Today the Board of Directors and the Executive Board presented the Annual Report for 2019 for Tenura ApS.

The Annual Report has been presented in accordance with the Danish Financial Statements Act.

We find the accounting policies applied appropriate, and the Annual Report therefore provides a true and fair view of the Company's assets, liabilities and equity, financial position and results of the company. In our opinion, the Management's Review includes a true and fair description of the matters mentioned in the review.

We recommend that the Annual Report be approved at the Annual General Meeting.

København, 24. February 2020.

Executive Board:

Rune Windfeld Bundesen

Board of Directors:

Jon Windfeld Bundesen
(formand)

Jakob Nilsson

Thomas Güllich Kofoed Larsen

To the shareholders of Tenura ApS.**Opinion:**

We have audited the Financial Statements of Tenura ApS for the financial year 1. January - 31. December 2019, which comprise income statement, balance sheet and notes, including a summary of significant accounting policies, for the Company. The Financial Statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the Company's financial position at 31. December 2019 and of the results of the Company's operations for the financial year 1. January - 31. December 2019 in accordance with the Danish Financial Statements Act.

Basis for Opinion:

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibilities for the Financial Statements:

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements:

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users of accounting information taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

Auditor's Responsibilities for the Audit of the Financial Statements - continued:

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management's Review:

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of Management's Review.

Principal activity:

The purpose of Tenura ApS is to be a holding company.

Uncertainties connected with recognition or measurement:

We should draw attention to note 3 in the financial statements, with the explanation about the uncertainty regarding the valuation of receivables from group enterprises.

The annual report of Tenura ApS for 2019 has been presented in accordance with the provisions of the Danish Financial Statements Act regarding reporting medium-sized class B enterprises.

The significant areas of the accounting policies, which are presented using the same policies as last year, are mentioned below.

GENERALLY REGARDING RECOGNITION AND MEASUREMENT

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. Likewise, all expenses including depreciation/amortisation, impairment losses, and reversals which are due to changes in estimated amounts previously

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the Company and when the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that the future economic benefits will flow out of the Company and when the measurement of the value of the liability

On initial recognition, assets and liabilities are recognised at cost. Subsequently, assets and liabilities are measured as described below for each item.

Allowances are made for predictable losses and risks that arise before the presentation of the Annual Report and that confirm or invalidate circumstances that existed at the balance sheet

The carrying value of the tangible fixed assets, are reviewed annually to determine, if there are any indication of impairment, besides what is determined as normal depreciation. If this is the case, the assets will be written down to its recoverable amount.

THE INCOME STATEMENT:

Gross income:

Gross income comprises the net turnover and external costs.

Revenue:

Revenue is recognised less VAT and taxes and with the deduction of any discounts granted in connection with the sale.

Other external costs:

Other external costs include costs relating to administration.

Income from investments in group enterprises:

The proportionate share of the profit for the year in group enterprises, adjusted for internal gains and losses, is recognized in the Parent Company's income statement.

Financials:

Financial income and costs are recognised in the income statement, with the amounts concerning the financial year. Financial income and costs include interests.

Tax on results for the year:

Tax on results for the year which comprises current tax and changes in deferred tax is recognised in the income statement with the portion of taxes related to the taxable income for the year whereas the portion attributable to entries on equity is recognised directly in equity.

ASSETS:**Financial assets:**

Investments in group enterprises are measured at the proportionate share of the company's equity value, adjusted for internal gains and losses.

Investments in group enterprises with negative equity value are measured at DKK 0, and any receivables from these companies are written down to the extent that the receivable is unreliable. If the negative equity value exceeds receivables, the remaining amount is recognized under provisions if the parent company has a legal or actual obligation to cover a negative balance that exceeds the receivable.

Net revaluation of investments in group enterprises are recognized as reserve for net revaluation using the equity method under equity, to the extent that the carrying amount exceeds the cost price.

Dividends from group enterprises that are expected to be adopted prior to the approval of the annual report of the company are not tied-up on the reserve for net revaluation.

Financial assets, continued:

Profit or loss on disposal of investments in group enterprises is calculated as the difference between the selling price and the carrying amount of net assets at the time of sale including not depreciated goodwill and expected cost of sale or disposal. Profits and losses are recognized in the income statement as result of investments in group enterprises.

Investments in associates are measured at cost. In cases where the cost exceeds the recoverable value, investments are written down to this lower value.

Receivables:

Receivables are measured at amortised cost which usually equals nominal value. The value will be adjusted to meet expected losses.

Cash funds:

Cash equivalents consist of bank deposits. Cash equivalents are carried at fair value.

LIABILITIES:**Tax payable and deferred tax:**

Current tax liabilities and current tax receivable are recognised in the balance sheet as tax calculated on the taxable income for the year adjusted for tax on previous years' taxable income and taxes paid on account/prepaid.

Deferred tax is measured according to the balance sheet liability method in respect of temporary differences between the carrying amount and the tax base of assets and liabilities.

Deferred tax assets including the tax value of tax loss carry forwards, are measured at the expected realisable value, either by elimination in tax on future earnings or by set-off against deferred tax liabilities within the same legal tax entity and jurisdiction. Any deferred net tax assets are measured at net realisable value.

Deferred tax is measured according to the balance sheet liability method in respect of temporary differences between the carrying amount and the tax base of assets and liabilities. In cases, e.g. in respect of shares in which the statement of the tax base can be made according to alternative taxation rules, deferred tax is measured on the basis of the planned use of the asset or settlement of the liability, respectively.

Liabilities:

Liabilities concerning debts to suppliers and other debts are measured at amortised cost which usually corresponds to the nominal value.

LIABILITIES	47.974	1.816.766
LIABILITIES AND EQUITY	35.815.724	43.383.294

1 Other receivables

Other receivables, recognized by DKK 23.942.981 includes receivables that are due more than one year from the balance sheet date.

2 Uncertainties regarding receivables from group enterprises

There is uncertainty associated with the recognition of receivables from the daughter company Game Plus Consulting Ltd., which is recognized in the balance sheet at DKK 0. Valuation of the receivable depends on the daughters entity's ability to pay, which requires that the company's earnings base be improved. The daughter company's management expects positive operating earnings, and management expects that forward-looking earnings or divestment of the activities may lead to sufficient liquidity to settle the liabilities, including the debt to the parent company.

3 Pledges and collateral

The company has provided collateral in cash funds of 8.787.000 DKK to third parties.
