GroupM Denmark A/S Annual report 2022 CVR no. 30 24 07 82

Chairman

Statement by the Board of Directors and the Executive Board

The Board of Directors and the Executive Board have today discussed and approved the annual report of GroupM Denmark A/S for the financial year 1 January – 31 December 2022.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's financial position at 31 December 2022 and of the results of the Company's operations for the financial year 1 January – 31 December 2022.

We believe that the management's review contains a fair review of the affairs and conditions referred to therein.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholder of GroupM Denmark A/S

Opinion

We have audited the financial statements of for the financial year 1 January - 31 December 2022, which comprise the income statement, balance sheet, statement of changes in equity, and notes, including asummary of significant accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Company's financial position at and of the results of its operations for the financial year 1 January - 31 December 2022 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirementsapplicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of this auditor's report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basisfor our opinion.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordancewith the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are

free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

— Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent auditor's report

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management .
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures in the notes, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the management review

Management is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the management commentary is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

GroupM Denmark A/S

Annual report 2022 CVR no. 30 24 07 82

Management's review

Operating review

Main activities

The primary activities are to provide services within administration, accounting and business development to companies within the Group.

GroupM Denmark A/S is part of the WPP group.

Development in the year

The Company's revenue for the financial year 2022 was TDKK 1,074,737, an increase of 4.38% from 2021 where the revenue amounted to TDKK 1,029,673 which is in line with the forecasted revenue for 2022.

The Company's income statement for 2022 shows a profit of TDKK 720 as against TDKK 1,195 in 2021 which is within our expected range of profit for the year 2022. We also expected a decrease of our profit in light of the inflation in Denmark in 2022, a consequence of the Ukraine war, which highly impacted the level of our staff costs (+20%) and led to increased price of third-party services.

Equity in the Company's balance sheet at 31 December 2022 stood at TDKK 1,230 as against TDKK 26,084 at 31 December 2021. The decrease year over year is attributable to the dividend distribution to our Group that was proposed in our annual accounts for the year 2021.

The financial performance for the year 2022 is deemed satisfactory and in line with expectations.

Particular risks

Other than the already discussed impact of the Ukraine war, there were no unusual risks associated with GroupM Denmark's business.

Outlook

The Company will continue the focus on investments to maintain its leading position in the data and technology driven communications market. The forecast for 2023 shows revenue at a similar level than 2022, ranging between TDKK 1,050,000 and TDKK 1,100,000. We expect the level of our activity to be similar to 2022

The Ukraine war is still ongoing, and while the confidence of our client has stabilized since the start of the war, we are impacted by the inflation level and supply chains remain under pressure. Our staff costs suffer from the higher inflation and the shortage of available talent. In light of the current economic situation, Management expects that a similar level of the activity combined with higher costs will most probably lead to a decrease in our profit of the year. The expected profit for the year ranges for 2023 ranges between TDKK 250 and TDKK 750.

Intellectual capital resources

A substantial part of GroupM Denmark's business hinges on the existence of certain staff resources and tools which have been further developed throughout the year, both in terms of value-based management and with respect to processes and structures for the knowledge-based work.

Management's review

Operating review

Statement of corporate social responsibility

Being part of the global WPP Group we're privileged to work with many pioneers of sustainable business, helping our clients to create brands with purpose and to embed sustainability into products, marketing and communications.

A statement regarding the Company's policies, actions and results within matters relating to CSR is evident from the annual report of the ultimate Parent, WPP Plc. who is a member of the United Nations Global Compact and committed to its 10 principles.

The WPP Group provides a clear policy framework which are included in the WPP Policy Book. These policies are cascaded to employees through regular communication and online training modules.

For full details we refer to the annual report of the ultimate Parent, WPP Plc.

https://www.wpp.com/en/sustainability/sustainability-report-2022.

Statement on gender composition

At 31 December 2022, the gender balance of the Company showed a percentage of women of 53% and a percentage of men of 47%.

At 31 December 2022, the Executive Committee is composed of 8 members out of which two are women (25%). The Board of Directors is composed of 3 directors out of which two are women (66%) and one man (33%). It is the overall and long-term objective of the Company to maintain an equal balance between the genders at management level, including to focus on attracting more women to the Company in the future and developing these women to join the management group. We continue to strive for gender parity at all levels of our business and expect the management group to reach a target of 50% women. Regarding the latter objective, we note that the percentage of women in the Executive Committee will increase to 38% as of August 2023 as a result to our efforts to recruit talented women to fulfill executive Key Management roles. We also believe it is in our best interest to invest in people and therefore pursue with our diversity, equity and inclusivity agenda. This includes our new family and parental leave policies, leadership development programs focused on inclusive leadership and equal pay initiatives. We hope that these efforts will help us close the gender gap in our management group and across the senior levels of our business in general.

Statement on data ethics

The Company recognise the obligation for responsible collection, management, use and protection of data. We are transparent regarding our ethical decision-making process and educate our people on ethical data use. We share our approach with our stakeholders including share owners, clients, our own people, and vendors.

We work with many categories of data and uses the term data in its broadest sense. We include within this definition client data, consumer data and all information and data related to the operation of our business.

We take the confidentiality and safe handling of Client and Client consumer data for all our Clients very seriously. We work under a documented security and privacy policy distributed to all staff at the time of employment and communicated to all employees annually. This is supplemented by Information Security Awareness Training requiring all employees to comply with a code of business conduct prohibiting disclosure of Client confidential information.

CVR no. 30 24 07 82

Management's review

Operating review

As part of our governance, risk, and compliance program, it is essential to abide by the IT security policies, procedures and controls implemented and in operation to be effective and to ensure confidentiality, integrity and availability. We operate under WPP Data Privacy and Security Charter ("The Charter"). The Charter includes policies for data ethics, artificial intelligence and privacy and a bespoke standard set of controls (General Computing Controls (GCCs)) developed by WPP to be used on a global basis, derived from industry recognized standards and best practice including but not limited to ISO 27001, ITIL, COSO and COBIT and deemed appropriate for our industry. The controls include, but are not limited to, access management, physical security, server room access, network access security, malware prevention and monitoring, encryption, secure data backup & recovery, business continuity, secure data disposal, mobile device security, acceptable use, and awareness training. We represent our level of compliance with The Charter by performing self-assessments and participating in related audits in line with WPP's internal assurance program.

Uncertainty relating to recognition and measurement

Recognition and measurement in the Annual Report have not been subject to any uncertainty.

Unusual events

The financial position at 31 December 2022 of the Company and the results of the activities of the Company for the financial year for 2022 have not been affected by any unusual events.

Subsequent events

No events materially affecting the assessment of the Annual Report have occurred after the balance sheet date.

Notes

1 Accounting policies

The annual report of GroupM Denmark A/S for 2022 has been prepared in accordance with the provisions applying to reporting class C large entities under the Danish Financial Statements Act.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

The financial statements for 2022 are presented in DKK thousand.

Omission of consolidated financial statements

Pursuant to section 112(1) of the Danish Financial Statements Act, no consolidated financial statements have been prepared. The financial statements of GroupM Denmark A/S and group entities are included in the consolidated financial statements of WPP Plc.

Omission of cash flow statement

Pursuant to section 86(4) of the Danish Financial Statements Act, no cash flow statement has been prepared. The Company's cash flows are included in the cash flow statement in the consolidated financial statements of WPP PIc.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Recognition and measurement take into account predictable losses and risks occuring before the presentation of the Annual Report which confirm or invalidate affairs and conditions existing at the balance sheet date.

Business combinations

Pooling of interests

Intragroup business combinations are accounted for under the pooling-of-interests method. Under this method, the two enterprises are combined at carrying amounts, and no differences are identified. Any consideration which exceeds the carrying amount of the acquired enterprise is recognised directly in equity. The pooling-of-interests method is applied at the date of acquisition, and comparative figures have not been restated.

Leases

All leases are considered operating leases. Payments made under operating leases are recognised in the income statement on a straight-line basis over the lease term.

Notes

1 Accounting policies (continued)

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Income statement

Revenue

Revenue from the sale of media and administrative services to group related WPP-companies is recognised in the income statement when delivery is made to the buyer.

Consultancy services are included in revenue based on the stage of completion so that the revenue corresponds to the selling price of work performed in the financial year (the percentage-of-completion method).

Revenue is measured at the consideration received and is recognised exclusive of VAT and net of discounts relating to sales.

Cost of sales

Cost of sales comprises consumed use of media to achieve the revenue for the year. Use of media includes received discounts, etc.

Other external costs

Other external costs comprise costs of distribution, sales and advertising, administrative expenses, costs of premises, bad debts, operating leases, etc.

Staff costs

Staff costs comprise wages and salaries, including holiday allowance, pension and other social security costs. Refunds from public authorities are deducted from staff costs.

Notes

1 Accounting policies (continued)

Depreciation, amortisation and impairment losses

Depreciation, amortisation and impairment losses relating to property, plant and equipment comprise depreciation, amortisation and impairment losses for the financial year, calculated on the basis of the residual values and useful lives of the individual assets and impairment testing, as well as gains and losses from the disposal of property, plant and equipment.

Other operating costs

Other operating costs comprise items secondary to the activities of the company.

Financial income and expenses

Financial income and expenses comprise interest income and expense, gains and losses on transactions denominated in foreign currencies as well as surcharges and refunds under the on-account tax scheme, etc.

Tax on profit for the year

Tax for the year consists of current tax for the year and changes in deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with the other WPP companies in Denmark. The tax effect of the joint taxation is allocated to enterprises in proportion of their taxable incomes.

Balance sheet

Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and less any accumulated impairment losses.

Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets, which are:

Fixtures and fittings, tools and equipment 3-5 years Leasehold improvements 5-10 years

The fixed assets' residual values are determined at nil.

Depreciation period and residual value are reassessed annually.

GroupM Denmark A/S

Annual report 2022 CVR no. 30 24 07 82

Financial statements 1 January – 31 December

Notes

1 Accounting policies (continued)

Investments

Investments in subsidiaries are measured at cost. Where cost exceeds the recoverable amount, write-down is made to this lower value.

Deposits are recognised at amortised cost.

Impairment of fixed assets

The carrying amount of property, plant and equipment as well as equity investments in group entities is subject to an annual test for indications of impairment other than the decrease in value reflected by depreciation or amortisation.

Impairment tests are conducted of individual assets or groups of assets when there is an indication that they may be impaired. Write-down is made to the recoverable amount if this is lower than the carrying amount.

The recoverable amount is the higher of an asset's net selling price and its value in use. The value in use is determined as the present value of the forecast net cash flows from the use of the asset or the group of assets, including forecast net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Receivables

Receivables are measured at amortised cost.

Write-down is made for bad debt losses where there is an objective indication that a receivable has been impaired. If there is an objective indication that an individual receivable has been impaired, write-down is made on an individual basis.

Write-downs are calculated as the difference between the carrying amount of receivables and the present value of forecast cash flows, including the realisable value of any collateral received. The effective interest rate for the individual receivable or portfolio is used as discount rate.

Contract work in progress

Contract work in progress is measured at the sales value of the work carried out at the balance sheet date.

The sales value is measured based on the stage of completion and the total estimated income from the individual contracts in progress. Usually, the stage of completion is determined as the ratio of actual to total budgeted consumption of resources.

For some projects where the consumption of resources cannot be applied as a basis, stage of completion is determined as the ratio between completed and total sub activities of the individual projects.

Each contract in progress is recognised in the balance sheet under receivables or liabilities, depending on whether the net value, calculated as the selling price less on account billings, is positive or negative.

Cost of securing contracts are recognised in the income statement as incurred.

Notes

1 Accounting policies (continued)

Prepayments

Prepayments comprise prepayment of costs incurred relating to subsequent financial years.

Cash pool

The Company is part of a cash pool scheme with other Danish WPP Companies. Consequently, a considerable portion of the Company's bank deposits and debt is included in receivables from and payables to group enterprises, respectively.

Corporation tax and deferred tax

Current tax payable and receivable is recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account.

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax value of assets and liabilities based on the planned use of the asset or settlement of the liability. However, deferred tax is not recognised on temporary differences relating to items where the temporary differences arise at the date of acquisition without affecting either profit/loss or taxable income.

Deferred tax assets, including the tax value of tax loss carryforwards, are recognised at the expected value of their utilisation within the foreseeable future; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Any deferred net assets are measured at net realisable value.

Deferred tax is measured in accordance with the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Changes in deferred tax as a result of changes in tax rates are recognised in the income statement or equity, respectively.

Liabilities other than provisions

Other liabilities are measured at amortised cost.

Notes

2 Revenue

The revenue of the Company is mainly composed of recharges to the agencies of the Group for administrative, accounting, IT and business development services.
