## Notes:

- To ensure the greatest possible applicability of this document, IAS/IFRS English terminology has been used.
- Please note that decimal points have not been used in the usual English way. This means that for instance DKK 146.940 means the amount of DKK 146,940, and that 23,5 % means 23.5 %.

## **Management's statement**

---

Today, the Board of Directors and the Managing Director have approved the annual report of Operator Systems A/S for the financial year 1 July 2023 - 30 June 2024.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

We consider the chosen accounting policy to be appropriate, and in our opinion, the financial statements give a true and fair view of the financial position of the Company at 30 June 2024 and of the results of the Company's operations for the financial year 1 July 2023 – 30 June 2024.

Further, in our opinion, the Management's review gives a true and fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the Annual General Meeting.

## The independent practitioner's report

---

### To the Shareholders of Operator Systems A/S

#### Conclusion

We have performed an extended review of the financial statements of Operator Systems A/S for the financial year 1 July 2023 - 30 June 2024, which comprise a summary of significant accounting policies, income statement, balance sheet, statement of changes in equity and notes. The financial statements are prepared under the Danish Financial Statements Act.

Based on the work performed, in our opinion, the financial statements give a true and fair view of the Company's financial position at 30 June 2024 and of the results of the Company's operations for the financial year 1 July 2023 - 30 June 2024 in accordance with the Danish Financial Statements Act.

#### Basis for conclusion

We conducted our extended review in accordance with the Danish Business Authority's Assurance Standard for Small Enterprises and FSR – Danish Auditors' standard on extended review of financial statements prepared in accordance with the Danish Financial Statements Act. Our responsibilities under those standards and requirements are further described in the "Practitioner's responsibilities for the extended review of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

#### Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### Practitioner's responsibilities for the extended review of the Financial Statements

Our responsibility is to express a conclusion on the financial statements. This requires that we plan and perform procedures in order to obtain limited assurance for our conclusion on the financial statements and in addition perform specifically required supplementary procedures to obtain further assurance for our conclusion.

## **The independent practitioner's report**

---

An extended review comprises procedures that primarily consist of making inquiries of Management and others within the Company, as appropriate, analytical procedures and the specifically required supplementary procedures as well as evaluation of the evidence obtained.

The procedures performed in an extended review are less than those performed in an audit, and accordingly, we do not express an audit opinion on the financial statements.

### **Statement on the Management's Review**

Management is responsible for the Management's Review.

Our conclusion on the financial statements does not cover the Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our extended review of the financial statements, our responsibility is to read the Management's Review and, in doing so, consider whether the Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the extended review, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's Review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in the Management's Review.

## **Management's review**

---

### **Description of key activities of the company**

The company's main activity consists of the development, sales, implementation, and support of the own developed standard MES and OEE solution Operator.

### **Development in activities and financial matters**

As announced in the latest years' financial reports the company is implementing a new product and marketing strategy with strong focus on MES, OEE and AI. This has caused heavy investments in new technology, redesign / update of the standard software, as well as investments in sales and marketing. This is driven by the increased number of new technologies and possibilities arising in the market, like AI, Industry 4.0, IIoT and Cloud technology.

We will continue to use OEE as a door opener in prospecting and continue development focus on having a market leading OEE solution.

The new product strategy has resulted in several new product developments and releases. The core Operator product has been released in a complete new and updated version, including several updated functionalities like SPC, QA, Traceability as well as a new Maintenance module. It is the boards intention to continue this development, and the current roadmap includes some very interesting new modules like AI supported OEE and energy consumption monitoring. Furthermore, we have and will release new Apps for iOS and Android.

Two years ago, the board decided to increase the focus strategy further to also include markets and customer segments. Poland and Denmark are defined as strategic focus markets, while Food and Furniture are defined as strategic focus segments. This is simply to utilize our strong product offering in these markets and segments. The segment focus has resulted in a strategic long-term agreement with Lantmännen Unibake to implement Operator as OEE solution on 25+ production sites around the world during 2023 - 2026. The focus strategy will still allow us to utilize our full MES functionality and to do projects in other markets and segments where we already have a strong presence. During 2023/24 a solid pipeline is built – especially for the Polish market – that we have high expectations to start convert on during 2024/25.

During 2022/23 the cost structure was changed a lot. This change was expected to take full effect in 2023/24 with an expected positive result of 1+ MDKK..

The gross profit for the year is t.DKK 6.957 against t.DKK 5.387 last year. The result from ordinary activities after tax are t.DKK 1.735 against t.DKK 158 last year. The Management considers the financial result to be very satisfying.

## Accounting policies

---

The annual report for Operator Systems A/S has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises. Furthermore, the company has decided to comply with certain rules applying to reporting class C enterprises.

The accounting policies are unchanged from last year, and the annual report is presented in DKK.

### Foreign currency translation

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognised in the profit and loss account as an item under net financials. If currency positions are considered to hedge future cash flows, the value adjustments are recognised directly in equity in a fair value reserve.

Receivables, payables, and other foreign currency monetary items are translated using the closing rate. The difference between the closing rate and the rate at the time of the occurrence or initial recognition in the latest financial statements of the receivable or payable is recognised in the income statement under financial income and expenses.

### Income statement

#### Gross profit

The gross profit comprises the net turnover, direct costs and external costs.

The net turnover is recognised in the profit and loss account if delivery and risk transfer to the buyer have taken place before the end of the year, and if the income can be determined reliably and is expected to be received. The net turnover is recognised exclusive VAT and taxes with the deduction of any discounts granted in connection with the sale.

Licenses are recognised at the time the license is issued. Licenses issued shall, in accordance with the agreements in contracts have a right to use license for an agreed period without further obligation.

Maintenance revenue is recognised linearly over the contracted maintenance period.

Direct costs include costs for foreign assistance.

Other external costs comprise costs for distribution, sales, advertisement, administration, premises, loss on debtors, and operational leasing costs.

Direct costs include costs for foreign assistance.

#### Own work capitalised

Own work capitalised includes staff cost and other internal costs incurred during the financial year and recognised in the cost of proprietary intangible and tangible fixed assets.

## **Accounting policies**

---

Other external costs comprise costs for distribution, sales, advertisement, administration, premises, loss on debtors, and operational leasing costs.

### **Staff costs**

Staff costs include salaries and wages, including holiday allowances, pensions, and other social security costs, etc., for staff members.

### **Depreciation, amortisation, and write-down for impairment**

Depreciation, amortisation, and write-down for impairment comprise depreciation, amortisation, and write-down for the year and profit and loss on the disposal of intangible and tangible assets.

### **Financial income and expenses**

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, financial expenses from financial leasing, realised and unrealised capital gains and losses relating to securities, debt and transactions in foreign currency, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

### **Results from investment in group enterprise**

Dividend from investment in group enterprise is recognised in the financial year in which the dividend is declared.

### **Tax of the results for the year**

The tax for the year comprises the current tax for the year and the changes in deferred tax, and it is recognised in the profit and loss account with the share referring to the results for the year and directly in the equity with the share referring to entries directly on the equity.

## **The balance sheet**

### **Intangible assets**

#### **Development projects, patents, and licences**

Development costs comprise salaries, wages, and amortisation directly attributable to development activities.

Clearly defined and identifiable development projects are recognised as intangible assets provided that they are proven to be technically practicable, that sufficient resources and a potential market or development opportunity exist, and insofar as the intention is to produce, market or utilise the project. It is, however, a condition that the cost can be reliably calculated and that a sufficiently high degree of certainty indicates that future earnings will cover the costs of production, sales, and administration. Other development costs are recognised in the income statement concurrently with their realisation.

## **Accounting policies**

---

Development costs recognised in the statement of financial position are measured at cost less accrued amortisations and write-downs for impairment.

After completion of the development work, capitalised development costs are amortised on a straight-line basis over the estimated useful economic life. The amortisation period is usually 5 years.

### **Property, plant, and equipment**

Property, plant, and equipment are measured at cost less accrued depreciation and write-down for impairment. Land is not subject to depreciation.

The depreciable amount is cost less any expected residual value after the end of the useful life of the asset. The amortisation period and the residual value are determined at the acquisition date and reassessed annually. If the residual value exceeds the carrying amount, the depreciation is discontinued.

If the amortisation period or the residual value is changed, the effect on amortisation will, in future, be recognised as a change in the accounting estimates.

The cost comprises acquisition cost and costs directly associated with the acquisition until the time when the asset is ready for use.

The cost of a total asset is divided into separate components. These components are depreciated separately, the useful lives of each individual components differing, and the individual component representing a material part of the total cost.

Depreciation is done on a straight-line basis according to an assessment of the expected useful life:

	Useful life
Other fixtures and fittings, tools and equipment	4 years

Minor assets with an expected useful life of less than 1 year are recognised as costs in the income statement in the year of acquisition.

Profit or loss derived from the disposal of property, land, and equipment is measured as the difference between the sales price less selling costs and the carrying amount at the date of disposal. Profit or loss is recognised in the income statement under depreciation.

### **Impairment loss relating to non-current assets**

The carrying amount of both intangible and tangible fixed assets as well as equity investment in group enterprise are subject to annual impairment tests in order to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

## **Accounting policies**

---

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. write-down for impairment is done to the recoverable amount if this value is lower than the carrying amount.

The recoverable amount is the higher value of value in use and selling price less expected selling cost. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the asset group and expected net cash flows from the sale of the asset or the asset group after the end of their useful life.

Previously recognised impairment losses are reversed when conditions for impairment no longer exist. Impairment relating to goodwill is not reversed.

### **Financial fixed assets**

#### **Investments in group enterprise**

Investments in group enterprise is recognised and measured at cost. If the recoverable amount is lower than the cost price, it shall be written down for impairment to this lower value.

#### **Deposits**

Deposits are measured at amortised cost and represent rent deposits, etc.

#### **Receivables**

Receivables are measured at amortised cost, which usually corresponds to nominal value.

Accounts receivable for which there is no objective indication of impairment at the individual level are evaluated at portfolio level for objective indication of impairment. The portfolios are primarily based on the debtors' domicile and credit rating in accordance with the company's and the group's credit risk management policy. Determination of the objective indicators applied for portfolios are based on experience with historical losses.

Impairment losses are calculated as the difference between the carrying amount of accounts receivable and the present value of the expected cash flows, including the realisable value of any securities received. The effective interest rate for the individual account receivable or portfolio is used as the discount rate.

#### **Prepayments**

Prepayments recognised under assets comprise incurred costs concerning the following financial year.

#### **Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and on hand.

## **Accounting policies**

---

### **Equity**

#### **Dividend**

Dividend expected to be distributed for the year is recognised as a separate item under equity.

### **Income tax and deferred tax**

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation prevailing in the respective countries on the reporting date when the deferred tax is expected to be released as current tax. Changes in deferred tax due to changed tax rates are recognised in the income statement, except for items included directly in the equity.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realisable value.

### **Liabilities other than provisions**

Other liabilities concerning payables to suppliers, group enterprises, and other payables are measured at amortised cost which usually corresponds to the nominal value.

### **Accrued expenses and deferred income**

Received payments concerning income during the following years are recognised under accrued expenses and deferred income.
