Notes:

- To ensure the greatest possible applicability of this document, IAS/IFRS English terminology has been used.
- Please note that decimal points have not been used in the usual English way. This means that for instance EUR 146.940 means the amount of EUR 146,940, and that 23,5 % means 23.5 %.

Management's statement

Today, the executive board has presented the annual report of Foncière du Triangle d'Or ApS for the financial year 1 March 2021 - 28 February 2022.

The annual report has been presented in accordance with the Danish Financial Statements Act.

We consider the accounting policies appropriate and, in our opinion, the consolidated financial statements and the financial statements provide a fair presentation of the assets, equity and liabilities, and the financial position, consolidated and for the company, respectively, at 28 February 2022, and of the result of the activities, consolidated and of the company, respectively, during the financial year 1 March 2021 – 28 February 2022.

We are of the opinion that the management commentary presents a fair account of the issues dealt with.

We recommend that the annual report be approved at the Annual General Meeting.

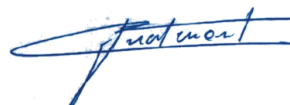

København V, 12 September 2022

Executive board

Sebastien Boudreau

Benoit Marie M. Quertemont

Independent auditor's report

To the shareholder of Foncière du Triangle d'Or ApS

Qualified opinion

We have audited the consolidated financial statements and the financial statements of Foncière du Triangle d'Or ApS for the financial year 1 March 2021 to 28 February 2022, which comprise accounting policies, income statement, statement of financial position, statement of changes in equity and notes, consolidated and of the company, respectively and consolidated statement of cash flows. The consolidated financial statements and the financial statements have been prepared in accordance with the Danish Financial Statements Act.

In our opinion, except for the effects of the matter described in the paragraph "Basis for qualified opinion", the consolidated financial statements and the financial statements give a true and fair view of the assets, equity and liabilities, and financial position, consolidated and for the company, respectively, at 28 February 2022 and of the profit of operations, consolidated and for the company, respectively and of consolidated cash flows, for the financial year 1 March 2021 - 28 February 2022 in accordance with the Danish Financial Statements Act.

Basis for qualified opinion

We conducted our audit in accordance with international standards on auditing and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the section "Auditor's responsibilities for the audit of the consolidated financial statements and the financial statements". We are independent of the company in accordance with international ethical requirements for auditors (IESBA's Code of Ethics), and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Material uncertainties concerning the company's ability to continue as a going concern

Without qualifying our opinion, we draw attention to note 1 in which the management describes the group's financial situation. We concur with the management's description of the financial situation.

Emphasis of matter

Without qualifying our opinion, we draw attention to note 1 in which the management describes the uncertainty associated with the valuation of the group's investments properties. We concur with the management's description of the uncertainties and the accounting treatment.

Responsibilities of management and those charged with governance for the consolidated financial statements and the financial statements

Management is responsible for the preparation of consolidated financial statements and financial statements that provide a fair view in accordance with the Danish Financial Statements Act. Management is also responsible for such internal control as the management determines is necessary to enable the preparation of consolidated financial statements and financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements and the financial statements, management is responsible for assessing the group's and the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the group or the company or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's responsibilities for the audit of the consolidated annual accounts and the financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements and the financial statements, as a whole, are free from material misstatement, whether due to fraud or error, and to issue an auditor's report including an opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with international standards on auditing, and the additional requirements applicable in Denmark, will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements and financial statements.

As part of an audit conducted in accordance with international standards on auditing, and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements and financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's and the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's preparation of the consolidated financial statements and the financial statements using the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists arising from events or conditions that may cast significant doubt on the group's and the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements and the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group and the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure, and contents of the consolidated financial statements and the financial statements, including disclosures in notes, and whether the consolidated financial statements and the financial statements reflect the underlying transactions and events in a manner that presents a fair view.

Independent auditor's report

- Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or the business activities within the group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the consolidated financial statements and the financial statements does not cover the management commentary, and we express no assurance opinion thereon.

In connection with our audit of the consolidated financial statements and the financial statements, it is our responsibility to read the management commentary and to consider whether the management commentary is materially inconsistent with the consolidated financial statements or the financial statements or the evidence obtained during the audit, or whether it otherwise appears to contain material misstatement.

Furthermore, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we believe that the management commentary is consistent with the consolidated financial statements and the financial statements and that it has been prepared in accordance with the provisions of the Danish Financial Statement Act. We did not discover any material misstatement in the management commentary.

Management's review

The principal activities of the group

The group's main activity consists in any kind of financial investment, including but not limited to, buy, own, rent, manage and sell real estate, and any other similar business in accordance with the decision of the executive board.

The group's investment properties is established as a branch located in France under the current tax laws. In this regard, the group has acquired an external evaluation of the tax conditions in France. The management concluded, based on the evaluation, that the group does not have any tax obligations which are not included in the balance.

Uncertainties about recognition or measurement

The group's properties is primarily development properties and it is therefore difficult to provide a reliable basis for the valuation as the present operational result does not reflect the market value of the properties. The measurement of the group's properties is therefore subject to uncertainty.

Development in activities and financial matters

The results from ordinary activities after tax totals t.EUR 162.063 against t.EUR 30.900 last year. Management considers the results satisfactory.

The group's investment properties is measured at fair value. The measurement of fair value is based on estimates of existing leases, and current market rent for similar properties, in the same location and condition. The rate of return used is significant for the valuation of the group's investments properties.

Special risks

Financial risks

The group's cash reserve is limited, however, it is management's expectation that a positive cash flow will be created through renting out and/or sale of the group's properties, whereby the group will be able to meet its liabilities. Further, the group's parent company has provided a letter of support, expiring 28 February 2023, in which they declare to ensure that there will be sufficient funds in the groups to cover its current operations.

Interest risks

As the interest bearing debt is of a material amount, changes in the interest rates will have a material direct impact on the results.

Environmental issues

The group has in our opinion no special impact on the external environment and therefore no specific environmental policy.

Know how resources

The activity of the group does not require large know how resources and therefore the group has no knowledge resources or research and development activities.

Management's review

Expected developments

Based on the above, it is the management's overall expectation that the group can run its day to day business with a satisfactory income in the coming year. The result is expected to reach same level as for 2021/21, which may be affected by disposals of properties.

Events occurring after the end of the financial year

No events have occurred after the balance sheet date which could significantly affect the group's and the parent company's financial position.

Statement of corporate social responsibility

Business model and engagement

The group does not have any policies or activities regarding corporate social responsibility and data ethics, due to the main activity consisting of property development.

Target figures and policies for the underrepresented gender

The group has no target figures or policies for the under-represented sex.

Accounting policies

The annual report for Foncière du Triangle d'Or ApS has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class C enterprises (large enterprises).

The accounting policies are unchanged from the previous year, and the annual report is presented in euro (EUR).

Recognition and measurement in general

Income is recognised in the income statement concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs are recognised in the income statement, including depreciations amortisations, writedowns for impairment, provisions, and reversals due to changes in estimated amounts previously recognised in the income statement.

Assets are recognised in the statement of financial position when it seems probable that future economic benefits will flow to the group and the value of the asset can be reliably measured.

Liabilities are recognised in the statement of financial position when it is seems probable that future economic benefits will flow out of the group and the value of the liability can be reliably measured.

Assets and liabilities are measured at cost at the initial recognition. Hereafter, assets and liabilities are measured as described below for each individual accounting item.

Upon recognition and measurement, allowances are made for such predictable losses and risks which may arise prior to the presentation of the annual report and concern matters that exist on the reporting date.

The consolidated financial statements

The consolidated income statements comprise the parent company Foncière du Triangle d'Or ApS and those group enterprises of which Foncière du Triangle d'Or ApS directly or indirectly owns more than 50 % of the voting rights or in other ways exercise control.

Consolidation policies

The consolidated financial statements have been prepared as a summary of the parent company's and the group enterprises' financial statements by adding together uniform accounting records calculated in accordance with the group's accounting policies.

Investments in group enterprises are eliminated by the proportionate share of the group enterprises' market value of net assets and liabilities at the acquisition date.

Accounting policies

Income statement

Revenue

Revenue is recognised in the income statement if delivery and passing of risk to the buyer have taken place before the end of the year and if the income can be determined reliably and inflow is anticipated. Recognition of revenue is exclusive of VAT and taxes and less any discounts relating directly to sales.

The revenue comprises of rental income from the lease of properties and charged joint costs, and it is recognised in the income statement for the period relating to the lease payment.

Other external costs

Other external costs comprises costs for administration and operation of the group's properties.

Value adjustment of investment property

Value adjustment of investment property comprises value adjustments of properties at fair value and profit or loss from the disposal of properties.

Staff costs

Staff costs include salaries and wages, including holiday allowances, pensions, and other social security costs, etc., for staff members. Staff costs are less government reimbursements.

Other operating costs

Other operating costs comprise items of secondary nature as regards the principal activities of the enterprise, including losses on the disposal of intangible and tangible assets.

Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, realised and unrealised capital gains and losses relating to financial assets and liabilities, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the French tax prepayment scheme, etc.

Results from equity investments in group enterprises

After full elimination of intercompany profit or loss less amortised consolidated goodwill, the equity investment in the individual group enterprises are recognised in the income statement of the parent as a proportional share of the group enterprises' post-tax profit or loss.

Tax on net profit or loss for the year

Tax for the year comprises the current income tax for the year and changes in deferred tax and is recognised in the income statement with the share attributable to the net profit or loss for the year and directly in equity with the share attributable to entries directly in equity.

Accounting policies

The parent and the Danish group enterprises are subject to French rules on compulsory joint taxation of the consolidated Danish group enterprises. The parent acts as an administration company in relation to the joint taxation. This means that the total French income tax payable by the Danish group companies is paid to the tax authorities by the company.

The current French income tax is allocated among the jointly taxed companies proportional to their respective taxable income (full allocation with reimbursement of tax losses).

Statement of financial position

Investment property

At the initial recognition, investment property is measured at cost, comprising the cost of the property and directly associated costs, if any.

On subsequent recognition, investment properties are measured at fair value, corresponding to the amount the properties would be able to sell for to an independent buyer on the balance sheet date. The fair value are measured using a return-based model, using a capitalized value of the expected future cash flows for the investment properties. The calculation is based on the budgetted net earnings for the coming year, adjusted to normal earnings and by using a rate of return, that reflects the current rate of return for similar investment properties. Compared to the previous financial year, the method of measurement remains unchanged.

Costs adding new or improved qualities to an investment property compared to its condition at the time of acquisition, thereby improving the future return on the property, are added to the cost as an improvement. Costs which do not add new or improved qualities to an investment property are recognised in the income statement under the item "Other external costs".

Like other property, plant, and equipment except for land, investment property has a limited economic life. The impairment taking place concurrently with the ageing of the investment property is reflected in the continuing measurement of the investment property at fair value.

Value adjustments are recognised in the income statement under the item "Value adjustments of property".

Investments

Equity investments in group enterprises

Equity investments in group enterprises are recognised and measured by applying the equity method. The equity method is used as a method of consolidation.

Accounting policies

Equity investments in group enterprises are recognised in the statement of financial position at the proportionate share of the enterprise's equity value. This value is calculated in accordance with the parent's accounting policies with deductions or additions of unrealised intercompany gains and losses as well as with additions or deductions of the remaining value of positive or negative goodwill calculated in accordance with the acquisition method. Negative goodwill is recognised in the income statement at the time of acquisition of the equity investment. If the negative goodwill relates to contingent liabilities acquired, negative goodwill is not recognised until the contingent liabilities have been settled or lapsed.

Equity investments in group enterprises with a negative equity value are recognised at no value, and any accounts receivable from these enterprises are written down to the extent that the account receivable is uncollectible. To the extent that the parent has a legal or constructive obligation to cover a negative balance that exceeds the account receivable, the remaining amount is recognised under provisions.

To the extent the equity exceeds the cost, the net revaluation of equity investments in group enterprises are transferred to the reserve under equity for net revaluation according to the equity method. Dividends from group enterprises expected to be adopted before the approval of this annual report are not subject to a limitation of the revaluation reserve. The reserve is adjusted by other equity movements in group enterprises.

Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value. In order to meet expected losses, they are written down for impairment to the net realisable value.

Cash on hand and demand deposits

Cash on hand and demand deposits comprise cash at bank and on hand.

Equity

Reserve for net revaluation according to the equity method

The reserve for net revaluation according to the equity method comprises net revaluation of equity investments in subsidiaries, associates and equity interests proportional to cost.

The reserve may be eliminated in the event of losses, realisation of equity investments, or changes in the accounting estimates.

The reserve cannot be recognised by a negative amount.

Income tax and deferred tax

As administration company, Foncière du Triangle d'Or ApS is liable to the tax authorities for the subsidiaries' corporate income taxes.

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

Accounting policies

The company is jointly taxed with consolidated Danish companies. The current corporate income tax is distributed between the jointly taxed companies in proportion to their taxable income and with full distribution with reimbursement as to tax losses. The jointly taxed companies are comprised by the French tax prepayment scheme.

Joint taxation contributions payable and receivable are recognised in the statement of financial position as "Income tax receivable" or "Income tax payable".

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Adjustments take place in relation to deferred tax concerning elimination of unrealised intercompany gains and losses.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation prevailing in the respective countries on the reporting date when the deferred tax is expected to be released as current tax. Changes in deferred tax due to changed tax rates are recognised in the income statement, except for items included directly in the equity.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realisable value.

Liabilities other than provisions

Financial liabilities other than provisions related to borrowings are recognised at the received proceeds less transaction costs incurred. In subsequent periods, the financial liabilities are recognised at amortised cost, corresponding to the capitalised value when using the effective interest rate. The difference between the proceeds and the nominal value is recognised in the income statement during the term of the loan.

Mortgage loans and bank loans are thus measured at amortised cost which, for cash loans, corresponds to the outstanding payables. For bond loans, the amortised cost corresponds to an outstanding payable calculated as the underlying cash value at the date of borrowing, adjusted by amortisation of the market value on the date of the borrowing effectuated over the repayment period.

Other liabilities are measured at amortised cost which usually corresponds to the nominal value.

Accruals and deferred income

Payments received concerning future income are recognised under accruals and deferred income.

Statement of cash flows

The cash flow statement shows the cash flows for the year, divided in cash flows deriving from operating activities, investment activities and financing activities, respectively, the changes in the liabilities, and cash and cash equivalents at the beginning and the end of the year, respectively.

Accounting policies

The effect on cash flows derived from the acquisition and sale of enterprises appears separately under cash flows from investment activities. In the statement of cash flows, cash flows derived from acquirees are recognised as of the date of acquisition, and cash flows derived from sold enterprises are recognised until the date of sale.

Cash flows from operating activities

Cash flows from operating activities are calculated as the group's share of the profit adjusted for non-cash operating items, changes in the working capital, and corporate income tax paid. Dividend income from equity investments are recognised under "Interest income and dividend received".

Cash flows from investment activities

Cash flows from investment activities comprise payments in connection with the acquisition and sale of enterprises and activities as well as the acquisition and sale of intangible assets, property, plant, and equipment, and investments, respectively.

Cash flows from financing activities

Cash flows from financing activities include changes in the size or the composition of the group's share capital and costs attached to it, as well as raising loans, repayments of interest-bearing payables and payment of dividend to shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and in hand with deduction of short-term bank debts and short-term securities with a maturity less than 3 months that are readily convertible into cash and which are subject to an insignificant risk of changes in value.

1. Financial statement uncertainties

It is management's expectation that a positive cash flow will be created through renting out and/or selling of the group's properties, whereby the group will be able to meet its liabilities. Further, the group's parent company has provided a letter of support, expiring February 28th, 2023, in which they declare to ensure that there will be sufficient funds in the group to cover its current operations.

The group's properties is primarily development properties and it is therefore difficult to provide a reliable basis for the valuation as the present operational result does not reflect the market value of the properties.

| Carrying amount, 28 February 2022 | 1.655.400 | 1.419.100 |

The groups investment properties are combined, residential, commercial and office properties, placed in the center of Paris. The investment properties are as described in the used accounting policies measured at fair value by using a return-based model. Indications of the price have been provided by a third party.

In valuating the properties a rent for the not leased square meters have been applied according to the market rent in the area.

In calculating the groups investment properties' fair value a rate of return between 2,80 % - 3,50 % have been used.
