## Statement by the Executive Board

Today, the Executive Board has discussed and approved the annual report of Bregnerød Investeringsselskab ApS for the financial year 1 January - 31 December 2023.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Company at 31 December 2023 and of the results of the Group's and the Company's operations and of the consolidated cash flows for the financial year 1 January - 31 December 2023.

Further, in our opinion, the Management's review gives a fair review of the matters discussed in the Management's review.

We recommend that the annual report be approved at the annual general meeting.

Copenhagen, 5 July 2024

Executive Board:

## Independent auditor's report

To the shareholder of Bregnerød Investeringsselskab ApS

### Opinion

We have audited the consolidated financial statements and the parent company financial statements of Bregnerød Investeringsselskab ApS for the financial year 1 January - 31 December 2023, which comprise income statement, balance sheet, statement of changes in equity and notes, including accounting policies, for the Group and the Parent Company, and a consolidated cash flow statement. The consolidated financial statements and the parent company financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the consolidated financial statements and the parent company financial statements give a true and fair view of the financial position of the Group and the Parent Company at 31 December 2023, and of the results of the Group's and Parent Company's operations as well as the consolidated cash flows for the financial year 1 January - 31 December 2023 in accordance with the Danish Financial Statements Act.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the consolidated financial statements and the parent Company financial statements" (hereinafter collectively referred to as "the financial statements") section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Independence

We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (IESBA Code) and the additional ethical requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

### Management's responsibilities for the financial statements

Management is responsible for the preparation of consolidated financial statements and parent company financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Group's and the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Group or the Parent Company or to cease operations, or has no realistic alternative but to do so.

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

## Independent auditor's report

- ▶ Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Parent Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- ▶ Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

### Statement on the Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement of the Management's review.

## Management's review

### Business review

The main activity of the Group is to design, produce and market bikes and related accessories including technologies and clothing. The Group consist of legal entities in Denmark, Canada, US, Germany and Norway.

The main activity of the Parent company is to invest in subsidiaries and to perform management services to support the activities in the investments.

### Financial review

The income statement for 2023 shows a loss of DKK 36,589 thousand against a loss of DKK 60,641 thousand last year, and the balance sheet at 31 December 2023 shows a negative equity of DKK 43,790 thousand.

The Company has lost more than half of the share capital and is subject to the provisions on reestablishment of the share capital under the Danish Companies Act. The Company has completed its discussions with its owners and has obtained a commitment for the necessary financing of operations up to and including 31 December 2024. On this basis the financial statements have been prepared under the going concern assumption. Reference is made to note 2.

### ***Profit/loss for the year compared to previously announced expectations***

In the annual report for 2023, Management expected a loss in the range of DKK 10-20 million. Management considers the group's financial performance in the year unsatisfactory. Management's initiated plans to increase revenue through improvement of sales channels and initiated plans to reduce costs through efficiency projects has not been as effective as expected.

### Financial risks and use of financial instruments

#### *General risks*

The Group's main activities is subject to risks related to the general development in the global economy including risk of recession and decline in consumer products.

#### *Financial risks and interest rate risks*

The Groups main source of financing is from shareholder loans. On 31 December 2023 payables to the shareholder amounts to DKK 119 million. The amount is presented under non-current liabilities to reflect that the shareholder has confirmed that their receivable will not be collected during 2024.

#### *Currency risks*

Currency risk corresponds to the fair market value of a financial instrument that fluctuates due to the variation of foreign exchange rates. The Group is primarily exposed to risks related to devaluation of DKK vs USD and CAD exchange rate however the risk is reduced due to the net impact of working capital in USD and CAD.

### Events after the balance sheet date

No events materially affecting the Group's and the Company's financial position have occurred subsequent to the financial year-end.

### Outlook

Due to the uncertainty towards the conflict in Ukraine and supply chain complications on the global economy the outlook for 2024 is subject to uncertainty.

Management expects that the Group for 2024 will incur losses however that these losses will be lower than 2023 and in the range of DKK 10 - 20 million. Management have initiated plans to increase revenue through improvement of sales channels and initiated plans to reduce costs through efficiency projects. On basis of these initiatives Management expects that the Group will be profitable within a few years.

## **Consolidated financial statements and parent company financial statements 1 January - 31 December**

### **Notes to the financial statements**

#### **1 Accounting policies**

The annual report of Bregnerød Investeringsselskab ApS for 2023 has been prepared in accordance with the provisions in the Danish Financial Statements Act applying to medium-sized reporting class C entities.

The accounting policies used in the preparation of the financial statements are consistent with those of last year.

#### **Reporting currency**

The financial statements are presented in Danish kroner (DKK'000).

#### **Consolidated financial statements**

##### *Control*

The consolidated financial statements comprise the Parent Company and group entities controlled by the Parent Company.

Control means a parent company's power to direct a group entity's financial and operating policy decisions. Besides the above power, the parent company should also be able to yield a return from its investment.

In assessing if the parent company controls an entity, de facto control is taken into consideration as well.

The existence of potential voting rights which may currently be exercised or converted into additional voting rights is considered when assessing if an entity can become empowered to direct another entity's financial and operating decisions.

##### *Significant influence*

Entities over whose financial and operating policy decisions the group exercises significant influence are classified as associates. Significant influence is assumed to exist if the Parent Company directly or indirectly holds or controls 20% or more of the voting power of the investee, but does not control the investee.

The existence of potential voting rights which may presently be exercised or be converted into additional voting rights is considered when assessing if significant influence exists.

##### *Preparation of consolidated financial statements*

The consolidated financial statements are prepared as a consolidation of the parent company's and the individual group entities' financial statements, which are prepared according to the group's accounting policies. On consolidation, intra-group income and expenses, shareholdings, intra-group balances and dividends, and realised and unrealised gains on intra-group transactions are eliminated. Unrealised gains on transactions with associates are eliminated in proportion to the group's interest in the entity. Unrealised losses are eliminated in the same way as unrealised gains if they do not reflect impairment.

In the consolidated financial statements, the accounting items of group entities are recognised in full. Non-controlling interests' share of the profit/loss for the year and of the equity of group entities which are not wholly-owned are included in the group's profit/loss and equity, respectively, but are disclosed separately.

Acquisitions and disposals of non-controlling interests which are still controlled are recognised directly in equity as a transaction between shareholders.

Investments in associates and joint ventures are recognised in the consolidated financial statements using the equity method.

The group's activities in joint operations are recognised on a line-by-line basis.

## **Consolidated financial statements and parent company financial statements 1 January - 31 December**

### **Notes to the financial statements**

#### **1 Accounting policies (continued)**

##### **Non-controlling interests**

On initial recognition, non-controlling interests are measured at the fair value of the non-controlling interests' equity interest.

Goodwill relating to the non-controlling interests' share of the acquiree is recognised.

##### **Foreign currency translation**

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rate at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the most recent financial statements is recognised in the income statement as financial income or financial expenses.

### **Income statement**

#### **Revenue**

The Group has chosen IAS 11/IAS 18 as interpretation for revenue recognition.

Income from rental of office and inventory premises is recognised in revenue at the time of delivery and when the risk passes to the buyer, provided that the income can be made up reliably and is expected to be received.

Revenue is measured at the fair value of the agreed consideration excluding VAT and taxes charged on behalf of third parties. All discounts and rebates granted are recognised in revenue.

#### **Other operating income**

Other operating income comprise items of a secondary nature relative to the Group's core activities, including gains on the sale of fixed assets.

#### **Cost of sales**

Cost of sales includes the cost of goods used in generating the year's revenue.

#### **Other external expenses**

Other external expenses include the year's expenses relating to the Group's core activities, including expenses relating to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

#### **Staff costs**

Staff costs include wages and salaries, including compensated absence and pension to the Group's employees, as well as other social security contributions, etc. The item is net of refunds from public authorities.

## **Consolidated financial statements and parent company financial statements 1 January - 31 December**

### **Notes to the financial statements**

#### **1 Accounting policies (continued)**

##### **Amortisation/ depreciation**

The item comprises amortisation/ depreciation of intangible assets and property, plant and equipment.

The basis of amortisation/ depreciation, which is calculated as cost less any residual value, is amortised/ depreciated on a straight line basis over the expected useful life. The expected useful lives of the assets are as follows:

Completed development projects	3 years
Patents and licenses	3-20 years
Goodwill	5 years
Buildings	25 years
Other fixtures and fittings, tools and equipment	5 years
Leasehold improvements	5 years

Depreciation is based on the residual value of the asset and is reduced by impairment losses, if any. The depreciation period and the residual value are determined at the acquisition date and are reassessed annually. Where the residual value exceeds the carrying amount of the asset, no further depreciation charges are recognised.

In the case of changes in the depreciation period or the residual value, the effect on the depreciation charges is recognised prospectively as a change in accounting estimates.

Land is not depreciated.

##### **Profit/ loss from investments in group entities and associates**

The income statement includes the proportional share of the underlying companies' profit or loss after elimination of internal profit/ loss and after tax. In group entities, the full elimination of internal profit and loss is carried out without regard to ownership shares. In associates, only proportional elimination of profit and loss is carried out, taking into account ownership shares.

##### **Financial income and expenses**

Financial income and expenses are recognised in the income statement at the amounts that relate to the financial reporting period. The items comprise interest income and expenses, e.g. from group entities and associates, declared dividends from other securities and investments, financial expenses relating to finance leases, realised and unrealised capital gains and losses relating to other securities and investments, exchange gains and losses and amortisation of financial assets and liabilities.

##### **Tax**

The parent company is covered by the Danish rules on mandatory joint taxation of the Group's Danish group entities. Group entities are included in the joint taxation arrangement from the date at which they are included in the consolidated financial statements and up to the date when they are no longer consolidated.

The parent company acts as management company for the joint taxation arrangement and consequently settles all corporate income tax payments with the tax authorities.

On payment of joint taxation contributions, the Danish corporate income tax charge is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have been able to use the tax losses to reduce their own taxable income.

## **Consolidated financial statements and parent company financial statements 1 January - 31 December**

### **Notes to the financial statements**

#### **1 Accounting policies (continued)**

Tax for the year, which comprises the current income tax charge, joint taxation contributions and deferred tax adjustments, including adjustments arising from changes in tax rates, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

### **Balance sheet**

#### **Intangible assets**

Development costs comprise expenses, salaries and amortisation directly or indirectly attributable to development activities.

Development projects that are clearly defined and identifiable, where the technical feasibility, sufficient resources and a potential future market or development opportunities are identifiable and where the Company intends to produce, market or use the project, are recognised as intangible assets provided that the cost can be measured reliably and that there is sufficient assurance that future earnings can cover production costs, selling costs and administrative expenses and development costs. Other development costs are recognised in the income statement as incurred.

Development costs that are recognised in the balance sheet are measured at cost less accumulated amortisation and impairment losses.

On completion of a development project, development costs are amortised on a straight-line basis over the estimated useful life. The amortisation period is usually 3 years.

Patents and licences are measured at cost less accumulated amortisation and impairment losses. Patents are amortised on a straight line basis over the remaining term of the patent, and licences are amortised over the term of the licence, but not exceeding 20 years.

#### **Property, plant and equipment**

Items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost includes the acquisition price and costs directly related to the acquisition until the time at which the asset is ready for use.

The scrapvalue of investment in property, plant and equipment is reassessed on yearly basis.

#### **Leases**

The Company has chosen IAS 17 as interpretation for classification and recognition of leases.

On initial recognition, leases for assets that transfer substantially all the risks and rewards incident to the ownership to the Company (finance leases) are measured in the balance sheet at the lower of fair value and the present value of the future lease payments. In calculating the net present value, the interest rate implicit in the lease or the incremental borrowing rate is used as the discount factor. Assets held under finance leases are subsequently accounted for in the same way as the Company's other assets.

The capitalised residual lease liability is recognised in the balance sheet as a liability, and the interest element of the lease payment is recognised in the income statement over the term of the lease.

Leases that do not transfer substantially all the risks and rewards incident to the ownership to the Company are classified as operating leases. Payments relating to operating leases and any other rent agreements are recognised in the income statement over the term of the lease. The Company's aggregate liabilities relating to operating leases and other rent agreements are disclosed under "Contingent liabilities".

## **Consolidated financial statements and parent company financial statements 1 January - 31 December**

### **Notes to the financial statements**

#### **1 Accounting policies (continued)**

##### **Deposits, investments**

Deposits are measured at cost.

##### **Investments in group entities and associates**

Equity investments in group entities and associates are measured according to the equity method. Equity investments in joint ventures are also measured according to the equity method in the consolidated financial statements.

On initial recognition, equity investments in group entities and associates are measured at cost, i.e. plus transaction costs. The cost is allocated in accordance with the acquisition method; see the accounting policies regarding business combinations.

The cost is adjusted by shares of profit/loss after tax calculated in accordance with the Group's accounting policies less or plus unrealised intra-group gains/losses.

Identified increases in value and goodwill, if any, compared to the underlying entity's net asset value are amortised in accordance with the accounting policies for the assets and liabilities to which they can be attributed. Negative goodwill is recognised in the income statement.

Dividend received is deducted from the carrying amount.

Equity investments in group entities and associates measured at net asset value are subject to impairment test requirements if there is any indication of impairment.

##### **Other securities and investments**

##### **Impairment of fixed assets**

The carrying amount of intangible assets, property, plant and equipment, investments in group entities and associates is assessed for impairment on an annual basis.

Impairment tests are conducted on assets or groups of assets when there is evidence of impairment. The carrying amount of impaired assets is reduced to the higher of the net selling price and the value in use (recoverable amount).

The recoverable amount is the higher of the net selling price of an asset and its value in use. The value in use is calculated as the present value of the expected net cash flows from the use of the asset or the group of assets and the expected net cash flows from the disposal of the asset or the group of assets after the end of the useful life.

Previously recognised impairment losses are reversed when the reason for recognition no longer exists. Impairment losses on goodwill are not reversed.

##### **Inventories**

Inventories are measured at cost in accordance with the FIFO method. Where the net realisable value is lower than cost, inventories are written down to this lower value. The net realisable value of inventories is calculated as the sales amount less costs of completion and expenses required to effect the sale and is determined taking into account marketability, obsolescence and development in the expected selling price.

## Consolidated financial statements and parent company financial statements 1 January - 31 December

### Notes to the financial statements

#### 1 Accounting policies (continued)

##### Receivables

The Company has chosen IAS 39 as interpretation for impairment write-down of financial receivables.

Receivables are measured at amortised cost.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable has been impaired, an impairment loss is recognised on an individual basis.

Receivables in respect of which there is no objective evidence of individual impairment are tested for objective evidence of impairment on a portfolio basis. The portfolios are primarily based on the debtors' domicile and credit ratings in line with the Company's risk management policy. The objective evidence applied to portfolios is determined based on historical loss experience.

Impairment losses are calculated as the difference between the carrying amount of the receivables and the present value of the expected cash flows, including the realisable value of any collateral received. The effective interest rate for the individual receivable or portfolio is used as discount rate.

##### Prepayments

Prepayments recognised under "Assets" comprise prepaid expenses regarding subsequent financial reporting years.

##### Cash

Cash and cash equivalents comprise cash and short-term marketable securities with a term of three months or less that are subject to only minor risks of changes in value.

##### Equity

###### ***Reserve for net revaluation according to the equity method***

The net revaluation reserve according to the equity method includes net revaluations of investments in group entities and associates relative to cost. The reserve can be eliminated in case of losses, realisation of investments or a change in accounting estimates. The reserve cannot be recognised at a negative amount.

###### ***Proposed dividends***

Dividend proposed for the year is recognised as a liability once adopted at the annual general meeting (declaration date). Dividends expected to be distributed for the financial year are presented as a separate item under "Equity".

## **Consolidated financial statements and parent company financial statements 1 January - 31 December**

### **Notes to the financial statements**

#### **1 Accounting policies (continued)**

##### **Provisions**

Provisions comprise anticipated expenses relating to warranty commitments, onerous contracts, restructurings, etc. Provisions are recognised when the Company has a legal or constructive obligation at the balance sheet date as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Provisions are measured at net realisable value or at fair value if the obligation is expected to be settled far into the future.

Provisions are measured at net realisable value.

##### **Income taxes**

Current tax payables and receivables are recognised in the balance sheet as the estimated income tax charge for the year, adjusted for prior-year taxes and tax paid on account.

Deferred tax is measured according to the liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised on temporary differences relating to goodwill which is not deductible for tax purposes and on office premises and other items where temporary differences, apart from business combinations, arise at the date of acquisition without affecting either profit/loss for the year or taxable income. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on Management's intended use of the asset or settlement of the liability, respectively.

Deferred tax is measured according to the tax rules and at the tax rates applicable at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax assets are recognised at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity. Changes in deferred tax due to changes in the tax rate are recognised in the income statement.

As management company for all the entities in the joint taxation arrangement, the parent company is liable for payment of the group entities' income taxes vis à vis the tax authorities as the group entities pay their joint taxation contributions. Joint taxation contributions payable or receivable are recognised in the balance sheet as income tax receivables or payables.

##### **Liabilities**

The Company has chosen IAS 39 as interpretation for liabilities.

Financial liabilities are recognised at the date of borrowing at the net proceeds received less transaction costs paid. On subsequent recognition, financial liabilities are measured at amortised cost, corresponding to the capitalised value, using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognised in the income statement over the term of the loan. Financial liabilities also include the capitalised residual lease liability in respect of finance leases.

Other liabilities are measured at net realisable value.

## **Consolidated financial statements and parent company financial statements 1 January - 31 December**

### **Notes to the financial statements**

#### **1 Accounting policies (continued)**

##### **Cash flow statement**

The cash flow statement shows the Company's net cash flows broken down according to operating, investing and financing activities, the year's changes in cash and cash equivalents as well as the cash and cash equivalents at the beginning and the end of the year.

Cash flows from operating activities are calculated as the profit/loss for the year adjusted for non cash operating items, changes in working capital and paid corporate income tax.

Cash flows from investing activities comprise payments in connection with acquisitions and disposals of entities and activities and of intangible assets, property, plant and equipment and investments.

Cash flows from financing activities comprise changes in the size or composition of the Company's share capital and related expenses as well as raising of loans, repayment of interest bearing debt and payment of dividends to shareholders.

Cash and cash equivalents comprise cash, short term bank loans and short term securities which are readily convertible into cash and which are subject only to insignificant risks of changes in value.

##### **Financial ratios**

The financial ratios stated under "Financial highlights" have been calculated as follows:

Operating profit/loss	$\frac{\text{Profit/loss before net financials +/-} \\ \text{Other operating income and other operating expenses}}{\text{Operating profit/loss (EBIT) x 100}}$
Operating margin	$\frac{\text{Operating profit/loss (EBIT) x 100}}{\text{Revenue}}$
Gross margin	$\frac{\text{Gross profit/loss x 100}}{\text{Revenue}}$
Current ratio	$\frac{\text{Current assets x 100}}{\text{Current liabilities}}$
Equity ratio	$\frac{\text{Equity excl. non-controlling interests, year-end x 100}}{\text{Total equity and liabilities, year-end}}$
Return on equity	$\frac{\text{Profit/loss for the year after tax excl. non-controlling interests x} \\ 100}{\text{Average equity excl. non-controlling interests}}$

## **Consolidated financial statements and parent company financial statements 1 January - 31 December**

### **Notes to the financial statements**

#### **14 Contractual obligations and contingencies, etc.**

##### **Other financial obligations**

###### **Group**

The Group is party to a few pending legal actions. In Management's opinion, the outcome of these legal actions will not affect the Group's financial position apart from the receivables and payables recognised in the balance sheet at 31 December 2023.

The Parent Company is jointly taxed with the Danish subsidiaries. As administration company, the Company has unlimited joint and several liability, together with the subsidiary, for payment of Danish corporation taxes and withholding taxes on dividends, interest and royalties within the joint taxation group. The jointly taxed entities' total known net liability in respect of corporation taxes and withholding taxes payable on dividend, interest and royalties amounted to DKK 0 thousand at 31 December 2023. Any subsequent corrections of income subject to joint taxation and withholding taxes, etc., may entail that the entities' liability will increase. The Group as a whole is not liable to any third parties.

The Group's Danish entities are jointly and severally liable for joint VAT registration.

###### **Operating lease commitments**

The Group's entities have entered into operating leases with a remaining term of 60 months. The remaining nominal lease commitment totals DKK 11,681 thousand.

#### **15 Security and collateral**

###### **Group**

Land and buildings with a carrying amount of DKK 9,070 thousand at 31 December 2023 have been provided as collateral for debt to mortgage credit institutions of DKK 7,236 thousand.

Inventories of a carrying amount of DKK 61,563 thousand and trade receivables of DKK 10,208 thousand has been provided as guarantee for debt to credit institutions of DKK 18,701 thousand. The Group has provided a payment guarantee totaling DKK 1,000 thousand for the payment of the beneficiary Brenntag Nordic A/S.

The Parent Company have issued letter of support to its subsidiaries and associates Burnblock Holding ApS, Argon 18 Europe ApS, Cycles Argon 18 Inc. and Trail Food Company ApS for commitments up to and including 31st December 2024.

The letter of support issued to Cycles Argon 18 Inc. is limited to five million Canadian dollars.

The Parent Company has issued an unlimited joint and several guarantee in favour of its subsidiary Burnblock Holding ApS.

The terms of credit facility of DKK 18,701 thousand requires the Group to be in compliance throughout the year with a certain number of restrictive covenants. As at 31 December, 2023, the Group was not in compliance with these covenants.

On March 4, 2024, the Group negotiated a restated credit facility with amended restrictive covenants and guarantees, such as a standby letter of a credit issued in the bank's favor. The interest rate on the operating line of credit was also amended to bear interest at the bank's variable prime lending rate plus 0.75 %. As at December 31, 2023, the Group was in compliance with these amended covenants
