STATEMENT BY MANAGEMENT ON THE ANNUAL REPORT

The Board of Directors and the Executive Management have today considered and approved the annual report of Clipper Group A/S for the financial year January 1 to December 31, 2021.

The annual report is presented in accordance with the Danish Financial Statements Act.

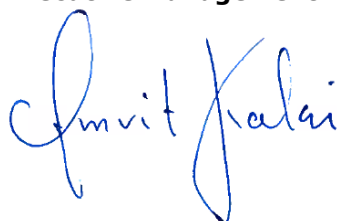

In our opinion, the consolidated financial statements and the Parent financial statements give a true and fair view of the Group's and the Parent's financial position at December 31, 2021 and of their results and the consolidated cash flows for the financial year January 1 to December 31, 2021.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

INDEPENDENT AUDITOR'S REPORT

INDEPENDENT AUDITOR'S REPORT

To the shareholder of Clipper Group A/S

Opinion

We have audited the consolidated financial statements and the parent financial statements of Clipper Group A/S for the financial year January 1 to December 31, 2021, which comprise the statements of profit and loss, financial position and changes in equity and notes, including a summary of significant accounting policies, for the Group as well as the Parent, and the consolidated cash flow statement for the Group. The consolidated financial statements and the parent financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent financial statements give a true and fair view of the Group's and the Parent's financial position at December 31, 2021, and of the results of their operations and the consolidated cash flows for the Group for the financial year January 1 to December 31, 2021 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements" section of this auditor's report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the consolidated financial statements and the parent financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the consolidated financial statements and the parent financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the consolidated financial statements and the parent financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

Management's responsibilities for the consolidated financial statements and the parent financial statements

Management is responsible for the preparation of consolidated financial statements and parent financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements and parent financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the parent financial statements, Management is responsible for assessing the Group's and the Parent's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements unless Management either intends to liquidate the Group or the Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements and the parent financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and the parent financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and these parent financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and the parent financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the parent financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the parent financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements and the parent financial statements, including the disclosures in the notes, and whether the consolidated financial statements and the parent financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Profit margin	=	$\frac{\text{Operating profit/(loss)} \times 100}{\text{Revenue}}$
Return on assets	=	$\frac{\text{Operating profit/(loss)} \times 100}{\text{Assets, total}}$
Return on equity	=	$\frac{\text{Profit/(loss) for the year} \times 100}{\text{Average equity}}$
Equity ratio	=	$\frac{\text{Equity} \times 100}{\text{Assets, total}}$

Significant changes to the composition of Clipper Group A/S took place in 2018 with the divestments of the Ferry, Fleet Management and Bulk segments. Following these changes, Clipper Group A/S in 2018 effectively became a holding company for Seatruck Ferries and some companies with no or limited activity. Comparative figures for 2017 have not been restated to reflect these changes.

MANAGEMENT COMMENTARY

MANAGEMENT COMMENTARY

Clipper Group A/S is a Danish fully owned subsidiary of Clipper Group Ltd., a privately-owned company, established in 1972, with offices in six countries and 164 employees (December 31, 2021). Clipper Group Ltd. is registered in the Bahamas but with main business address and headquarter in Denmark and subject to full Danish taxation.

Clipper Group A/S' main activity is dedicated freight only services on the Irish Sea via Seatruck Ferries Group (in the following referred to as the "Seatruck business" or just "Seatruck").

The Seatruck Ferries Group owns eight ro-ro vessels of which six are operating on the Irish Sea and two are chartered out.

BUSINESS UPDATE

Seatruck business

The Seatruck business model remains focused on providing high quality freight-only ferry services in the Irish Sea, concentrating on unaccompanied lorry trailer shipments, reducing road mileage for the customers.

Seatruck provided a resilient performance during 2021 despite the continued impact from the COVID pandemic and Brexit. Brexit exacerbated the shortage of drivers which pushed more operators to ship unaccompanied trailers which benefited Seatruck's business model.

Seatruck gained market share in the Irish Sea in 2021 as volumes overall were 8% lower than 2020, while Seatruck volumes were only reduced by 3%. Seatruck thereby consolidated its position as the market-leading operator of ro-ro routes on the Irish Sea with a market share of 18%.

Seatruck has invested heavily in IT systems in 2021 to provide customers with best in class connectivity and Brexit integration. On safety Seatruck, is leading initiatives for simplification and standardization of procedures across the ferry industry in the Irish Sea.

RESULTS

Operating Profit for 2021 was a profit of USD 14.4 million (2020: profit of USD 11.7 million). The improved result was driven by higher rates and positive exchange rate effect partly offset by lower volumes. In comparison, operating Profit for 2020 was impacted by USD 1.5 million impairment loss related to the charter-out fleet.

The net result for 2021 was a profit of USD 16.4 million (2020: loss of USD 7.1 million). Net result for the year includes currency gain of USD 9.8 million related to EUR loans in Seatruck (2020: loss of USD 7.8 million) and a tax income relating to the joint taxation scheme for the Danish companies in the Group of USD 0.2 million (2020: tax expense of USD 4.9 million).

FINANCING

The Group's bank debt matures by end of 2022 and hence the Group is reporting all its bank debt as short-term as of December 31, 2021. Management has undertaken a detailed assessment of the business in terms of the financial position including future cash flows, liquidity position and borrowing facilities.

The Group is on track following the process for settling the bank debt as set out in the financing agreement entered in 2018, and with the financial performance in 2021 and the outlook for 2022, Management considers the capital resources available for 2022 is adequate to carry out its plans for 2022 and to meet all liabilities throughout 2022. Furthermore, Management is confident that a solution will be reached in 2nd half 2022 that will secure that sufficient capital resources are available also on the long-term.

OUTLOOK FOR 2022

Unaccompanied trailer shipments as a percentage of overall Irish Sea traffic have increased over the past 12 months. The joint impacts of COVID-19, Brexit and ongoing HGV driver shortages is fueling further growth in the unaccompanied trailer sector and this is expected to continue in 2022. The Group believes it is very well positioned to capture this continued switch to unaccompanied trailer shipments on the Irish Sea.

For 2022 Clipper Group A/S expects an improved operating result compared to 2021 in the range of USD 15.0 million to USD 16.5 million.

PRINCIPAL RISKS AND UNCERTAINTIES

The Group is exposed to several operational and financial risks of which the following are the most significant:

- Market development in freight rates for Irish Sea ro-ro market
- Market development in volumes for ro-ro ferry services on the Irish Sea
- Market development in bunker prices (price of crude oil)
- Foreign exchange risks
- Interest rate risks
- Intellectual capital resources
- IT security

A few of the risks are further explained below:

Bunker risks

Bunker costs are a large part of the Group's costs.

Changes in bunker prices are largely covered by a separate Bunker Adjustment Factor (BAF). Overall, this provides the Group with a relatively minor bunker risk.

Foreign exchange risks

Clipper Group A/S' consolidated financial statements are presented in USD. Clipper Group A/S' results and equity are mainly affected by exchange rate developments in DKK, EUR and GBP.

The Group's revenue is primarily denominated in GBP and partly in EUR. The foreign exchange risk is as far as possible mitigated by having expenses in the same currencies. In addition, the Group evaluates the use of derivative hedging on an ongoing basis.

Interest rate risks

Clipper Group A/S is exposed to interest rate fluctuations from the funding activities. The primary exposure is LIBOR fluctuations. The Group evaluates the use of derivative hedging on an ongoing basis.

Intellectual capital resources

Skilled and engaged staff in Seatruck is a key to the success of the Group, which is why we always focus on attracting the best people from the industry and subsequently maintaining a dedicated and targeted effort to further develop and retain our employees. We offer fair and globally aligned working conditions. All employees have semi-annual development reviews with their managers, and we support training opportunities and job development to the extent possible.

IT Security

Electronical communication is an integral part of the Group's business model making the availability and security of our applications and IT infrastructure a critical requirement. The Group ensures IT security and continuity through continuous monitoring of critical IT components, regular security audits and detailed procedures for disaster recovery.

Risk management and internal controls

Clipper Group's Executive Management and Board of Directors continuously seek to ensure that the Group's management structure and control systems remain appropriate and function satisfactorily. Policies and procedures have been developed or are being developed with a view to ensuring active and sound management in the Clipper Group.

Group Management regularly engages in identifying, analyzing and managing all significant risks in order to mitigate such risks as deemed appropriate. The Board of Directors and the Executive Management consider all risks and the individual risk factors involved in the Group's activities. Guidelines for key risk areas have been drawn up.

Statutory Report Corporate Social Responsibility

Clipper Group Ltd. participates in the **UN Global Compact**, thereby committing to 10 universal principles on human rights, labor, environment and anti-corruption. To us, participating in UNGC signifies a continuation of what we have always been doing, within a more structured process and reporting model. We commit ourselves to making the UNGC principles an integral part of our business strategy, day-to-day operations, and organizational culture, and to communicate annually about the progress made.

Clipper Group A/S and subsidiaries are covered by the Clipper Group's CSR report for 2021, where we describe the Group's CSR activities and the progress, we have made on the goals set in our CSR Strategy. Our Group CSR report for 2021 serves as our statutory reporting fulfilling the requirements of the Danish Financial Statements Act §99a and §99b.

Clipper Group's CSR report is available on our website;

The Group has assessed estimated net selling prices and value in use of vessels. The review of estimated net selling prices was made with reference to prices provided by internationally acknowledged shipbrokers and value in use derived from discounted cash flow calculations, determined on the basis of an assumption of

earnings from continued operation of the vessels. These assessments have not resulted in any impairment loss of USD at December 31, 2021. (2020: USD 1.5 million).

Clipper Group A/S and its Danish taxable subsidiaries are jointly taxed with Clipper Group Ltd. as management company in a Danish joint taxation group.

The shipping activities in Clipper Group A/S are subject to tonnage tax regime in the countries where the activities are considered resident for tax purposes. For companies which fulfill the Danish tonnage tax conditions the Danish tonnage tax regime is binding until December 31, 2022.

Clipper Group A/S with all its subsidiaries has a tax loss of USD 37.7 million (2020: USD 39.8 million) of which USD 37.7 million (2020: USD 39.8 million) has not been recognized as deferred tax asset as Management has evaluated that the tax losses will not be utilized within foreseeable future, among other things since future earnings will primarily derive from the Seatruck Ferries Group, which are subject to a UK tonnage taxation scheme.

13. Assets pledged and guarantees

Vessels have been provided as security for the bank loans. At December 31, 2021, the carrying amount of vessels provided as security for bank loans totalled USD 206,092 thousand (2020: USD 210,957 thousand). In addition, other financial assets, other tangible assets and receivables from related parties of a total of USD 129,735 thousand have been provided as security for bank loans (2020: USD 129,547 thousand). At December 31, 2021 the Group has restricted cash of USD 1,285 thousand (2020: USD 4,865 thousand).

14. Contractual obligations

At December 31, 2021, the Group has rental commitments totalling USD 6,006 thousand (2020: USD 6,022 thousand).

Clipper Group A/S and a number of subsidiaries are subject to a joint taxation arrangement in which Clipper Group Ltd. serves as the administration company. According to the joint taxation provisions of the Danish Corporation Tax Act, the jointly taxed companies are, therefore liable for income taxes under the joint taxation arrangement.

As part of the sales agreement for Danske Færger A/S in 2018, the Group took over 50 percent of the risk relating to some specific legal cases. Accruals for the related risks were included in the calculation of loss from the sale in 2018 and are included in other payables. The last remaining legal case was fully finalized in the beginning of 2022, and the risk taken over in connection with the sale is therefore no longer existing.

16. Transactions with related parties

The Group is wholly owned by Clipper Group Ltd., Bahamas. All transactions with related parties take place at arm's length terms.

17. Events after the balance sheet date

Following well publicized actions taken by another ferry operator, the UK Government announced a review of Seafarer Remuneration with an aim to introduce the payment of UK National Minimum Wage (NMW) on all ferries whilst in UK territorial waters. In the longer term they are also seeking bi-lateral agreements with other jurisdictions which could mandate payment of NMW for the entire crossing. The Group already pays UK NMW to all seafarers so such legislation would not impact the group.

Share capital (DKK'000)	983,000	983,000
Share capital (USD'000), translated at historical rates	171,596	171,596

The shares have not been divided into classes.

8. Assets pledged and guarantees

Investments in subsidiaries, other financial assets and receivables from related parties with a total carrying value of USD 182,551 thousand have been provided as security for bank loans (2020: USD 166,088 thousand). Further, the entity is co-guarantor for the bank debt in the Clipper Group. The bank loans mature in 2022, however, Management assess that the pledges and guarantees provided will not become effective in connection with the settlement of the bank loans. At December 31, 2021 the Company has restricted cash of USD 1,285 thousand (2020: USD 4,865 thousand).

9. Contractual obligations

At December 31, 2021 the Company has lease commitments totalling USD 3,840 thousand (2020: USD 4,357 thousand).

The Company participates in a Danish joint taxation arrangement in which Clipper Group Ltd. serves as the management company. According to the joint taxation provisions of the Danish Corporation Tax Act, the Company is therefore liable for income taxes under the joint taxation arrangement.

As part of the sales agreement for Danske Færger A/S in 2018, the Group took over 50 percent of the risk relating to some specific legal cases. Accruals for the related risks were included in the calculation of loss from the sale in 2018 and are included in other payables. The last remaining legal case was fully finalized in the beginning of 2022, and the risk taken over in connection with the sale is therefore no longer existing.

10. Ownership

The Company is wholly owned by Clipper Group Ltd., Bahamas.

11. Consolidation

Clipper Group Ltd., 29 Charlotte Island, Old Fort Bay, P.O. Box CB-13048, Nassau, the Bahamas, does not publish its financial statements.

12. Transactions with related parties

We refer to note 16 in the consolidated financial statement.

ACCOUNTING POLICIES

ACCOUNTING POLICIES

Statement of compliance

The annual report of the Parent has been prepared in accordance with the provisions of the Danish Financial Statements Act governing reporting class C enterprises (large), whereas the consolidated financial statements have been prepared in accordance with the provisions of the Danish Financial Statements Act governing reporting class C enterprises (large).

The accounting policies applied for both the parent and consolidated financial statements are consistent with those applied last year.

Basis of preparation

The Group and Parent presents the financial statements for the Group and Company in USD. The DKK exchange rate against USD applied is 6.5612 at December 31, 2021 (2020: 6.0576).

Recognition and measurement

Assets are recognized in the statement of financial position when it is probable as a result of a prior event that future economic benefits will flow to the Group, and the value of the assets can be measured reliably.

Liabilities are recognized in the statement of financial position when the Group has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Group, and the value of the liabilities can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is affected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the end of the reporting period are considered at recognition and measurement.

Income is recognized in the statement of profit and loss when earned, whereas costs are recognized by the amounts attributable to this financial year. Value adjustments of financial assets and liabilities are recognized in the statement of profit and loss as financial income or financial expenses.

Basis of consolidation

The consolidated financial statements comprise Clipper Group A/S (Parent) and the enterprises (subsidiaries) that are directly or indirectly controlled by the Parent. Control is achieved by the Parent, either directly or indirectly, holding more than 50% of the voting rights or in any other way possibly or actually exercising

controlling influence. Enterprises in which the Group, directly or indirectly, exercises significant but not controlling influence are regarded as associates. Enterprises in which the Group holds 50% of the voting rights and participates in joint management are consolidated on a pro rata basis.

The consolidated financial statements are prepared by combining uniform items. On consolidation, intra-group income and expenses, intra-group accounts, dividends as well as profits and losses on transactions between the consolidated enterprises are eliminated. The financial statements used for consolidation have been prepared applying the Group's accounting policies.

Subsidiaries' financial statement items are recognized in full in the consolidated financial statements. Minority interests' pro rata shares of profit/loss and net assets are disclosed as separate items in the statement of profit and loss and the statement of financial position.

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Receivables, payables and other monetary items denominated in foreign currencies that have not been settled at the end of the reporting period are translated using the exchange rate at the end of the reporting period. Exchange differences that arise between the rate at the transaction date and the rate in effect at the payment date or the rate at the end of the reporting period are recognized in the statement of profit and loss as financial income or financial expenses. Fixed assets purchased in foreign currencies are translated using the exchange rate at the transaction date.

For the purpose of presenting the consolidated financial statements, the financial statements of subsidiaries with other functional currencies than USD are translated to USD as follows: The statements of profit and loss are translated using average exchange rates, and statement of financial position items are translated using the exchange rates at the end of the reporting period. Exchange differences arising out of the translation of foreign entities' equity at the beginning of the year at exchange rates applicable at the end of the reporting period, as well as out of the translation of statements of profit and loss from average rates applicable to the exchange rates at the end of the reporting period are recognized directly in equity.

Assessment of vessels' carrying amounts

The Group reviews the fleet of vessels on a portfolio basis. This review is made when events or changes in circumstances occur which could indicate that the carrying amount of vessels exceeds the vessels' recoverable amount. In such cases an impairment loss of vessels is recognized based on the difference between the carrying amounts and the higher value of value in use and net selling price for the vessels.

Statement of profit and loss

Revenue recognition

Revenue represents the value of services provided during the year excluding value added tax and is net of trade discounts and rebates. Revenue is recognized upon the completion of the sailing of vessels for ro-ro operations which is when the service is deemed to have taken place. Revenue is recognized on a daily basis for external charters.

Operating expenses

Operating expenses include costs relating to the operation of the Group's own and chartered vessels, including time and bareboat charter costs, port charges, bunker costs, maintenance costs, insurance costs, crew wages and other vessel-operating expenses.

Other external expenses

Other external expenses comprise expenses for marketing, administration, premises, etc.

Staff costs

Staff costs comprise salaries and wages as well as social security costs, pension contributions, etc. for the Group's staff.

Financial income and expenses

Financial income and financial expenses comprise interest, unrealized and realized market value adjustments of securities as well as realized and unrealized exchange rate adjustments.

Taxation

Income tax expense/income represents the sum of the tax currently payable/receivable and changes in deferred tax.

Current tax

Income tax is recognized in the statement of profit and loss by the portion attributable to the profit/loss for the year and recognized directly in equity by the portion attributable to entries directly in equity. Current tax for the year comprises tonnage tax for shipping activities.

The current tax payable or receivable is recognized in the statement of financial position, based on tax calculated on this year's taxable income, adjusted for prepaid tax.

Clipper Group A/S and subsidiaries that are subject to Danish taxation are included under a Danish joint taxation scheme. The current income tax is allocated among the jointly taxed enterprises proportionally to their taxable income (full allocation with a refund concerning tax losses).

Deferred tax

Deferred tax is recognized and measured in accordance with the balance sheet liability method of all temporary differences between the carrying amount and tax-based value of assets and liabilities. The tax-based value of the assets is calculated based on the planned use of each asset.

Deferred tax is measured based on the tax regulations and tax rates of the relevant countries that will be in effect according to law at the end of the reporting period when the deferred tax is estimated to be triggered as current tax. Changes in deferred tax resulting from changed tax rates are recognized in the statement of profit and loss.

Deferred tax assets are recognized in the statement of financial position at their estimated realizable value, either as a set-off against deferred tax liabilities or as net tax assets. The amount of net tax loss carryforwards is recognized in the administration company.

Statement of financial position**Port rights**

Port rights are measured at cost less accumulated amortization and impairment losses. The amortization period is between 10 to 20 years.

Software

Software is measured at cost less amortization and impairment losses. Amortization is initiated when the asset is put into operation, after which straight-line amortization is made over a seven-year period.

Property, plant and equipment

Buildings, vessels, tools and equipment are measured at cost less accumulated depreciation and any impairment losses. Cost comprises the acquisition price and costs directly attributable to the acquisition up until the time when the asset is ready for use. Dry-docking costs are capitalized as part of vessel costs.

The basis of depreciation is calculated as the excess of cost over the estimated scrap value. The scrap value of vessels is determined based on the market price per lightweight ton for scrapping of the vessel. The useful life and the residual value of the vessels are reviewed at least at each financial year-end based on market conditions, regulatory requirements and the Group's business plans. Residual value of dry-docking is nil.

The basis of depreciation is allocated on a straight-line basis over the estimated useful lives of the assets as follows:

RoRo vessels	30 years
Dry-docking costs	36 months
Other plant and operating equipment	3-10 years
Buildings	20-50 years
Software	7 years

The depreciation period for secondhand vessels is determined on the basis of the condition and age of the vessels at the time of acquisition.

The useful life and depreciation method are reviewed periodically to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from the vessels.

Prepayments on newbuildings are measured at costs incurred and recognized in assets as vessels under construction as payments are made.

Gains and losses from the sale of property, plant and equipment are calculated as the difference between selling price less selling costs and the carrying amount at the time of sale.

Property, plant and equipment are written down to the lower of recoverable amount and carrying amount.

Investments in subsidiaries

Investments in subsidiaries are recognized and measured in the Parent's financial statements using the equity method.

The Parent's share of the subsidiaries' profit/loss after tax and after elimination of unrealized intra-group profits and losses for the year is recognized in the items "Profit/loss from investments in subsidiaries".

Receivables

Receivables are measured at amortized cost, usually equaling nominal value, less writedowns for bad and doubtful debts.

Prepaid expenses and other receivables

Prepayments comprise incurred costs relating to subsequent financial years.

Other financial assets

Other financial assets are presented in fixed asset investments and consist of assets that are measured at market value and which may be considered long-term investments in accordance with the Company's investment policy. Value adjustments to acquisition cost are included under income from other financial assets in the statement of profit and loss.

Other securities

Other securities are presented in current assets and are measured at market prices at the end of the reporting period. Value adjustments to acquisition cost are included under financial income or financial expenses in the statement of profit and loss. Other securities consist of listed bonds and shares.

Provisions

Provisions are recognized when the Group has a legal or constructive obligation as a result of an event occurring at the end of the reporting period at the latest, and it is probable that future economic benefits will flow out of the Group to meet this obligation, although uncertainty exists as to the size of amount and time of payment.

Provisions for losses on contracts are calculated on the basis of forecasted results for the individual contracts for the remaining contract period, discounted at present value using the marginal borrowing rate.

Non-current liabilities

Non-current liabilities are recognized at the time the loans are obtained in the amount of the proceeds after deduction of transaction costs. In subsequent periods, such loans are recognized at amortized cost, equivalent to the capitalized value applying the effective rate of interest at the inception of the loan, to the effect that the difference between the proceeds and the nominal value is recognized as an interest expense in the statement of profit and loss over the term of the loan. Fees and other charges paid to set up a credit facility are recognized as transaction costs to the extent that it is probable that the facility will be utilized. To the extent that it is not probable that the facility will be partially or fully utilized, fees and other charges are recognized as a prepayment for making the facility available and amortized over the term of the credit facility.

Other liabilities, comprising trade payables and other payables, are measured at amortized cost, corresponding substantially to nominal value.

Cash flow statement

The consolidated cash flow statement is presented using the indirect method and shows cash flows from operating, investing and financing activities as well as the Group's cash and cash equivalents at the beginning and end of the financial year.

Cash flows from the acquisition and divestment of enterprises are shown separately under cash flows from investing activities. Cash flows from acquired enterprises are recognized in the cash flow statement from the time of their acquisition, and cash flows from divested enterprises are recognized up to the time of divestment.

Cash flows from operating activities are calculated as operating profit/loss adjusted for non-cash operating items, working capital changes and income taxes paid.

Cash flows from investing activities comprise payments in connection with acquisition and divestment of enterprises and activities as well as acquisition and sale of intangible assets, property, plant and equipment as well as fixed asset investments.

Cash flows from financing activities comprise changes in the size or composition of the Group's share capital and related costs as well as the raising of loans, instalments on interest-bearing debt, and payment of dividend.

Cash equivalents comprise cash and short-term securities with an insignificant price risk.

No separate cash flow statement has been prepared for the Parent as it is included in the cash flow statement of the Group.

VALUES

DYNAMIC

We have the drive and enthusiasm to take action and make a difference.

DEPENDABLE

We strive to ensure professional and consistent execution of our commitments.

INNOVATIVE

We embrace change and challenge ourselves to be proactive and develop optimal solutions.

HANDS-ON

We make it our priority to know and care for people and our business.

VISION

To be one of the leading shipping companies in the world.

MISSION

To facilitate world trade and global development while generating long term value for our shareholders
