Statement by the Board of Directors and the Executive Board

The Board of Directors and the Executive Board have today discussed and approved the annual report of OMD Denmark A/S for the financial year 1 January – 31 December 2020.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's assets, liabilities and financial position at 31 December 2020 and of the results of the Company's operations for the financial year 1 January – 31 December 2020.

Further, in our opinion, the Management's review gives a fair review of the development in the Company's activities and financial matters, of the results for the year and of the Company's financial position.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of OMD Denmark A/S

Opinion

We have audited the financial statements of OMD Denmark A/S for the financial year 1 January – 31 December 2020 comprising income statement, balance sheet, statement of changes in equity and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's assets, liabilities and financial position at 31 December 2020 and of the results of the Company's operations for the financial year 1 January – 31 December 2020 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control, that Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements in Denmark will always detect a material misstatement when it exists. Misstatements may arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of financial statement users made on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also

- identify and assess the risks of material misstatement of the company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

Independent auditor's report

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Management's review

Operating review

Principal activities

As a Marketing Performance Agency, the Company provides a wide range of specialist services, including consultancy services in the areas of media and marketing strategy, data and technology, e-commerce, market analysis and media buying.

The Company craft combinations of technology, data services, strategy, and consulting practices to drive brand and marketing performance. The Company provide business intelligence and deploy technologies to help the Company's clients take advantage of the collision of commerce and media and deliver the commercial momentum that the clients of the Company demands.

The Company has a continuous and integrated cooperation with some of Denmark's largest advertisers and provides services in Denmark as well as in the other Nordic countries.

Business development and finances

The Company had a very successful 2020 with a very high number of significant client wins. This together with successful sales of new consultancy services has compensated for the majority of the financial downturn following the Covid-19 Pandemic. So despite the significant negative impact of the health crises, the financial development at OMD Denmark A/S has been stable and very satisfactory.

The Covid-19 crises has caused lower activity among existing clients, causing a small decline in revenue, but the company's overall performance has been outstanding, and there has been a positive development in market share and profitability.

According to COMvergence OMD won more new clients than any other agency in 2020, and in addition to the arrival of new clients, the Company received an exceptionally high number of awards and market recognitions and became 'Most Award-Winning Media Agency '19/'20 as measured by BureauBiz. The Agency was also awarded 'Media Agency of the year' in the annual image survey conducted by MyResearch.

Outlook

We expect a positive development in the Danish economy and a corresponding trend in media spending.

Despite the uncertainty in the general economy we expect the Company to strengthen its market position and market share, through a continued prioritisation of product and service development and a high number of new client relationships.

Management's review

Intellectual capital

The Company's business model is primarily based on sales of consulting services within media and marketing.

In order to continuously offer such services, it is imperative for the Company to be able to recruit and retain highly skilled employees in the fields of marketing, data, technology, and media.

The Company's objective is to base its services on the latest know-how and maintain the ability to quickly adjust to market changes.

Special risk (business and financial risk)

The Company's business and financial risk is closely related to the development of the national economy, which is currently considered unstable.

The primary financial risk for the Company is the client's ability to pay; therefore, the Company has credit insurance coverage on all clients.

Subsequent events

No events materially affecting the assessment of the annual report have occurred after the balance sheet date.

Uncertainty relating to recognition and measurement

Recognition and measurement in the annual report have not been subject to any uncertainty.

Unusual events

The financial position at 31 December 2020 of the Company and the results of the Company operations for the financial year 2020 has not been affected by any unusual events.

External environment

OMD Denmark A/S is environmentally conscious and works to reduce the environmental impacts of corporate operations.

There have been no changes in the share capital during the last five years.

Financial statements 1 January – 31 December

Notes

1 Accounting policies

The annual report of OMD Denmark A/S for 2020 has been prepared in accordance with the provisions applying to reporting class C entities under the Danish Financial Statements Act.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

The annual report of OMD Denmark A/S is included in the consolidated financial statements of Omnicom Media Group A/S.

Pursuant to Section 86(4) of the Danish Financial Statements Act, no cash flow statement has been prepared.

Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the Company and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the Company and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report is presented and which confirm or invalidate matters existing at the balance sheet date.

Income statement

Revenue

Revenue consists of media revenue and revenue regarding consultancy services.

Media invoicing to customers is recognised in the income statement provided that delivery and transfer of risk to the buyer has taken place before year end and that the income can be reliably measured and is expected to be received. Media revenue is measured ex. VAT, tax charged and rebates in connection with the sale. We act as an agent and revenue is recognised as invoicing to customers less media expenses.

Contract work in progress is recognised as revenue as the production is carried out. Accordingly, revenue corresponds to the selling price of work performed during the year (the percentage of completion method). Revenue is recognised when total income and expenses and the stage of completion of the contract at the balance sheet date can be reliably calculated and when it is probable that the economic benefits, including payment, will flow to the Group.

External costs

External costs comprise expenses for distribution, sales, advertising, administration, premises, loss on bad debt, operating lease, etc.

Staff costs

Staff costs comprise salaries and wages, including holiday allowance, pension and other social security costs, etc., to the Company's employees excluding refunds from public authorities.

Depreciations

Depreciations comprise the year's amortisation, depreciation and impairment of intangible assets and property, plant and equipment.

Financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts regarding the financial year. Financial income and expenses comprise interest income and expense, realised and unrealised gains and losses on securities, payables and transactions denominated in foreign currencies as well as surcharges and refunds under the on-account tax scheme, etc.

Tax on profit for the year

Tax for the year comprises current tax and changes in deferred tax for the year. The tax expense relating to the profit for the year is recognised in the income statement, and the tax expense relating to amounts directly recognised in equity is recognised directly in equity.

The Company is jointly taxed with the other Omnicom companies in Denmark. The tax effect of the joint taxation is allocated in proportion to the taxable income (full absorption).

Balance sheet

Property, plant and equipment

Fixtures and fittings and tools and equipment are measured at cost less accumulated depreciation and impairment.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date when the asset is available for use.

Depreciation is provided on a straightline basis over the expected useful lives of the assets. The expected useful life is as follows:

Fixtures and fittings, tools and equipment	3-5 years
Leasehold improvements	During the lease period

Property, plant and equipment are written down to the recoverable amount if this is lower than the carrying amount. Impairment tests are conducted of individual assets or groups of assets when there is an indication that they may be impaired.

Gains and losses on the disposal of property, plant and equipment are determined as the difference between the sales price less disposal costs and the carrying amount at the date of disposal. The gains or losses are recognised in the income statement as other operating income or other operating costs, respectively.

Financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Receivables

Receivables are measured at amortised cost. Write-down is made for bad debt losses.

Contract work in progress

Contract work in progress is measured at the selling price of the work performed calculated on the basis of the stage of completion. The stage of completion is measured by the proportion that the contract expenses incurred to date bear to the estimated total contract expenses. Where it is probable that total contract expenses will exceed total revenues from a contract, the expected loss is recognised as an expense in the income statement.

When the selling price of a construction contract cannot be measured reliably, the selling price is measured at the lower of costs incurred and net realisable value.

Contract work in progress is recognised in the balance sheet under receivables or payables, depending on the net amount of the selling price less progress billings and prepayments.

Prepayments

Prepayments comprise costs incurred concerning subsequent financial years.

Equity

Dividend

Proposed dividends are recognised as a liability at the date on which they are adopted at the annual general meeting (declaration date). The expected dividend payment for the year (declaration date) is disclosed as a separate item under equity.

Notes

1 Accounting policies (continued)

Deferred tax assets and liabilities

Current tax payable and receivable is recognised on the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account.

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax value of assets and liabilities based on the planned use of the asset or settlement of the liability.

Deferred tax assets are recognised at the expected value of their utilisation within the foreseeable future; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Any deferred net assets are measured at net realisable value.

Deferred tax is measured in accordance with the tax rules and at the tax rates applicable in the respective countries at the balance sheet date when the deferred tax is expected to crystallise as current tax. The change in deferred tax as a result of changes in tax rates is recognised in the income statement and equity.

Liabilities

Financial liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. In subsequent periods, the financial liabilities are measured at amortised cost, corresponding to the capitalised value using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement over the term of the loan together interest expenses.

Finance lease obligations are recognised as financial liabilities at amortised cost.

Other liabilities are measured at net realisable value.

Deferred income recognised as liabilities include incoming payments regarding income in following years.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and at the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Joint taxation

The Company is jointly taxed with the group of Danish subsidiaries. The administrative company, together with the group of Danish subsidiaries included in the joint taxation, the Company has joint and several unlimited liability for Danish corporation taxes and withholding taxes on dividends and interest. DDB Copenhagen A/S, CVR no. 24 25 69 44 left the joint tax group as of May 28, 2020, after which Omnicom Media Group A/S took over as administrative company. The jointly taxed companies' net liabilities to SKAT appears in the administrative company's annual report, Omnicom Media Group A/S, CVR no. 15 10 68 75. Any subsequent corrections of the taxable income subject to joint taxation or withholding taxes on dividends, interest and royalties may entail that the Company's liability will increase.

Penneo dokumentnøgle: JJPYZ-Y8AIF-TM8Q3-JTS4B-VFD7U-WMCEG

Dette dokument er underskrevet digitalt via **Penneo.com**. Signeringsbeviserne i dokumentet er sikret og valideret ved anvendelse af den matematiske hashværdi af det originale dokument. Dokumentet er låst for ændringer og tidsstemplet med et certifikat fra en betroet tredjepart. Alle kryptografiske signeringsbeviser er indlejret i denne PDF, i tilfælde af de skal anvendes til validering i fremtiden.

Sådan kan du sikre, at dokumentet er originalt

Dette dokument er beskyttet med et Adobe CDS certifikat. Når du åbner dokumentet

i Adobe Reader, kan du se, at dokumentet er certificeret af **Penneo e-signature service** <penneo@penneo.com>. Dette er din garanti for, at indholdet af dokumentet er uændret.

Du har mulighed for at efterprøve de kryptografiske signeringsbeviser indlejret i dokumentet ved at anvende Penneos validator på følgende websted: <https://penneo.com/validate>
