STATEMENT BY MANAGEMENT ON THE ANNUAL REPORT

The Board of Directors and the Executive Board have today considered and approved the annual report for the financial year 1 July 2018 - 30 June 2019 for Pingala A/S.

The annual report is presented in accordance with the Danish Financial Statements Act.

In our opinion the financial statements give a true and fair view of the Company's financial position at 30 June 2019 and of its financial performance for the financial year 1 July 2018 - 30 June 2019.

We believe that the management commentary contains a fair review of the affairs and conditions referred to therein.

We recommend the annual report for adoption at the Annual General Meeting.

INDEPENDENT AUDITOR'S REPORT

To the shareholders of Pingala A/S

Opinion

We have audited the Financial Statements of Pingala A/S for the financial year 1 July 2018 - 30 June 2019, which comprise the accounting policies, income statement, balance sheet, statement of changes in equity and notes. The Financial Statements are prepared in accordance with the Danish Financial Statements Act.

In our opinion the Financial Statements give a true and fair view of the Company's financial position at 30 June 2019 and of the result of the Company's operations for the financial year 1 July 2018 - 30 June 2019 in accordance with the Danish Financial Statements Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's Responsibilities for the Audit of the Financial Statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these rules and requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the Financial Statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users of accounting information taken on the basis of these Financial Statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of

INDEPENDENT AUDITOR'S REPORT

the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the Financial Statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the Financial Statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the Financial Statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, we conclude that Management's Review is in accordance with the Financial Statements and has been prepared in accordance with the requirements of the Danish Financial Statement Act. We did not identify any material misstatement of Management's Review.

MANAGEMENT'S REVIEW

Primary activities

The Company's purpose is consultancy in connection with financial management and IT et cetera.

Uncertainty relating to recognition and measurement

The financial report is not affected by uncertainty in recognition and measurement.

Development in activities and finances

The result for the year shows a profit of 8.322.850 DKK, which is considered to be satisfactory. The equity amounts to 9.671.007 DKK at 30 June 2019.

Events after the balance sheet date

No events have occurred after the balance sheet date to this date, which would influence the evaluation of this annual report.

ANNUAL REPORT

ACCOUNTING POLICIES

This annual report of Pingala A/S for 2018/19 has been presented in accordance with the provisions of the Danish Financial Statements Act governing reporting class B enterprises with additional choice of a few rules from class C enterprises.

The accounting policies applied for these financial statements are consistent with those applied last year.

Foreign currency translation

On initial recognition, transactions denominated in foreign currencies are translated at the exchange rates at the transaction date. Foreign exchange differences arising between the exchange rates at the transaction date and the date of payment are recognized in the income statement as financial income or expenses.

Receivables, payables and other monetary items denominated in foreign currencies are translated using the exchange rate at the balance sheet date. Exchange differences that arise between the rate at the transaction date and the one in effect at the payment date or the rate at the balance sheet date are recognized in the income statement as financial income or financial expenses.

Long-term assets purchased in foreign currency are translated at the exchange rate at the transaction date.

Information on omission of consolidated financial statement

With reference to section 110 of the Danish Financial Statements Act, the company has not prepared consolidated financial statements.

INCOME STATEMENT

Revenue

The revenue from service rendered, which comprises service contracts, are recognized on a straight-line basis in the revenue concurrently with delivery of the services, as the services are rendered in the shape of an undefinable number of actions during a specified period of time.

Revenue is measured to fair value of the agreed fee ex. VAT and taxes charged on behalf of third parties. All discounts granted in connection with the sale are recognized in the revenue.

Gross profit (loss)

With reference to the Danish Financial Statements Act section 32 revenue with deduction of cost of sales and external cost is condensed into one item called gross profit.

External expenses

Other external expenses comprise expenses for distribution, sale, marketing, administration, premises, bad debts, operational costs etc.

Staff costs

Staff costs comprise salaries and wages including holiday pay and pensions as well as social security costs, etc for the Company's staff. Received compensations from the authorities have been deducted in staff costs.

Income and expenses from investments in group enterprises and associates

A proportional share of the result after tax in the subjacent companies is recognized according to the equity method in the income statement. Profit shares after tax in subsidiaries and associated companies are presented in the income statement in separate lines. A full elimination of group internal profit/loss is made on equity investments in the subsidiaries, whereas a proportional elimination of group internal profit/loss is made in associated companies.

ANNUAL REPORT

ACCOUNTING POLICIES

Financial income and expenses

Financial income and expenses comprise interest income and expense, leasing costs, gains and losses on securities, payables and transactions denominated in foreign currencies, amortisation of financial assets and liabilities as well as surcharges and refunds under the on-account tax scheme, etc.

Income tax

Tax for the year, which consists of current tax for the year and changes in deferred tax, is recognized in the income statement by the portion attributable to the profit for the year and recognized directly in equity by the portion attributable to entries directly in equity. The tax share recognized in the income statement, and which is attached to the year's extraordinary result, is attributed hereto, whereas the remaining share is attributed to the year's ordinary result.

The Company is included in the Danish rules on mandatory joint taxation in Pingala A/S-koncernens Danish subsidiaries. Subsidiaries are included in the joint taxation from the time they are included in the consolidated accounts and on to the time, when they no longer are part of the consolidated accounts.

The Company is administration Company for the joint taxation and as consequence hereof settles all payment of Company tax with the Danish tax authorities.

On payment of joint taxation contributions, the current Danish corporation tax is allocated between the jointly taxed companies in proportion to their taxable income. Companies with tax losses receive joint taxation contributions from other companies that have used the tax losses to reduce their own taxable profit.

BALANCE SHEET

Plant and equipment

Machinery as well as other fixtures and fittings, tools, equipment and computer systems are measured at cost less accumulated depreciation and impairment losses. The basis of depreciation is cost less estimated residual value after the end of useful life.

Cost comprises the acquisition price and costs directly attributable to the acquisition until the time when it is ready to be put into operation. Concerning self-constructed assets the cost comprises direct and indirectly expenses to materials, components, subcontractors, wages and borrowing costs from specific and general borrowing, which directly relate to the construction of the single asset.

Where individual components of an item of equipment have different useful lives, they are accounted for as separate items, which are depreciated separately.

Straight-line depreciation is made on the basis of the following estimated useful lives of the assets:

Other fixtures and fittings, tools and equipment, 3-5 years
Computer systems, 3 years

The basis of depreciation is based on the residual value of the asset at the end of its useful life and is reduced by impairment losses, if any. The depreciation period and the residual value are determined at the time of acquisition and are re-assessed every year. Where the residual value exceeds the carrying amount of the asset, no further depreciation charges are recognized.

In case of changes in the depreciation period or the residual value, the effect on the amortisation charges is recognized prospectively as a change in accounting estimates.

ANNUAL REPORT

ACCOUNTING POLICIES

Gains and losses on the disposal of equipment are determined as the difference between the sales price less disposal costs and the carrying amount at the date of disposal. Gains and losses are recognized in the income statement as other operating income and other operating costs, respectively.

Investments

Deposits are measured at cost

Investments in subsidiaries

Investments in subsidiaries and associates are recognised and measured under the equity method. This means that investments are measured at the pro rata share of the enterprises' equity plus or less unamortised positive, or negative, goodwill and plus or less unrealised intra-group profits or losses.

The Company's share of the enterprises' profits or losses after elimination of unrealised intra-group profits and losses and less or plus amortisation of group goodwill.

Upon distribution of profit or loss, net revaluation of investments in subsidiaries and associates is transferred to reserve for net revaluation according to the equity method under equity.

Group goodwill is calculated as the difference between cost of the investments and the pro rata share of the fair value of the assets and liabilities. The amortization period for group goodwill is 5 years.

Receivables

Receivables are measured at amortised cost, usually equalling nominal value less provisions for bad debts.

Prepayments

Accruals, recognized in short-term assets, comprise costs concerning the following accounting year.

Contract work in progress

Work in progress is measured at sales value of the work performed calculated on basis of the stage of completion. The stage of completion is calculated as a share of the defrayed contract cost in proportion to the contract's expected total costs. When it is likely, that the total contract costs will exceed the total income of a contract, the expected loss is recognized in the income statement.

When the sales value cannot be measured reliably, the sales value is measured at spent cost or to a lower net realisable value.

Received payment on account is to be deducted the sales value. The single contract is classified as receivables, when the net value is positive, and as payables, when the net value is negative.

Dividends

Proposed dividends are recognized as a liability at the date when they are adopted at the annual general meeting (declaration date). The expected dividend payment for the year is disclosed as a separate item under equity.

Tax payables and deferred tax

Deferred tax is measured using the balance sheet liability method on all temporary differences between the carrying amount and the tax base of assets and liabilities. However, deferred tax is not recognized on temporary differences relating to goodwill which is not deductible for tax purposes and on office premises and other items where temporary differences, apart from business combinations, arise at the date of acquisition without affecting either profit/loss for the year or taxable income.

ANNUAL REPORT

ACCOUNTING POLICIES

Deferred tax is measured on basis of the tax rules and tax rates, which are valid according to the legislation on the balance sheet date, when deferred tax is expected to become actual tax. Where alternative tax rules can be applied to determine the tax base, deferred tax is measured based on the planned use of the asset or settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax loss carryforwards, are recognized under other non-current assets at the expected value of their utilisation; either as a set-off against tax on future income or as a set-off against deferred tax liabilities in the same legal tax entity and jurisdiction.

Current tax receivable and payable is recognized in the balance sheet as tax computed on the taxable income for the year, adjusted for tax on the taxable income of prior years and for tax paid on account. Allowances under the tax prepayment scheme are included in the income statement as financial items.

Liabilities other than provisions

Financial liabilities are recognized at the date of borrowing at the net proceeds received less transaction costs paid. On subsequent recognition, financial liabilities are measured at amortised cost, corresponding to the capitalised value, using the effective interest rate. Accordingly, the difference between the proceeds and the nominal value is recognized in the income statement over the term of the loan.

Furthermore, the capitalized residual lease liability on financial leasing contracts is recognized in the financial liabilities.

Other financial liabilities are measured at net realisable value.
