## Statement by Management

The Executive Board have today discussed and approved the annual report of Bregnerød Investeringselskab ApS for the financial year 1 January - 31 December 2020.

The annual report has been prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2020 and of the results of their operations and consolidated cash flows for the financial year 1 January - 31 December 2020.

Further, in our opinion, the Management's review gives a fair review of the development in the Group's and the Parent Company's operations and financial matters, the results for the year and the Group's and the Parent Company's financial position.

We recommend that the annual report be approved at the annual general meeting.

Copenhagen, 30 June 2021  
Executive Board:

.....  
Henrik Lyngbye Pedersen

.....  
Jan Sørensen

## Independent auditor's report

To the shareholder of Bregnerød Investeringsselskab ApS

### Opinion

We have audited the consolidated financial statements and the parent company financial statements of Bregnerød Investeringsselskab ApS for the financial year 1 January - 31 December 2020, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies, for the Group and the Parent Company, and a consolidated cash flow statement. The consolidated financial statements and the parent company financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2020 and of the results of the Group's and the Parent Company's operations as well as consolidated cash flows for the financial year 1 January - 31 December 2020 in accordance with the Danish Financial Statements Act.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent company financial statements" (hereinafter collectively referred to as "the financial statements") section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

### Management's responsibilities for the financial statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

## Independent auditor's report

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- ▶ Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

## Independent auditor's report

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

Equity ratio (%)	23.5	-22.2
Return on equity (%)	-67,869.6	-1,617.7
Average number of full-time employees	89	79

Financial ratios are calculated in accordance with the Danish Finance Society's guidelines.

## Management's review

The financial ratios stated under "Financial highlights" have been calculated as follows:

Operating margin	$\frac{\text{Operating profit/loss (EBIT)} \times 100}{\text{Revenue}}$
Gross margin	$\frac{\text{Gross profit/loss} \times 100}{\text{Revenue}}$
Current ratio	$\frac{\text{Current assets} \times 100}{\text{current liabilities}}$
Equity ratio	$\frac{\text{Equity ex. non-controlling interest at year end} \times 100}{\text{Total equity and liabilities at year end}}$
Profit/loss for analytical purposes	$\frac{\text{Profit/loss less non-controlling interests' share thereof}}{\text{Profit/loss for the year after tax ex. non-controlling interests} \times 100}$
Return on equity	$\frac{\text{Profit/loss for the year after tax ex. non-controlling interests} \times 100}{\text{Average equity ex. non-controlling interests}}$

## Principal activities

The main activity of the Group is to design, produce and market bikes and related accessories including technologies and clothing. The Group consist of legal entities in Denmark, Canada, US and Germany.

The main activity of the Parent company is to invest in subsidiaries and to perform management services to support the activities in the investments.

## Development in activities and financial matters

The income statement shows a loss of DKK 39.5 million for the Group (2019: a loss of DKK 59.2 million) and a loss of DKK 41.4 million for the Parent Company (2019: a loss of DKK 45.5). The result is considered unsatisfactory but in line with expectations and positively impacted by DKK 4,518 thousand from Covid-19 aid packages. Reference is made to note 3.

The Groups equity at 31 December 2020 amounts to DKK 18.8 million whilst the balance sheet amounts to DKK 124.2 million.

## Financing

The main source of financing for the Parent Company is shareholder loans and mortgage loans from credit institutions. Group entities are primarily financed by loans from Parent Company and through working capital.

During 2020 the equity of the Parent company and the Group has been increased by DKK 100 million from capital increase. In addition, the Company have obtained a letter of support from its shareholder committing to provide the required financial support to the Company in 2020. On basis hereof the consolidated financial statements and the parent company financial statements for 2020 is prepared on basis of the going concern assumption.

## Outlook

Due to uncertainty towards the impact of Covid-19 on the global economy the outlook for 2021 is highly unpredictable.

Management expects that the Group for 2021 will incur losses however that these losses will be lower than 2020 and in the range of DKK 15 - 20 million. Management have initiated plans to increase revenue through improvement of sales channels and initiated plans to reduce costs through efficiency projects. On basis of these initiatives Management expects that the Group will be profitable within a few years.

### **Events after the balance sheet date**

The impact of Covid-19, including the reintroduction of restrictions in Denmark in late 2020 and during first half of 2021, has led to a significant decline in the global economy including countries where the Group operates and markets its products. The Group have received support from different government aid programs - including programs in Canada and Denmark - however the support from these programs does not fully cover the decline in activity during Covid-19.

Management determined that such financial and economic market uncertainty is indicative of conditions that arose subsequent to the financial statements date and therefore, the assets and liabilities of the Group as at December 31, 2020 were not adjusted to reflect the impact of COVID-19.

Given the outcome and timeframe to a recovery from the current pandemic is highly unpredictable, it is not practicable to estimate and disclose the future impact on the Groups financial position at this time.

### **Risks**

#### ***General risks***

The Group's main activities is subject to risks related to the general development in the global economy including risk of recession and decline in consumer products.

#### ***Financial risks and interest rate risks***

The Groups main source of financing is from shareholder loans. During 2020 a capital increase of DKK 100 million was completed and at 31 December 2020 payables to the shareholder amounts to DKK 64.4 million. During 2021 new shareholder loans will be granted to support the Group's activities.

#### ***Currency risks***

Currency risk corresponds to the fair market value of a financial instrument that fluctuates due to the variation of foreign exchange rates. The Group is primarily exposed to risks related to devaluation of DKK vs USD and CAD exchange rate however the risk is reduced due to the net impact of working capital in USD and CAD.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes

#### 1 Accounting policies

The annual report of Bregnerød Investeringselskab ApS for 2020 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to medium reporting class C entities.

Effective from the financial year 2020, the Company has implemented amending act no. 1716 of 27 December 2018 to the Danish Financial Statements Act. The implementation of the amending act has not affected the Company's accounting policies on recognition and measurement of assets and liabilities but has solely entailed a requirement for further disclosures.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

### Consolidated financial statements

#### *Control*

The consolidated financial statements comprise the Parent Company Bregnerød Investeringselskab ApS and subsidiaries controlled by Bregnerød Investeringselskab ApS.

Control means the power to exercise decisive influence over a subsidiary's financial and operating decisions. Moreover, the possibility of yielding a return from the investment is required.

In assessing whether the Parent Company controls an entity, de facto control is also taken into consideration.

The existence of potential voting rights that may currently be exercised or converted into additional voting rights is considered when assessing whether an entity may become empowered to exercise decisive influence over another entity's financial and operating decisions.

#### *Significant influence*

Entities over whose financial and operating decisions the Group can exercise significant influence are classified as associates. Significant influence is deemed to exist when the Parent Company holds or controls, directly or indirectly, more than 20% of the voting rights of an entity but does not control it.

The existence of potential voting rights that may currently be exercised or converted into voting rights is considered when assessing whether significant influence exists.

#### *Preparation of consolidated financial statements*

The consolidated financial statements are prepared as a consolidation of the Parent Company's and the individual subsidiaries' financial statements, which are prepared according to the Group's accounting policies. On consolidation, intra-group income and expenses, shareholdings, intra-group balances and dividends as well as realised and unrealised gains on intra-group transactions are eliminated. Unrealised gains on transactions with associates are eliminated in proportion to the Group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains unless they do not reflect impairment.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes

#### 1 Accounting policies (continued)

The subsidiaries' financial statement items are included 100% in the consolidated financial statements. Non-controlling interests' share of the profit/loss for the year and of the equity of subsidiaries that are not wholly owned are included in the Group's profit/loss and equity, respectively, but are presented separately.

Acquisitions and disposals of non-controlling interests that are still controlled are recognised directly in equity as a transaction between shareholders.

Equity investments in associates are recognised in the consolidated financial statements using the equity method.

#### Non-controlling interests

On initial recognition, non-controlling interests are measured at the fair value of the non-controlling interests' equity interest.

Goodwill relating to the non-controlling interests' share of the acquiree is thus recognised.

#### Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Foreign subsidiaries and associates are considered separate entities. The income statements are translated at the average exchange rates for the month, and the balance sheet items are translated at the exchange rates at the balance sheet date. Foreign exchange differences arising on translation of the opening equity of foreign entities at the exchange rates at the balance sheet date and on translation of the income statements from average exchange rates to the exchange rates at the balance sheet date are recognised directly in equity.

Foreign exchange adjustments of balances with foreign subsidiaries that are considered part of the total investment in the subsidiary are recognised directly in equity. Foreign exchange gains and losses on loans and derivative financial instruments designated as hedges of foreign subsidiaries are also recognised directly in equity.

On recognition of foreign subsidiaries that are integral entities, monetary items are translated at the exchange rates at the balance sheet date. Non-monetary items are translated at the exchange rates at the acquisition date or at the date of any subsequent revaluation or impairment of the asset. Income statement items are translated at the exchange rates at the transaction date, although items derived from non-monetary items are translated at the historical exchange rates applying to the non-monetary items.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes

#### 1 Accounting policies (continued)

##### Income statement

###### Revenue

The Company has chosen IAS 11/IAS 18 as interpretation for revenue recognition.

When sales contracts that consist of several separate sales transactions are concluded, the contract price is broken down into the individual sales transactions based on the relative fair value approach. The separate sales transactions are recognised as revenue when the criteria for sale of goods and services are met.

A contract is split up into individual transactions when the fair value of each individual sales transaction can be estimated reliably and when each individual sales transaction represents a stand-alone value for the buyer. Sales transactions are deemed to have a stand-alone value for the buyer when the transaction is individually identifiable and usually sold separately.

Revenue is measured at the fair value of the agreed consideration exclusive of VAT and taxes charged on behalf of third parties. All discounts and rebates granted are recognised in revenue.

###### *Revenue from the sale of goods*

Income from the sale of goods for resale and finished goods, is recognised in revenue when the most significant rewards and risks have been transferred to the buyer, the income can be measured reliably, and payment is expected to be received. The date of the transfer of the most significant rewards and risks is based on standardised terms of delivery based on Incoterms® 2010.

Income from the sale of goods where installation is a prerequisite for considering significant risks to have been transferred to the buyer is recognised in revenue when the installation is complete.

###### Cost of sales

Cost of sales includes the cost of goods used in generating the year's revenue.

###### Other operating income

Other operating income comprises items secondary to the entities' activities, including gains on disposal of intangible assets and property, plant and equipment.

###### Other external expenses

Other external expenses include the year's expenses relating to the Group's core activities, including expenses relating to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

###### Staff costs

Staff costs comprise wages and salaries, including holiday allowance and pensions, and other social security costs, etc., for the Group's employees. Refunds received from public authorities are deducted from staff costs.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes

#### 1 Accounting policies (continued)

##### Financial income and expenses

Financial income and expenses comprise interest income and expenses, gains and losses on securities, payables and transactions denominated in foreign currencies, amortisation of financial assets and liabilities as well as surcharges and refunds under the on-account tax scheme, etc.

##### Tax for the year

The Parent Company is subject to the Danish rules on compulsory joint taxation of the Group's Danish subsidiaries. Subsidiaries are included in the joint taxation arrangement from the date when they are included in the consolidated financial statements and up to the date when they are excluded from the consolidation.

The Parent Company acts as administration company for the joint taxation arrangement and consequently settles all corporate income tax payments with the tax authorities.

On payment of joint taxation contributions, the Danish corporation tax charge is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have been able to use the tax losses to reduce their own taxable income.

Tax for the year comprises current income tax, joint taxation contribution and changes in deferred tax for the year due to changes in the tax rate. The tax expense relating to the profit/loss for the year is recognised in the income statement, and the tax expense relating to amounts recognised directly in equity is recognised directly in equity.

##### Balance sheet

##### Intangible assets

###### *Development projects, patents and licenses*

Development costs comprise expenses, salaries and amortisation charges directly attributable to development activities.

Development projects that are clearly defined and identifiable and where the technical feasibility, sufficient resources and a potential future market or development potential are evidenced, and where the Group intends to produce, market or use the project, are recognised as intangible assets provided that the cost can be measured reliably and that there is sufficient assurance that future earnings can cover production costs, selling costs and administrative expenses as well as development costs. Other development costs are recognised in the income statement as incurred.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes

#### 1 Accounting policies (continued)

Development costs that are recognised in the balance sheet are measured at cost less accumulated amortisation and impairment losses.

On completion of a development project, development costs are amortised on a straight-line basis over the estimated useful life. The amortisation period is usually 3 years.

Patents and licences are measured at cost less accumulated amortisation and impairment losses. Patents are amortised on a straight-line basis over the remaining term of the patent, and licences are amortised over the term of the licence, however not exceeding 20 years.

Gains and losses on the disposal of development projects, patents and licences are determined as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses are recognised in the income statement as other operating income or other operating expenses, respectively.

#### Property, plant and equipment

Land and buildings, plant and machinery and fixtures and fittings, tools and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date when the asset is available for use.

Individual components of property, plant and equipment that have different useful lives are accounted for as separate items, which are depreciated separately.

Depreciation is provided on a straight-line basis over the expected useful lives of the assets, which are as follows:

Buildings	25 years
Installations associated with buildings	10 years
Leasehold improvements	5 years
Fixtures and fittings, tools and equipment	5 years

Depreciation is based on the residual value of the asset and is reduced by impairment losses, if any. The depreciation period and the residual value are determined at the acquisition date and are reassessed annually. Where the residual value exceeds the carrying amount of the asset, no further depreciation charges are recognised.

In the case of changes in the depreciation period or the residual value, the effect on the depreciation charges is recognised prospectively as a change in accounting estimates.

Depreciation is recognised in the income statement as production costs, distribution costs and administrative expenses, respectively.

Gains and losses on the disposal of items of property, plant and equipment are calculated as the difference between the selling price less selling costs and the carrying amount at the date of disposal. Gains and losses are recognised in the income statement as other operating income or other operating expenses, respectively.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes

#### 1 Accounting policies (continued)

##### Leases

The Company has chosen IAS 17 as interpretation for classification and recognition of leases.

On initial recognition, leases for assets that transfer substantially all the risks and rewards incident to ownership to the Company (finance leases) are measured in the balance sheet at the lower of fair value and the present value of future lease payments. In calculating the present value, the interest rate implicit in the lease or the incremental borrowing rate is used as the discount factor. Assets held under finance leases are subsequently accounted for as the Company's other assets.

The capitalised residual lease commitment is recognised in the balance sheet as a liability, and the interest element of the lease payment is recognised in the income statement over the term of the lease.

All other leases are considered operating leases. Payments relating to operating leases and any other leases are recognised in the income statement over the term of the lease. The Company's total liabilities relating to operating leases and other leases are disclosed under contingencies, etc.

##### Equity investments in subsidiaries and associates in the parent company financial statements

Equity investments in subsidiaries and associates are measured according to the equity method in the parent company financial statements. The Parent Company has chosen to consider the equity method a measurement method.

On initial recognition, equity investments in subsidiaries and associates are measured at cost, i.e. plus transaction costs. The cost is allocated in accordance with the acquisition method; see the accounting policies regarding the consolidated financial statements above.

The cost is adjusted by shares of profit/loss after tax calculated in accordance with the Group's accounting policies less or plus unrealised intra-group gains/losses.

Identified increases in value and goodwill, if any, compared to the underlying entity's net asset value are amortised in accordance with the accounting policies in the consolidated financial statements. Negative goodwill is recognised in the income statement.

Dividend received is deducted from the carrying amount.

Equity investments in subsidiaries and associates measured at net asset value are subject to impairment test requirements if there is any indication of impairment.

##### Impairment of non-current assets

The carrying amount of intangible assets, property, plant and equipment and equity investments in subsidiaries and associates is tested annually for indication of impairment other than the decrease in value reflected by amortisation/depreciation.

Impairment tests are conducted on individual assets or groups of assets when there is indication of impairment. Write-down is made to the lower of the carrying amount and the recoverable amount.

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the group of assets and the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised impairment losses are reversed when the reason for recognition no longer exists. Impairment losses on goodwill are not reversed.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes

#### 1 Accounting policies (continued)

##### Inventories

Inventories are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, inventories are written down to this lower value.

Goods for resale and raw materials and consumables are measured at cost, comprising purchase price plus delivery costs.

Finished goods and work in progress are measured at cost, comprising the cost of raw materials, consumables, direct wages and salaries as well as indirect production overheads. Production overheads comprise costs of material and labour as well as maintenance of and depreciation on production machinery, buildings and equipment as well as costs relating to plant administration and management.

The net realisable value of inventories is determined as the selling price less costs of completion and costs incurred to affect the sale, taking into account marketability, obsolescence and developments in the expected selling price.

##### Receivables

Receivables are measured at amortised cost.

The Company has chosen IAS 39 as interpretation for impairment write-down of financial receivables.

Write-down for bad and doubtful debts is made when there is objective evidence that a receivable or a portfolio of receivables has been impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Receivables in respect of which there is no objective evidence of individual impairment are tested for objective evidence of impairment on a portfolio basis. The portfolios are primarily based on the country of domicile and credit ratings of the debtors in accordance with the credit risk management policy of the Parent Company and the Group. The objective evidence applied to portfolios is determined based on historical loss experience.

Impairment losses are calculated as the difference between the carrying amount of the receivables and the present value of the expected cash flows, including the realisable value of any collateral received. The effective interest rate of the individual receivable or portfolio is used as discount rate.

##### Prepayments

Prepayments comprise costs incurred concerning subsequent financial years.

##### Equity

###### *Net revaluation reserve according to the equity method*

Net revaluation of equity investments in subsidiaries and associates is recognised at cost in the net revaluation reserve according to the equity method.

The reserve can be eliminated in case of losses, realisation of equity investments or changes in accounting estimates.

The reserve cannot be recognised at a negative amount.

###### *Reserve for development costs*

The reserve for development costs comprises recognised development costs. The reserve cannot be used to distribute dividend or cover losses. The reserve will be reduced or dissolved if the recognised development costs are amortised or are no longer part of the Company's operations by a transfer directly to the distributable reserves under equity.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes

#### 1 Accounting policies (continued)

##### *Dividend*

Proposed dividend is recognised as a liability at the date when it is adopted at the annual general meeting (declaration date). Dividend expected to be distributed for the year is presented as a separate line item in equity.

##### **Corporation tax and deferred tax**

Current tax payables and receivables are recognised in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on taxable income in previous years and tax paid on account.

Joint taxation contributions payable and receivable are recognised in the balance sheet as corporation tax receivable or corporation tax payable.

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to non-deductible goodwill and on office premises and other items where temporary differences - apart from acquisitions - arise at the acquisition date without affecting either profit/loss for the year or taxable income. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax assets, including the tax value of tax loss carry forwards, are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity and jurisdiction.

Adjustment is made to deferred tax resulting from elimination of unrealised intra-group profits and losses.

Deferred tax is measured according to the tax rules and at the tax rates applicable in the respective countries at the balance sheet date when the deferred tax is expected to crystallise as current tax.

##### **Liabilities other than provisions**

Financial liabilities are recognised at the date of borrowing at the proceeds received less transaction costs paid. On subsequent recognition, financial liabilities are measured at amortised cost, corresponding to the capitalised value, using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement over the term of the loan.

Other liabilities are measured at net realisable value.

##### **Deferred income**

Deferred income comprises payments received regarding income in subsequent years.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes

#### 1 Accounting policies (continued)

##### Cash flow statement

The cash flow statement shows the Group's cash flows from operating, investing and financing activities for the year, the year's changes in cash and cash equivalents as well as the Group's cash and cash equivalents at the beginning and end of the year.

The cash flow effect of acquisitions and disposals of entities is shown separately in cash flows from investing activities. Cash flows from acquisitions of entities are recognised in the cash flow statement from the date of acquisition. Cash flows from disposals of entities are recognised up until the date of disposal.

##### Cash flows from operating activities

Cash flows from operating activities are calculated as the Group's share of the profit/loss adjusted for non-cash operating items, changes in working capital and corporation tax paid.

##### Cash flows from investing activities

Cash flows from investing activities comprise payments in connection with acquisitions and disposals of entities, activities and intangible assets, property, plant and equipment and investments.

##### Cash flows from financing activities

Cash flows from financing activities comprise changes in the size or composition of the Group's share capital and related costs as well as the raising of loans, repayment of interest-bearing debt and payment of dividend to shareholders.

##### Cash and cash equivalents

Cash and cash equivalents comprise cash and short-term marketable securities with a term of three months or less that are subject to only minor risks of changes in value.

#### 2 Events after the balance sheet date

The impact of Covid-19, including the reintroduction of restrictions in Denmark in late 2020 and during first half of 2021, has led to a significant decline in the global economy including countries where the Group operates and markets its products. The Group have received support from different government aid programs - including programs in Canada and Denmark - however the support from these programs does not fully cover the decline in activity during Covid-19.

Management determined that such financial and economic market uncertainty is indicative of conditions that arose subsequent to the financial statements date and therefore, the assets and liabilities of the Group as at December 31, 2020 were not adjusted to reflect the impact of COVID-19.

Given the outcome and timeframe to a recovery from the current pandemic is highly unpredictable, it is not practicable to estimate and disclose the future impact on the Groups financial position at this time.

#### 3 Special items

The Groups result for 2020 is positively impacted by DKK 4,518 thousand from Covid-19 aid packages related to payroll compensation in Denmark and Canada and leasing compensation in Canada. The amount is recorded under other operating income. The Parent Company has not received any aid packages in 2020.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes

#### 12 Prepayments

Prepayments include accrual of expenses relating to subsequent financial years.

#### 13 Share capital

The share capital comprises:

175,002 class A shares of DKK 1 each

The share capital has remained DKK 175 thousand over the past five years.

The Company held no treasury shares at the balance sheet date. No treasury shares were acquired or sold in the financial year.

#### 14 Non-current liabilities

Of the long-term liabilities, DKK 6,370 thousand falls due for payment after more than five years after the balance sheet date. These relate to payables to credit institutions.

#### 15 Contractual obligations and contingencies, etc.

##### Contingent liabilities

The Group is party to a few pending legal actions. In Management's opinion, the outcome of these legal actions will not affect the Group's financial position apart from the receivables and payables recognised in the balance sheet at 31 December 2020.

The Parent Company is jointly taxed with the Danish subsidiaries. As administration company, the Company has unlimited joint and several liability, together with the subsidiary, for payment of Danish corporation taxes and withholding taxes on dividends, interest and royalties within the joint taxation group. The jointly taxed entities' total known net liability in respect of corporation taxes and withholding taxes payable on dividend, interest and royalties amounted to DKK 0 thousand at 31 December 2020. Any subsequent corrections of income subject to joint taxation and withholding taxes, etc., may entail that the entities' liability will increase. The Group as a whole is not liable to any third parties.

The Group's Danish entities are jointly and severally liable for joint VAT registration.

##### Operating lease commitments

The Group's entities have entered into operating leases with a remaining term of 60 months. The remaining nominal lease commitment totals DKK 11,449 thousand.

#### 16 Mortgages and collateral

The Parent Company have issued letter of support to its subsidiaries Burnblock Holding ApS, Argon 18 Europe ApS and Cycles Argon 18 Inc. for commitments up to and including 31 December 2021. The letter of support issued to Cycles Argon 18 Inc. is limited to two million Canadian dollars.

#### 17 Related parties

Bregnerød Investeringselskab ApS' related parties comprise the following:

##### Control

Henrik Lyngbye Pedersen holds 100% of the share capital in the Company.

## Consolidated financial statements and parent company financial statements 1 January - 31 December
