Statement by management on the annual report

The Board of directors and Executive Management have today discussed and approved the annual report of FLSmidth Finans A/S for the financial year 1 January - 31 December 2021.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the company's financial position at 31 December 2021 and of the results of the company's operations for the financial year 1 January - 31 December 2021.

In our opinion, management's review includes a fair review of the matters dealt with in the management's review.

Management recommends that the annual report should be approved by the company in general meeting.

Independent auditor's report

To the shareholder of FLSmidth Finans A/S

Opinion

We have audited the financial statements of FLSmidth Finans A/S for the financial year 1 January – 31 December 2021, which comprise accounting policies, income statement, balance sheet, statement of changes in equity and notes. The financial statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the financial position of the Company at 31 December 2021 and of the results of the Company's operations for the financial year 1 January – 31 December 2021 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements.

Management's responsibilities for the financial statements

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the Danish Financial Statements Act and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Independent auditor's report

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit conducted in accordance with ISAs and additional requirements applicable in Denmark, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the note disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

Independent auditor's report

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management's review

Management is responsible for the Management's review.

Our opinion on the financial statements does not cover the Management's review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Management's review and, in doing so, consider whether the Management's review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether the Management's review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that the Management's review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of the Management's review.

Financial highlights

Seen over a 5-year period, the development of the Company may be described by means of the following financial highlights:

	2021	2020	2019	2018	2017
	MDKK	MDKK	MDKK	MDKK	MDKK
Key figures					
Net financials	13	12	4	10	13
Profit/loss for the year	10	9	3	8	10
Balance sheet total	617	603	1.132	841	585
Total equity	613	603	594	590	582
Financial ratios					
Solvency ratio	99,4%	100,0%	52,5%	70,2%	99,5%
Return on equity	1,6%	1,5%	0,5%	1,4%	1,7%

The financial ratios are calculated in accordance with the definitions included in the accounting policies.

Management's review

Business review

The company is part of FLSmidth Group and fully owned by FLSmidth & Co. A/S. The purpose of the Company is to provide capital via loans to entities within the FLSmidth Group or entities associated with the FLSmidth Group.

Financial review

The company's income statement for the year ended 31 December 2021 shows a profit of TDKK 10.036 from TDKK 9.019 last year primarily due to stable financial items, and the balance sheet at 31 December 2021 shows equity of TDKK 612.746, compared to TDKK 602.710 in 2020. The level of total loan receivables was stable compared to 2020.

The profit for the year is in line with expectations at the beginning of the year.

Significant events occurring after the end of the financial year

FLSmidth Group is closely following the situation in Ukraine and the sanctions made by EU, USA and other western countries towards Russia. Although the mining and cement industries are currently not subject to sanctions, FLSmidth has suspended new business in Russia and Belarus and will wind down our activities in Russia. We are, however, obliged to fulfil our legal obligations with regards to ongoing activities to the extent possible.

We will follow any new sanctions as they are announced on an ongoing basis.

No events have occurred after the balance sheet date which could significantly affect the company's financial position.

Special risks apart from generally occurring risks in industry

Currency risks

The Company's currency risk derives from the impact of exchange rates on future commercial payments and financial payments. Furthermore, the Company hedges loans in foreign currencies provided to entities within the FLSmidth Group in order to reduce fluctuations in FX prices as described in note 3 to the financial statements. Funding is done in the Company's own currency.

Interest-rate risks

The Company reduces interest risk by only using floating rates on its funding and financing agreements.

Management's review

Credit risks

The Company's financial assets are mainly managed or approved by Management and Treasury department. The credit risk is limited to only FLSmidth Group counterparties where there is continuously assessment of operational performance and profitability.

Outlook 2022

It's our assumptions that market conditions in the first half of 2022 will be similar to that of the second half of 2021. From the summer of 2022, we expect a gradual improvement in business sentiment and increasing access to customer sites, returning to a more normalized situation by the end of the year. Management expects a positive net result for 2022 in line with 2021, however depending on the level of loan balances and interest rate levels, which may change during the year.

Accounting policies

The annual report of FLSmith Finans A/S for 2021 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to enterprises of reporting class C medium sized.

The accounting policies applied are consistent with those of last year.

The annual report for 2021 is presented in TDKK

In accordance with section 86.4 of the Danish Financial Statements Act, no cash flow statement has been prepared. The cash flow statement of FLSmith Finans A/S is included in the consolidated financial statement of FLSmith & Co A/S.

Basis of recognition and measurement

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company and the value of the liability can be measured reliably.

Income statement

Administration costs

Administration costs include expenses to audit fee.

Financial income and costs

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year. Net financials include interest income and expenses exchange gains and losses on foreign currency transactions, derivative gains/ losses, surcharges and allowances under the advance-payment-of-tax scheme, etc.

Tax for the year

The company is subject to the Danish rules on compulsory joint taxation of the Group's Danish subsidiaries. Subsidiaries participate in the joint taxation arrangement from the time when they are included in the consolidated financial statements and until the time when they withdraw from the consolidation.

Accounting policies

On payment of joint taxation contributions, the current Danish income tax is allocated between the jointly taxed entities in proportion to their taxable income. Entities with tax losses receive joint taxation contributions from entities that have been able to use tax losses to reduce their own taxable profits.

Tax for the year, which comprises the current tax charge for the year and changes in the deferred tax charge, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

Balance sheet

Receivables

Receivables are measured at amortised cost, usually equalling nominal value less write downs for bad and doubtful debts.

Income tax and deferred tax

Deferred tax is measured according to the liability method in respect of temporary differences between the carrying amount of assets and liabilities and their tax base, calculated on the basis of the planned use of the asset and settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax losses allowed for carry forward, are measured at the value to which the asset is expected to be realised, either as a set-off against tax on future income or as a set-off against deferred tax liabilities within the same legal tax entity. Any deferred net tax assets are measured at net realisable value.

Liabilities

Debt is measured at amortised cost, which for cash loans corresponds to the outstanding debt. For loans, amortised cost corresponds to an outstanding debt calculated as the underlying cash value of the loan at the time of borrowing, adjusted by amortisation of the value adjustment of the loan at the time of borrowing.

Other liabilities, which include trade payables, payables to group entities and other payables, are measured at amortised cost, which is usually equivalent to nominal value.

Accounting policies

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statement as financial income or financial expenses. If foreign currency instruments are considered cash flow hedges, any unrealised value adjustments are taken directly to a fair value reserve under 'Equity'.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Derivative financial instruments

On initial recognition in the balance sheet, derivative financial instruments are measured at cost and subsequently at fair value. Positive and negative fair values of derivative financial instruments are included in 'Other receivables' or 'Other payables', respectively.

Fair value adjustments of derivative financial instruments designated as and qualifying for hedging of future cash flows are recognised in other receivables or other payables and in the fair value reserve under 'Equity'. If the future transaction results in recognition of assets or liabilities, amounts previously recognised in equity are transferred to the cost of the asset or the liability, respectively. If the future transaction results in income or expenses, amounts previously recognised in equity are transferred to the income statement in the period in which the hedged item affects the income statement.

Derivative financial instruments that do not qualify for hedge accounting, fair value adjustments are recognised as financial items in the income statement.

The derivatives are forward exchange contracts not traded on an active market. The fair value is therefore estimated using a valuation technique, where all significant inputs are based on observable market data such as exchange rates, interest rates, credit risk and volatilities (level 2).
