Notes:

- To ensure the greatest possible applicability of this document, IAS/IFRS English terminology has been used.
- Please note that decimal points have not been used in the usual English way. This means that for instance DKK 146,940 means the amount of DKK 146,940, and that 23,5 % means 23,5 %.

Management's statement

Today, the Board of Directors and the Managing Director have approved the annual report of Adept Water Technologies A/S for the financial year 2022.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

We consider the chosen accounting policy to be appropriate, and in our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2022 and of the results of the Company's operations for the financial year 1 January – 31 December 2022.

Further, in our opinion, the Management's review gives a true and fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the Annual General Meeting.

Independent auditor's report

To the Shareholders of Adept Water Technologies A/S

Opinion

We have audited the financial statements of Adept Water Technologies A/S for the financial year 1 January - 31 December 2022, which comprise income statement, balance sheet, statement of changes in equity, notes and a summary of significant accounting policies, for the Company. The financial statements are prepared under the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2022, and of the results of the Company's operations for the financial year 1 January - 31 December 2022 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Independent auditor's report

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

Independent auditor's report

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of Management's Review.

Management's review

The principal activities of the company

Adept Water Technologies A/S (AWT) develops, manufactures, and markets disinfection systems for water using in-line electrolysis without the use of chemicals, as well as systems for in situ production of active chlorine using salt.

Markets

During the year, the company has mainly focused on further refining and optimizing its dental technology as well as technology for use in hot water installations.

In the dental industry, AWT markets disinfection systems through market-leading providers of dental equipment (stand-alone systems) and dental chairs (build-in systems). This is done through international partnerships.

The dental market in EU has continued to be affected by the Covid-19 situation in 2022 but has gradually recovered towards the end of the year. In the meantime, efforts were made to strengthen and expand the distribution network. Despite the challenges in 2022 sales have improved significantly compared to 2021.

It is still a key objective to develop the dental technology solution in collaboration with leading high-end chair manufacturers and the company is committed to engage in strategic partnerships with the right dental chair manufacturers.

In the hot water installations sector, the products are currently sold through a distributor on the Danish market. The development of sales has been positive in 2022 and with new product variants ready for market introduction in combination with planned expansion into new markets, sales are expected to undergo strong growth in 2023.

R&D

The company begun the development of next generation of dental solution for stand-alone systems in 2022. This upgraded solution will enhance the functionality and the competitiveness of the dental solution. The company is targeting to complete the development in 2 Half of 2023.

In addition to this, a new product variant for the hot water installations market was completed at the end of 2022. The new system application is complementary to existing products and is particularly suitable for installations at nursing homes, schools etc. The system variant has been tested in 2022 with great success, and commercial launch of the new variant will take place in Q2 2023. It is expected that this introduction will boost sales in 2023 in the hot water installations market.

The new system variant has also proven particularly suitable for production of surface disinfectants. The solution has been widely tested in 2021 and 2022 with very promising results and expectations are that commercial sales can also begin in 2023.

Management's review

Development in activities and financial matters

The gross loss for the year totals DKK -2,7m against DKK -3,3m last year. The result from ordinary activities after tax totals DKK -11,0m against DKK -11,0m last year. Management considers the net profit or loss for the year to be in accordance with its expectations.

The comparative figures for 2021 have been corrected as a result of a significant error in the recognition of the value of the tax asset in the annual report for 2021. The previously recognized value has been overestimated in relation to the previously estimated time frame for the utilization of the tax asset.

The company equity amounts to DKK -7,8m as at 31. December 2022. The equity has subsequently been recovered by a capital increase in March 2023. However, more than 50% of the share capital remains to be lost. The management expects to re-establish the capital ratios in the event of future earnings.

Events occurring after the end of the financial year

The company has carried out a capital increase through the company's main shareholders amounting to DKK 10.2 million. The capital increase took place in March 2023 and is expected to cover the funding need for 2023.

Notes

All amounts in DKK.

1. The Company's financial situation

On 7 March 2023, a cash capital increase was made, which added DKK 10.2 million in cash. On this basis and the management's budgets for 2023, the management believes that the company has sufficient liquidity to finance its operations through 2023.

2. Staff costs

Salaries and wages	7.743.576	7.317.061
Pension costs	585.617	587.794
Other costs for social security	116.042	128.870
	8.445.235	8.033.725
Average number of employees	13	12

3. Other financial costs

Other financial costs	492.979	398.821
	492.979	398.821

4. Tax on net profit or loss for the year

Other taxes	-1.239.440	-1.396.120
	-1.239.440	-1.396.120

5. Contributed capital

The share capital consists of 94.798.831 shares, each with a nominal value of DKK 1. The shares hold particular rights. The shares are A-shares DKK 17.722.458, B-shares DKK 4.383.514 and C-shares DKK 72.692.859.

6. Charges and security

The company has tenancy commitments for a total of TDKK 392.

The company's shareholders have submitted subordination letters of TDKK 8.494 towards their receivables.

Notes

All amounts in DKK.

7. Contingencies

Contingent liabilities

Lease liabilities

In addition to financial leasing contracts, the company has entered into operational leasing contracts which will expire on 1 April 2024 latest. The leasing contracts have a total outstanding residual lease payment of TDKK 48.

Accounting policies

The annual report for Adept Water Technologies A/S has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises. Furthermore, the company has decided to comply with certain rules applying to reporting class C enterprises.

The accounting policies are unchanged from last year, and the annual report is presented in DKK.

Correction of significant error for 2021

A correction has been made to the recognized value of the tax asset for 2021, as the original value of the tax asset was overestimated in relation to the previously estimated time frame for the utilization of the tax asset.

The error has an impact on the comparative figures for 2021 with:

Tax asset: DKK -5.188.217.

Equity: DKK -5.188.217.

The error has an impact on the balance for 2022 with:

Initial equity: DKK -5.188.217.

Recognition and measurement in general

Income is recognised in the income statement concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs are recognised in the income statement, including depreciations amortisations, writedowns for impairment, provisions, and reversals due to changes in estimated amounts previously recognised in the income statement.

Assets are recognised in the statement of financial position when it seems probable that future economic benefits will flow to the company and the value of the asset can be reliably measured.

Liabilities are recognised in the statement of financial position when it is seems probable that future economic benefits will flow out of the company and the value of the liability can be reliably measured.

Assets and liabilities are measured at cost at the initial recognition. Hereafter, assets and liabilities are measured as described below for each individual accounting item.

Upon recognition and measurement, allowances are made for such predictable losses and risks which may arise prior to the presentation of the annual report and concern matters that exist on the reporting date.

Income statement

Gross loss

Gross loss comprises the revenue, changes in inventories of finished goods, and work in progress, own work capitalised, other operating income, and external costs.

Accounting policies

Revenue is recognised in the income statement if delivery and passing of risk to the buyer have taken place before the end of the year and if the income can be determined reliably and inflow is anticipated. Revenue is measured at the fair value of the consideration promised exclusive of VAT and taxes and less any discounts relating directly to sales.

Cost of sales comprises costs concerning purchase of raw materials and consumables less discounts and changes in inventories.

Other external costs comprise costs incurred for distribution, sales, advertising, administration, premises, loss on receivables, and operational leasing costs.

Staff costs

Staff costs include salaries and wages, including holiday allowances, pensions, and other social security costs, etc., for staff members.

Depreciation, amortisation, and writedown for impairment

Depreciation, amortisation, and writedown for impairment comprise depreciation on, amortisation of, and writedown for impairment of intangible and tangible assets, respectively.

Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, financial expenses from financial leasing, realised and unrealised capital gains and losses relating to securities, debt and transactions in foreign currency, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognised in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

Statement of financial position

Intangible assets

Development projects, patents, and licences

Development costs and internally generated rights are recognised in the income statement as costs in the acquisition year.

Patents and licenses are measured at cost less accrued amortisation. Patents are amortised on a straightline basis over the remaining patent period and licenses are amortised over the contract period, however, for a maximum of 10 years.

Accounting policies

Leases

Leases are regarded as operating leases. Payments in connection with operating leases and other lease agreements are recognised in the income statement for the term of the contract. The company's total liabilities concerning operating leases and lease agreements are recognised under contingencies, etc.

Impairment loss relating to non-current assets

The carrying amount of both intangible and tangible fixed assets are subject to annual impairment tests in order to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. Writedown for impairment is done to the recoverable amount if this value is lower than the carrying amount.

The recoverable amount is the higher value of value in use and selling price less expected selling cost. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the asset group and expected net cash flows from the sale of the asset or the asset group after the end of their useful life.

Previously recognised impairment losses are reversed when conditions for impairment no longer exist. Impairment relating to goodwill is not reversed.

Investments

Other financial instruments and equity investments

Financial instruments and equity investments recognised under non-current assets comprise listed bonds and shares measured at fair value on the reporting date. Listed financial instruments are measured at market price.

Other unlisted financial instruments are measured at cost. Writedown for impairment is done to the recoverable amount if this value is lower than the carrying amount.

Inventories

Inventories are measured at cost according to the FIFO method. In cases when the net realisable value of the inventories is lower than the cost, the latter is written down for impairment to this lower value.

Costs of goods for resale, raw materials, and consumables comprise acquisition costs plus delivery costs.

Costs of manufactured goods and work in progress comprise the cost of raw materials, consumables, direct wages, and indirect production costs. Indirect production costs comprise indirect materials and wages, maintenance and depreciation of machinery, factory buildings, and equipment used in the production process, and costs for factory administration and factory management. Borrowing expenses are not recognised in cost.

Accounting policies

The net realisable value for inventories is recognised as the estimated selling price less costs of completion and selling costs. The net realisable value is determined with due consideration of negotiability, obsolescence, and the development of expected market prices.

Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value.

Prepayments and accrued income

Prepayments and accrued income recognised under assets comprise incurred costs concerning the following financial year.

Cash on hand and demand deposits

Cash on hand and demand deposits comprise cash at bank and on hand.

Equity

Share premium

Share premium comprises premium payments made in connection with the issue of shares. Costs incurred for carrying through an issue are deducted from the premium.

The premium reserve can be used for dividend, for issuing bonus shares, and for covering losses.

Liabilities other than provisions

Other liabilities are measured to the nominal value.

Accruals and deferred income

Payments received concerning future income are recognised under accruals and deferred income.
