Statement by the Board of Directors and the Executive Board

Today, the Board of Directors and the Executive Board have discussed and approved the annual report of Orbit Online A/S for the financial year 1 January - 31 December 2021.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2021 and of the results of the Company's operations for the financial year 1 January - 31 December 2021.

Further, in our opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the annual general meeting.

Independent auditor's report

To the shareholders of Orbit Online A/S

Conclusion

We have conducted an extended review of the financial statements of Orbit Online A/S for the financial year 1 January - 31 December 2021, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

Based on the work we have performed, in our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2021 and of the results of the Company's operations for the financial year 1 January - 31 December 2021 in accordance with the Danish Financial Statements Act.

Basis for conclusion

We conducted our extended review in accordance with the Danish Business Authority's standard on extended review for Small entities and FSR - Danish Auditors' standard on extended review of financial statements prepared in accordance with the Danish Financial Statements Act. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the extended review of the financial statements" section. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control that Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the extended review of the financial statements

Our responsibility is to express a conclusion on the financial statements. This requires that we plan and perform procedures to obtain limited assurance for our conclusion on the financial statements and perform specifically required supplementary procedures to obtain additional assurance for our conclusion.

An extended review comprises procedures that primarily consist of making enquiries of Management and others within the Company, as appropriate, analytical procedures and the specifically required supplementary procedures as well as evaluation of the evidence obtained.

The procedures performed in an extended review are less than those performed in an audit, and accordingly, we do not express an audit opinion on the financial statements.

Independent auditor's report

Statement on the Management's review

Management is responsible for the Management's review.

Our conclusion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our extended review of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the extended review, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Management's review

Business review

The Company is primarily engaged in development and sale of web-based it-solutions and consulting services.

Unusual matters having affected the financial statements

During the financial year, a material misstatement has been found regarding deferred income, which affects the company's previously filed annual reports. The misstatement has resulted in the recognized entity's revenue in previous periods being recognized at excessive amounts and the 2020 financial statements did not present a true and fair view. Therefore, the error has been corrected as a material misstatement by restating comparatives and opening equity figures in the current-year financial statements.

In consequence of the restatement, revenue for 2020 has been adversely negative affected by DKK 503,283 and deferred income have been adversely affected by DKK 503,283. Equity has been adversely negative affected by DKK 503,283. The opening equity 2020 has been adversely affected by DKK 1,767,018. Reference is also made to note 1 under accounting policies.

Financial review

The income statement for 2021 shows a profit of DKK 513 thousand against a profit of DKK 543 thousand last year, and the balance sheet at 31 December 2021 shows equity of DKK 3,689 thousand.

Despite the continued global challenges 2021 had to offer, Orbit Online has once again had an excellent year with both strong customer engagement, results, and strategic focus.

Strategy

In the beginning of 2021, we began implementing a new go-to-market strategy based on inbound marketing and launched a brand-new website. Along with the already established sales department, the marketing effort will bring Orbit to the market on a larger scale in our target industries.

Orbit is a modern SaaS platform with a seamlessly collaborating set of modules that ease and automate core processes related to sales and production / delivery in project driven organizations. The focus on specific instead of general use cases has proven valuable in scaling the marketing effort.

The strategic focus enables us to target the core strategic companies in need of a new tool more efficiently with industry specific communication and value propositions.

Economy

Financially, 2021 was an excellent year. A low customer churn combined with extreme focus on digitalization among existing customers, plus new customers with large organizations, has once again resulted in a significant increase in recurring revenue.

Events after the balance sheet date

No events materially affecting the Company's financial position have occurred subsequent to the financial year-end.

Outlook

The primary focus of 2022 is to follow our strategic goals, which are to implement and increase both the recurring revenue and profit. At the same time, we will continuously develop Orbit to keep the product relevant and modern, and to reach our target groups which more than ever face a constantly changing environment.

Notes to the financial statements

1 Accounting policies

The annual report of Orbit Online A/S for 2021 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to reporting class B entities and elective choice of certain provisions applying to reporting class C entities.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

Material misstatements

During the financial year, a material misstatement has been found regarding deferred income, which affects the company's previously filed annual reports. The misstatement has resulted in the recognized entity's revenue in previous periods being recognized at excessive amounts and the 2020 financial statements did not present a true and fair view. Therefore, the error has been corrected as a material misstatement by restating comparatives and opening equity figures in the current-year financial statements.

In consequence of the restatement, revenue for 2020 has been adversely affected by DKK 503.283 and deferred income have been adversely affected by DKK 503.283. Equity has been adversely negative affected by DKK 503.283. The opening equity 2020 has been adversely affected by DKK 1.767.018. Reference is also made to the comments in the Management's review.

Reporting currency

The financial statements are presented in Danish kroner (DKK).

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rate at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the most recent financial statements is recognised in the income statement as financial income or financial expenses.

Income statement

Revenue

The Company has chosen IAS 11/IAS 18 as interpretation for revenue recognition.

Income from the sale of web-based IT solutions and consulting services is recognised as revenue at the time of delivery and the transfer of the risk to the buyer.

Revenue is measured at the fair value of the agreed consideration excluding VAT and taxes charged on behalf of third parties. All discounts and rebates granted are recognised in revenue.

Gross profit

The items revenue, other operating income and external expenses have been aggregated into one item in the income statement called gross margin in accordance with section 32 of the Danish Financial Statements Act.

Financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Other operating income

Other operating income comprise items of a secondary nature relative to the Company's core activities, including gains on the sale of fixed assets.

External expenses

Other external expenses include the year's expenses relating to the entity's core activities, including expenses relating to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

Staff costs

Staff costs include wages and salaries, including compensated absence and pension to the Company's employees, as well as other social security contributions, etc. The item is net of refunds from public authorities.

Amortisation/depreciation and impairment

The item comprises amortisation/depreciation and impairment of intangible assets and property, plant and equipment.

The cost net of the expected residual value for completed development projects and acquired IP rights is amortised over the expected useful life. Acquired IP rights include patents, rights and licences.

Where individual components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items, which are depreciated separately.

The basis of depreciation, which is calculated as cost less any residual value, is depreciated on a straight line basis over the expected useful life. The expected useful lives of the assets are as follows:

Other fixtures and fittings, tools and equipment	3-5 years
--	-----------

Depreciation is based on the residual value of the asset and is reduced by impairment losses, if any. The depreciation period and the residual value are determined at the acquisition date and are reassessed annually. Where the residual value exceeds the carrying amount of the asset, no further depreciation charges are recognised.

In the case of changes in the depreciation period or the residual value, the effect on the depreciation charges is recognised prospectively as a change in accounting estimates.

Financial expenses

Financial expenses are recognised in the income statements at the amounts that concern the financial year. Net financials include interest expenses as well as allowances and surcharges under the advance-payment-of-tax scheme, etc.

Tax

Tax for the year includes current tax on the year's expected taxable income and the year's deferred tax adjustments. The portion of the tax for the year that relates to the profit/loss for the year is recognised in the income statement, whereas the portion that relates to transactions taken to equity is recognised in equity.

The entity is jointly taxed with other group entities. The total Danish income tax charge is allocated between profit/loss-making Danish entities in proportion to their taxable income (full absorption).

Financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Jointly taxed entities entitled to a tax refund are reimbursed by the management company based on the rates applicable to interest allowances, and jointly taxed entities which have paid too little tax pay a surcharge according to the rates applicable to interest surcharges to the management company.

Balance sheet

Intangible assets

Development costs comprise expenses, salaries and amortisation directly or indirectly attributable to development activities.

Development projects that are clearly defined and identifiable, where the technical feasibility, sufficient resources and a potential future market or development opportunities are identifiable and where the Company intends to produce, market or use the project, are recognised as intangible assets provided that the cost can be measured reliably and that there is sufficient assurance that future earnings can cover production costs, selling costs and administrative expenses and development costs. Other development costs are recognised in the income statement as incurred.

Development costs that are recognised in the balance sheet are measured at cost less accumulated amortisation and impairment losses.

On completion of a development project, development costs are amortised on a straight-line basis over the estimated useful life. The amortisation period is usually 4-5 years.

Property, plant and equipment

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes the acquisition price and costs directly related to the acquisition until the time at which the asset is ready for use.

Receivables

Receivables are measured at amortised cost.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Receivables in respect of which there is no objective evidence of individual impairment are tested for objective evidence of impairment on a portfolio basis. The portfolios are primarily based on the debtors' domicile and credit ratings in line with the Company's risk management policy. The objective evidence applied to portfolios is determined based on historical loss experience.

Impairment losses are calculated as the difference between the carrying amount of the receivables and the present value of the expected cash flows, including the realisable value of any collateral received. The effective interest rate for the individual receivable or portfolio is used as discount rate.

Prepayments

Prepayments recognised under "Assets" comprise prepaid expenses regarding subsequent financial reporting years.

Cash

Cash comprise cash and short term securities which are readily convertible into cash and subject only to minor risks of changes in value.

Financial statements 1 January - 31 December

Notes to the financial statements

1 Accounting policies (continued)

Equity

Reserve for development costs

The reserve for development costs comprises recognised development costs. The reserve cannot be used to distribute dividend or cover losses. The reserve will be reduced or dissolved if the recognised development costs are amortised or are no longer part of the Company's operations by a transfer directly to the distributable reserves under equity.

Proposed dividends

Dividend proposed for the year is recognised as a liability once adopted at the annual general meeting (declaration date). Dividends expected to be distributed for the financial year are presented as a separate item under "Equity".

Income taxes

Current tax payables and receivables are recognised in the balance sheet as the estimated income tax charge for the year, adjusted for prior-year taxes and tax paid on account.

Deferred tax is measured according to the liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to goodwill which is not deductible for tax purposes and on office premises and other items where temporary differences, apart from business combinations, arise at the date of acquisition without affecting either profit/loss for the year or taxable income. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax is measured according to the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax assets are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Changes in deferred tax due to changes in the tax rate are recognised in the income statement.

Other payables

Other payables are measured at net realisable value.

Deferred income

Deferred income recognised as a liability comprises payments received concerning income in subsequent financial reporting years.

Amortised over		<u>4-5 years</u>	

Completed development projects

Completed development projects include development of Orbit, so that it is ensured that Orbit remains relevant and modern in relation to the market, as well as to target Orbit to the industries that are strategically focused on. The costs incurred are capitalized labor costs. Completed development projects will be amortised over 4-5 years.

Management has high expectations of the use of the system and has not identified any indication of impairment in relation to the carrying amount of the system.

Financial statements 1 January - 31 December

Notes to the financial statements

5 Property, plant and equipment

DKK	<u>Other fixtures and fittings, tools and equipment</u>
Cost at 1 January 2021	379,411
Cost at 31 December 2021	379,411

Impairment losses and depreciation at 31 December 2021	365,594
Carrying amount at 31 December 2021	13,817

6 Non-current liabilities other than provisions

Of the long-term liabilities, DKK 607 thousand falls due for payment after more than 5 years after the balance sheet date.

7 Contractual obligations and contingencies, etc.

Contingent liabilities

Other contingent liabilities

The Company is jointly taxed with its parent company, René Dalsgaard Holding ApS, which acts as management company, and has limited and alternative liability together with other jointly taxed group entities for payment of income taxes for income year 2014 onwards as well as withholding taxes on interest, royalties and dividends.

Other financial obligations

Rent and lease liabilities include a rent obligation totalling DKK 220 thousand in interminable rent agreements with remaining contract terms of 6 months.

8 Collateral

The Company has granted a company charge of DKK 500 thousand for the Company's bank debt, secured upon debtors, inventories, other fixtures and fittings, tools and equipment and goodwill etc. with a carrying amount of DKK 2,262 thousand.
