Notes:

- To ensure the greatest possible applicability of this document, IAS/IFRS English terminology has been used.
- Please note that decimal points have not been used in the usual English way. This means that for instance EUR 146.940 means the amount of EUR 146,940, and that 23,5 % means 23.5 %.

Management's report

Today, the executive board has presented the annual report of 130 Rue du Faubourg Saint Honoré Paris VIII ApS for the financial year 1 March 2020 - 28 February 2021.

The annual report has been presented in accordance with the Danish Financial Statements Act.

We consider the accounting policies appropriate and, in our opinion, the financial statements provide a fair presentation of the company's assets, equity and liabilities, and financial position at 28 February 2021 and of the company's results of activities in the financial year 1 March 2020 – 28 February 2021.

We are of the opinion that the management commentary presents a fair account of the issues dealt with.

We recommend that the annual report be approved by the general meeting.

Copenhagen, 15 September 2021

Executive board

Sebastien Boudreau

Benoit Marie M. Quertemont

Independent auditor's report

To the shareholder of 130 Rue du Faubourg Saint Honoré Paris VIII ApS

Auditor's report on the financial statements

Qualified opinion

We have audited the financial statements of 130 Rue du Faubourg Saint Honoré Paris VIII ApS for the financial year 1 March 2020 - 28 February 2021, which comprise accounting policies, income statement, statement of financial position, statement of changes in equity and notes. The financial statements have been prepared in accordance with the Danish Financial Statements Act.

In our opinion, except for the effects of the matter described in the paragraph "Basis for qualified opinion", the financial statements give a true and fair view of the company's assets, equity and liabilities, and financial position at 28 February 2021 and of the profit of operations for the financial year 1 March 2020 - 28 February 2021 in accordance with the Danish Financial Statements Act.

Basis for qualified opinion

The company's investment properties are measured at fair value. The properties are not rented out as of 28 February 2021 as the management wants to sell the properties with no tenants. Thus, the management has used expected rental income in combination with an estimated required rate of return for the area for valuation of the properties. External valuers have valued the properties as of 31 December 2020. The management has valued the properties at a higher value than the one made by the external valuers due to other prerequisites.

It is our assessment that the management's prerequisites for valuation of the property cannot be used as a basis for measuring the fair value as of 28 February 2021.

It is our assessment that the value of the investment property as of 28 February 2021 amounts to tEUR 481.500 which results in a negative fair value regulation of tEUR -61.500. This fair value regulation will cause a positive adjustment of tax of the year with tEUR 17.220, result of the year will have been reduced with tEUR -44.280 and equity will have been reduced with tEUR -44.280.

We conducted our audit in accordance with international standards on auditing and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the section "Auditor's responsibilities for the audit of the financial statements". We are independent of the company in accordance with international ethical requirements for auditors (IESBA's Code of Ethics), and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Responsibilities of management and those charged with governance for the financial statements

Management is responsible for the preparation of financial statements that provide a fair view in accordance with the Danish Financial Statements Act. Management is also responsible for such internal control as the management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent auditor's report

In preparing the financial statements, management is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report including an opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with international standards on auditing, and the additional requirements applicable in Denmark, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with international standards on auditing, and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's preparation of the financial statements using the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists arising from events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.

Independent auditor's report

- Evaluate the overall presentation, structure, and contents of the financial statements, including disclosures in notes, and whether the financial statements reflect the underlying transactions and events in a manner that presents a fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we express no assurance opinion thereon.

In connection with our audit of the financial statements, it is our responsibility to read the management commentary and to consider whether the management commentary is materially inconsistent with the financial statements or the evidence obtained during the audit, or whether it otherwise appears to contain material misstatement.

Furthermore, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we believe that management commentary is consistent with the financial statements and that it has been prepared in accordance with the provisions of the Danish Financial Statement Act. We did not discover any material misstatement in the management commentary.

Reporting in accordance with other legislation and regulations

In violation of the Danish Financial Statements Act, the company has not prepared the annual report in a timely manner, whereby the management may incur liability.

Management commentary

The principal activities of the company

The company's main activity consists in any kind of financial investment, including, but not limited to buy, own, rent, manage and sell real estate, and any other similar business in accordance with the decision of the executive board.

Uncertainties about recognition or measurement

The company's property is primarily development property and it is therefore difficult to provide a reliable basis for the valuation as the present operational result does not reflect the market value of the property. The measurement of the company's property is therefore subject to uncertainty.

Development in activities and financial matters

The gross loss for the year totals EUR -596.000 against EUR -1.750.000 last year. Income or loss from ordinary activities after tax totals EUR 3.313.000 against EUR 7.239.000 last year. Management considers the net profit or loss for the year satisfactory.

We draw attention to the description of going concern in note 1 to the Financial Statements.

Financial resources

The company's cash reserve is limited, however, it is management's expectation that a positive cash flow will be created through renting out and/or sale of the company's property, whereby the company will be able to meet its liabilities.

With a view to making adequate operating cash funds available, the ultimate Parent Company Paris Premier Properties SARL has issued a letter of support to the Company, which is in force until the 28 February 2022. Based on this, it is Management's assessment that the Company's Annual Report may be presented under the going concern assumption.

Investments

The company's investment property is measured at fair value. The measurement of fair value is based on estimates of existing leases, and current market rent for similar properties, in the same location and condition. The return rate used is significant for the valuation of the company's investment property.

Tax

The company's investment property is established as a branch located in France under the current tax laws. In this regard, the company has acquired an external evaluation of the tax conditions in France. The management concluded, based on the evaluation, that the company does not have any tax obligations which are not included in the balance.

Based on the above, it is the management's overall expectation that the company can run its day to day business with a satisfactory income in the coming year.

Accounting policies

The annual report for 130 Rue du Faubourg Saint Honoré Paris VIII ApS has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises. Furthermore, the company has decided to comply with certain rules applying to reporting class C enterprises.

The accounting policies are unchanged from the previous year, and the annual report is presented in euro (EUR). The accounting period was changed in the financial year before last and, consequently, the comparative figures in the income statement comprise the period 1 October 2019 – 29 February 2020.

We have identified significant errors regarding the classification in previous year's annual report, where the item "payables to group enterprises" and part of the item "other payables" should have been recognized as a long term liability and will in the future be recognized as such.

The changes made have no monetary effect on the net profit or loss for the year or the balance-sheet total for neither the current nor the previous financial year. The comparative figures have been corrected.

Recognition and measurement in general

Income is recognised in the income statement concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs are recognised in the income statement, including depreciations amortisations, writedowns for impairment, provisions, and reversals due to changes in estimated amounts previously recognised in the income statement.

Assets are recognised in the statement of financial position when it seems probable that future economic benefits will flow to the company and the value of the asset can be reliably measured.

Liabilities are recognised in the statement of financial position when it is seems probable that future economic benefits will flow out of the company and the value of the liability can be reliably measured.

Assets and liabilities are measured at cost at the initial recognition. Hereafter, assets and liabilities are measured as described below for each individual accounting item.

Upon recognition and measurement, allowances are made for such predictable losses and risks which may arise prior to the presentation of the annual report and concern matters that exist on the reporting date.

Income statement

Gross loss

Gross loss comprises other external costs.

Other external expenses

Other external expenses comprise expenses for administration and operation of the company's investment properties.

Accounting policies

Value adjustment of investment property

Value adjustment of investment property comprises value adjustments of properties at fair value and profit or loss from the disposal of properties.

Staff costs

Staff costs include salaries and wages, including holiday allowances, pensions, and other social security costs, etc., for staff members. Staff costs are less government reimbursements.

Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses etc.

Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognised in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

The company is subject to taxation in France due to the activity's placement in Paris.

The current French corporate tax is allocated among the jointly taxed companies proportional to their respective taxable income (full allocation with reimbursement of tax losses).

Statement of financial position

Investment property

At the initial recognition, investment property is measured at cost, comprising the cost of the property and directly associated costs, if any.

Hereafter, investment properties are measured individually at an estimated fair value. The properties are measured using a returnbased model, by which the expected future cash flows for the following year, along with a rate of return determined by an external assessor, form the basis for the fair value of the properties. Compared to the previous financial year, the method of measurement remains unchanged.

Costs adding new or improved qualities to an investment property compared to its condition at the time of acquisition, thereby improving the future return on the property, are added to the cost as an improvement. Costs which do not add new or improved qualities to an investment property are recognised in the income statement under the item "Costs concerning investment property".

Like other property, plant, and equipment except for land, investment property has a limited economic life. The impairment taking place concurrently with the ageing of the investment property is reflected in the continuing measurement of the investment property at fair value.

Accounting policies

Value adjustments are recognised in the income statement under the item "Value adjustments of property".

Receivables

Receivables are measured at amortised cost which usually corresponds to face value. In order to meet expected losses, they are written down for impairment to the net realisable value.

Cash on hand and demand deposits

Cash on hand and demand deposits comprise cash at bank and on hand.

Income tax and deferred tax

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

The company is jointly taxed with consolidated Danish companies. The current corporate income tax is distributed between the jointly taxed companies in proportion to their taxable income and with full distribution with reimbursement as to tax losses. The jointly taxed companies are comprised by the French tax prepayment scheme.

Joint taxation contributions payable and receivable are recognised in the statement of financial position as "Income tax receivable" or "Income tax payable".

According to the rules of joint taxation, 130 Rue du Faubourg Saint Honoré Paris VIII ApS is unlimitedly, jointly, and severally liable to pay the French tax authorities the total income tax, including withholding tax on interest, royalties, and dividends, arising from the jointly taxed group of companies.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Adjustments take place in relation to deferred tax concerning elimination of unrealised intercompany gains and losses.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation prevailing in the respective countries on the reporting date when the deferred tax is expected to be released as current tax. Changes in deferred tax due to changed tax rates are recognised in the income statement, except for items included directly in the equity.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realisable value.

Accounting policies

Liabilities other than provisions

Financial liabilities related to borrowings are recognised at the received proceeds less transaction costs incurred. In subsequent periods, the financial liabilities are recognised at amortised cost, corresponding to the capitalised value when using the effective interest rate. The difference between the proceeds and the nominal value is recognised in the income statement during the term of the loan.

Other liabilities are measured at amortised cost which usually corresponds to the nominal value.

The company's investment properties are combined commercial and residential properties of a total of 10.859 square meters placed in the center of Paris. The investment properties are, as described in the used accounting policies, measured at fair value by using a return-based model.

The property occupancy rate is 0% as per 28 February 2021 (2019/20: 0%). In valuating the property a rental income for the not rented square meters have been applied according to the market rent in the area.

The required rate of return has been determined on the basis of market statistics, completed transactions, and management's knowledge of the property market in general. When determining the required rate of return, parameters such as type (residence, office, shop, etc.), location, age, state of maintenance, duration of rental agreements, and tenant credit quality, etc., are considered.

Compared to the previous financial year, the methods of measurement remain unchanged.

The determination of the market value (carrying value) is based on a 3,15% rate of return in the range between 2,20% and 3,25% (2019/20: 3,50%).

	220.236.831	0	220.236.831	0

7. Charges and security

The company's property with a booked value of t.EUR 543.000 has been pledged as collateral for the company's mortgage debt of t.EUR 172.411.

Furthermore, the company's property has been pledged as intra-group collateral for the group mortgage loans with a total booked value of t.EUR 285.366, and a corresponding booked value of group properties of t.EUR 877.000, also pledged for the group mortgage loans.

8. Contingencies

Joint taxation

With Foncière du Triangle d'Or ApS, company reg. no 30542703 as administration company, the company is subject to the French scheme of joint taxation and unlimitedly, jointly, and severally liable, along with the other jointly taxed companies, for the total corporation tax.

The company is unlimitedly, jointly, and severally liable, along with the other jointly taxed companies, for any obligations to withhold tax on interest, royalties, and dividends.

The jointly taxed enterprises' total known net liability to the French tax authorities emerges from the financial statements of the administration company.

Any subsequent adjustments of corporate taxes or withholding tax, etc., may result in changes in the company's liabilities.
