INDEPENDENT AUDITOR'S REPORTS

To the shareholders of Multi-Wing Group ApS

We have audited the Consolidated Financial Statements and the Parent company Financial Statements of Multi-Wing Group ApS for the financial year 1 January – 31 December 2015, which comprise summary of significant accounting policies for the Company, income statement, balance sheet, cash flow statement, statement of changes in equity and notes.

The Consolidated Financial Statements and the Parent Company Financial Statements are prepared in accordance with the Danish Financial Statements Act.

Managements responsibility for the Consolidated Financial Statements and the Parent Company Financial Statements

Management is responsible for the preparation of the Consolidated Financial Statements and Financial Statement of the Parent Company that give a true and fair view in accordance with the Danish Financial Statements Act. Management is also responsible for internal control they find necessary to prepare a Consolidated Financial Statements and Financial Statements of the Parent Company that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility and Basis of Opinion

Our responsibility is to express an opinion on the Consolidated Financial Statements and Financial Statements of the Parent Company based on our audit. We conducted our audit in accordance with international standards on auditing and additional requirements under Danish audit regulation. This requires that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Consolidated Financial Statements and Financial Statements of the Parent Company are free from material misstatements.

An audit involves performing audit procedures to obtain evidence about the amounts and disclosures in the Consolidated Financial Statements and the Financial Statements of the Parent Company. The audit procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatements in the Consolidated Financial Statements and Financial Statements of the Parent Company, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of Consolidated Financial Statements and Financial Statements of the Parent Company that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting estimates made by the Management, as well as the overall presentation of the Consolidated Financial Statements and Financial Statements of the Parent Company.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The audit has not resulted in any qualifications.

Opinion

In our opinion, the Consolidated Financial Statements and the Parent Company Financial Statements give a true and fair view of the Group's and the Parent Company's financial position at 31 December 2015 and of the results of the Group's and the Parent Company's operations and cash flows for the financial year 1 January – 31 December 2015 in the Danish Financial Statements Act.

INDEPENDENT AUDITOR'S REPORT, continued

Statement on the Management's Review

We have according to the Danish Financial Statements Act read the management's review. We have not performed any further procedures in addition to the performed audit of the Consolidated Financial Statements and the Parent Company Financial Statements. On this background it is our belief that the information's given in the management's review is consistent with the Consolidated Financial Statements and the Parent Company Financial Statements.

For definition, see section on accounting policies.

- ★) Reviewing unrealized internal profit on inventories from prior years it has been discovered that the calculation of intercompany profit for 2010 was not calculated in accordance with the overall rules set up by the group. This has a corresponding effect on 2011 figures which has led to a re-statement of key figures and ratios mentioned above but have no effect on total balance or equity at the end of 2011 since it is a displacement between the two years.

GROUP CHART

MANAGEMENT REVIEW

Main activity

The Groups principal activity is to develop, produce and sell axial impellers for industrial purposes.

The impellers are sold globally.

Developments in the financial year

In 2015 it was decided to make some structural changes including a split of the original Multi-Wing Group Holding ApS. These changes were made to pursuit new business opportunities in other segments and involving new business partners. Since both market and business partners are completely new to the group, it was decided to isolate the activities in a separate string of entities, to segregate as much as possible from the current Multi-Wing brand. This new string of entities is now well on its way through the new parent company Residential Air Con Holding ApS.

As a part of that strategy the Group also chose to refinance the major part of its long-term debt at the beginning of 2015. The new arrangement is expected to have a positive result on interest expenses for the entities involved in the transaction.

Income statement items comprise the Group operations for the period 1 January – 31 December 2014. The Group continued to make strides in its markets in 2015. The new emerging markets in India and South America contributed to the growth. The volatile oil and gas market had a negative impact as many customers are within this sector. This had a minor negative impact on both turnover and revenue in 2015.

Special risks

Price risks

The impeller components are cast in aluminium and engineering thermoplastics, respectively. Both markets are relatively volatile and are especially sensitive to increasing oil prices and, to some extent, the development of the USD exchange rate.

Currency and interest-rate risks

Since the Group is increasingly doing business in foreign currencies, it assumes a growing currency risk. The risk is limited to the share of deals made with companies outside Europe.

The Company's interest-rate risks are limited.

Knowledge resources

The Group consistently focuses on having a highly skilled workforce in order to be at the forefront of the latest technologies in its core competency areas. The Groups main objective is to work with innovative approaches that will improve and streamline the Groups interaction with customers.

Research and development activities

The Group has ongoing development projects which are derived from expectations of future demand as well as the potential development of the technology involved.

Environmental conditions

The Group's environmental impact is assessed to be minimal, since there are no associated production activities.

Recognition and measurement uncertainties

No recognition and measurement uncertainties exist.

Unusual matters

No unusual matters have affected the Financial Statements for 2015.

MANAGEMENT REVIEW, continued

Outlook

The outlook for 2016 is that the markets will continue to be in moderate recovery in the first half of the year, although the pace and strength of this improvement are still uncertain. However, markets are expected to stagnate in the second half of the year.

Furthermore, major geographical differences are expected. We expect the sales of components to most markets to be slightly improving, except for the North American market where we are expecting a decline although this is very uncertain.

Growth in the emerging markets India and South America is expected.

It is expected that in 2016 the Group will continue to participate in various development projects with large global customers. It will be a resource-consuming process, but will also involve a significant opportunity for close and long-lasting cooperation. These development projects are subject to great risk because it cannot be predicted with any certainty if and when they will come into actual production. This depends on many factors, not least whether the final applications can meet the new US and EU standards.

The Group also faces a number of major investments in 2016, including the acquisition of MW UK. These investments will be capital-intensive, and their implementation will require vast internal resources. 2016 will be a particular challenging year that will place high demands on the organization's flexibility and ability to adapt.

Events after the reporting period

No events have occurred which could significantly affect the Group's financial position.

ACCOUNTING POLICIES

The Annual Report of Multi-Wing Group ApS for 2015 has been prepared in accordance with the provisions of the Danish Financial Statements Act (Årsregnskabsloven) governing reporting class C (medium size).

The accounting policies remain unchanged compared with last year.

Basis of recognition and measurement

Income is recognised in the income statement as it is earned, including adjustments to the value of financial assets and liabilities. All expenses, including depreciation, amortisation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the Company and the value of such assets can be reliably measured.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the Company and the value of the liabilities can be reliably measured.

On initial recognition assets and liabilities are measured at cost and subsequently as described for each item below.

Some financial activities and engagements are measured to amortised cost, where there for the term are measured a constant efficient interest rate. Amortised cost is determined as original cost with deduction of possible repayments as well as addition / deduction of the accumulated amortisation of the difference between cost and nominal amounts.

With recognition and measurement predictable loss and risk which occur before the Annual Report is presented are taken into consideration and which confirm or deny conditions which exist on the balance sheet date.

Consolidated Financial Statements

The Consolidated Financial Statements include the Parent Company Multi-Wing Group ApS and its subsidiaries.

The Consolidated Financial Statements are prepared by combining items of a uniform nature. On consolidation inter-company revenue and expenses, intra-group balances and dividends, and any realised and unrealised gains and losses on transactions between the Consolidated Companies are eliminated.

Newly acquired or newly established companies are recognised in the Consolidated Financial Statements as from the date of acquisition. Enterprises sold are included in the consolidated income statement until the date of disposal.

Comparative figures for newly acquired or divested companies are not corrected.

On acquisition of new enterprises, the acquisition method is applied, according to which the identifiable assets and liabilities are measured at fair value at the time of acquisition.

Positive differences (goodwill) between cost and fair value of acquired identifiable assets and liabilities are recognised under intangible assets and amortised systematically on an individual assessment of the economic life not exceeding 20 years. When deciding the economic life, it is taken into consideration that the majority of the Company's products are part of long-term development projects and used in machinery and equipment with a long lifetime of the individual model, often leading to a lifetime exceeding 5 years.

Gains and losses on disposal of subsidiaries are calculated as the difference between selling price and carrying amount of net assets at the time of disposal and expected costs of sale.

Group acquisitions, where both companies are under common control are recognised in accordance with the method of "pooling of interest", where after recognised assets and liabilities are aggregated with no fair value re-valuation. The acquired companies are recognised in the financial statements and group financial statements as if the companies had been merged from the earliest period which is presented in the accounts.

ACCOUNTING POLICIES, continued

Minority interest

Subsidiaries' financial statement items are recognised in full in the Consolidated Financial Statements. Minority interest' pro rata shares of profit / loss forms part of the Group's profit / loss and is a separate element of the Group's equity.

Reporting currency

The Annual Report is presented in Danish kroner.

Translation adjustments

Foreign currency transactions are adjusted applying the rate of exchange applicable at the date of transaction.

Receivables, payables and other monetary items denominated in foreign currencies, which have not been settled by the balance sheet date, are translated applying the rate of exchange applicable at the balance sheet date.

Property, plant and equipment purchased in foreign currencies is translated using the exchange rate applicable at the date of transaction.

THE INCOME STATEMENT

Gross margin

With reference to section 32 of the Danish Financial Statements Act, the items "Net revenue" to and including "Other external expenses" are consolidated into one item designated "Gross margin".

Revenue

Revenue is recognised in the income statement, provided that the products and services have been delivered and the risk has passed to the buyer before the end of the year.

Revenue is recognised exclusive of VAT and less sales discount.

Other external costs

Other external costs include expenses related to distribution, sale, advertising, administration, premises, losses on receivables, lease payments under operating leases etc.

Other operating income / costs

Other operating income / costs comprise items of secondary nature in relation to the Company's core business.

Staff costs

Staff costs consist of wages and salaries, including holiday pay and pensions and other costs to social security to the Company's employees. There is deducted received compensation from public authority in staff costs.

Result of investments in group enterprises

In the income statement the proportionate share of the individual group enterprises result after tax are recognised.

Items under financial income and expenses

Financial income and cost are recognised in the income statement with those amounts, which concerns the financial year. Items under financial income and expenses consists of interest income and costs, financial cost with financial leasing, realised and unrealised capital gain and loss concerning transactions in foreign currency, additions and compensations under the tax prepayment scheme etc.

ACCOUNTING POLICIES, continued

THE INCOME STATEMENT, continued

Tax on result of the year

Tax of the year, which contains the actual tax of the year and the displacement in deferred tax, are recognised in the income statement with the part which can attribute to the result of the year and directly in the equity with the part which can attribute to entries directly on the equity.

The Company is jointly taxed with other Danish companies in the Multi-Wing Group. The Danish income tax is allocated between the jointly taxed Danish companies in proportion to their taxable income. The jointly taxed companies are taxed under the advance payment tax scheme.

BALANCE SHEET

Intangible assets

Goodwill is amortised over its estimated useful life determined on the basis of management experience within the individual business areas. Goodwill is amortised over the amortisation period, not exceeding 20 years, and based on an individual judgement of the companies' market position and earning profile.

The carrying value of goodwill is assessed currently and written down to recoverable amount through the income statement if the carrying value exceeds the future net income from the enterprise or activity to which the goodwill is related.

Development costs incurred in development, patents and licenses, includes internal and external costs directly attributable to the Company's development and fulfilling criteria for recognition.

Capitalised development costs are measured at cost less accumulated depreciation and recoverable amount, whichever is lower.

Property, plant and equipment

Buildings, leasehold improvements, test stand and other fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation.

Straight-line depreciation is made on property, plant and equipment following estimated useful lives as follows:

Development costs	5 years
Buildings	16 years
Leasehold improvements	3 years
Other fixtures and fittings, tools and equipment	3 - 5 years

Profits or losses from disposal of property, plant and equipment are stated as the difference between the selling prices less than selling costs and the carrying amount at the date of sale. Profits or losses are recognised in the income statement under depreciation.

ACCOUNTING POLICIES, continued

BALANCE SHEET, continued

Financial assets

Equity investments in group enterprises are recognised in the balance sheet to the proportionate share of the Company's equity method is made up from the Parent Company's accounting policies.

Group enterprises with a negative equity are recognised with zero kroner and any receivables with these companies are written down with the Parent Company's share of the negative equity value in that extent, it is estimated uncollectible. Provided that the negative value of equity exceeds the receivable, the remaining amount will be recognised under provisions in that extent that the Parent Company has a legal or actual obligation to cover group enterprises negative balance.

Net revaluation of equity investments in group enterprises are transferred under equity to net revaluation reserve according to the equity method in that extent, that the carrying amount exceed the acquisition cost with deduction of amortisation of goodwill.

Inventories

Inventories are measured at cost on the basis of the FIFO method. Where cost exceeds the net realisable value, inventories are written down to the lower of these two values.

Cost for merchandise and raw materials and consumables used extends cost with addition of delivery costs.

The cost of finished goods and work in progress comprises the cost of raw materials, direct labour and direct as well as indirect production costs.

Net realisable value of inventories is calculated as selling price less costs of completion, costs and expenses incurred in making the sale and are determined according to the convertible unit, obsolescence and development in expected sales.

Receivables

Receivables are measured at amortised cost, which usually corresponds to nominal value. Provisions for bad debts are made to meet expected losses at net realisable value.

Prepayments

Prepayments, recognised under assets or liabilities, cover costs paid respectively payments received for the ensuing years.

Short-term investments

Listed securities are recognised to market value on the balance sheet date.

Equity

The expected dividend payment for the year is shown as a separate item under equity. Dividends are recognised as a liability at the time of adoption by the General Assembly.

ACCOUNTING POLICIES, continued

BALANCE SHEET, continued

Corporation tax and deferred tax

Current tax and current tax receivable are recognised in the balance sheet as computed tax of taxable income for the financial year adjusted for tax of taxable income for previous years and paid account taxes.

Deferred tax is measured using the balance sheet liability method and all temporary difference between carrying amount and tax base of assets and liabilities.

Deferred tax is measured on the basis of the tax rules and tax rates, which are operative at the balance sheet date, if the deferred tax was expected to be released as current tax. Changes in deferred tax due to changes in the tax rate are measured in the income statement. For the present financial year, a tax rate of 23.5 % has been applied for the Danish entities in the Group.

Total payable Danish company tax for the Group is showed in the Parent Company.

Deferred tax is only accrued for the Danish entities, when the deferred tax is incumbent on the jointly taxed companies.

Financial liabilities

Other liabilities are measured at amortised cost, normally corresponding to nominal value.

Derivative financial instruments

On initial recognition in the balance sheet, derivative financial instruments are measured at cost and subsequently at fair value. Positive and negative fair values of derivative financial instruments are included in other receivables or other payables, respectively.

Fair value adjustments of derivative financial instruments designated as and qualifying for recognition as a fair value hedge of recognised assets and liabilities are recognised in the income statement together with changes in the fair value of the hedged asset or liability.

Fair value adjustments of derivative financial instruments designated as and qualifying for hedging of future cash flows are recognised in other receivables or other payables and in equity. If the future transaction results in recognition of assets or liabilities, amounts previously recognised in equity are transferred to the cost of the asset or liability, respectively. If the future transaction results in income or expenses, amounts previously recognised in equity are transferred to the income statement in the period in which the hedged item affects the income statement.

As for derivative financial instruments that do not qualify for hedge accounting, fair value adjustments are recognised in the income statement on a current basis.

ACCOUNTING POLICIES, continued

CASH FLOW STATEMENT

The cash flow statement shows the Group's cash flows for the year broken down by operating, investing and financing activities, changes for the year in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

No cash flow statement has been prepared for the Parent Company as the Parent Company's cash flows are included in the Consolidated Cash Flow Statement.

Cash flow from operating activities

Cash flow from operating activities are calculated as the operating profit / loss for the year adjusted for changes in working capital and non-cash operating items such as depreciation, amortisation and impairment losses and provisions. Working capital comprises current assets less short-term debt excluding items included in cash and cash equivalents.

Cash flow from investing activities

Cash flow from investing activities comprises cash flows from acquisitions and disposals of intangible assets, property, plant and equipment as well as fixed assets investments.

Cash flow from financing activities

Cash flows from financing activities comprise cash flows from the raising and repayment of long-term debt as well as payments to and from shareholders.

Cash and cash equivalents

Cash and cash equivalents comprise "Cash and cash equivalents" and "Short-term investments" subtracted "Bank debt".

The cash flow statement cannot be immediately derived from the published financial records.

RATIOS

Ratios have been calculated as:

$$\text{Return on invested capital} = \frac{\text{Operating profit} \times 100}{\text{Average invested capital exclusive of goodwill}}$$

$$\text{Return on equity} = \frac{\text{Profit / loss for the year} \times 100}{\text{Average equity}}$$
