Statement by Management on the annual report

The Board of Directors and the Executive Board have today considered and approved the annual report of RHOVAC ApS for the financial year 01.01.2018 - 31.12.2018.

The annual report is presented in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Entity's financial position at 31.12.2018 and of the results of its operations for the financial year 01.01.2018 - 31.12.2018.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

Hørsholm, 15.05.2019

Executive Board

Bo Anders Ljungqvist

Independent auditor's report

To the shareholders of RHOVAC ApS

Opinion

We have audited the financial statements of RHOVAC ApS for the financial year 01.01.2018 - 31.12.2018, which comprise the income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the Entity's financial position at 31.12.2018 and of the results of its operations for the financial year 01.01.2018 - 31.12.2018 in accordance with the Danish Financial Statements Act.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the Auditor's responsibilities for the audit of the financial statements section of this auditor's report. We are independent of the Entity in accordance with the International Ethics Standards Board of Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Entity's ability to continue as a going concern, for disclosing, as applicable, matters related to going concern, and for using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Entity or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

Independent auditor's report

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements, and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures in the notes, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on the management commentary

Management is responsible for the management commentary.

Our opinion on the financial statements does not cover the management commentary, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the management commentary and, in doing so, consider whether the management commentary is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the management commentary provides the information required under the Danish Financial Statements Act.

Independent auditor's report

Based on the work we have performed, we conclude that the management commentary is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the management commentary.

Management commentary

Primary activities

RhoVac is a biotechnology company engaged in research and development of immunotherapy, more specifically of therapeutic cancer vaccines. Immunotherapy means that the body's own immune system is used to fight the disease - in this case cancer. The company's main focus is the development of a drug with the potential to prevent or limit metastasis in metastatic cancer. The company's first program is aimed at developing its cancer vaccine as a treatment for prostate cancer.

RhoVac AB is a parent company in a group consisting of the parent company and the wholly owned Danish subsidiary RhoVac ApS. All activities are carried out in the subsidiary, whereby RhoVac AB's only operational activity is to own the subsidiary RhoVac ApS.

Business model and strategy

RhoVac intends to outsource or sell all or part of the business after completion of ongoing clinical phase I / II study.

Development in activities and finances

Development in activities during 2018

In the 2018 financial year we finalized the clinical phase I / II study in prostate cancer patients with our cancer vaccine RV001 which confirmed that the drug candidate was safe and that it created a significant vaccine-mediated immune response. In total 86 % (18 of 21 patients) had created a significant immune response against RV001. Following completion of the study the patients are followed for an additional period of 12 months.

In accordance with our strategy to outsource or sell all or part of the business after completion of the ongoing clinical phase I / II study, we have participated in business meetings and international conferences throughout the year.

Further we have continued the preparations for a phase IIb study and in meetings with FDA and EMA the best way forward in developing the drug candidate has been discussed. These discussions also provide important information in our further discussions with potential partners.

Development in finances during 2018

In 2018 RhoVac ApS incurred a loss before tax of DKK (10.0) million related to the company's development activities. The company expects to receive a tax refund related to research and development costs incurred during 2018, thus the loss after tax is DKK (7.9) million. At yearend the equity was DKK (7.1) million.

As of 31.12.2018, the Company is financed by the equity of DKK (7.1) million and a loan from the Parent of DKK 14.0 million, which is assumed maintained until the Company's situation allows for repayment thereof (falls due no earlier than 31 March 2020). The Company's cash and income tax receivable on research and development costs incurred total DKK 8.5 million at 31.12.2018.

The Parent Company completed in June 2018 a rights issue emission of SEK 21.2 million on AktieTarget ensuring funding for its development and business activities in 2018 and 2019.

Management commentary

In April 2019 RhoVac AB announced that the Company, subject to shareholder approval, plans to complete a rights issue totalling approximately 181 SEK before transaction costs and approximately 154 million SEK after transaction cost. The full emission amount has been secured through emission subscriptions and guarantees and the company expects to receive the funds in June 2019.

The annual report has, based on the above, been presented on the assumption that the Company is a going concern.

Events after the balance sheet date

No events have occurred after the balance sheet date to this date, which would influence the evaluation of this annual report.

4. Liabilities other than provisions

Payable to the parent company is due on March 31, 2020 at the earliest. Interest for the period is accrued and added to the principal.

5. Contingent liabilities

The company has entered into an agreement with The Danish Cancer Society, which means that RhoVac ApS will have to pay GBP 100 thousand and future royalty payments upon receiving approval in the EU or US for specific products included in the international patent application of December 18, 2008. The company holds a buy-out option of GBP 50 thousand before finalizing phase II-studies, GBP 100 thousand before finalizing phase III-studies, or GBP 200 thousand before receiving approval of any product in the EU or US.

Accounting policies

Reporting class

This annual report has been presented in accordance with the provisions of the Danish Financial Statements Act governing reporting class B enterprises with addition of certain provisions for reporting class C.

The accounting policies applied to these financial statements are consistent with those applied last year.

Recognition and measurement

Assets are recognised in the balance sheet when it is probable as a result of a prior event that future economic benefits will flow to the Entity, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when the Entity has a legal or constructive obligation as a result of a prior event, and it is probable that future economic benefits will flow out of the Entity, and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. Measurement subsequent to initial recognition is effected as described below for each financial statement item.

Anticipated risks and losses that arise before the time of presentation of the annual report and that confirm or invalidate affairs and conditions existing at the balance sheet date are considered at recognition and measurement.

Income is recognised in the income statement when earned, whereas costs are recognised by the amounts attributable to this financial year.

Income statement

Gross profit or loss

Gross profit or loss comprises other external expenses.

Revenue

Revenue from the sale of manufactured goods and goods for resale is recognised in the income statement when delivery is made and risk has passed to the buyer. Revenue from the sale of services is recognised in the income statement when delivery is made to the buyer. Revenue is recognised net of VAT, duties and sales discounts and is measured at fair value of the consideration fixed.

Other external expenses

Other external expenses include expenses relating to the Entity's ordinary activities, including expenses for premises, stationery and office supplies, marketing costs, etc. This item also includes writedowns of receivables recognised in current assets.

Other financial expenses

Other financial expenses comprise interest expenses, including interest expenses on payables to group enterprises, net capital or exchange losses on securities, payables and transactions in foreign currencies, amortisation of financial liabilities as well as tax surcharge under the Danish Tax Prepayment Scheme etc.

Accounting policies

Tax on profit/loss for the year

Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognised in the income statement by the portion attributable to the profit for the year and recognised directly in equity by the portion attributable to entries directly in equity.

Balance sheet

Receivables

Receivables are measured at amortised cost, usually equalling nominal value less writedowns for bad and doubtful debts.

Income tax payable or receivable

Current tax payable or receivable is recognised in the balance sheet, stated as tax computed on this year's taxable income, adjusted for prepaid tax.

Prepayments

Prepayments comprise incurred costs relating to subsequent financial years. Prepayments are measured at cost.

Cash

Cash comprises cash in hand and bank deposits.

Other financial liabilities

Other financial liabilities are measured at amortised cost, which usually corresponds to nominal value.
