Notes to users of the English version of this document:

- To ensure the greatest possible applicability of this document, British English terminology has been used.
- Please note that decimal points remain unchanged from the Danish version of the document. This means that for instance EUR 146.940 is the same as the English amount of EUR 146,940, and that 23,5 % is the same as the English 23.5 %.

Management's report

The executive board has today presented the annual report of 61 Avenue Marceau Paris XVI ApS for the financial year 1 October 2016 to 30 September 2017.

The annual report has been presented in accordance with the Danish Financial Statements Act.

We consider the accounting policies used appropriate, and in our opinion the annual accounts provide a true and fair view of the company's assets and liabilities and its financial position as on 30 September 2017 and of the company's results of its activities in the financial year 1 October 2016 to 30 September 2017.

We are of the opinion that the management's review includes a fair description of the issues dealt with.

The annual report is recommended for approval by the general meeting.

København, 28 February 2018

Executive board

Jeffrey Savoie

Mads Harboe Nørring

Independent auditor's report

To the shareholder of 61 Avenue Marceau Paris XVI ApS

Opinion

We have audited the annual accounts of 61 Avenue Marceau Paris XVI ApS for the financial year 1 October 2016 to 30 September 2017, which comprise accounting policies used, profit and loss account, balance sheet and notes. The annual accounts are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the annual accounts give a true and fair view of the company's assets, liabilities and financial position at 30 September 2017 and of the results of the company's operations for the financial year 1 October 2016 to 30 September 2017 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with international standards on auditing and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the below section "Auditor's responsibilities for the audit of the annual accounts". We are independent of the company in accordance with international ethics standards for accountants (IESBA's Code of Ethics) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these standards and requirements. We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainties concerning the enterprise's ability to continue as a going concern

Without qualifying our opinion, we draw attention to note 1 in which the management describes the company's financial situation. We concur with the management's description of the financial situation.

Emphasis of matter

Without qualifying our opinion, we draw attention to note 1 in which the management describes the uncertainty associated with the valuation of the company's investments properties. We concur with the management's description of the uncertainties and the accounting treatment.

The management's responsibilities for the annual accounts

The management is responsible for the preparation of annual accounts that give a true and fair view in accordance with the Danish Financial Statements Act. The management is also responsible for such internal control as the management determines is necessary to enable the preparation of annual accounts that are free from material misstatement, whether due to fraud or error.

In preparing the annual accounts, the management is responsible for evaluating the company's ability to continue as a going concern, and, when relevant, disclosing matters related to going concern and using the going concern basis of accounting when preparing the annual accounts, unless the management either intends to liquidate the company or to cease operations, or if it has no realistic alternative but to do so.

Independent auditor's report

Auditor's responsibilities for the audit of the annual accounts

Our objectives are to obtain reasonable assurance about whether the annual accounts as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report including an opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with international standards on auditing and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements may arise due to fraud or error and may be considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions made by users on the basis of the annual accounts.

As part of an audit conducted in accordance with international standards on auditing and the additional requirements applicable in Denmark, we exercise professional evaluations and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement in the annual accounts, whether due to fraud or error, design and perform audit procedures in response to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than the risk of not detecting a misstatement resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used by the management and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of the management's preparation of the annual accounts being based on the going concern principle and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may raise significant doubt about the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the annual accounts or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the annual accounts, including the disclosures in the notes, and whether the annual accounts reflect the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in the internal control that we identify during our audit.

Independent auditor's report

Statement on the management's review

The management is responsible for the management's review.

Our opinion on the annual accounts does not cover the management's review, and we do not express any kind of assurance opinion on the management's review.

In connection with our audit of the annual accounts, our responsibility is to read the management's review and in that connection consider whether the management's review is materially inconsistent with the annual accounts or our knowledge obtained during the audit, or whether it otherwise appears to contain material misstatement.

Furthermore, it is our responsibility to consider whether the management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we believe that the management's review is in accordance with the annual accounts and that it has been prepared in accordance with the requirements of the Danish Financial Statement Acts. We did not find any material misstatement in the management's review.

Management's review

The principal activities of the company

The company's main activity consists in any kind of financial investment, including, but not limited to, buy, own, rent, manage and sell real estate, and any other similar business in accordance with the decision of the executive board.

Uncertainties as to recognition or measurement

The company's property is primarily development property and it is therefore difficult to provide a reliable basis for the valuation as the present operational result does not reflect the market value of the property. The measurement of the company's property is therefore subject to uncertainty.

Development in activities and financial matters

The results from ordinary activities after tax are t.EUR 504. The management consider the results satisfactory.

The company's investment property is measured at fair value. The measurement of fair value is based on estimates of existing leases, and current market rent for similar properties, in the same location and condition. The discount rate used is significant for the valuation of the company's investment property.

The company's cash reserve is limited, however, it is management's expectation that a positive cash flow will be created through renting out and/or sale of the company's property, whereby the company will be able to meet its liabilities. Further, the company's parent company has provided a letter of support, expiring September 30, 2018, in which they declare to ensure that there will be sufficient funds in the company to cover its current operations.

The company's investment property is established as a branch located in France under the current tax laws. In this regard, the company has acquired an external evaluation of the tax conditions in France. The management concluded, based on the evaluation, that the company does not have any tax obligations which are not included in the balance.

Based on the above, it is the management's overall expectation that the company can run its day to day business with a satisfactory income in the coming year.

Accounting policies used

The annual report for 61 Avenue Marceau Paris XVI ApS is presented in accordance with those regulations of the Danish Financial Statements Act concerning companies identified as class B enterprises. Furthermore, the company has chosen to comply with some of the rules applying for class C enterprises.

The accounting policies used are unchanged compared to last year, and the annual report is presented in euro (EUR).

Recognition and measurement in general

Income is recognised in the profit and loss account concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs, these including depreciation, amortisation, writedown, provisions, and reversals which are due to changes in estimated amounts previously recognised in the profit and loss account are recognised in the profit and loss account.

Assets are recognised in the balance sheet when the company is liable to achieve future, financial benefits and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the company is liable to lose future, financial benefits and the value of the liability can be measured reliably.

At the first recognition, assets and liabilities are measured at cost. Later, assets and liabilities are measured as described below for each individual accounting item.

Certain fixed asset investments and liabilities are measured at amortised cost, by which method a fixed, effective interest is recognised during the useful life of the asset or the liability. Amortised cost is recognised as the original cost with deduction of any payments and additions/deductions of the accrued amortisation of the difference between cost and nominal amount. In this way capital losses and capital profits are spread over the useful life.

At recognition and measurement, such predictable losses and risks are taken into consideration, which may appear before the annual report is presented, and which concerns matters existing on the balance sheet date.

The profit and loss account

Gross profit

The gross profit comprises rental income and other external costs.

Rental income from investment property

Rental income comprises income from the lease of property and from charged joint costs, and it is recognised in the profit and loss account for the period relating to the lease payment.

Accounting policies used

Other external expenses

Other external expenses comprise expenses for administration and operation of the company's properties.

Value adjustment of investment property

Value adjustment of investment property comprises value adjustments of properties at fair value and gain or loss from disposal of properties.

Net financials

Net financials comprise interest, realised and unrealised capital gains and losses concerning financial assets and liabilities, amortisation of financial assets and liabilities, additions and reimbursements under the Danish tax prepayment scheme, etc. Financial income and expenses are recognised in the profit and loss account with the amounts that concerns the financial year.

Tax of the results for the year

The tax for the year comprises the current tax for the year and the changes in deferred tax, and it is recognised in the profit and loss account with the share referring to the results for the year and directly in the equity with the share referring to entries directly on the equity.

The company is subject to the Danish legislation concerning compulsory joint taxation with the Danish group enterprises.

The current Danish corporate tax is allocated among the jointly taxed companies in proportion to their respective taxable income (full allocation with reimbursement of tax losses).

The balance sheet

Investment property

At the first recognition, investment property is measured at cost, comprising the cost of the property and directly attached costs, if any.

On subsequent recognition, investment properties are measured at fair value. The properties are measured using a return-based model, by which the expected future cash flows for the next year along with a rate of return determined by an external assessor form the basis for the fair value of the properties. Compared to the latest financial year, the method of measurement used remains unchanged.

Like other material fixed assets, except from land, investment property has a limited life financial life. The impairment taking place concurrently with the aging of the investment property is reflected in the current measuring of the investment property at fair value.

Value adjustments are recognised in the profit and loss account in the item "Value adjustments of property".

Accounting policies used

Debtors

Debtors are measured at amortised cost which usually corresponds to face value. In order to meet expected losses, writedown takes place at the net realisable value.

Available funds

Available funds comprise cash at bank and in hand.

Liabilities

Financial liabilities related to borrowings are recognised at the received proceeds with the deduction of transaction costs incurred. In following periods, the financial liabilities are recognised at amortised cost, corresponding to the capitalised value by use of the effective interest. The difference between the proceeds and the nominal value is recognised in the profit and loss account during the term of the loan.

Other liabilities are measured at amortised cost which usually corresponds to the nominal value.
