Management's Statement

The Board of Directors and the Executive Board have today considered and adopted the Annual Report of Uni-Chartering A/S for the financial year 1 May 2017 - 30 April 2018.

The Annual Report was prepared in accordance with the Danish Financial Statements Act.

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 30 April 2018 and of the results of the Company operations for 2017/18.

In our opinion, Management's Review includes a true and fair account of the matters addressed in the review.

We recommend that the Annual Report be adopted at the Annual General Meeting.

Independent Auditor's Report

To the Shareholder of Uni-Chartering A/S

Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 30 April 2018, and of the results of the Company's operations for the financial year 1 May 2017 - 30 April 2018 in accordance with the Danish Financial Statements Act.

We have audited the Financial Statements of Uni-Chartering A/S for the financial year 1 May 2017 - 30 April 2018, which comprise income statement, balance sheet, statement of changes in equity and notes, including a summary of significant accounting policies ("financial statements").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statements Act. We did not identify any material misstatement in Management's Review.

Management's Responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control

Independent Auditor's Report

as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

Independent Auditor's Report

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Review

Activities

The Company's main activities comprise chartering and commercial management.

Development in financial year 2017/18

Comparative figures for 2016/17 are stated in brackets.

On the back of a very difficult year in 2016/17 and a strong focus on the Company's core business the net result for 2017/18 was improved significantly – increasing the net result by USD 4.1 million compared to last year.

Gross profit in 2017/18 was increased by 67% to USD 7.9 million (USD 4.7 million).

Staff and other external expenses decreased by 7% to USD 5.7 million (USD 6.1 million) driven by a strong focus on reducing cost.

The net result for the year is a profit of USD 2.6 million (loss of USD 1.5 million). The net result is slightly above the expectations prior to the beginning of the year.

At 30 April 2018, equity was USD 9.4 million (USD 6.2 million), increased by profit for the year of USD 2.6 million and adjustment of hedging instruments of USD 0.6 million. The solvency rate at 30 April 2018 is 52.1% (32.9%).

The fleet of time chartered vessels at the end of the financial year is 22 vessels, down from 25 vessels at the beginning of the year.

Efforts on developing and implementing the new strategy of the Group introduced last year has continued in 2017/18 to have an even more agile business approach and to meet our customers increased needs and requirements. Initiatives to implement the strategy throughout the organisation has been conducted at workshops on all levels in the organisation.

Several initiatives, such as 'Road Shows' and opening of temporary 'Pop-Up-offices' in main shipping hubs around the world has taken place during the year to support the strategic focus area '*Closer to Customers*' and further improve our commercial performance.

Financial risks

Commercial risks

While Uni-Chartering handles the commercial management of 14 of the parent company's fleet of owned vessels, the main part of the Company's fleet is time chartered from other owners. As the time charter hire is fixed over the charter period, the Company is exposed to the commercial risk of a falling market as well as other commercial risks.

Review

Financial risks (continued)

The Company mitigates this risk by balancing a mix of short-term, medium-term and long-term charter periods. The average duration of the current time charter contracts at year-end is shortly above 8 months and considered at a decent level.

Commodity risks

In addition to time charter expenses, bunker fuel is the main cost element affecting Direct Expenses, and thus the Company is heavily exposed to changes in oil prices.

The Company targets to mitigate the risk by passing on bunker price increases to customers. In the spot market, the freight level is to the extent possible adjusted to reflect the current bunker price level. When entering into Contracts of Affreightment with customers, the bunker price risk is either covered by including bunker price clauses indexing freight rates with current bunker price levels or by hedging the exposure by use of financial derivatives.

Counterparty risk

The Company is not exposed to any material risks relating to individual, large customers or business partners. The Company's policy for assuming credit risks implies that all customers and business partners are subject to current credit rating.

It is the Company's policy to require payment before or upon cargo release, while only customers with high credit rating and with whom the Company has a long lasting good relationship, are accepted to pay after cargo release. The Company has not suffered any material losses from defaulting customers in 2017/18

Foreign exchange risks

Having USD as its presentation currency, the Company is affected by transactions taking place mainly in EUR and DKK. The Company is striving to match cash inflows and cash outflows in currencies other than USD with other companies at Group level.

Expectations for the year ahead

When operating worldwide, the Company's results are highly affected by political turmoil and the general development in the global economy – and the outlook for global economy and world trade remains to be volatile and uncertain.

During the last month of the financial year 2017/18 the freight market slightly increased, and the Company expects the market conditions for transport of chemicals and oil products to gradually further improve during the financial year 2018/19.

Based on the current market conditions and outlook expectations for next year, the result for 2018/19 is expected to improve compared to the result achieved in 2017/18.

Subsequent events

No significant events affecting the assessment of the Annual Report have occurred after the balance sheet date.

7 Derivative financial instruments

The Company has entered into forward contracts to ensure future purchase of bunkers for servicing fixed freight contracts. In relation to trading prices at the balance date, the contracts have a positive fair value of USD 419k. Capital gains are recognised in equity. The contracts have a maturity of 1-11 months.

Notes to the Annual Report

8 Security and contingent liabilities

Security

The Company has issued a joint and several guarantee of USD 148,450k in respect of the obligations of group enterprises toward credit institutions. At the balance sheet date, the obligations of group enterprises amounted to USD 148,450k

Contingent liabilities

The Group's Danish companies are jointly and severally liable for the tax on the Group's jointly taxed income etc. Total accrued corporation tax appears from the Annual Report of Selfinvest ApS which acts as management company in the jointly taxed group. Moreover, the Group's Danish enterprises are jointly and severally liable for Danish withholding tax and VAT. Any subsequent adjustments to corporation or withholding taxes and VAT may result in an increase of the Company's liability.

Rental and lease obligations:

The Company has entered into the following contracts:

- rental contract with group enterprises with a total obligation of USD 68k.
- operating leases with a total obligation of USD 55k.
- time charter contracts with a total obligation of USD 41,656k.

The obligations are due according to the following order:

	<u>Within</u> <u>1 year</u> USD'000	<u>Between</u> <u>1 and 5 years</u> USD'000	<u>After</u> <u>5 years</u> USD'000
Tenancy contract with group enterprises	68	0	0
Operating leases	52	3	0
Time charter contracts	41,591	65	0
	<u>41,711</u>	<u>68</u>	<u>0</u>

Notes to the Annual Report

9 Transactions with related parties

Related parties comprise the Board of Directors, the Executive Board and senior executives in the group enterprises as well as companies in which these persons have significant interests.

With reference to section 98 C (7) of the Danish Financial Statements Act related party transactions details are not disclosed.

The Company is included in the Consolidated Financial Statements of the immediate Parent Company Uni-Tankers A/S.

Controlling interest is exercised through the Company's immediate Parent Company, Uni-Tankers A/S. The Company's ultimate Parent Company which prepares Consolidated Financial Statements is Selfinvest ApS, in which Torben Østergaard-Nielsen, CEO, Gl. Strandvej 171, 5500 Middelfart exercises control.

10 Subsequent Events

No significant events affecting the assessment of the Annual Report have occurred after the balance sheet date.

Notes to the Annual Report

11 Accounting Policies

Basis of Preparation

The Annual Report of Uni-Chartering A/S for 2017/18 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class C.

The Financial Statements for 2017/18 have been presented in USD. The exchange rate for USD/DKK at 30 April 2017 is 680.54 and at 30 April 2018 616.78.

Cash Flow Statement

With reference to section 86(4) of the Danish Financial Statements Act and to the cash flow statement provided in the Consolidated Financial Statements of Uni-Tankers A/S, the Company has omitted preparing a cash flow statement.

Recognition and measurement

The Financial Statements have been prepared based on the historic cost principle.

Revenues are recognised in the income statement as earned, and all expenses incurred to achieve the earnings for the year are deducted. Expenses include operating expenses, depreciation, amortisation, impairment losses and provisions as well as changes due to changed accounting estimates. Furthermore, value adjustments of financial assets and liabilities measured at fair value are recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits attributable to the asset will flow to the Company, and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow out of the Company, and the value of the liability can be measured reliably.

Assets and liabilities are initially measured at cost. Subsequently, assets and liabilities are measured as described for each item below.

Recognition and measurement take into account profits, losses and risks occurring before the presentation of the Annual Report which relate to affairs and conditions existing at the balance sheet date.

USD is used as the measurement currency. All other currencies are regarded as foreign currencies.

Notes to the Annual Report

11 Accounting Policies (continued)

Translation policies

Transactions in foreign currencies are translated during the year at the exchange rates at the dates of transaction. Gains and losses arising due to differences between the transaction date rates and the rates at the dates of payment are recognised in financial income and expenses in the income statement.

Receivables, payables and other monetary items in foreign currencies are translated at the exchange rates at the balance sheet date. Any differences between the exchange rates at the balance sheet date and the transaction date rates are recognised in financial income and expenses in the income statement; however, see the paragraph on hedge accounting.

Derivative financial instruments

Derivative financial instruments are initially recognised in the balance sheet at cost and are subsequently remeasured at their fair values. Positive and negative fair values of derivative financial instruments are recognised in “Other receivables” and “Other payables”, respectively. Changes in the fair values of derivative financial instruments are recognised in the income statement unless the derivative financial instrument is designated and qualify as hedge accounting, see below.

Hedge accounting

Fair value hedges:

Changes in the fair values of derivative financial instruments that are designated and qualify as fair value hedges of a recognised asset or a recognised liability are recognised in the income statement as are any changes in the fair value of the hedged asset or the hedged liability.

Hedges of future assets or liabilities:

Changes in the fair values of derivative financial instruments that are designated and qualify as hedges of expected future transactions are recognised directly in retained earnings under equity. If the hedged transaction results in an asset or a liability, the amount is transferred from equity to the cost of the asset or the liability, respectively. If the hedged transaction results in an income or an expense, the amount is transferred from equity to the income statement in the period in which the hedged transaction is recognised. The amount is recognised in the same item as the hedged transaction.

Income Statement

Revenue

Revenue on the sale of goods and services is recognised in the income statement when the sale has been completed. This is considered the case when

- delivery has been made before year end;

Notes to the Annual Report

11 Accounting Policies (continued)

- a binding sales agreement has been made;
- the sales price has been determined, and
- payment has been received or may with reasonable certainty be expected to be received.

Revenue is recognised exclusive of VAT and duties, and income is cut off and recognised over the duration of the voyages.

Direct expenses

Direct expenses include expenses for the purchase of fuel for ships.

Other external expenses

Other external expenses include expenses for sale and marketing as well as office expenses, etc.

Staff expenses

Staff expenses comprise wages and salaries as well as payroll expenses.

Financial income and expenses

Financial income and expenses comprise interest as well as realised and unrealised exchange gains.

Tax on the profit/loss for the year

The Company's current tax is computed according to the provisions of the Danish Tonnage Tax Act. On the basis of the Company's planned shipowning operations, the Tonnage Tax Scheme does not imply recapture of depreciation, and therefore deferred tax is only disclosed in the notes.

Tax for the year consists of current tax for the year and adjustment of deferred tax for the year. The tax attributable to the profit for the year is recognised in the income statement, whereas the tax attributable to equity transactions is recognised directly in equity.

The Company is jointly taxed with Danish group enterprises. The tax effect of the joint taxation is allocated to enterprises showing profits or losses in proportion to their taxable incomes (full allocation with credit for tax losses). The jointly taxed enterprises have adopted the on-account taxation scheme.

Balance Sheet

Intangible assets

Software is measured at cost less accumulated amortisation. Software is amortised over 5 years.

Notes to the Annual Report

11 Accounting Policies (continued)

Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Cost comprises the cost of acquisition and expenses directly related to the acquisition up until the time when the asset is ready for use.

Depreciation based on cost reduced by any residual value is calculated on a straight-line basis over the expected useful lives of the assets:

Fixtures and fittings, tools and equipment	3-6 years
Leasehold improvements	lease term

Receivables

Receivables are measured in the balance sheet at the lower of amortised cost and net realisable value, which corresponds to nominal value less provisions for bad debts. Provisions for bad debts are determined on the basis of an individual assessment of each receivable.

Inventory of fuel oil

Oil inventories comprise bunker for own use.

Prepayments

Prepayments comprise prepaid expenses concerning rent, insurance premiums, subscriptions and interest.

Deferred tax assets and liabilities

Deferred tax is recognised in respect of all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognised in respect of temporary differences concerning goodwill not deductible for tax purposes.

Deferred tax is measured on the basis of the tax rules and tax rates that will be effective under the legislation at the balance sheet date when the deferred tax is expected to crystallise as current tax. In cases where the computation of the tax base may be made according to alternative tax rules, deferred tax is measured on the basis of the intended use of the asset and settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax loss carry-forwards, are measured at the value at which the asset is expected to be realised, either by elimination in tax on future earnings or by set-off against deferred tax liabilities.

Deferred tax assets and liabilities are offset within the same legal tax entity.

Notes to the Annual Report

11 Accounting Policies (continued)

Current tax receivables and liabilities

Current tax receivables and liabilities are recognised in the balance sheet at the amount calculated on the basis of the expected taxable income for the year adjusted for tax on taxable incomes for prior years.

Tax receivables and liabilities are offset if there is a legally enforceable right of set-off and an intention to settle on a net basis or simultaneously.

Financial debts

Fixed-interest loans from credit institutions, are recognised initially at the proceeds received net of transaction expenses incurred. Subsequently, the loans are measured at amortised cost; the difference between the proceeds and the nominal value is recognised as an interest expense in the income statement over the loan period.

Other debts are measured at amortised cost, substantially corresponding to nominal value.

Deferred income

Deferred income comprises payments received in respect of income in subsequent years.

Definition of financial ratios

Gross margin	=	$\frac{\text{Gross profit} \times 100}{\text{Revenue}}$
Profit margin	=	$\frac{\text{Profit before financials} \times 100}{\text{Revenue}}$
Return on equity	=	$\frac{\text{Net profit for the year} \times 100}{\text{Average equity}}$
Liquidity ratio	=	$\frac{\text{Current assets}}{\text{Short-term debt}}$
Solvency ratio	=	$\frac{\text{Equity at year end} \times 100}{\text{Total assets}}$
