Statement by management on the annual report

The board of directors and the executive board have today discussed and approved the annual report of Ørsted Wind Power Denmark A/S for the financial year 1 January - 31 December 2019.

The annual report is prepared in accordance with the Danish Financial Statements Act.

In our opinion, the financial statements give a true and fair view of the company's financial position at 31 December 2019 and of the results of the company's operations for the financial year 1 January - 31 December 2019.

In our opinion, management's review includes a fair review of the matters dealt with in the management's review.

Management recommends that the annual report should be approved at the annual general meeting.

Skærbæk, 4 June 2020

Executive board

Martin Neubert

Board of Directors

Independent auditor's report

To the shareholder of Ørsted Wind Power Denmark A/S Opinion

In our opinion, the Financial Statements give a true and fair view of the financial position of the Company at 31 December 2019 and of the results of the Company's operations for the financial year 1 January - 31 december 2019 in accordance with the Danish Financial Statements Act

We have audited the Financial Statements of Ørsted Wind Power Denmark A/S for the financial year 1 January - 31 December 2019, which comprise a summary of significant accounting policies, income statement, balance sheet, statement of changes in equity and notes ("financial statements").

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) and the additional requirements applicable in Denmark. Our responsibilities under those standards and requirements are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the additional requirements applicable in Denmark, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Statement on Management's Review

Management is responsible for Management's Review.

Our opinion on the financial statements does not cover Management's Review, and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read Management's Review and, in doing so, consider whether Management's Review is materially inconsistent with the financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

Moreover, it is our responsibility to consider whether Management's Review provides the information required under the Danish Financial Statements Act.

Based on the work we have performed, in our view, Management's Review is in accordance with the financial statements and has been prepared in accordance with the requirements of the Danish Financial statements Act. We did not identify any material misstatement in Management's Review.

Independent auditor's report

Management's responsibilities for the Financial Statements

Management is responsible for the preparation of Financial Statements that give a true and fair view in accordance with the Danish Financial Statements Act, and for such internal control as Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting in preparing the financial statements unless Management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit conducted in accordance with ISAs and the additional requirements applicable in Denmark, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, design and perform audit procedures responsive to those risks, and obtain
 audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of
 not detecting a material misstatement resulting from fraud is higher than for one resulting from
 error as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the
 override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.

Independent auditor's report

- Conclude on the appropriateness of Management's use of the going concern basis of accounting in preparing the financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and contents of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that gives a true and fair view.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Management's review

Business activities

The company's objects are to engage in activities in the energy sector and ancillary activities and to hold shares in subsidiaries.

Business review

The company's income statement for the year ended 31 December 2019 shows a profit of TDKK 249.770, and the balance sheet at 31 December 2019 shows equity of TDKK 1.666.207.

Net profit (loss) relation to expected development assumed in previous report

Profit/loss before net financials for 2019 is higher mainly because of higher income from investment in subsidiaries.

Financial review

Profit/loss before financial income and expenses for the company is expected to be at the same level as 2019.

Special risks apart from generally occurring risks in industry

Operating risks

There are no special risks apart from normal risks associated with the company's core activity.

Environment

The Danish Environmental Protection Agency monitors the environmental impact of the Danish windfarms during the operating stage.

Subsequent events

The consequence of COVID-19, where many governments have decided to "close down countries" will have a significant impact on the world economy. Management has assessed the consequence of COVID-19 as an non-adjusting event but has decided to disclose assessment of impact.

On 30 January 2020, the International Health Regulations Emergency Committee of the World Health Organization declared the outbreak of coronavirus a "Public Health Emergency of International Concern". This event, in management's opinion, do not provide evidence of conditions that have direct impact on company's business operations, assets and liabilities.

The annual report of Ørsted Wind Power Denmark A/S for 2019 has been prepared in accordance with the provisions of the Danish Financial Statements Act applying to medium-sized enterprises of reporting class C.

The accounting policies applied are consistent with those of last year.

The annual report for 2019 is presented in TDKK

Pursuant to sections §112, of the Danish Financial Statements Act, the company has not prepared consolidated financial statements.

Basis of recognition and measurement

Income is recognised in the income statement as earned, including value adjustments of financial assets and liabilities. All expenses, including amortisation, depreciation and impairment losses, are also recognised in the income statement.

Assets are recognised in the balance sheet when it is probable that future economic benefits will flow to the company and the value of the asset can be measured reliably.

Liabilities are recognised in the balance sheet when it is probable that future economic benefits will flow from the company and the value of the liability can be measured reliably.

On initial recognition, assets and liabilities are measured at cost. On subsequent recognition, assets and liabilities are measured as described below for each individual accounting item.

Certain financial assets and liabilities are measured at amortised cost using the effective interest method. Amortised cost is calculated as the historic cost less any installments and plus/less the accumulated amortisation of the difference between the cost and the nominal amount.

On recognition and measurement, allowance is made for predictable losses and risks which occur before the annual report is presented and which confirm or invalidate matters existing at the balance sheet date.

Income statement

Hedge accounting

Changes in the fair value of financial instruments that are designated and qualify as fair value hedges of recognised assets and liabilities are recognised in the income statement together with any changes in the fair value of the hedged asset or liability that can be attributed to the hedged risk.

Changes in the fair value of financial instruments that are designated and qualify as hedges of expected future transactions are recognised in equity under retained earnings as regards the effective portion of the hedge. The ineffective portion of the hedge is recognised in the income statement. If the hedged transaction results in an asset or a liability, amounts deferred under equity are transferred to the cost of the asset or liability. If the hedged transaction results in income or expenses, amounts deferred under equity are transferred to the hedged transaction is recognised. The amount is recognised in the same item as the hedged transaction.

Changes in the fair value of financial instruments that are designated and qualify as hedges of net investments in independent foreign subsidiaries or associates are recognised directly in equity as regards the effective portion of the hedge, while the ineffective portion is recognised in the income statement.

Revenue

Income from the sale of electricity for resale and finished goods is recognised in the income statement, provided that the transfer of risk, usually on delivery to the buyer, has taken place and that the income can be measured reliably and is expected to be received.

Revenue is measured at the fair value of the agreed consideration, excluding VAT and other indirect taxes. Revenue is net of all types of discounts granted.

Operating expenses

Operating expenses comprise the expenses incurred by the company to generate the year's revenue. Such expenses are recognised in the income statement as incurred.

Other operating expenses

Other operating expenses comprise items of a secondary nature relative to the company's activities.

Other external expenses

Other external expenses include expenses related to distribution, sale, advertising, administration, premises, bad debts, payments under operating leases, etc.

Financial income and expenses

Financial income and expenses are recognised in the income statement at the amounts relating to the financial year. Net financials include interest income and expenses, financial expenses relating to realised and unrealised capital/exchange gains and losses on securities and foreign currency transactions and surcharges and allowances under the advance-payment-of-tax scheme, etc. Financial income and expenses also include realised and unrealised gains and losses relating to the hedging of currency risks that have not been entered into to hedge revenue, cost of sales or non-current assets.

Profit/loss from investments in subsidiaries

The proportionate share of the results after tax of the individual subsidiaries is recognised in the income statement of the company after full elimination of intra-group profits/losses.

Tax on profit/loss for the year

The company is subject to the Danish rules on compulsory joint taxation of the Ørsted Group's Danish subsidiaries. Subsidiaries participate in the joint taxation arrangement from the time when they are included in the consolidated financial statements and until the time when they withdraw from the consolidation.

On payment of joint taxation contributions, the current Danish income tax is allocated between the jointly taxed Danish entities in proportion to their taxable income. Danish entities with tax losses receive joint taxation contributions from the ultimate parent company (the management company), Ørsted A/S equivalent to the tax base of the tax losses utilised (full allocation), while Danish entities that utilise tax losses in other entities pay joint taxation contributions to the Ørsted A/S equivalent to the tax base of the utilised losses.

Tax for the year, which comprises the current tax charge for the year and changes in the deferred tax charge, is recognised in the income statement as regards the portion that relates to the profit/loss for the year and directly in equity as regards the portion that relates to entries directly in equity.

Balance sheet

Tangible assets

Items of land are measured at cost.

Cost comprises the purchase price and any costs directly attributable to the acquisition until the date when the asset is available for use. The cost of self-constructed assets comprises direct and indirect costs of materials, components, sub-suppliers and wages.

Gains or losses from the disposal of land are recognised in the income statement as other operating income or other operating expenses.

Investments in subsidiaries

Investments in subsidiaries are measured at the proportionate share of the net asset value of the entities ("the equity method"), calculated on the basis of the group's accounting policies, less or plus unrealised intra-group gains or losses and plus or less any remaining value of positive or negative goodwill made up according to the purchase method.

Investments in subsidiaries with a negative net asset value are measured at DKK 0, and the carrying amount of any receivables from these entities is reduced to the extent that they are considered irrecoverable. If the parent company has a legal or constructive obligation to cover a deficit that exceeds the receivable, the balance is recognised under provisions.

Net revaluations of investments in subsidiaries are taken to the net revaluation reserve according to the equity method to the extent that the carrying amount exceeds the cost. Dividends from subsidiaries which are expected to be declared before the annual report of Ørsted Wind Power Denmark A/S is adopted are not taken to the net revaluation reserve.

Impairment of fixed assets

The carrying amount of land and investments in subsidiaries is reviewed for impairment, other than what is reflected through normal amortisation and depreciation, on an annual basis.

Where there are indications of impairment, an impairment test is performed for each individual asset or group of assets, respectively. The carrying amount of impaired assets is reduced to the higher of the net selling price and the value in use (recoverable amount).

The value in use is determined as the present value of the anticipated net cash flows from the use of the asset or group of assets and the anticipated net cash flows from the disposal of the asset or group of assets after the end of their useful life.

Receivables

Receivables, which include trade receivables, receivables from group entities and other receivables, are measured at amortised cost.

An impairment loss is recognised if there is objective evidence that a receivable or a group of receivables is impaired. If there is objective evidence that an individual receivable is impaired, an impairment loss for that individual asset is recognised.

Equity

Dividends

Proposed dividends are disclosed as a separate item under equity. Dividends are recognised as a liability when declared by the annual general meeting of shareholders.

Provisions

Provisions are recognised when as a result of a past event the company's has a legal or constructive obligation and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Provisions, except for deferred taxes, are measured at fair value.

Income tax and deferred tax

Current tax liabilities and current tax receivables are recognised in the balance sheet as the estimated tax on the taxable income for the year, adjusted for tax on the taxable income for previous years and tax paid on account.

Deferred tax is measured according to the liability method in respect of temporary differences between the carrying amount of assets and liabilities and their tax base, calculated on the basis of the planned use of the asset and settlement of the liability, respectively.

Deferred tax assets, including the tax base of tax losses allowed for carry forward, are measured at the value to which the asset is expected to be realised, either as a set-off against tax on future income or as a set-off against deferred tax liabilities within the same legal tax entity. Any deferred net tax assets are measured at net realisable value.

Deferred tax is measured according to the tax rules and at the tax rates applicable in the respective countries at the balance sheet date when the deferred tax is expected to crystallise as current tax. Deferred tax adjustments resulting from changes in tax rates are recognised in the income statement, with the exception of items taken directly to equity.

Liabilities

Liabilities, which include trade payables, payables to group entities and other payables, are measured at amortised cost, which is usually equivalent to nominal value.

Foreign currency translation

On initial recognition, foreign currency transactions are translated applying the exchange rate at the transaction date. Foreign-exchange differences arising between the exchange rates at the transaction date and at the date of payment are recognised in the income statement as financial income or financial expenses.

Receivables and payables and other monetary items denominated in foreign currencies are translated at the exchange rates at the balance sheet date. The difference between the exchange rates at the balance sheet date and the date at which the receivable or payable arose or was recognised in the latest financial statements is recognised in the income statement as financial income or financial expenses.

Fixed assets acquired in foreign currencies are measured at the exchange rate at the transaction date.

Derivative financial instruments

On initial recognition in the balance sheet, derivative financial instruments are measured at cost and subsequently at fair value. Positive and negative fair values of derivative financial instruments are included in current receivables from subsidiaries or payables to subsidiaries, respectively.

Cash flow statement

In pursuance of Section 86(4) of the Danish Financial Statements Act, the company has omitted preparing a cash flow statement as the company's cash flow is included in the consolidated cash flow statement of Ørsted.

9 Receivables from group companies

The company's receivables and payables from group companies includes TDKK -16.228 in a cash pool scheme with the ultimate parent company, Ørsted A/S (2018: TDKK 22.243).

The company's receivables from group companies and payables to group companies includes a net financial instrument payables of TDKK 148.993 (2018: 272.108).

10 Equity

The share capital consists of 500.000 shares of a nominal value of TDKK 1. No shares carry any special rights.

There have been no changes in the share capital during the last 5 years.

		<u>2019</u> токк	<u>2018</u> тдкк
11	Other provisions		
	Balance at beginning of year at 1 January 2019	73.186	87.470
	Interest element	2.497	3.120
	Disposals in the year	0	-577
	Transferred to short-term debt	-15.614	-16.827
	Balance at 31 December 2019	60.069	73.186
	The expected due dates of other provisions are:		
	Between 1 and 5 years	60.069	73.186
		60.069	73.186

The provisions relates to guarantees issued on behalf of subsidiaries. The amount is measured to the present value of the future liability.

12 Subsequent events

The consequence of COVID-19, where many governments have decided to "close down countries" will have a significant impact on the world economy. Management has assessed the consequence of COVID-19 as an non-adjusting event but has decided to disclose assessment of impact.

On 30 January 2020, the International Health Regulations Emergency Committee of the World Health Organization declared the outbreak of coronavirus a "Public Health Emergency of International Concern". This event, in management's opinion, do not provide evidence of conditions that have direct impact on company's business operations, assets and liabilities.

13 Contingent assets, liabilities and other financial obligations

Liability in joint taxation

The group's danish companies are jointly and severally liable for tax on group jointly taxes income, etc. Reference is made to the annual report for Ørsted A/S, the administration company in relation to joint taxation. The group's danish companies are also jointly and severally liable for Danish withholding taxes on dividends, royalties and interests within the group of jointly taxed entities. Any subsequent corrections to income and withholding taxes may result in an increase in the entities' liability.

The group's danish entities are jointly and severally liable for joint VAT registration.

14 Financial instruments

The company has on behalf of its subsidiaries entered into contracts to hedge future electricity prices. As these hedges are entered on behalf of the subsidiaries, these are not accounted for as hedge accounting in Ørsted Wind Power Denmark A/S. The market value calculated per 31 December 2019 relating to hedging of electricity prices fall due, assuming unchanged prices, as follows:

2020: TDKK 62.064

2021-2022: TDKK 85.554

after 2023: TDKK 1.375.
