Notes:

- To ensure the greatest possible applicability of this document, IAS/IFRS English terminology has been used.
- Please note that decimal points have not been used in the usual English way. This means that for instance DKK 146.940 means the amount of DKK 146,940, and that 23,5 % means 23.5 %.

## **Management's statement**

---

Today, the Executive Board has approved the annual report of Wernsing Scandinavia ApS for the financial year 1 January - 31 December 2022.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

We consider the chosen accounting policy to be appropriate, and in our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2022, and of the results of the Group and the Company's operations as well as the consolidated cash flows for the financial year 1 January – 31 December 2022.

Further, in our opinion, the Management's review gives a true and fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the Annual General Meeting.

Ansager, 7 July 2023

## **Independent auditor's report**

---

### **To the Shareholders of Wernsing Scandinavia ApS**

#### **Opinion**

We have audited the consolidated financial statements and the parent company financial statements of Wernsing Scandinavia ApS for the financial year 1 January to 31 December 2022, which comprise a summary of significant accounting policies, income statement, balance sheet, statement of changes in equity and notes for both the Group the Parent Company, as well as consolidated statement of cash flows. The consolidated financial statements and the parent company financial statements are prepared under the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2022, and of the results of the Group and the Company's operations as well as the consolidated cash flows for the financial year 1 January - 31 December 2022 in accordance with the Danish Financial Statements Act.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements and the Parent Company Financial Statements" section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Management's Responsibilities for the Consolidated Financial Statements and the Parent Company Financial Statements**

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of consolidated financial statements and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the parent company financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the consolidated financial statements and the parent company financial statements unless Management either intends to liquidate the Group or the Company or to cease operations, or has no realistic alternative but to do so.

## **Independent auditor's report**

---

### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements and the Parent Company Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and the parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and parent company financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and the parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the consolidated financial statements and the parent company financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.

## **Independent auditor's report**

---

- Evaluate the overall presentation, structure and contents of the consolidated financial statements and the parent company financial statements, including the disclosures, and whether the consolidated financial statements and the parent company financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### **Statement on Management's Review**

Management is responsible for Management's Review.

Our opinion on the consolidated financial statements and the parent company financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements and the parent company financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the consolidated financial statements and the parent company financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of Management's Review.

## **Management's review**

---

### **Description of key activities of the company**

The principal activities of the parent company is to be parent company of wholly owned subsidiaries.

### **Food**

The group is a production and trading company with production and sale of processed potato- and vegetable products together with production of dressings, saucers, and other related activities, in both Denmark and abroad.

### **Agricultural**

Sales of piglets to the Danish market as well as export including owned plant production to the piglets production.

### **Uncertainties connected with recognition or measurement**

There has been no insecurity by recognition and measurement of accounting entries in the annual report during the financial year.

### **Development in activities and financial matters**

The food activities of the group was in 2022 heavily impacted by the outbreak of the war in Ukraine and subsequently energy crisis. The supply chain has been challenged during the year leading to scarcity on certain raw materials. Input costs such as energy, raw materials, packaging and distribution were very volatile during the year with a strong upward trend. The increases were - continuously during the year - passed on to the customers.

Inflation and increase in cost of living have had an impact on consumption. In some categories the assortment has been adjusted to the new marked situation. Furthermore Covid-19 restrictions in the beginning of the year continued to have a negative impact on the sales in the food service sector.

Due to the after-effects from Covid-19 and the increasing input costs – especially on energy – after the outbreak of the war in Ukraine the management could in the annual report for 2021 not estimate the financial consequences and results for the year 2022.

It has been decided to change the strategi and the production setup in one of the group companies. The changes will be implemented during 2023 and the following year. Consequently the assets of the group has been revaluated and a write down amounting to DKK 28m has been charged to the profit and loss.

The agriculture part of the group was positively effected by higher prices on piglets and plants.

The management considers the results acceptable taken the extraordinary costs and inflation crisis circumstances into account.

To strengthen the equity of the company and group, the parent company have provided a tax free group contribution of DKK 148,7m (EUR 20,0m).

## **Management's review**

---

### **Knowledge resources**

The ambition of being market leading and ahead of the business' development means that the group is marked by a dynamic knowledge environment in rapid change. This places particularly high demands on the group as regards obtaining a distribution of new knowledge and it complicates an efficient standardization of the products. At the same time, the individual solutions are characterized by a complexity in which the personal knowledge of individual employees plays a crucial role.

Like previous years the group has continued to strengthened the group's knowledge and competence by hiring experienced employees as well as training programs for relevant areas.

The group has an innovation and development department focusing on NPDs and adjustment of products in order to fulfill the market demands.

### **Expected developments**

During the next year, focus will still be on market conditions and the necessary adjustments will be made whilst retaining efficiency and optimization of the production.

The result and activity for the coming financial year is expected to be on a higher and a more satisfactory level compared with 2022. The group focuses on efficiency improvements to ensure good competitive power.

### **Events occurring after the end of the financial year**

No events have occurred subsequent to the balance sheet date, which would have material impact on the financial position of the company.

## **Corporate social responsibility report pursuant to section 99 a of the Danish Financial Statements Act**

### *Business model and engagement*

The Wernsing Scandinavia ApS group is a sub-group for the Scandinavian market for the family-owned Wernsing Food Family GmbH & Co. KG. The group operates as production and trading company with production and sale of processed potato- and vegetable products as well as production of dressings, sauces, and related goods. The company has three production sites in Denmark and Sweden, respectively. Further, the company has agriculture in Denmark with production of crops and piglets.

The group is operated with an ambition of producing and trading in a way so that we can offer eating pleasures of the highest quality to our customers – no matter if they are professionals, food professionals, or consumers. And it is important to us that this is done in a proper way in all respects. It is not possible to operate agriculture, production, and transportation without effecting nature, the environment, and people. Thus, the group is very aware of the responsibility that we have towards the world around us and towards our employees – and each day we strive to act responsibly and sustainably through our entire value chain. Through this, we work unceasingly to find more sustainable solutions of all our operations that effect the world around us and our stakeholders.

## Management's review

---

At our factories we have the most skilled employees with years of experience and specialty within each their field. Together we care about doing things properly and all the time we are looking at whether something can be done better.

A central benchmark of the group's CSR-strategy is UN's World Goal that sets the frame for a sustainable development of the world towards 2030. From an assessment of the group's core competencies and the areas on which we can make the biggest impact, the group has initially chosen to focus on the World Goal "Responsible consumption and production". We will especially work on a more sustainable and responsible handling of nature resources and waste products, including reducing food waste.

In the group company WFG Denmark A/S, a separate CSR-report has been prepared that comprises this company and its subsidiaries. The CSR-report can be obtained from the website <https://flensted.dk/baeredygtighedsrapport-2022/>

Wernsing Feinkost GmbH, a company within the parent group, has also prepared as separate CSR-report. This report can be obtained from the website <https://www.wernsing.de/>.

### *Environmental issues – including climate change*

**Policies:** As a responsible producer of potato products etc., the groups has a policy of reducing the effect that its activities has on the environment and further to contribute actively to the development of sustainable solutions. Thus, as part of the group's strategy and policy the environmental impact is measured, and we work continuously on reducing this. A group goal is to continuously reduce energy consumption, water consumption, and to strengthen a sustainable use of resources.

**Risks, actions, and results:** The group's most significant risks of negative climatic impact are related to the energy consumption on the group's factories. The group continuously works on reducing the energy consumption and thus the CO<sub>2</sub>-emission in the group. We continuously invest in new machinery and improvements that are more energy effective. In the beginning of 2019, we finished the establishment of a wood chip plant at the company Flensted Food Group A/S. The wood chip plant have reduced the group's consumption of nature gas with a yearly reduction of CO<sub>2</sub>-emission of 4.800 tons. Through the entire value chain, there is a strong focus on working on reducing food waste. For example, in Denmark we have established a cooperation with FødevarerBanken (a food bank) and thus, we donate surplus products to FødevarerBanken with the purpose of distributing food to shelters etc. for vulnerable citizens.

### *Social issues and employee issues*

**Policies:** We want to be the best possible work place for our employees on which we all have a good and secure working environment, exciting challenges and further possibilities of living our potential. In Wernsing we furthermore believe that diversity creates the most creative dynamics and the best preconditions for development and results.

## Management's review

---

**Risks, actions, and results:** The group's employees are the biggest resource by far. Thus, the group's focus must always start with our employees for us to ensure their security and health at job in the best possible way – every single day. Thus, we work according to an overall goal of preventing accidents, damages, and stress with our employees. In 2022, different improvements have been identified and now we initiate an extra effort to minimize the number of work damages. Among other things, we will do this by focusing on “nearly-accidents” so that we can find out what causes the accidents and thus prevent them in the future. We work diligently on strengthening competencies within working environment with representatives and other employees.

### *Human rights*

**Policies:** The group's policy for CSR also includes policies for human rights for compliance with relevant legislation and EU-conventions. Among other things, this means that there is a group policy to apply with EU's regulation on youth workers within the EU. The group does not allow a behaviour that restricts the employees' freedom of action, just as there is a group policy of securing equal conditions for all employees without regard to ethnic origin, skin colour, gender, nationality, religion, or other characteristics.

**Risks, actions, and results:** The group acknowledges the employees' right to organize. There are local agreements with several trade unions in both Denmark and Sweden. Significant raw material suppliers are requested to sign a Supplier Code of Conduct. We have a strong focus on food safety, where the group has the necessary certifications.

### *Fighting corruption and bribery*

**Policies:** Wernsing tolerates no kinds of corruption or bribery.

**Risks, actions, and resultat:** The group does not tolerate any kind of bribery charge. It is not allowed for the employees to receive or offer gifts, no matter the nature, that may be considered a reward with the purpose of favouring.

## **Management's review**

---

### **Report on gender composition in management according to section 99 b of the Danish Financial Statements Act**

The group focuses on creation of value and considering the group's size this means that in relation to organizational changes and nomination of new board – and management members the group has to focus on knowledge, competences, and experience with the individual employees.

The group is part of Wernsing Food Group GmbH with its ultimate parent company, Wernsing Food Family GmbH & Co. KG (reg. no. HR A 150156). The top management recognizes the importance of diversity in the management and emphasizes equal opportunities for all, including for both genders. At present, the management of the Danish part of the Wernsing Scandinavia ApS group consists of one woman and one man (50/50). The board consists of the top management in Wernsing Food Group GmbH (all men). In the Swedish part of the group, the management consists of the top management in Wernsing Food Group GmbH.

The group emphasizes that the board consists of the members from the top management in the ultimate parent company in Wernsing Food Family GmbH & Co. KG because of the group's family structure. At present, the board only consists of men, but there is an ongoing process for assessment of the board's right composition where factors as skills and experience, regardless of gender, is crucial for the composition of the board. The long term goal is one woman in the board.

The Danish group has a long-term goal of having minimum one third women in the management. In the Danish group, the broader leadership team consists of four men and four women, which according to policies is considered to be gender equal. In the Swedish part of the group, the broader leadership team consists of three men and zero women. Of the total number of managers in the group, women make up 36 % against 31% last year. This is considered gender neutral.

### **Report on the company's policy on data ethics according to section 99 d of the Danish Financial Statements Act**

The group do not have a policy on data ethics. The company solely sell products B2B and therefore a policy is not considered relevant.

## Accounting policies

---

The annual report for Wernsing Scandinavia ApS has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class C enterprises (large enterprises).

The accounting policies are unchanged from last year, and the annual report is presented in DKK.

### Foreign currency translation

Transactions in foreign currency are translated by using the exchange rate prevailing at the date of the transaction. Differences in the rate of exchange arising between the rate at the date of transaction and the rate at the date of payment are recognised in the profit and loss account as an item under net financials. If currency positions are considered to hedge future cash flows, the value adjustments are recognised directly in equity in a fair value reserve.

Receivables, payables, and other foreign currency monetary items are translated using the closing rate. The difference between the closing rate and the rate at the time of the occurrence or initial recognition in the latest financial statements of the receivable or payable is recognised in the income statement under financial income and expenses.

Fixed assets acquired and paid for in foreign currency are measured at the exchange rate prevailing at the date of the transaction.

Group enterprises abroad are considered to be independent entities. The income statements are translated at an average exchange rate for the month, and the balance sheet items are translated at the closing rates. Currency translation differences, arising from the translation of the equity of group enterprises abroad at the beginning of the year to the closing rate and from the translation of income statements from average prices to the closing rate, are recognised directly in equity in the fair value reserve in the Consolidated Financial Statement. This also applies to differences arising from translation of income statements from average exchange rate to closing rate.

Translation adjustment of balances with group enterprises abroad that are considered part of the total investment in group enterprises are recognised directly in equity in the fair value reserve. Likewise, foreign exchange gains and losses on loans and derived financial instruments for currency hedging independent group enterprises abroad are recognised directly in equity.

### The consolidated financial statements

The consolidated income statements comprise the parent company Wernsing Scandinavia ApS and those group enterprises of which Wernsing Scandinavia ApS directly or indirectly owns more than 50 % of the voting rights or in other ways exercise control.

#### *Consolidation policies*

The consolidated financial statements have been prepared as a summary of the parent company's and the group enterprises' financial statements by adding together uniform accounting records calculated in accordance with the group's accounting policies.

## Accounting policies

---

Investments in group enterprises are eliminated by the proportionate share of the group enterprises' fair value of net assets and liabilities at the acquisition date.

In the consolidated financial statements, the accounting records of the group enterprises are recognised by 100%. The minority interests' share of the profit for the year and of the equity in the group enterprises, which are not 100% owned, is included in the group's profit and equity, but presented separately.

Purchases and sales of minority interests under continuing control are recognised directly in equity as a transaction between shareholders.

Investments in associates are measured in the statement of financial position at the proportionate share of the enterprises' equity value i calculated in accordance with the parent company's accounting policies and with proportionate elimination of unrealised intercompany gains and losses. In the income statement, the proportional share of the associates' results is recognised after elimination of the proportional share of intercompany gains and losses.

The group activities in joint operations are recognised in the consolidated financial statements record by record.

### Business combinations

#### *Acquisitions completed by the 1 July 2018 or later (method of consolidation)*

Acquisition of group enterprises are dealt with in accordance with the acquisition method, and afterwards the assets and liabilities of the acquired entity are measured at fair value at the date of acquisition. If it is possible to measure the value reliably, acquired contingent liabilities are measured at fair value under the item Equity investments in group enterprises.

The date of acquisition is the date when control of the acquired entity is obtained.

The cost of the acquired entity represents the fair value of the consideration agreed upon, including the considerations that are conditional on future events. Transaction costs directly attributable to the acquisition of group enterprises are recognised in the income statement as incurred.

Positive differences between the cost of the acquired entity and the identified assets and liabilities are recognised in the equity investment as goodwill, which is amortised on a straight-line basis in the income statement over the expected useful life. Amortisation of goodwill is allocated to the functions to which the goodwill relates. If the difference is negative, this is recognised immediately in the income statement.

If the allocation of the purchase price is not final, positive and negative differences from acquired group enterprises may, as a result of changes in recognition and measurement of the identified net assets, be adjusted up to 12 months from the date of acquisition. These adjustments are also reflected in the value of goodwill or negative goodwill, including depreciation already made.

## Accounting policies

---

If the cost includes contingent considerations, these are measured at fair value at the date of acquisition. Subsequently, contingent considerations at fair value are measured again. Value adjustments are recognised in the income statement.

In case of step-by-step acquisitions, the value of the hitherto equity holding in the acquired entity is measured again at the fair value at the date of acquisition. The difference between the carrying amount of the hitherto equity investment and the fair value is recognised in the income statement.

### *Business combinations (the uniting-of-interests method)*

In case of intercompany business combinations, the uniting-of-interests method is applied. By this method, the two enterprises are united at carrying amounts, and differences are not identified. Any considerations exceeding the carrying amount in the acquired entity are recognised directly in equity.

The application of the uniting-of-interests method means that the business combination is implemented as if the two enterprises always were united by modification of comparative figures.

### **Non-controlling interests**

Non-controlling interests constitute a share of the group's total equity. By distribution of net profit, profit or loss for the year is distributed on the share attributable to the non-controlling interests and the share attributable to the parent's shareholders respectively.

## Income statement

### **Revenue**

Revenue is recognised in the income statement if delivery and passing of risk to the buyer have taken place before the end of the year and if the income can be determined reliably and inflow is anticipated. Revenue is measured at the fair value of the consideration promised exclusive of VAT and taxes and less any discounts relating directly to sales.

### **Cost of sales**

Cost of sales comprises costs concerning purchase of raw materials and consumables less discounts and changes in inventories.

### **Other operating income**

Other operating income comprises items of a secondary nature as regards the principal activities of the enterprise, including profit from the disposal of intangible and tangible assets, operating loss and conflict compensation as well as salary reimbursements received. Compensation is recognized when it is overwhelmingly probable that the company will receive the compensation.

## Accounting policies

---

### Other external expenses

Other external expenses comprise expenses incurred for distribution, sales, advertising, administration, premises, loss on receivables, and operational leasing costs.

Included in other external costs are also research and development projects which do not meet the recognition criteria for the balance sheet.

### Staff costs

Staff costs include salaries and wages, including holiday allowances, pensions, and other social security costs, etc., for staff members.

### Depreciation, amortisation, and write-down for impairment

Depreciation, amortisation, and write-down for impairment comprise depreciation on, amortisation of, and write-down for impairment of intangible and tangible assets, respectively.

### Other operating expenses

Other operating expenses comprise items of secondary nature as regards the principal activities of the enterprise, including losses on the disposal of intangible and tangible assets.

### Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, financial expenses from financial leasing, realised and unrealised capital gains and losses relating to securities, debt and transactions in foreign currency, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

### Results from investments in group enterprises

After full elimination of intercompany profit or loss less amortised consolidated goodwill, the equity investment in the individual entities are recognised in the income statement of the parent as a proportional share of the entities' post-tax profit or loss.

### Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognised in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

The parent and the Danish group enterprises are subject to Danish rules on compulsory joint taxation of Danish group enterprises. The parent acts as an administration company in relation to the joint taxation. This means that the total Danish income tax payable by the Danish group companies is paid to the tax authorities by the company.

## Accounting policies

---

The current Danish income tax is allocated among the jointly taxed companies proportional to their respective taxable income (full allocation with reimbursement of tax losses).

### Statement of financial position

#### Intangible assets

##### Acquired rights

Acquired rights are measured at cost less accrued amortisation. Acquired rights are amortised on a straightline basis over the expected period, however, for a maximum of 10 years.

##### Goodwill

Acquired goodwill is measured at cost with deduction of accumulated amortisation. Goodwill is amortised over the estimated useful life, which is determined on the basis of management's experience in the individual business areas. Goodwill is amortised on a straightline basis over the amortisation period, which is set at between 10 and 20 years. The amortisation period is determined on the basis of an expected pay-back period, being the longer for strategic acquirees with a strong market position and an expected longterm earnings profile.

#### Property, plant, and equipment

Property, plant, and equipment are measured at cost less accrued depreciation and write-down for impairment. Land is not subject to depreciation.

The depreciable amount is cost less any expected residual value after the end of the useful life of the asset. The amortisation period and the residual value are determined at the acquisition date and reassessed annually. If the residual value exceeds the carrying amount, the depreciation is discontinued.

If the amortisation period or the residual value is changed, the effect on amortisation will, in future, be recognised as a change in the accounting estimates.

The cost comprises acquisition cost and costs directly associated with the acquisition until the time when the asset is ready for use.

The cost of a total asset is divided into separate components. These components are depreciated separately, the useful lives of each individual components differing, and the individual component representing a material part of the total cost.

Depreciation is done on a straight-line basis according to an assessment of the expected useful life and the residual value of the individual assets:

	Useful life	Residual value
Buildings	10-50 years	0 %
Plant and machinery	5-20 years	0-30 %
Other fixtures and fittings, tools and equipment	3-10 years	0 %

## **Accounting policies**

---

Minor assets with an expected useful life of less than 1 year are recognised as costs in the income statement in the year of acquisition.

Profit or loss derived from the disposal of property, land, and equipment is measured as the difference between the sales price less selling costs and the carrying amount at the date of disposal. Profit or loss is recognised in the income statement as other operating income or other operating expenses.

### **Property, plant, and equipment in progress**

Property, plant, and equipment in progress are measured and recognised as the total costs incurred. When the work has been completed, the total value is transferred to the relevant item under property, plant, and equipment and is amortised from the date of entry into service.

### **Leases**

Leases are regarded as operating leases. Payments in connection with operating leases and other lease agreements are recognised in the income statement for the term of the contract. The group's total liabilities concerning operating leases and lease agreements are recognised under contingencies, etc.

### **Impairment loss relating to non-current assets**

The carrying amount of both intangible and tangible fixed assets as well as equity investments in group enterprises are subject to annual impairment tests in order to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. write-down for impairment is done to the recoverable amount if this value is lower than the carrying amount.

The recoverable amount is the higher value of value in use and selling price less expected selling cost. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the asset group and expected net cash flows from the sale of the asset or the asset group after the end of their useful life.

Previously recognised impairment losses are reversed when conditions for impairment no longer exist. Impairment relating to goodwill is not reversed.

### **Investments**

#### **Investments in group enterprises**

Investments in group enterprises are recognised and measured by applying the equity method. The equity method is used as a method of consolidation.

## Accounting policies

---

Investments in group enterprises are recognised in the statement of financial position at the proportionate share of the enterprise's equity value. This value is calculated in accordance with the parent's accounting policies with deductions or additions of unrealised intercompany gains and losses as well as with additions or deductions of the remaining value of positive or negative goodwill calculated in accordance with the acquisition method. Negative goodwill is recognised in the income statement at the time of acquisition of the equity investment. If the negative goodwill relates to contingent liabilities acquired, negative goodwill is not recognised until the contingent liabilities have been settled or lapsed.

Consolidated goodwill is amortised over its estimated useful life, which is determined on the basis of the management's experience with the individual business areas. Consolidated goodwill is amortised on a straight-line basis over the amortisation period, which represent 10-20 years. The depreciation period is determined on the basis of an assessment that these are strategically acquired enterprises with a strong market position and a long-term earnings profile.

Investments in group enterprises with a negative equity value are measured at DKK 0, and any accounts receivable from these enterprises are written down to the extent that the account receivable is uncollectible. To the extent that the parent has a legal or constructive obligation to cover an negative balance that exceeds the account receivable, the remaining amount is recognised under provisions.

To the extent the equity exceeds the cost, the net revaluation of equity investments in group enterprises transferred to the reserve under equity for net revaluation according to the equity method. Dividends from group enterprises expected to be adopted before the approval of this annual report are not subject to a limitation of the revaluation reserve. The reserve is adjusted by other equity movements in group enterprises.

Newly acquired or newly established companies are recognised in the financial statement as of the time of acquisition. Sold or liquidated companies are recognised until the date of disposal.

On the acquisition of enterprises, the acquisition method, the uniting-of-interests method or the book value method is applied, cf. the above description under Business combinations.

### **Inventories**

Inventories are measured at cost on the basis of weighted measured average prices. In cases when the net realisable value is lower than the cost, the latter is written down for impairment to this lower value.

Costs of goods for resale, raw materials, and consumables comprise acquisition costs plus delivery costs.

## **Accounting policies**

---

Costs of manufactured goods and work in progress comprise the cost of raw materials, consumables, direct wages, and indirect production costs. Indirect production costs comprise indirect materials and wages, maintenance and depreciation of machinery, factory buildings, and equipment used in the production process, and costs for factory administration and factory management. Borrowing expenses are not recognised in cost.

Life stock is measured at market value as stated by Research Center for Agriculture Ø90.

The net realisable value for inventories is recognised as the estimated selling price less costs of completion and selling costs. The net realisable value is determined with due consideration of negotiability, obsolescence, and the development of expected market prices.

### **Receivables**

Receivables are measured at amortised cost, which usually corresponds to nominal value. In order to meet expected losses, impairment takes place at the net realisable value.

### **Prepayments**

Prepayments recognised under assets comprise incurred costs concerning the following financial year.

### **Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and on hand.

### **Equity**

#### **Reserve for foreign currency translation**

The reserve for foreign currency translation arises when translating accounting items in foreign currency.

The reserve is dissolved once the value adjustments have been applied or reversed.

The reserve is distributable.

### **Income tax and deferred tax**

As administration company, Wernsing Scandinavia ApS is liable to the tax authorities for the subsidiaries' corporate income taxes.

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

The company is jointly taxed with consolidated Danish companies. The current corporate income tax is distributed between the jointly taxed companies in proportion to their taxable income and with full distribution with reimbursement as to tax losses. The jointly taxed companies are comprised by the Danish tax prepayment scheme.

## Accounting policies

---

Joint taxation contributions payable and receivable are recognised in the statement of financial position as "Tax receivables from group enterprises" or "Income tax payable to group enterprises"

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Adjustments take place in relation to deferred tax concerning elimination of unrealised intercompany gains and losses.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation prevailing in the respective countries on the reporting date when the deferred tax is expected to be released as current tax. Changes in deferred tax due to changed tax rates are recognised in the income statement, except for items included directly in the equity.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realisable value.

### Provisions

Provisions comprise expected costs of warranty commitments and guarantee liabilities. Provisions are recognised when the group has a legal or actual commitment resulting from a previously occurred event and when it is probable that the settlement of the liability will result in consumption of the financial resources of the group.

Provisions are measured at net realisable value or at fair value. If the fulfilment of a liability is expected to take place far in the future, the liability is measured at fair value.

### Liabilities other than provisions

Other liabilities concerning payables to suppliers, group enterprises, and other payables are measured at amortised cost which usually corresponds to the nominal value.

### Statement of cash flows

The cash flow statement shows the cash flows for the year, divided in cash flows deriving from operating activities, investment activities and financing activities, respectively, the changes in the liabilities, and cash and cash equivalents at the beginning and the end of the year, respectively.

The effect on cash flows derived from the acquisition and sale of enterprises appears separately under cash flows from investment activities. In the statement of cash flows, cash flows derived from acquirees are recognised as of the date of acquisition, and cash flows derived from sold enterprises are recognised until the date of sale.

## **Accounting policies**

---

### **Cash flows from operating activities**

Cash flows from operating activities are calculated as the group's share of the profit adjusted for non-cash operating items, changes in the working capital, and corporate income tax paid. Dividend income from equity investments are recognised under "Interest income and dividend received".

### **Cash flows from investment activities**

Cash flows from investment activities comprise payments in connection with the acquisition and sale of enterprises and activities as well as the acquisition and sale of intangible assets, property, plant, and equipment, and investments, respectively.

### **Cash flows from financing activities**

Cash flows from financing activities include changes in the size or the composition of the group's share capital and costs attached to it, as well as raising loans, repayments of interest-bearing payables and payment of dividend to shareholders.

### **Cash and cash equivalents**

Cash and cash equivalents comprise cash at bank and in hand.

### **Segmental statement**

Information on activity and geographical markets is provided. The segmental statement complies with the consolidated accounting policies, risks, and management control systems of the company.

### 1. Subsequent events

No events have occurred subsequent to the balance sheet date, which would have material impact on the financial position of the company.

### 2. Special items

Special items include significant income and expenses of a special nature relative to the enterprise's ordinary operating activities, such as the cost of extensive structuring of processes and fundamental structural adjustments and any related gains on disposal and losses which, over time, have a significant impact. Special items also include other significant amounts of a nonrecurring nature.

As mentioned in the management commentary, the net profit or loss for the year is affected by a number of factors that differ from what is considered by management to be part of operating activities.

Special items for the year are specified below, indicating where they are recognised in the income statement.

	Group		Parent	
	2022	2021	2022	2021
Expenses:				
Impairment of non-current assets	27.969	3.930	27.969	3.930
Costumer claim	1.000	3.510	1.000	3.510
	<u>28.969</u>	<u>7.440</u>	<u>28.969</u>	<u>7.440</u>
Special items are recognised in the following items in the financial statements:				
Other operating costs	-1.000	-4.500	0	0
Depreciation, amortisation, and impairment	-27.969	-3.930	0	0
Income from investments in subsidiaries	0	0	-28.969	-7.440
Tax on net profit or loss for the year	0	990	0	0
<b>Profit of special items, net</b>	<b><u>-28.969</u></b>	<b><u>-7.440</u></b>	<b><u>-28.969</u></b>	<b><u>-7.440</u></b>
