MANAGEMENT'S REVIEW

Business review

The company operates as a provider of office facilities.

The company operates as a provider of office facilities through Regus Management ApS, which company operates as a manager of the Regus activities in Denmark.

2020 was a very challenging period due to the disruption caused by the COVID-19 pandemic. Following a very encouraging start to the year 2020, our strongest ever in terms of financial performance as a Group, the situation rapidly changed as the scale of the crisis facing our customers quickly became clear. We had to respond with speed and determination, taking some difficult decisions to cut costs, acting fast to help clients and working hard to support our own team members. While COVID-19 will continue to have a major impact to our business for some time to come, this allowed IWG's global market to take a massive leap forward as companies across the world discovered first-hand that their workforces could be highly engaged and productive while utilizing the hybrid way of working: at home, in a local office, and occasionally at corporate HQ. As a result, we remain optimistic as to the medium to long-term future of IWG.

Financial review

The company's income statement for the year ended 31 December 2020 shows a loss of DKK 4.676.469, and the balance sheet at 31 December 2020 shows negative equity of DKK 56.088.081.

Pursuant to the capital loss provision of section 119 of the Danish Companies Act, the company has lost more than 50% of its share capital at year-end.

The annual report has been presented under the assumption of continued operations of the company. Continued operations require further investments.

Going concern:

It is the current intention of IWG Group to provide the Company with sufficient financial funds in order to enable the Company to fulfil at any time its payment obligations but no written commitments has been given.

Reference is made to note 1 for mere details.

Significant events occurring after the end of the financial year

In March 2020, following the declaration by the World Health Organization of the COVID-19 pandemic (COVID-19) and subsequent global government restrictions, the Group has been unable to operate at full capacity. Given the political and economic uncertainty resulting from COVID-19, the Group continues to see significant volatility and business disruption, reducing expected performance in 2021. The impact that COVID-19 has had on underlying trading performance is not recognised within adjusting items.

There have been no significant subsequent events that require adjustments or disclosure in this Annual Report.

Financial risks

The Company has budgetary and financial reporting procedures, supported by appropriate key performance indicators, to manage credit, liquidity and other financial risk.

Key performance indicators used by management include assessment of turnover, occupancy rates and profitability per unit.

ACCOUNTING POLICIES

The annual report of Regus Kobenhavn ApS for 2020 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to reporting class B entities.

The accounting policies applied are consistent with those of last year.

The annual report for 2020 is presented in DKK

Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any installments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report is presented and which confirm or invalidate matters existing at the balance sheet date.

Deferred tax is measured at net realisable value.

Deferred tax is measured according to the tax rules and at the tax rates applicable in the respective countries at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax adjustments resulting from changes in tax rates are recognised in the income statement, with the exception of items taken directly to equity.

Liabilities

Other liabilities, which include trade receivables, payables to group entities and other payables, are measured at amortised cost, which is usually equivalent to nominal value.

Deferred income

Deferred income recognised under 'Current liabilities' comprises payments received concerning income in subsequent financial years.
