may entail a liability that will not be recognised until the facilities have been delivered or put into operation. It is Management's assessment that the Group has met the provided guarantees, and consequently, no costs have been recognised in this respect. Bank guarantees of DKK 16,512 thousand have been provided in this respect.

Parent Company

The Parent Company guarantees lease obligations for a subsidiary in the amount of DKK 2,116 thousand.

The Parent Company is jointly taxed with the Danish subsidiaries. The companies included in the joint taxation have joint and several unlimited liability for Danish corporation taxes and withholding taxes on dividends, interest and royalties. At 31 December 2016, the net taxes payable to the Danish tax authorities by the companies included in the joint taxation amounted to DKK 0 thousand which is covered in full by on-account payments. Any subsequent corrections of the taxable income subject to joint taxation or withholding taxes on dividends, etc., may entail that the companies' liability will increase. The Group as a whole is not liable to others.

19 Related party disclosures

Parties exercising control

No single shareholder exercises control.

Parties exercising control

The Company has chosen only to disclose transactions that are not carried out on an arm's length basis in accordance with section 98c(7) of the Danish Financial Statements Act.

Consolidated financial statements and parent company financial statements 1 January – 31 December

Notes

20 Collateral

Group

Cash of DKK 11 million has been provided as collateral for outstanding bank guarantees regarding ongoing customer projects. The amount will be fully released as the guarantees expire.

Parent Company

No collateral has been provided by the Parent Company.
