# **Annual report**

# 1 January - 31 December 2022

The annual report was submitted and approved by the general meeting on the 4 July 2023.

Michael Søgaard Madsen Chairman of the meeting

Notes:

• To ensure the greatest possible applicability of this document, IAS/IFRS English terminology has been used.

• Please note that decimal points have not been used in the usual English way. This means that for instance DKK 146.940 means the amount of DKK 146,940, and that 23,5 % means 23.5 %.

# **Management's statement**

Today, the Managing Director has approved the annual report of MSM Invest ApS for the financial year 1 January - 31 December 2022.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

I consider the chosen accounting policy to be appropriate, and in my opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2022 and of the results of the Company's operations for the financial year 1 January – 31 December 2022.

Further, in my opinion, the Management's review gives a true and fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the Annual General Meeting.

Gilleleje, 4 July 2023

#### **Managing Director**

Michael Søgaard Madsen

### To the Shareholders of MSM Invest ApS

### Opinion

We have audited the financial statements of MSM Invest ApS for the financial year 1 January - 31 December 2022, which comprise income statement, balance sheet, statement of changes in equity, notes and a summary of significant accounting policies, for the Company. The financial statements are prepared under the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2022, and of the results of the Company's operations for the financial year 1 January - 31 December 2022 in accordance with the Danish Financial Statements Act.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

# **Independent auditor's report**

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of Management's Review.

# Accounting policies

The annual report for MSM Invest ApS has been presented in accordance with the Danish Financial Statements Act regulations concerning reporting class B enterprises. Furthermore, the company has decided to comply with certain rules applying to reporting class C enterprises.

The accounting policies are unchanged from last year, and the annual report is presented in DKK.

#### **Recognition and measurement in general**

Income is recognised in the profit and loss account concurrently with its realisation, including the recognition of value adjustments of financial assets and liabilities. Likewise, all costs, these including depreciation, amortisation, writedown, provisions, and reversals which are due to changes in estimated amounts previously recognised in the profit and loss account are recognised in the profit and loss account.

Assets are recognised in the balance sheet when the company is liable to achieve future, financial benefits and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the company is liable to lose future, financial benefits and the value of the liability can be measured reliably.

At the first recognition, assets and liabilities are measured at cost. Later, assets and liabilities are measured as described below for each individual accounting item.

Certain fixed asset investments and liabilities are measured at amortised cost, by which method a fixed, effective interest is recognised during the useful life of the asset or the liability. Amortised cost is recognised as the original cost with deduction of any payments and additions/deductions of the accrued amortisation of the difference between cost and nominal amount. In this way capital losses and capital profits are spread over the useful life.

At recognition and measurement, such predictable losses and risks are taken into consideration, which may appear before the annual report is presented, and which concern matters existing on the balance sheet date.

#### Income statement

## Gross loss

Gross loss comprises external costs.

Other external costs comprise costs for administration.

# **Accounting policies**

#### Financial income and expenses

Financial income and expenses are recognised in the income statement with the amounts concerning the financial year. Financial income and expenses comprise interest income and expenses, financial expenses from financial leasing, realised and unrealised capital gains and losses relating to securities, debt and transactions in foreign currency, amortisation of financial assets and liabilities as well as surcharges and reimbursements under the advance tax scheme, etc.

#### **Results from participating interest**

After full elimination of intercompany profit or loss less amortised of consolidated goodwill, the investment in the participating interest is recognised in the income statement as a proportional share of the participating interests' post-tax profit or loss.

#### Tax of the results for the year

The tax for the year comprises the current tax for the year and the changes in deferred tax, and it is recognised in the profit and loss account with the share referring to the results for the year and directly in the equity with the share referring to entries directly on the equity.

# The balance sheet

#### Impairment loss relating to non-current assets

The carrying amount of both intangible and tangible fixed assets as well as equity investment in participating interest are subject to annual impairment tests in order to disclose any indications of impairment beyond those expressed by amortisation and depreciation respectively.

If indications of impairment are disclosed, impairment tests are carried out for each individual asset or group of assets, respectively. Writedown for impairment is done to the recoverable amount if this value is lower than the carrying amount.

The recoverable amount is the higher value of value in use and selling price less expected selling cost. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the asset group and expected net cash flows from the sale of the asset or the asset group after the end of their useful life.

Previously recognised impairment losses are reversed when conditions for impairment no longer exist. Impairment relating to goodwill is not reversed.

#### Financial fixed assets

#### **Participating interest**

Participating interest is recognised and measured by applying the equity method. The equity method is used as a method of consolidation.

Participating interest is recognised in the statement of financial position at the proportionate share of the enterprise's equity value. This value is calculated in accordance with the accounting policies of the owner compagny with deductions or additions of unrealised intercompany gains and losses as well as with additions or deductions of the remaining value of positive or negative goodwill calculated in accordance with the acquisition method. Negative goodwill is recognised in the income statement at the time of acquisition of the equity investment. If the negative goodwill relates to contingent liabilities acquired, negative goodwill is not recognised until the contingent liabilities have been settled or lapsed.

Participating interest with a negative equity value is measured at DKK 0, and any accounts receivable from these enterprises are written down to the extent that the account receivable is uncollectible. To the extent that the owner compagny has a legal or constructive obligation to cover an negative balance that exceeds the account receivable, the remaining amount is recognised under provisions.

To the extent the equity exceeds the cost, the net revaluation of participating interest transferred to the reserve under equity for net revaluation according to the equity method. The reserve is adjusted by other equity movements in participating interest.

Newly acquired or newly established companies are recognised in the financial statement as of the time of acquisition. Sold or liquidated companies are recognised until the date of disposal.

On the acquisition of enterprises, the acquisition method, the uniting-of-interests method or the book value method is applied, cf. the above description under Business combinations.

# Financial instruments and equity investments

Financial instruments and equity investments recognised under current assets consist of listed shares and bonds which are measured at fair value on the reporting date. Unlisted equity investments are measured at cost. Writedown takes place to the recoverable amount if this value is lower than the carrying amount.

#### Available funds

Available funds comprise cash at bank and in hand.

# Equity

#### Reserve for net revaluation according to the equity method

The reserve for net revaluation according to the equity method comprises net revaluation of equity investments in subsidiaries, associates and equity interests proportional to cost.

The reserve may be eliminated in the event of losses, realisation of equity investments, or changes in the accounting estimates.

The reserve cannot be recognised by a negative amount.

# **Accounting policies**

#### Income tax and deferred tax

Current tax liabilities and current tax receivable are recognised in the statement of financial position as calculated tax on the taxable income for the year, adjusted for tax of previous years' taxable income and for tax paid on account.

Deferred tax is measured on the basis of temporary differences in assets and liabilities with a focus on the statement of financial position. Deferred tax is measured at net realisable value.

Deferred tax is measured based on the tax rules and tax rates applying under the legislation prevailing in the respective countries on the reporting date when the deferred tax is expected to be released as current tax. Changes in deferred tax due to changed tax rates are recognised in the income statement, except for items included directly in the equity.

Deferred tax assets, including the tax value of tax losses allowed for carryforward, are recognised at the value at which they are expected to be realisable, either by settlement against tax of future earnings or by set-off in deferred tax liabilities within the same legal tax unit. Any deferred net tax assets are measured at net realisable value.

#### Liabilities other than provisions

Other liabilities concerning payables to suppliers, group enterprises, and other payables are measured at amortised cost which usually corresponds to the nominal value.
